CAREGIVER'S SUPPORT GROUP

Caring for those you love who are suffering from the effects of cancer, while it is a privilege, can oftentimes prove to have taxing and trying elements. It is important that caregivers have a place where they can be seen, heard, and understood, a setting where you can receive the tools you need to take care of yourself as you provide care for your loved one. Caregivers can share their own experiences, as well as glean from the wisdom and resources of others who have gone before them in this experience. Facilitated by Julia Gordon, LCSW.

MASSAGE THERAPY

The benefits of massage for our guests include improved relaxation, sleep, and circulation, as well as relieving anxiety, pain, fatigue and nausea. This program helps our guests to manage their experience with cancer, while comforting, nurturing, and supporting them in the process. Provided by Kathy Moelling RN, ND, LCPC, LMT, HTCP, HWNC-BC & Leila MacQueen, LMBT. Pre-registration is required.

REFLEXOLOGY

Reflexology is the application of appropriate pressure to specific points and areas on the feet and hands. Reflexologists use reflex points that correspond to the different body systems, as a complementary treatment that has a beneficial effect on the person's health. Reflexology can help alleviate the side effects of chemotherapy, reducing levels of anxiety and helping to cope with nausea and pain. Provided by Carolyn Bieck, Certified Reflexologist. Pre-registration is required.
