

Prayer for comfort and healing from cancer

Loving God,

I place my life into Your hands. Thank You for the loving hearts and hands of those You have gathered to serve and support me.

I pray that Your blessing would be upon them as they bring the peace, hope and healing that only You can enable into my life and to all whose lives they touch today.

I humbly ask that I experience Your sustaining love as I face this journey. Father, I ask that I always encounter empathy, compassionate love and excellent care along this journey.

Give me the assurance I need of Your gentle spirit, within and around me, bringing healing and wholeness in my mind, body, spirit and relationships, in accordance with your plans for me.

I ask this in Your Holy Name,

Amen.
