CIL - CARP

CENTRAL ILLINOIS – COALITION ACTIVE IN RESPONSE PLANNING
09/12/2018 – FOLEPI BUILDING, EAST PEORIA, IL
Today’s agenda

I. Welcome and Introductions - Troy Erbentraut (OSF-Saint Francis Medical Center)
   a. CIL-CARP Purpose/Mission/Vision Review
   b. CIL-CARP Advisory Committee
   c. CIL-CARP Gap Assessment Survey

II. Elected Officials Workshop – Brian Brackemyer (Illinois Emergency Management Agency)

I. Seasonal Influenza Surveillance – Max Johnson (Peoria City/County Health Dept.)

I. Land of Lincoln Dashboard (LID) – Illinois Statewide Terrorism and Intelligence Center

I. Lunch

I. National Weather Service Updates – Chris Miller (National Weather Service)

I. Tactical Interoperability Communication Plan (TICP) – Troy Erbentraut (OSF Saint Francis Medical Center)

I. Member Comments/Open Forum

UPCOMING GENERAL MEMBERSHIP MEETING SCHEDULE
- January 09, 2019
- May 08, 2019
- September 11, 2019
Housekeeping

- Please place electronic devices on silent
- Restroom
- Safety Brief
- Breaks
- Lunch
- Keep a open mind
- Please offer feedback
PURPOSE

Why we are here today...

- develop a regional coalition
  - Many of our goals are similar and compatible
  - Working together will enhance our abilities
  - Benefits of coalescing / greater than the cost
  - Enlarge the base of support for emergency preparedness
  - Magnify existing financial and human resources by pooling them
  - Enhance creditable and influence
  - Exchange of information / skills / experience / materials
  - Diverse range of people and organizations
  - Peer support
Region 2 / Peoria Health and Medical Response Region
MISSION

The mission of CIL-CARP is to improve an all-hazard response in the central Illinois region through effective communication, planning, and coordinated exercises. CIL-CARP encourages the collaboration between regional healthcare organizations, emergency responders, regional emergency management directors, public health and other emergency response planners while supporting the development of cooperative partnerships in order to promote the essential services they provide to the public.
VISION

To create a comprehensive and resilient response to catastrophic health events via collaborative partnerships and formal harmonization of activities among emergency management, emergency medical services, healthcare organizations, public health departments, and response agencies and entities supporting Emergency Support Function #8 (Public Health and Medical Services), as well as support an all-hazards response.
Elected Officials Workshop
Elected Officials Open House
Agenda

- Opening Comments – Host City
- Coalition – Value Proposition
- Coalition Partner Briefs
- Disaster Declaration Process
- Summary and Questions
• Why me and why are we discussing Coalitions?
  – Disaster related cost are on the rise:
    • 2014: 35 Billion Dollars
    • 2017: 306 Billion Dollars
  – Federal Disaster declaration threshold for Public Assistance - Illinois
    • 18 Million Dollars
  – Changing and evolving threats
• Elected/Appointed key officials should be part of a Policy Group.

• The Policy Group oversees and participates in emergency decision-making and issue appropriate emergency proclamations, resolutions and executive orders. Their role is to identify the overall objectives to be accomplished.
Who can I call?

- Federal grant and program guidance requires formalizing partnerships and specialized teams to support local jurisdictions.
- With those requirements several Healthcare Delivery Systems (Coalitions) were formed in Illinois.
- For Northwest and Central Illinois – you will find 2 Coalitions.
Healthcare Delivery System (Coalitions)

Coalition Offering

- Technical Specialist
- Mutual Aid
- Coordinated Plans
- Shared Objectives/Goals
- Shared Policies and Procedures
- Joint Planning
- Information
- Resources
- Essential Resources
- Manpower
- Training and exercises

Value Proposition

- Threat/Risk Analysis
- Situation reports
- Decision-making
- Pre-Incident Partnerships
  - Increased knowledge of capabilities
  - Depth of knowledge and experience
- Shared Resources
  - Access and sharing of information
  - Joint exercises to reduce cost
  - Reduction in duplication of effort
- Centralized Planning
  - Combines input from all involved agencies
  - Sets common goals and objectives
Welcome

- So what can I do?
  - Become familiar with your Coalition and its partners
  - Review current Emergency Management Ordinance
  - Encourage exercises involving the Policy Group
  - Support participation in Coalition Activities
Among IEMA’s Missions:

- Cooperate with local governments and public agencies in implementing emergency management programs for the 5 mission areas of – Prevention, Protection, Mitigation, Response and Recovery.

- Coordinate with applicable State Agencies and Mobile Support Teams while supporting local jurisdictions.
  - State Emergency Operations Center – Springfield, IL
  - State Unified Area Command – Area of Operations
  - 8 Regional Offices
    - Region2 – Dixon
    - Region 3 – Ottawa
    - Region 4 – Des Plaines
    - Region 6 – Springfield
    - Region 7 – Champaign
    - Region 8 – Fairview Heights
    - Region 9 – Flora
    - Region 11 – Marion
Additionally:
- Interpret and explain federal and state emergency management and disaster programs, policies and procedures.
- Provide technical guidance
- Monitor and assess emergency management programs of jurisdictions accredited by IEMA
- Conduct training and assist in the development and execution of exercises

We are about...
- Partnerships
- Building Capability
- Program Assessments
Through Cooperation, Strength!!!
MABAS

Mutual Aid Box Alarm System

• Existed within the Illinois fire service since the late 1960’s and signed an MOU with IEMA in 2001.

• MABAS’s membership includes approximately 1,000 of the state’s 1,200 Fire Departments...

• This equates to 35,000 firefighters, 2,495 engines, 469 ladder trucks, 1,100 ambulances, 297 heavy rescue squads, 788 water tenders and a large variety of specialized teams and resources.
IPWMAN

- The Illinois Public Works Mutual Aid Network (IPWMAN) was formed in 2009 as an all-hazards approach to sharing resources among the Public Works entities in Illinois, and signed an MOU to that end with IEMA the same year.
- IPWMAN’s statewide membership is nearing 200 Public Works agencies, and emergency response in Illinois benefits greatly from the needed resources, personnel, and knowledge of this discipline that IPWMAN provides.
IPHMAS is a statewide mutual aid and assistance system in which all IDPH certified LHDs are eligible to participate. Since its creation in 2004, IPHMAS has allowed a local health department in Illinois to formally request assistance from another local health department during a public health response for which they may lack sufficient resources.

LUNCH TIME
Winter Terminology, Stats, Info Sharing & the 2018-19 Outlook

Chris Miller
Warning Coordination Meteorologist
NWS Lincoln, IL

CIL-CARP Meeting
September 12, 2018   East Peoria, IL
WINTER TERMINOLOGY

In other news, today:

2 feet of snow fell this morning.
Winter weather includes:

- **Snow**
  - Blowing & Drifting Snow
- **Freezing Fog** (“Black Ice”)
- **Freezing Rain / Ice Storms**
- **Rain & Thunderstorms** (Sometimes severe)
- **Sleet**
- **Extreme Cold**
BLIZZARD: (for 3 hours or more)

- Winds of 35 mph or higher

- Falling AND / OR blowing snow reducing the visibility to ¼ mile or less
Thunder Snow

• VERY heavy snow in a short period of time

• Lightning is usually in the cloud, but a few bolts will strike the ground

#JimCantoreLovesThunderSnow
FREEZING FOG

- Very light ice accumulations that form when moisture from fog freezes on roads & bridges

- AKA...BLACK ICE
FREEZING RAIN

- Precipitation that falls as RAIN from the cloud, but freezes with objects on the ground

- The air is warm enough in the cloud for liquid rain, but the temperature at the ground is below freezing
ICE STORM

- Freezing rain coats roads, trees and power lines with a layer of ice

- Ice at least ¼” thick will break tree branches

- Ice ½” thick or more will bring down power lines
Ice Events

**SLEET**

- Small pellets of ice around 1/8” diameter or less

- Usually short lived events of a few hours before it mixes with then changes to either snow or freezing rain
What is the difference between a Winter Watch, Warning & Advisory?
Winter Terminology

- **A Winter Watch** means....
  - Potentially significant winter weather is **POSSIBLE** within the next day or two
  - Keep an eye on later forecasts and adjust plans accordingly
Winter Terminology

• Types of Winter Watches
  – Winter Storm Watch
    – Heavy Snow
    – Ice Storm
    – Heavy Sleet
    – Combination of threats
  – Blizzard Watch
  – Wind Chill Watch
A Winter Advisory means….

- Winter weather hazards are expected to produce potentially dangerous travel conditions
- Take extra time and be cautious while traveling

SLOW DOWN!!

BE CAREFUL
Types of Winter Advisories

- Winter Weather Advisory
  - Snow of 2-5”
  - Sleet (less than ½” depth)
  - Blowing / Drifting Snow
  - Combo of snow, sleet, ice

- Freezing Rain Advisory
  - Light icing (less than ¼” thick)

- Wind Chill Advisory
  - Values of -15 to -24 °F
Winter Terminology

• A Winter Warning means….
  
  – Winter weather hazards are expected to cause a significant impact to:
    – Life
    – Property
    – Travel
  
  – Be prepared to stay indoors and adjust travel plans
**Types of Winter Warnings**

- **Winter Storm Warning**
  - **Heavy Snow** (6” or more)
  - **Heavy Sleet** (½” or more)
  - Combination of snow, sleet, ice

- **Ice Storm Warning**
  - ¼” thickness or more of ice

- **Blizzard Warning**

- **Wind Chill Warning**
  - -25 °F or colder
Extreme Cold - Stats

• Average number of days below zero in a year: 7

• Recent coldest temperatures:
  o Peoria: -21 °F 1/16/09
  o Bloom/Norm: -18 °F 1/2/18
  o Moline: -22 °F 2/11/14
  o LaSalle/Peru: -23 °F 1/16/09

• Coldest temperature in Illinois:
  o -36 °F in Congerville - January 5, 1999
Normal snowfall...

- Average number of days with snow: **20**
- Average number of days with:
  - 1 − 4” snow: **5**
  - 4”+ snow: **2**
  - 6”+ snow: once every 2-3 years
Snowstorms

Recent snowstorms:

- **Peoria**: 17.0” 1/31 – 2/2/11
- **Bloom/Norm**: 15.5” 12/31/98 – 1/2/99
- **Moline**: 18.4” 1/31 – 2/2/11
- **LaSalle/Peru**: 17.3” 12/1-3/06
Days with ice…

- Average for CIL-CARP area in a year: 4 – 5 days

- Ice Storm (1/4” of ice or more): Once every other year

Illinois State Climatologist
“Mild” days in the cool season will result in rain rather than snow.

“Warm” days with temperatures in the 50s or warmer may result in thunderstorms – some severe.
WINTER PREPAREDNESS:
NWS INFORMATION
### Detailed Forecast

**Tonight**  Mostly clear, with a low around 18. North northeast wind 8 to 13 mph.
**Friday**  Sunny, with a high near 35. North northeast wind around 8 mph becoming east southeast in the afternoon.
**Friday Night**  Partly cloudy, with a low around 24. South southeast wind 6 to 8 mph.
**Veterans Day**  Partly sunny, with a high near 42. South wind 7 to 9 mph.
**Saturday Night**  A chance of rain and snow showers before 7pm, then a chance of rain showers. Mostly cloudy, with a low around 34. South wind 3 to 7 mph. Chance of precipitation is 40%.
**Sunday**  Showers likely, mainly before noon. Mostly cloudy, with a high near 44. Light and variable wind becoming north around 6 mph in the morning. Chance of precipitation is 60%. New precipitation amounts of less than a tenth of an inch possible.
**Sunday Night**  Partly cloudy, with a low around 30. North northwest wind around 6 mph.
**Monday**  Mostly sunny, with a high near 45.
**Monday Night**  Mostly clear, with a low around 32.
**Tuesday**  Mostly sunny, with a high near 50.
**Tuesday Night**  A chance of showers. Mostly cloudy, with a low around 39.
**Wednesday**  Partly sunny, with a high near 51.
**Wednesday Night**  Mostly clear, with a low around 35.
**Thursday**  Sunny, with a high near 54.
A low pressure system will push southeast across central and southeast Illinois late tonight into Friday. Total accumulations of snow could reach up to 6” between I-55 and the Illinois River by Friday Afternoon.

Switch to: * Range  o Exceedance
NWS: Situation Reports

Created for:

- Large Winter Storms
- Heavy rain / Extensive Flooding
- Enhanced, Moderate or High Risk of Severe Weather
- Excessive Heat
Message of the Day:

Once again, periods of heavy rainfall is expected for Tonight through early Sunday from a stalled cold front and the remnants of Tropical Storm Gordon. That rain could lead to localized flash flooding, flooding of roads in low lying and poor drainage areas, and flooding along local rivers and streams.

Flood Quick Facts and Preparedness:

Quick facts you should know about flooding:
- Flooding can be caused by heavy rain, rapid snow melt, coastal storms, storm surge, waterway overflow, ice jamming, levee overtopping, dam failure, or from wastewater systems.
- Flooding has occurred in every U.S. state and territory.
- It only takes 6 inches of fast-moving water to knock you off your feet.
- A car can be moved in as little as 2 feet of water.
- 90% of all U.S. natural disasters declared by the President involve flooding.

Preparedness:

Know your risk: Are you in a flood-prone area? Know your zone: www.fema.gov/flood-zones
- You must purchase separate flood insurance for your home. There is a 30 day wait period between when you buy a flood insurance policy and when it goes into effect. Plan ahead!
- A Flood Watch is issued when conditions are favorable for flooding. Time to prepare!
- A Flood Warning is issued when flooding is imminent or occurring. Time to act!
- Never drive into flood waters! Turn around, don’t drown!

Building a Weather-Ready Nation
WINTER 2018-19 OUTLOOK
Winter 2018-19 Outlook

El Niño

Typical wintertime El Niño pattern
Winter 2018-19 Outlook

Departure from Average Temperature (°F) in Winter During Past El Niños

Percent of Average Precipitation (%) in Winter During Past El Niños

Departure from Mean Temperature (°F) for Dec to Feb for El Niño Winters between 1950 and 2010

Percent of Mean Precipitation (%) for Dec to Feb for El Niño Winters between 1950 and 2010
Above normal temperatures slightly favored for Winter
Fewer cold air outbreaks
No precipitation trend is favored, however in a weak El Niño, we tend to be drier on average.

Tactical Interoperability Comms

Executive Overview

This document establishes a Tactical Interoperable Communications Plan (TICP) for IDPH Region 2 Hospitals. This TICP has been developed under the authority of the State Interoperable Executive Committee. The SIEC derives its authority from 20 ILCS 2615, Public Safety Radio Interoperability Act. Illinois completed a Statewide Communications Interoperability Plan (SCIP) in 2007. The SCIP, as a strategic interoperable plan, was adopted by the SIEC, several state agencies and associations and the Illinois Terrorism Task Force as the official voice radio interoperable communications plan for the State. The Statewide State Agency TICP is a first step toward realizing that goal, and is intended to provide a framework for development of the tactical plans as interoperable communications progresses from a local issue to a state “Type 3” incident or event. The policies and procedures set forth in this plan leverage and build upon existing interoperability standards adopted by the SIEC and standard operating procedures existing within participating agencies. It documents the interoperable communication resources available within the county, who controls each resource, and what rules of use or operational procedures exist for the activation and deactivation of each resource.
