Applications and Services Available Without VPN

One OSF Portal	You can access the portal from any device by browsing to https://one.osfhealthcare.org/sites/oneosf/Pages/Home.aspx (login using your active directory username and password)
Citrix	Many applications are available through Citrix. From an OSF laptop, your Citrix Receiver application allows you to seamlessly connect to those applications.
	If not on an OSF device, you can access Citrix by opening a browser and going to https://citrix-osf.osfhealthcare.org
Microsoft Outlook (Email)	If using an OSF laptop, you can open your Outlook client to send and receive email from anywhere with an internet connection.
	If not on an OSF device, you can access your email by opening a browser and going to https://owa.osfhealthcare.org
Microsoft Skype for Business (Instant Messaging and Conference Calls)	If using an OSF laptop, you can open your Skype for Business client to send and receive instant messages or join conference calls anywhere with an internet connection.
	If not on an OSF device, you can send and receive Instant Messages through Outlook Web Access. You can also join conference calls through your web browser by clicking on the calendar invitation and accepting the prompts to download the browser plug-in.
OSF IT Service Center (Self-Service Portal)	The OSF IT Service Center self-service portal can be accessed via a browser by going to https://osfprod.service-now.com/sp
UltiPro	UltiPro can be accessed via a browser by going to https://osf.ultipro.com
API	API can be accessed by going to https://api-public.osfhealthcare.org Not that not all features are available on the public version that are available when you access from inside the OSF network.
PolicyStat	PolicyStat can be accessed via a browser by choosing your location on the portal at https://one.osfhealthcare.org/sites/osfhealthcare/FOSFE/Policies_Procedures_Resources/Pages/default.aspx
