

# ***TEDCON 2016***

The Region 2 Healthcare Coalition in collaboration with OSF Saint Francis Medical Center in Peoria, IL is pleased to announce the first annual **TEDCON 2016**

TEDCON combines Trauma, Emergency Medical Services, and Disaster Preparedness concepts into one two day conference.

The purpose of the conference is to collaborate across the disciplines of

Disaster Management, EMS, and

Trauma to create one cohesive

conference and learning environment. These three disciplines are integral to each other and must collaborate to achieve success. During times of need, such as a mass casualty incident or community stressor, these three specialties must seamlessly work

together for optimal outcomes. Also, often times in day-to-day activities Disaster

Management, EMS, and Trauma work independently, but on the periphery of each other's areas of expertise, which can create silos in which each discipline operates. This conference serves to break down these silos and work towards an environment of fluid collaboration between all three. By learning together, we can learn from each other, and create lasting relationships. This will only serve to strengthen our response to situations when called upon to serve our community.

**Registration:** *Registration deadline is two weeks prior to conference date.*

**9 hours of IDPH Approved Continued Education will be given to participants**
