

Tips for accessing your OSF Applications from home

From any osfhealthcare.org webpage – which can be accessed anywhere – scroll to the bottom of the page and look for link called “Employee Resources.”

UltiPro

OSF Little Company of Mary

MediTech

Citrix will provide you access to many of the common applications you use and provide you a user experience similar to working in the office. If you have never used Citrix before on your home computer, there are some initial set up steps you will need to follow that are detailed on the following pages.

If you have any questions, please contact the OSF Service Center at (800) 673-5721

Clicking on Citrix will bring you to the Citrix log in page, where you will enter your OSF Active Directory username and password. This is the username and password you would use to get into your computer or Epic.

Welcome to the New OSF Citrix Site!

Access to this computer network is **STRICTLY** controlled by OSF Healthcare System. Unauthorized use of this resource is prohibited!

You will see a screen *similar* to this. If this is the first time you are using Citrix on this computer, you will need to download the Citrix Receiver client to your computer. To do so, click the link at the bottom of the page.

If you have any questions, please contact the OSF Service Center at (800) 673-5721

Citrix clients are available for both Windows and Macintosh operating systems. You can also download a print client that will allow you to print from these applications while at home. The instructions to help guide you through each download are found in the “Installation Documentation.”

A screenshot of a webpage with a dark blue background and light green geometric shapes. The text is white. It lists download links for Citrix Receiver for Windows and Macintosh, and a print client for Windows. The link 'Click HERE to view installation documentation' for the print client is highlighted with a red rectangle.
