SAINT FRANCIS MEDICAL CENTER COLLEGE OF NURSING
Peoria, Illinois

The Student Handbook is published for the information and use of the Saint Francis Medical Center College of Nursing Community. A link to the Student Handbook is distributed annually to all students, and the Student Handbook is posted on the College website at http://www.sfmccon.edu. The College will provide a paper copy of the Student Handbook upon request. Awareness of all College policies and regulations affecting academic and campus life is the best guarantee for each student that the rights of both the individual and the College community will be upheld. The responsibility for knowing and understanding the contents of this handbook rests with each individual student.

August, 2016

RESERVED RIGHTS OF COLLEGE

Saint Francis Medical Center College of Nursing, according to established channels, reserves the right to:

- Change requirements for admission and graduation outlined in this handbook.
- Change arrangements, scheduling and content of courses.
- Determine books and outlines used.
- Establish fees and expenses and make changes without notice if circumstances make it necessary to do so.
- Formulate College regulations and policies affecting students.
- Refuse admission to any student if deemed necessary in the interest of the student or the College.

COLLEGE ADMINISTRATION

Saint Francis Medical Center College of Nursing has accreditation for the Baccalaureate of Science in Nursing, Masters of Science in Nursing, and Doctor of Nursing Practice programs from the Higher Learning Commission, a Commission of the North Central Association of Colleges and Schools. In addition, accreditation for the Baccalaureate of Science in Nursing, Masters of Science in Nursing, and Doctor of Nursing Practice Programs has been awarded from The Accreditation Commission for Education in Nursing, Inc., 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, Phone 404-975-5000

MISSION STATEMENT

Saint Francis Medical Center College of Nursing is a private, Catholic, specialized institution. The College, founded and operated by The Sisters of the Third Order of Saint Francis, is enriched by the heritage of the Sisters who have a mission of caring and commitment to quality health care.

The College provides nursing education programs at the undergraduate and the graduate levels. The upper division baccalaureate program prepares the student for the practice of professional nursing. This program builds on and incorporates theories, concepts, and principles from behavioral, natural, and social sciences. The graduate program builds on the prior nursing knowledge and experiences to prepare the nurse for the advanced roles in nursing. The College serves the community by educating competent entry level and advanced practitioners in a tradition of excellence in nursing, who deliver caring, comprehensive, and complex care responsive to the changing needs of society in a dynamic healthcare environment. The faculty and students of the College participate in both scholarly and service activities that contribute to knowledge development related to education, nursing, and healthcare.

VISION

While representing a standard of excellence, Saint Francis Medical Center College of Nursing will obtain local, regional, and national recognition by providing the highest quality undergraduate and graduate nursing education programs, as well as the best practicum experiences. This will in turn prepare competent, caring nurses who deliver the highest quality care, education, and leadership.

PHILOSOPHY

The philosophy of Saint Francis Medical Center College of Nursing, developed by the faculty, is congruent with the Corporate Philosophy and Corporate Mission Statement of the Sisters of the Third Order of St. Francis. It is in accord with Catholic philosophy and follows the ideals of St. Francis of Assisi who had a great love for God and humankind, especially the sick and the poor.

Philosophy of Nursing

We believe each person is created by God with a mortal body and an immortal soul whose ultimate aim is eternal salvation. We believe each person, born with intellect and free will, has personal dignity and natural rights with associated responsibilities to God, humankind, and society. The individual, as a member of society, is an adaptive being who is constantly interacting with the environment while striving toward self-actualization throughout the life cycle. We believe society is a multicultural system composed of interdependent individuals, families, groups and communities. Society has the responsibility to provide a health care system, which is responsive to changing knowledge, technology, and human resources, and is accessible to its members. The faculty believes health is a dynamic state in which the individual adapts to one’s internal and external environments so that there is a state of physical, emotional, intellectual, social and spiritual well-being. We believe that health encompasses both wellness and illness. Inherent in the individual’s rights is the right to attain optimal health and the right to health care.

We believe professional nursing is an art and an applied science which builds on the behavioral, natural, and social sciences. Nursing utilizes selected concepts, theories, principles, and research in the implementation of the nursing process. The nurse, through application of the nursing process, assists the patient in achieving optimal health status by facilitating adaptation within the individual’s social system. As the health care system changes, the professional nurse must be prepared to assume a variety of emerging roles. The goals of nursing are the promotion and maintenance of health, the care and rehabilitation of the sick and the injured, and the support
of the dying. To achieve the goals of nursing, the professional nurse collaborates with the patient, family, and members of the interprofessional health care team in planning and providing care, and in promoting health of the individual, the family, and the community.

We believe caring is an essential element of both the art and science of nursing. Caring permeates all areas of nursing practice and facilitates the achievement of nursing goals. Caring is a helping relationship which is influenced by cultural and spiritual values and which promotes growth and self-actualization of the patient and the nurse.

**Philosophy of Nursing Education**

The faculty believes that the purpose of nursing education is to promote a student centered learning environment that develops critical thinking, skills of inquiry, creative thinking and problem solving in the process of obtaining knowledge. The faculty believes that learning, a life-long process, occurs when the individual is an active participant. Learning is both an independent and interdependent process. We believe that students learn through cyclical processes in which theory and practice reinforce one another. The faculty accepts responsibility as educators to foster a student centered learning environment which maximizes each individual’s unique potential. The learner in a student centered learning environment draws from previous experiences to make meaning of current situations.

We believe that the student is a unique individual who has intrinsic worth, is deserving of respect, and is capable of making informed decisions regarding learning. The faculty recognizes that the learner comes from a sociocultural background with diverse life experiences and varied attitudes and values. The faculty believes that the student is at the center of the curriculum and is an active participant in learning and “coming to know”. The faculty acts as a guide and facilitator in the learning process and is responsible for the development, implementation, and evaluation of the learning experience. Planned learning activities advance intellectual inquiry, self-reflection, critical thinking, effective communication, and self-directed, independent learning.

We believe that the goal of the academic programs is to facilitate deep learning which involves the critical analysis of new ideas, linking them to already known theories, concepts and principles. This type of learning leads to understanding and long-term retention of concepts so that they may be used as the basis for problem solving in unfamiliar contexts. Deep learning promotes understanding and application for life.

**Baccalaureate and Graduate Education**

The faculty believes that the baccalaureate nursing education builds upon and incorporates the natural and social sciences and the liberal arts. This broad foundation provides the understanding of humankind and society necessary for the learner to begin the implementation of the nursing process. We believe professional nursing education integrates theories, principles, and knowledge from the general studies with nursing theories, concepts, and experiences. Baccalaureate nursing education prepares the graduate for the practice of professional nursing as a generalist who is able to function independently and interdependently with individuals, families and groups in a variety of health care settings. Graduate nursing education prepares the individual for advanced nursing practice. The graduate is prepared to function autonomously in a variety of roles and settings. Students integrate theory, research, and practice for the improvement of patient care and the advancement of nursing practice and the profession.

We believe the Judeo-Christian tenets underlying the nursing education at Saint Francis Medical Center College of Nursing promote values essential for the personal and professional philosophy of God and humankind. These values, inculcated throughout the curricula, guide the learner to evolve into an ethical and accountable professional nurse.
STATEMENT OF VALUES

The philosophy of Saint Francis Medical Center College of Nursing, developed by the faculty, is congruent with the Corporate Philosophy and Corporate Mission Statement of The Sisters of the Third Order of St. Francis. It is in accord with Catholic philosophy and flows from the ideals of St. Francis of Assisi who had a great love for God and humankind, especially the sick and the poor. The following values flow from this philosophy and permeate all aspects of the College. The purposes of the College of Nursing Value Statements are to: support the mission and philosophy, provide direction for the day-to-day activities and decisions, specify how individuals should behave, and provide meaning to each person’s work. The Values are:

I. Personal & Professional Development-

Learning- is a lifelong, interactive process in which critical thinking and intellectual inquiry skills are developed and a change of behavior, attitude or thought patterns occur. Learners are valued as unique individuals, with diverse life experiences and varied attitudes and values, who are active participants in the process.

Caring- develops helping relationships influenced by cultural and spiritual values and promotes the growth and self-actualization of the patient, nurse, student, and employee. The College values open and honest communication, which fosters trusting relationships among ourselves and those we serve.

Leadership- is facilitating action by developing people to achieve and maintain change (Yoder-Wise and Kowalski, 2006). Leadership embraces the importance of responsibility, accountability, and commitment. It is the ability to have a vision for the College, enable and empower others to attain the vision through using and developing trusting relationships.

Personal worth & dignity- recognizes the unique value of each person as an individual, regardless of race, color, age, gender, ethnic background, or religion. Born with intellect and free will, the individual is a member of society and an adaptive being who is constantly interacting with the environment while striving toward self-actualization throughout the life cycle.

II. Service

Integrity - believes in Judeo-Christian tenets, which permeate the curriculum and promote the ethical values of human dignity, justice, service, and respect for life. These values provide a foundation for the institution in its practices and relationships and are essential in the College's commitment to high standards of institutional and individual integrity.

Responsibility- is the obligation to accomplish a task or assignment (Wise and Kolwaski, 2006). Accepting responsibility for one’s work or life provides a sense of inner control, which leads to owning responsible for what is happening in one’s life (Barker, Sullivan and Emery, 2006).

Accountability- is defined as the act of accepting ownership for one’s responsibilities and the results or the lack of results, without blame and rationalizations. Accountability focuses on outcomes (Wise and Kolwaski, 2006). Accountability is a personal choice to demonstrate ownership necessary for achieving the desired, clearly identified outcomes and results. We believe that each employee will ask what else I can do to achieve, advance, grow, or enhance the achievement of the outcomes of the College and their personal life (O’Grady & Malloch, 2003). The College accepts responsibility and holds each other accountable for carrying out the Mission of the College through quality nursing education, qualified faculty, and sufficient
support for excellence in student learning outcomes. The College educates students about valuing and commitment to personal and professional accountability.

III. Quality—includes excellence. We believe in achieving the best results possible not just doing a job.

Excellence—is the commitment to quality nursing education programs at the undergraduate and graduate levels. Quality and excellence are ensured through the collection, analysis, and use evidence based practice and education and data from the Systematic Evaluation Plan for development, maintenance, or revision of the educational programs and outcomes of the College. The College is committed to being the best of the best.

IV. Agility—is the commitment to being future focused and forward thinking in planning and delivering nursing education programs. This forward and focused thinking propels the College towards its Mission of excellence in nursing education.

COLLEGE GOALS

Saint Francis Medical Center College of Nursing offers educational opportunities which:

• Prepare the graduate to practice professional nursing in a variety of roles and health care settings.

• Provide the essential foundation for graduate study in nursing.

• Foster the commitment to personal and professional growth and accountability.

ORGANIZING FRAMEWORK

The organizing framework incorporates theories, concepts, and principles from behavioral, natural, and social sciences. This framework is developed from the four major concepts of the nursing metaparadigm (person, health, nursing, and environment) as well as the concepts of society and student centered learning. Each of the major concepts has a number of subconcepts.

Person is conceptualized as an individual, a member of society, and an adaptive being that is constantly interacting with the environment while striving toward self-actualization throughout the life cycle. A person is a holistic being created by God with responsibilities to God, humankind, and society. All persons have both basic and higher level needs whereas each individual has a unique combination of physical, emotional, social, intellectual, and spiritual needs which may vary in priority. The term “person” refers not only to patients and families, but also to students.

Health is a state of being, which is relative and dynamic; has physical, emotional, social, cultural, and spiritual dimensions; and encompasses wellness and illness. Wellness is a state in which all aspects of a person’s functioning are balanced, purposeful, and directed toward attaining one’s optimal health. Health promotion is a major focus of professional nursing practice. Illness is an abnormal process in which any aspect of a person’s functioning is diminished or impaired as compared with one’s previous condition.

Nursing, an art and an applied science, is a practice discipline characterized by caring. The art of nursing is demonstrated in the development of a caring relationship through the application of communication skills and teaching/learning principles in interactions which are influenced by cultural and spiritual values and which promote the growth and self-actualization of
the patient and/or nurse. The goals of nursing, to promote and maintain health, rehabilitate and restore the sick and injured, and support the critically ill and/or dying, are achieved through the nursing process. This analytical approach of assessing, diagnosing, planning, implementing, and evaluating pervades all areas of nursing. Nursing, as an applied science based on theory, requires critical thinking and intellectual inquiry and is expanded by nursing research which provides the empirical foundation for evidence-based practice. Exposure to nursing theory enhances the nursing process. Professional nursing is actualized through the roles of caregiver, educator, leader, manager, advocate, and researcher. The graduate has expanded roles to include management, leadership, caregiver, researcher and educator. These expanded roles include responsibilities in the management of outcomes, risks, services, and resources; case management; program development and evaluation; and interprofessional team management. The graduate prepared nurse uses advanced knowledge and critical thinking skills to respond to the changing health care environment.

**Environment** is conceptualized as a dynamic milieu of internal and external stimuli, circumstances, and influences which surround and affect persons. By a process of interaction and adaptation, a varying degree of balance between the internal and external environment is maintained. The adaptive response is dependent upon the individual’s rational attributes, genetic endowment, growth and development, learning emanating from past experiences, perceptions of the present, and speculations on the future. In the selection of student learning experiences, situations are chosen for the promotion and maintenance of patient health; for the rehabilitation and restoration of the sick and injured; and for the support of those who are in crisis or dying. Graduate student learning opportunities focus on assessing the effectiveness of interprofessional collaboration, identifying factors (e.g., culture, finances, regulatory requirements, external demands, and other contextual variables in the environment of care) that influence outcomes, identifying significant organizational relationships that are facilitators or barriers to any proposed change, and identifying differences created by organizational culture that occur between and among departments, teams, and/or groups within an organization that can affect how a change is implemented.

**Society** encompasses the individual, family, population groups, and community. Society is defined as a multicultural system composed of interdependent individuals, families, groups, and communities. Communities may be national, international, or broad groupings of people having common traditions, institutions, and collective activities and interests. Persistent and growing underserved, rural, and vulnerable populations are a major focus of contemporary professional nursing. Numerous societal demands require creative interventions, alternative settings and new partnerships and coalitions to maximize health care delivery and decrease health disparities.

**Student centered learning** places the responsibility for learning on the student who works cooperatively with peers and faculty to establish mutual learning goals. The premise of student centered learning is that students will have greater motivation to learn if they perceive that they have a vested interest in their own learning. Instead of the teacher being the sole, infallible source of information, the teacher shares control of the learning environment. Students are encouraged to explore, experiment, and discover on their own and in cooperation with peers. An important aspect of student centered learning is the practice of experiential learning. Such intellectual exercise facilitates the student’s ability to make connections in such a way that the student is able to successfully apply previously learned concepts to new and unfamiliar situations.

The primary concepts for the undergraduate curriculum progress from the promotion and maintenance of health to support in crisis and dying; and environment. All other concepts and subconcepts are pervasive, including quality and safety which are integral to the programs.
In the graduate curriculum, the pervasive concepts are theory, role development, caring/communication, leadership, critical thinking, therapeutic nursing interventions, research, environment, culture and ethics. Additional skill sets are incorporated into nursing courses which include health care policy, finance, current practice of nursing, current trends in health care, current trends in education, community concepts, health care delivery, values and accountability.

Subconcepts, as identified by the college, further define and expand the major concepts of person, health, nursing, environment, society, and student centered learning as follows:

PERSON:

- A person is an **individual** created by God with a mortal body and an immortal soul whose ultimate aim is **eternal salvation**. An individual has personal dignity and natural rights with associated responsibilities to God, self, and others.
- A person is a **member of society** who has a dependent role, an interdependent role, and an independent role in the family, group, or community in which the person functions.
- A person is an **adaptive being** who is constantly responding to alterations in the environment to achieve an integration of physical, emotional, intellectual, social, cultural and spiritual health.
- All persons have **needs**, which are perceived and/or unperceived physical, emotional, intellectual, social, and spiritual requirements. As persons pass through developmental stages of life striving toward self-actualization, their need progresses from the basic to higher levels.

HEALTH:

- **Wellness** is a state in which all aspects of a person’s functioning are balanced, purposeful, and directed toward attaining one’s full potential.
- **Illness** is an abnormal process in which any aspect of a person’s functioning is diminished or impaired as compared with one’s previous condition.
- **Dimensions of health** are the physical, emotional, intellectual, social, cultural, and spiritual aspects of a person.

Health promotion includes encouraging healthy lifestyles, creating supportive environments for health, strengthening community action, reorienting health services to place primary focus on promoting health and preventing disease, and building healthy public policy (Turner as cited in Pender, 20)

NURSING:

- The **nursing process** is a systematic method of organizing the delivery of evidence-based nursing care. Components of the process are: assessing health status and health potential, formulating nursing diagnoses, planning individualized interventions, implementing planned care, and evaluating the patient’s response.
- Graduate nursing education prepares the nurse to function autonomously in a variety of roles, and integrates theory, research, and practice for the improvement of patient care and the advancement of the nursing profession.
- The **art** of nursing is the skill manifested in the competent, caring management of patient care.
- **Caring** is the helping relationship which is influenced by spiritual and cultural values and which promotes the growth and self-actualization of the patient and/or nurse. The concept of caring encompasses the processes of interaction, communication, and teaching/learning.
- Nursing is an applied science, which integrates theory, research and practice to provide an empirical foundation for best practices.
- The goals of nursing are the promotion and maintenance of health, the restoration and rehabilitation of the sick and injured, and the support of the critically ill and/or dying.
- The professional nurse functions in the interrelated roles of care giver, educator, leader, advocate, facilitator, researcher, and manager. The graduate functions with advanced expertise in the expanded roles of clinician, which includes caregiver, manager, and leader; and educator, which includes teacher, scholar and collaborator.
- The professional nurse is accountable and liable for her/his actions, willing to be judged against performance expectations, willing to live with the results of one’s actions and be able to determine where those results were successful and where they need change or modification.

ENVIRONMENT:

- The internal environment consists of the set of factors inside a person that may influence one’s health, e.g. genetic factors, physiological processes, psychological variables, intellectual and spiritual dimensions.
- The external environment consists of the set of factors outside and distinct from a person that may influence one’s health, e.g. physical, social, cultural, and economic variables.
- Within the global healthcare environment, the graduate nurse will incorporate creative problem solving to discover innovative alternative solutions to system problems, to develop innovative solutions that can be generalized across differing population groups and/or specialties, and to lead nursing and interprofessional groups in implementing innovative patient care programs that address patient care issues across the full continuum of care, different population groups, and/or different specialties.

SOCIETY:

- An individual is a member of society who has a role in a family, group, and community.
- A family is the basic unit of society; two or more people living together with shared emotional and economic involvement; a group of people who interact with care and concern for each other.
- A population group is a number of persons considered together because of common interests or similarities.
- A community is an interacting population, people with common interest living in a particular area; people with common history or social, economic, and political interests.
- A global community describes all populations worldwide who interact with one another and share information and resources. Common concerns of the global community include vulnerability and health disparity.

STUDENT CENTERED LEARNING:

- The student is an active participant in the learning process.
- The student assumes responsibility for his/her own learning.
- The student and teacher form a partnership for the achievement of learning outcomes.
- The student works collaboratively with peers, faculty, and health care staff to master concepts as outlined by the curriculum.
- The student, through the process of experiential learning, is able to appropriately employ previously learned information when faced with new situations. The curriculum emphasizes experiential learning which affords students the opportunity to integrate abstract, conceptual knowledge into concrete applications, leading to broader, more
enduring learning outcomes. Dewey (1916) describes the process of making connections through experience as follows:

To “learn from experience” is to make a backward and forward connection between what we do to things and what we suffer or enjoy from things in consequence (p. 140).

Experience is crucial to the process of learning because it brings people together and encourages participation. This is abundantly evident in the realm of nursing education due to the essential component of clinical experience. The real-world “hands-on” experiences in the clinical setting which allow the student to work with actual patients, as well as simulated experiences in the clinical laboratory, are invaluable to the student’s development as a competent practitioner.

With respect to curriculum development at the College of Nursing, for an experience to be a valuable learning process the student must have the opportunity for, and be guided towards "reflective thought" so that the relevance of the experience can be assessed and the experience can be placed into context.

According to Dewey ([1910], 1991) it is the teacher’s duty to foster intellectual curiosity by keeping alive, the sacred spark of wonder and to fan the flame that already glows…[and to] protect the spirit of inquiry, to keep it from becoming blasé …wooden from routine, fossilized through dogmatic instruction, or dissipated by random exercise upon trivial things (p. 34).

- The concept of “reflective thought” enables the student to refuse to accept something at face value so that he/she may suspend judgment in order to allow for further inquiry. The challenge of reflective thought is to develop the ability to suspend conclusions and master the ability to search for further evidence. It is essential to maintain a state of doubt while conducting systematic and protracted inquiry (Dewey [1910], 1991).

- “Deep learning” in a concept-based curriculum facilitates the learners’ ability to:
  - Search for meaning;
  - Focus on the central concepts needed to solve a problem;
  - Interact actively with peers, faculty, and member of the healthcare team;
  - Identify connections between different modules of study;
  - Relate new and previous knowledge;
  - Link course content to real life;
  - Develop an intrinsic curiosity in the subject;
  - Have time to pursue interests, through good time management;
  - Have a positive educational experience that promotes confidence in the ability to understand and succeed.

We believe that a concept-based curriculum emphasizes the "inquiry" model of learning and moves students away from the "memorization" model, which does not result in deep learning.
The curriculum of the College is designed to meet or exceed contemporary standards of higher education by:

- Creating collaborative opportunities with local, regional, national and international communities;
- Promoting learning as a lifelong process;
- Integrating theory and practice which fosters the ability of students to comprehend and apply fundamental concepts:
- Fostering the students’ ability to relate abstract ideas to the concrete practical realities of life (Kolb, 1984)
- Addressing the unique concerns of a growing segment of the student population - older students who "demand that the relevance and application of ideas be demonstrated and tested against their own accumulated experience and wisdom". (Kolb, 1984)
- Facilitating the development of time-management and teamwork skills in response to societal and workplace expectations;
- Developing partnerships with students, faculty, and employers to provide graduates with the knowledge, skills and experience they need to lead successful professional lives.

BACCALAUREATE PROGRAM OUTCOMES

The graduate is able to:

1. Synthesizes theories, concepts, and principles from behavioral, natural and social sciences, technologies, and nursing as a foundation for the practice of professional nursing.
2. Implements culturally appropriate caring behaviors in nursing practice.
3. Integrates written, oral, technology, and information literacy skills to facilitate communication within the nurse patient relationship and interprofessional collaboration in a variety of health care settings.
4. Employs critical thinking, skills of inquiry, and problem solving skills for decision making in nursing practice based on best evidence.
5. Implements the nursing process to assist patients throughout the life cycle in reaching optimal health by facilitating adaptation of physical, emotional, intellectual, social, and spiritual well-being.
6. Applies leadership through engaging in professional nursing within a political, legal, ethical, social, and financial framework to implement patient safety and quality within the context of the interprofessional team and healthcare system.
7. Demonstrates responsibility and accountability for personal and professional growth and development and is responsive to emerging roles within the profession.
8. Employs the process of self-reflection to continually improve practice and engage in lifelong learning.

BACCALAUREATE CURRICULUM

The curriculum for the Bachelor of Science in Nursing Degree offered by the College of Nursing consists of a total of 124 semester hours of course work. These hours are divided as follows:

<table>
<thead>
<tr>
<th>BSN Curriculum</th>
<th>Pre-Nursing Semester Hours</th>
<th>Nursing Major Semester Hours</th>
<th>Total Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Starting prior to Fall 2014 term</td>
<td>62</td>
<td>62</td>
<td>124</td>
</tr>
<tr>
<td>Starting Fall 2014 term and later</td>
<td>59</td>
<td>65</td>
<td>124</td>
</tr>
</tbody>
</table>

The curriculum was designed by the faculty so that each course contributes to the overall program. The curriculum is based upon the mission and philosophy of the College. Courses required in the pre-nursing sequence prepare the student for the study of the nursing major. The organizing framework gives direction to the sequencing of courses in the nursing major and explains the major concepts developed in the courses. Successful completion of the curriculum enables the graduate to meet the curriculum outcomes.

PRE-NURSING

The required pre-nursing sequence is composed of:

<table>
<thead>
<tr>
<th>Pre-nursing Requirements:</th>
<th>Required Credit Hours:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Anatomy and Physiology</td>
<td>8</td>
</tr>
<tr>

<td>6</td>
</tr>
<tr>
<td>Elective(s)</td>
<td>1 to 3</td>
</tr>
<tr>
<td>Totals</td>
<td>59 to 62</td>
</tr>
</tbody>
</table>
The requirements of the pre-nursing curriculum incorporate both the General Education Core Curriculum adopted by the Illinois Board of Higher Education (IBHE) and the specific courses required to support the nursing major. The required pre-nursing courses enhance the student's ability to think logically, reason, formulate ideas, and communicate effectively. They also enhance the student's natural abilities, stimulate creativity, and encourage a willingness to explore new ideas.

Humanities and fine arts contribute to the art of nursing which is demonstrated in sensitivity to the human condition, the appreciation of individuality, and the development of creativity. The study of philosophy contributes to the student's understanding of self and the beliefs and values of others. It gives the student the opportunity to explore value systems and develop critical thinking. Philosophical concepts brought to the upper division courses are the foundation for understanding values, concepts, and standards underlying nursing practice. These concepts provide a basic understanding especially for the course, Ethics and Health Care Implications. They provide the basis for decision-making based on Judeo-Christian tenets in the ethical dilemmas in nursing practice discussed throughout the various courses in the nursing major.

Written and oral communication and language skills are essential to the development of the individual as both a contributing member of society and a practicing professional within the health care system. Communication skills are used in: the implementation of the nursing process; the development of therapeutic nurse-client relationships; the transfer of knowledge; the application of teaching-learning principles in client education; the application of management skills such as decision-making, conflict management, and motivational strategies; the utilization of research; and the process of self-evaluation.

The study of mathematics and statistics enables the student to develop skills which are necessary for intellectual inquiry, critical analysis, and synthesis of data. These studies are used by the professional nurse to monitor client status, interpret data, understand the research process and findings, and implement therapeutic nursing interventions. Computer literacy is required in response to expanded technology in both health care and society for the individual's personal, educational, and professional endeavors. Students use microcomputers for computer assisted instruction, writing papers, testing with computerized client simulations, and accessing computerized databases in the library.

The required social and behavioral sciences introduce the students to the study of human behavior and include topics such as personality, emotions, intelligence, growth and development through the lifespan, cultures, groups, roles, and society. These courses provide the basis for understanding clients as persons, members of families, communities, and society. Concepts and principles from the social and behavioral sciences are integral to the study of nursing, health, person, society, and environment. The understanding of individuals and their interactions in society enables students to begin to develop the art of caring which is essential to the practice of professional nursing.

The study of the physical and life sciences provides an understanding of the physical aspects of persons, their environment, and their adaptation to internal and external environments. The role of nutrients and dietary requirements of individuals throughout the life cycle is studied as part of the course work in this category. Knowledge acquired in the physical and life sciences provides the foundation for the study of health-related alterations and the related nursing care.

NURSING

Active learning is an integral part of nursing education and helps to promote critical thinking. Students are required to take a learning strategies course their first semester at the College that will build upon their individual learning style.

The nursing courses in the first semester of the junior year introduce the interrelated concepts of nursing, person, health, society, and environment. Nursing, caring, communication skills and teaching-learning principles are introduced as the basis for effective implementation of the nursing process throughout the curriculum. Students discuss cultural and spiritual beliefs and practices that foster the view of each
individual as a holistic being. Focusing on the person as a member of society, the student assesses the individual's physical, emotional, social, cultural, intellectual, and spiritual needs. The student is introduced to professional standards and nursing theory models as it relates to practice.

The student studies concepts of nursing care related to the promotion and maintenance of client health and begins to use the nursing process in the clinical setting in predictable situations. Psychomotor skills basic to the delivery of nursing care and the use of the nursing process are developed. The student recognizes methods of problem solving which requires intellectual inquiry and critical thinking. The roles and characteristics of the professional nurse, with emphasis on the roles of care giver and educator, are discussed.

Drug classifications with related actions, effects, and interactions are studied as well as the roles and responsibilities of the professional nurse in drug therapy. Students apply knowledge of physiological needs to the study of health-related alterations. Students clarify their own values, begin to assume the characteristics of a professional nurse, and accept responsibility for learning by meeting the course objectives.

In the nursing courses in the second semester of the junior year and the first semester of the senior year, students focus on the body of nursing knowledge necessary for the use of the nursing process with clients in states of wellness or illness to facilitate the promotion, maintenance, restoration, or rehabilitation of health. The student continues to promote and maintain health, synthesizing previous learning with current courses. The student cares for: families across the lifespan, focusing on women's health, mental health, geriatrics, and children and adults in acute care settings.

Nurse-client interactions occur primarily in predictable situations; however, the student recognizes the potential for change and initiates immediate nursing actions in unpredictable situations. The student assists the client in meeting physical, emotional, social, cultural, intellectual, and spiritual needs with specific course emphasis on higher level needs. Integrated throughout these semesters are the nursing responsibilities associated with therapeutic interventions. The nursing process is used to facilitate client's adaptation to achieve optimal health. Caring relationships are developed with clients using communication skills and principles of teaching/learning. The student interacts with members of the health team in a variety of health settings including the acute care setting and the community.

The student develops an understanding of the research process and uses research findings in exploring nursing care alternatives and in formulating the rationale for nursing diagnoses and interventions. The professional nursing roles actualized by the student in these semesters are mainly those of care giver, facilitator, and educator. Interactions with families and groups provide opportunities for the student to develop leadership skills. Ethical decision-making emphasizing the Judeo-Christian tenets and ethical issues related to health care are studied. The student integrates ethical, legal and accepted standards of professional nursing practice with own values. Critical analysis and intellectual inquiry are fostered throughout the courses. The student participates in the selection of learning experiences to achieve course objectives.

In the nursing courses in the second semester of the senior year, the student implements the nursing process with individuals, families or groups in the community and acute care settings. The student cares for clients with complex health problems in primarily unpredictable situations. Previous learning is synthesized with concepts of management in the nursing care of clients with complex problems. Throughout this semester, the student has increased opportunities to use critical analysis and intellectual inquiry. Caring is expressed in interactions with patients, families, peers, and the health care team. The student selects and uses appropriate services to assist clients' adaptation within their environment. Leadership skills and principles of management are demonstrated in the delivery of health care and in collaboration with health care team members. The student evaluates and applies research findings to nursing practice. The professional roles assumed in this semester are care giver, advocate, educator, facilitator, leader, manager, and researcher. Professional issues, perspectives, and nursing theories/models are studied in relation to their impact on nursing as a profession, the individual, and society. The commitment to professional growth and continued learning fostered throughout the curriculum is further enhanced by the student's participation in the selection and design of learning experiences, particularly in the independent study and elective courses.
The College of Nursing offers registered nurses the opportunity for advanced placement in the baccalaureate nursing program. The educational plan for the registered nurse shares the purposes and objectives of the generic nursing program. Academic advisement is available at the College to assist the student with a plan for advanced placement, transfer of credit and completion of requirements. All policies in regard to admission, academic advisement, progression in the nursing major and program completion apply to the registered nurse student. The science recency policy is waived for registered nurses who are in current practice in health care. This means there is no time limitation on science courses for the practicing registered nurse. Registered nurses must submit a copy of current Illinois license and official school of nursing transcript. Registered nurses who have completed all of the required prenursing courses may enroll as full-time or part-time. A student may enroll in a maximum of ten semester hours as a student-at-large. All prenursing courses must be completed before progressing with the nursing courses.

Completion of the program requires 123 semester hours of course work: 59 hours of general education and support courses at an accredited College or university of student’s choice, and 61 hours of study in the nursing major offered by the College. Upon satisfactory completion of the prenursing curriculum, the student may be admitted to the College of Nursing. The following College of Nursing courses are required to be taken by the registered nurse:

<table>
<thead>
<tr>
<th>Nursing Course</th>
<th>Sem. Hrs.</th>
</tr>
</thead>
<tbody>
<tr>
<td>317 Concepts of Professional Nursing for the RN</td>
<td>3</td>
</tr>
<tr>
<td>310 Health Assessment</td>
<td>3</td>
</tr>
<tr>
<td>304 Nursing and Healthcare Ethics</td>
<td>3</td>
</tr>
<tr>
<td>318 Research for Nursing Practice</td>
<td>3</td>
</tr>
<tr>
<td>425 Promoting Healthy Communities for the RN *</td>
<td>5</td>
</tr>
<tr>
<td>433 Nursing: Experience in Clinical Nursing *</td>
<td>8</td>
</tr>
<tr>
<td>434 Concepts in Nursing Management</td>
<td>3</td>
</tr>
<tr>
<td>436 Trends and Issues for Professional Nursing for the RN</td>
<td>3</td>
</tr>
<tr>
<td><strong>TOTAL</strong></td>
<td><strong>31</strong></td>
</tr>
</tbody>
</table>

*Course available for credit through portfolio review.

Graduates of state approved diploma or associate degree programs may receive 31 semester hours of credit in the nursing major without examination. Upon formal acceptance and satisfactory completion of courses, 317 Concepts for Professional Nursing for the RN, 310 Health Assessment, and 425 Promoting Healthy Communities for the RN, the registered nurse will be granted credit for the following College of Nursing courses:

<table>

</table>
MASTER'S PROGRAM OUTCOMES

The graduate of the master’s degree program is able to:

1. Integrate theory, research, and practice using critical thinking, for the improvement of client care in a variety of settings and the advancement of the nursing profession.
2. Practice autonomously in a variety of professional roles to respond to the social, economic, ethical, political, and legal issues impacting the needs of clients and the nursing profession.
3. Express caring in professional interactions, which supports the values and promotes the growth and self-actualization of individuals, groups, and communities.
4. Provide collaborative leadership within the complex health care system in a culturally diverse society.
5. Synthesize the principles of education to develop interventions that promote, maintain, and restore health.

MASTER OF SCIENCE IN NURSING PROGRAM

DESCRIPTION OF PROGRAM OFFERINGS

Adult Gerontology Clinical Nurse Specialist (CNS)

The Master of Science in Nursing (MSN) program offers a 43 credit hour program of study designed to provide the baccalaureate professional nurse with current advanced knowledge and skills in Adult Gerontology Nursing. Graduate students who select this nursing clinician option will be prepared to assume leadership roles in an integrated healthcare system and will be able to develop, implement, and evaluate programs for targeted populations in a variety of settings. The program prepares graduates in scientific inquiry, which includes validating and applying research findings to nursing practice, and evaluating nursing theory appropriate for advanced practice.

Upon successful completion of this program of study, the graduate may either take a national certification examination to become a certified clinical specialist or practice as a master’s prepared nurse. Graduates choosing to use the title Advanced Practice Nurse, are required to take the national certification examination and apply for advanced practice licensure in their state.

Nurse Educator

Graduate students who select the 36 credit hour nursing educator option will be prepared to design and use multiple educational delivery systems and teaching strategies and develop, implement, and evaluate curriculum that will prepare nurses who are responsive to current and future healthcare systems.

Neonatal Nurse Practitioner (NNP)

The College offers a Master of Science in Nursing with the Neonatal Nurse Practitioner (NNP) option. This program is a 45 credit hour course of study designed to provide the baccalaureate prepared nurse with an in-depth focus on health management of the acutely and critically ill neonate and their family through their studies in research, theory, cultural diversity, health policy, ethics and leadership related to the role of the Advanced Practice Nurse.

Upon successful completion of this program, the graduate will be eligible to sit for the national Neonatal Nurse Practitioner certification examination offered by the National Certification Corporation. Following successful certification, the graduate applies for advanced practice licensure in his/her state.
Clinical Nurse Leader (CNL)

The College offers a Master of Science in Nursing with the Clinical Nurse Leader (CNL) option. The program is a 36 credit hour course of study designed to provide the baccalaureate prepared nurse with an in-depth study as a leader in an integrated healthcare system. Upon successful completion of this program, the graduate will be eligible to sit for the Clinical Nurse Leader Examination.

Nursing Management Leadership (NML)

The Nursing Management Leadership option is a 33 credit hour online Masters in Nursing option. This option prepares the baccalaureate professional nurse for a variety of leadership positions. Following successful completion of this MSN degree, the graduate may qualify for the advanced Nurse Executive certification examination.

Family Nurse Practitioner (FNP)

The Family Nurse Practitioner option is a 44 credit hour course of study, which allows students to care for individuals across the lifespan in the primary settings. The FNP is prepared to provide care for prevention of illness and promote wellness for those with acute and chronic illnesses. Upon successful completion of this MSN degree option, graduates may take the national certification examination and apply for advanced practice licensure in their state.

Psychiatric-Mental Health Nurse Practitioner (P-MHNP)

The Psychiatric-Mental Health Nurse Practitioner option is a 46 credit hour Master of Nursing course of study. This option is designed to prepare the graduate to care for individuals across the lifespan with mental health care needs and practice in a variety of settings such as clinics, human service centers, prompt care facilities and physician practices. Upon successful completion of this MSN degree option, the graduate may take the national certification examination and apply for advanced practice licensure in his/her state.

Accelerated Pathway to the MSN for RNs with a Non-Nursing Baccalaureate Degree

The Master of Science in Nursing program has an accelerated option for registered nurses who hold either an associate nursing degree or a diploma in nursing; have considerable nursing experience; outstanding academic histories; and have a bachelor’s degree in a discipline other than nursing from an accredited College or University. The accelerated option requires that the individual have 59 credit hours of prenursing courses.

Post Graduate Certificates

The College also offers a Post Graduate Nurse Educator Certificate, a Post Graduate Adult-Gerontology Clinician Certificate (CNS), and a post graduate Family Nurse Practitioner certificate.

ADMISSION REQUIREMENTS

For admission into the MSN program the following are required:

1. Complete Application for Admission Form and a $50.00 Application Fee.
2. Bachelor of Science in Nursing from a college or university accredited by Accrediting Commission for Education in Nursing (ACEN), Commission on Collegiate Nursing Education (CCNE), or Nursing Commission for Nursing Education Accreditation (CNEA). For the Accelerated MSN option, the applicant must have a Bachelor’s degree in a discipline other than nursing from an accredited college or university.
3. Minimum undergraduate cumulative grade point average of 2.8 on a 4.0 scale. Official transcripts of all prior college academic work are required.
4. Proof of licensure as a Registered Professional Nurse in one or more states in the United States.
5. Evidence of one year of professional nursing experience preferred.

6. Three letters of recommendation from persons who are able to speak to the applicant’s ability to undertake graduate education. One letter from a nursing faculty member from the student’s baccalaureate nursing program is preferred.

7. A 500-750 word essay detailing professional and educational goals.

8. Evidence of completion of an undergraduate health assessment and nursing research courses with a minimum grade of “C” for both courses.

9. Evidence of completion of a graduate statistics course with a minimum grade of “B” within the last 5 years.

10. An interview may be requested.

11. Applications are reviewed throughout the year, but priority is given to applicants who have the entire application process completed by Apr. 1st for fall enrollment and October 15th for MSN options with spring enrollment.

Additional requirements for the Neonatal Nurse Practitioner (NNP) option:

1. Must have the equivalent of two years of full-time clinical experience as an RN in a Level III or IV NICU within past five years before starting clinical courses. May start theory courses without the required clinical experience.

2. Hold and maintain current Neonatal Resuscitation Program certification.

RNs in this accelerated pathway must meet the following requirements prior to transitioning into the Master’s Program:

- 310 Health Assessment
- 318 Research in Nursing Practice
- 425 Promoting Healthy Communities
- *433 Experience in Clinical Nursing
- 450 Transition to Advanced Nursing Practice
- *See College Catalog: course is available for credit through portfolio review

The total number of credit hours for a Master’s degree will depend upon the option chosen.

Post Graduate Nurse Educator Certificate

Saint Francis Medical Center College of Nursing offers both a 9 and 15 hour post graduate nurse educator certificate for those who currently have a Master’s Degree and wish to acquire a specialization in nursing education.

DOCTOR OF NURSING PRACTICE PROGRAM OUTCOMES

1. Incorporate advanced levels of clinical judgment and scholarship into nursing and leadership.
2. Appraise scientific knowledge, as well as new and current approaches in nursing practice, and leadership to promote optimal outcomes.
3. Examine leadership in organizations and systems to assure quality care delivery models.
5. Evaluate programs, healthcare delivery systems, and outcomes, using information systems.
6. Advocate for healthcare practice change through policy development and evaluation.
7. Adapt appropriate leadership roles for effective transdisciplinary collaboration to achieve optimal outcomes.
8. Combine ethical principles with decision making processes in healthcare practices and systems.
9. Integrate advance clinical reasoning and judgment in the management of complex clinical situations and systems.

Changes to DNP Program Outcomes approved 2-2013/Grad Committee

DOCTOR OF NURSING PRACTICE PROGRAM INTRODUCTION

The DNP Clinician program is a practiced-focused program designed to prepare advanced practiced nurses at the highest level of nursing practice. The DNP is a terminal degree. This consists of adding a 39 credit hour doctoral program for those individuals who are masters prepared and nationally certified and licensed as an advanced practice registered nurse (APRN).

The DNP Leadership option (DNP-L) is designed as a post master’s doctorate degree and consists of 39 credit hours. The DNP-L prepares Leaders to expand their knowledge and abilities to influence and positively impact nursing interventions, healthcare organizations, outcomes, health practices, and policy. The curriculum, through each of the courses and learning outcomes, has an emphasis on safe practice with the expectation that the student bases the online discussions on research, evidenced based practice, analysis, and critical thinking. The successful achievement of the learning activities, projects, discussions, presentations, capstone, and residency prepares the student to achieve the program outcomes for decision making and safe, competent practice as a leader in a variety of diverse and contemporary healthcare environments.

STUDENTS WITH DISABILITY POLICY AND PROCEDURES

In compliance with Section 504 of the Rehabilitation Act of 1973, as amended (Section 504), Saint Francis Medical Center College of Nursing does not discriminate on the basis of disability in the administration of its educational policies, programs or activities; admission policies and practices, student aid and other College administered programs or activities receiving federal funds or in the employment of its faculty and staff. Additionally, the College prohibits discrimination by others, including faculty, staff, students, partner agencies, contractors/agents/licensors, and/or visitors to its programs and facilities.

Section 504, states in part that, “no qualified individual with a disability in the United States as defined in section 705(20) of this title, shall, solely by reason of her or his disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance” 29 USC 794.

"Individual with a disability" means person with a physical or mental health condition that substantially limits a major life activity. "Individual with a disability" also means an individual regarded as having a disability when s/he does not or who has a record of a disability. Disabilities may include but are not limited to attention deficit disorder and health, mental/psychological, physical, and sensory and learning disabilities. Major life activities include such things as: caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

"Qualified individual with a disability" means an individual with a disability who meets the eligibility criteria established for acceptance and continued participation in the College's nursing program, including performance of the Core Performance Standards of the program, with or without reasonable accommodations.

"Basis of disability" means on the basis of a real or perceived disability or a record of a disability.

Requesting Accommodations. The College requires students with disabilities who believe that they need special classroom/clinical accommodations to identify themselves to the Dean of the Undergraduate or Graduate Program, as appropriate, and provide appropriate documentation of the disability and its impact on the student's ability to meet the Core Performance Standards. The President or his/her designee shall develop documentation guidelines to assist with this process and insure their availability to students or other individuals upon request.

Whether a student is a qualified individual with a disability is an individualized decision determined by a group of knowledgeable individuals, which may include the student and the student’s medical providers if appropriate under the circumstances. Mitigating measures are not taken into consideration when the College determines whether a student is a qualified individual with a disability, other than those recognized by law, such as glasses. However, mitigating measures may be considered when determining whether requested accommodations are necessary or reasonable. Examples of mitigating measures include but are not limited to, medication or use of assistive technology.

Appeal. Students who disagree with the determination made in regard to requests for reasonable accommodations may appeal the determination to the President, whose decision shall be final. Any such appeal should be made in writing within five (5) business days of receipt of the decision of the Dean.

Faculty Notification. Students are required to notify the faculty of any accommodations approved through the consultative process discussed above. The student is to submit to the Dean the requested accommodations.
Nondiscrimination. No student shall be discriminated against for exercising his/her rights under this policy. Any individual who is aware of circumstances s/he believes is or may be discriminatory is encouraged to notify one of the College's Non-discrimination Coordinators listed below or the President.

Non-discrimination Coordinators:
Sue Brown, RN, PhD
Dean, Undergraduate Program
309-655-2206
sue.c.brown@osfhealthcare.org

Kevin Stephens
Assistant Dean, Support Services
309-655-2291
kevin.n.stephens@osfhealthcare.org

Any complaints received will be promptly investigated, consistent with the College’s procedures for investigating discrimination complaints.

Prohibition Against Retaliation. Retaliation, coercion or threats against or the intimidation of any person who exercises his or her rights under this policy or for reporting or participating in the investigation of complaints of discrimination is strictly prohibited and should be reported as soon as practicable to the Non-discrimination Coordinator or President. Individuals who knowingly and willfully file false reports or provide false information during an investigation, however, may be subject to disciplinary action, up to and including termination from the program or employment.

Revised June 2016
Revised and approved by A and P on 2-27-15
Approved College Senate 5/15/2015
Core Performance Standards

Students admitted into the College of Nursing Program must be able to engage in the essential skills listed in the table below, with or without reasonable accommodations, throughout the period of their enrollment. These skills are essential requirements for this program and reflect what typically are deemed to be essential skills to support licensing and employment in the nursing profession. There may be other essential duties for some clinical agencies with which the College of Nursing partners, which will be disclosed to students at the time of their consideration for placement at those agencies or upon request.

Adapted from the Southern Council on Collegiate Education in Nursing Guidelines with minor additions or changes
Revised A&P 1/16/2015, College Senate 5/21/2015

**Procedure**

**Notifying College of Disability and Request for Accommodations**

1. Students should notify the Dean of the Undergraduate Program of disabilities for which they are asking for reasonable accommodations.
2. Students should submit acceptable documentation (See Documentation Guidelines) to the Dean at least two weeks prior to the start of the semester in which accommodations are being requested.
3. The Dean will review the documentation and if necessary talk with the students regarding the request. The Dean reserves the right to determine which accommodation(s) are reasonable.
4. The Dean will notify the student in writing of accommodations that are being granted for the disability specified in the documentation.
5. Omission of required information or false or misleading information provided by the student on the request for accommodations, disabilities documentation, or in any communication with the College may result in disciplinary action or dismissal according to the Professional Standards section in the Student Handbook.

**Notifying Faculty of Accommodations**

1. Upon receipt of the notification letter from the Dean, the student should contact the Dean to obtain the Instructor Notification Forms for each course. It is the responsibility of the student to inform course instructors of needed and approved accommodations.
2. Students are to meet with each course instructor and provide copies of the Instructor Notification Form to the instructor during the first two weeks of the semester.
3. Each semester that the student is enrolled, the student should contact the Dean of the Undergraduate Program to obtain Instructor Notification Forms for courses during the semester.
Instructor Notification Form

________________________________________________ has provided the College of Nursing with appropriate documentation for requested accommodations based on identified disabilities. The above named student has been granted the following reasonable accommodations for the semester:

Sue Brown, RN, PhD
Dean, Undergraduate Program

Date
Access Services

Student and College Responsibilities

College Responsibilities

Saint Francis Medical Center College of Nursing is committed to making its programs accessible to all students. Through the Offices of the Dean of the Undergraduate Program, the College will work with students, staff, and faculty to provide timely, equitable access to all aspects of the programs offered. Additional assistance is available to students through the offices of the Academic Development Center, Health Nurse, and Counselor. Services will include, but are not limited to intake and review of disability documentation from students, working with students to make determinations for reasonable accommodations, coordinating services and accommodations, and providing direct accommodations as needed.

Student Responsibilities

It is the responsibility of the student with a disability who is seeking accommodations to:

- Inform the College of Nursing of any disability in which the student is requesting reasonable accommodations. This is done through scheduling an appointment with the Dean of the Undergraduate Program on campus and submitting the required supporting documentation (See Documentation Guidelines).

- Provide documentation that shows the current impact the disability has upon performance in classes. Students need to be knowledgeable about their disability so that they can discuss the disability and reasonable accommodation requests with the Dean.

- Request specific accommodations in a timely manner each semester for each class in which the student is enrolled and is requesting accommodations. The student needs to meet with each course instructor individually and discuss accommodations for each class, each semester. The Dean of the Undergraduate Program will provide students with Instructor Notification Forms for each class in which accommodations are granted to assist the student in this notification process.

- Obtain the Instructor Notification Form from the Dean’s Office and notify the instructor the first week of the semester so that the instructor can assist the student with the needed accommodations. The faculty member will work with the Dean to set up the testing accommodations. Asking for testing accommodations one day prior to an exam is not timely by the student. Students should verify testing arrangements with the faculty at least two days before the test is to be taken.

Students should contact the Dean of the Undergraduate Program in room 606 for questions or assistance. The phone number is 309-655-2206.

Confidentiality

All documentation and information submitted to the Dean of the Undergraduate Program will be kept in a file in the Dean’s office that is separate from the student’s academic, financial, and other records at the College. After the student has delivered the required documentation to the Dean, the documentation becomes the property of Saint Francis Medical Center College of Nursing. Documentation will not be returned to the student. If a student needs a copy of the documentation once it has been submitted to the College, the student will need to obtain the documentation from the originating source.
Documentation will be kept on file for up to three years after the student has taken courses. Inactivity for six consecutive semesters may cause the student’s file to be purged, in which case the student would need to reapply, including resubmission of documentation.

**Documentation**

Students must submit comprehensive documentation of their disability **consisting of** a diagnostic statement from a qualified professional in the appropriate discipline. Documentation should address how the disability currently impacts the student’s access to the College physically or academically. All documentation needs to be signed by the professional conducting the evaluation.

Individualized Education Plans (IEPs), section 504 plans and Summary of Performances (SOPs) are not accepted as sole documentation of a student’s disability. Any of these forms may be submitted in conjunction with other forms of documentation in order to assist in obtaining a complete profile of the student and student’s needs. Students may bring a copy of any of the above along with other documentation of their disability to assist the student in discussing the disability with the Dean of the Undergraduate Program. Students should refer to the Documentation Guidelines for acceptable documentation.

A diagnostic report may include specific recommendations for accommodations. These recommendations will be reviewed by the Dean to determine if the accommodation recommended is reasonable for the course. Any accommodations that provide the student with information or assistance that would compromise the integrity of the test results or course outcomes are generally not considered reasonable. A prior history of an accommodation, without the demonstration of a current need, does not in and of itself insure the accommodation will be granted by the College. Each accommodation recommended by a qualified evaluator should include a rationale and be supported with specific test results or clinical observations.

**Documentation Guidelines**

**Learning Disabilities**

The most recent complete diagnostic evaluation from a qualified professional, generally a clinical psychologist, should be submitted. A partial psychological evaluation, consisting of select pages from a full report will be considered incomplete and cannot be accepted. The specific diagnosis must be included in the evaluation. Names of tests administered and the actual test scores must be included in the evaluation along with a discussion of the significance of the scores. How the disability impacts learning, recommendations for specific learning strategies, academic support services, and prescribed medications(s), as well as any other treatments, should all be included in the psychological report. Reports must be current and should be based on adult norms. Common tests used to diagnosis learning disabilities include the Wechsler Adult Intelligence Scale and Wechsler Individual Achievement Test. A Psychological evaluation from a grade school would not be an acceptable form of documentation for an adult student at the College. The College has made arrangements with a local organization that will perform a comprehensive learning disability assessment. Contact the Dean of the Undergraduate Program for more information. Cost for the assessment is the responsibility of the student.

**Attention Deficit Disorder**

The most recent psychological evaluation or complete physician’s report is required. A note from a student’s physician or primary healthcare provider stating the student has Attention Deficit Disorder and needs testing accommodation will not suffice as complete documentation. How the disability impacts learning, recommendations for specific learning strategies, academic support services, and prescribed medications(s), as well as any other treatments should all be included in the psychological report. Cost for the assessment is the responsibility of the student.
Health Impairments, Physical Disability or Orthopedic Impairments

The College of Nursing Core Performance Standards identifies the skills and performance standards that are considered essential requirements for the College of Nursing program. Students who have health, physical or orthopedic impairments or disabilities that impact their ability to meet these requirements need to meet with the Dean of the Undergraduate Program. Students should provide an appropriate report discussing the impact of the disability upon access and ability to meet to perform the standards outlined in the College of Nursing Core Performance Standards. Medical, occupational or physical therapy reports discussing the impact of the disability on access are examples of appropriate documentation. Cost for the assessment is the responsibility of the student.

Approved College Senate 5/7/2010

ACADEMIC ADVISEMENT/PLAN OF STUDY

Each student will be assigned an academic advisor. Registration for the first semester will occur after the student has met with the advisor to discuss personal and educational goals and to develop a plan of study approved by the advisor. The student is responsible for scheduling this meeting. The student is also responsible for scheduling a meeting with the advisor prior to registering each subsequent semester to review the plan of study and revise it as needed. Registration for courses cannot occur until the student and advisor review the plan of study. The Plan of Study form for undergraduate students can be found in Appendix A of the Student Handbook.

Undergraduate Student Classification:

Students who have completed all of the required pre-nursing courses and are enrolled in the College pursuing a degree may be either part-time or full-time. Students carrying twelve or more semester hours are considered full-time. A student may enroll in a maximum of ten semester hours as a student-at-large.

Graduate Student Classification:

Unconditional acceptance is given to all applicants who meet all the admission criteria and are approved by the Graduate Committee. Conditional acceptance is given to applicants who do not meet all the admission criteria such as applicants with less than a 2.8 GPA (and greater than a 2.5) or those needing to complete the graduate statistics course with a minimum grade of “B” or better.

At the time of admission, the Graduate Committee may specify other conditions for the applicant that would need to be fulfilled in order to progress in the program. To have conditional acceptance status removed for the person with less than a 2.8 GPA, the student must complete twelve semester hours of course work with a minimum grade of “B” in each course. Students must complete the statistics prerequisite course within the first 9 credit hours in the Graduate Program.

Students whose GPA is between 2.5 and 2.79 may be required to have an interview and provide a writing sample (approved Faculty Organization 3/18/05).

Students enrolled in the College pursuing a Master’s degree may be either full-time or part-time. Students enrolled in nine or more semester hours during a semester of an academic year or six or more semester hours during the summer session are full-time. Students enrolled in less than nine semester hours during a semester of an academic year or less than six semester hours during the summer session are part-time. A student may enroll in a maximum of nine semester hours as a student-at-large. All graduate students must be continuously enrolled either full-time or part-time each semester.
Nondiscriminatory Policy

The College admits qualified students without regard to national or ethnic origin, race, color, creed, sex, age, or disability that does not interfere with nursing performance or other legally protected category applicable to the College.

International Students

The RN-BSN and graduate students must be United States citizens to be admitted into their respective programs.

Credit Hours

The College of Nursing is on a semester system. One semester is sixteen weeks with an examination period provided at the end of each semester. One theory credit hour equals one clock hour or 50 minutes. Clinical hours are defined as three (3) clock hours equaling one credit hour in the undergraduate program and (4) clock hours equaling one credit hour in the graduate program.

REGISTRATION

Course Placement Policy

The College of Nursing strives to provide quality learning opportunities for students while maintaining the established student to faculty ratio. Seats in classes and clinical sections are limited; therefore students are assigned in the following rank order:

1. Full-time students progressing successfully
2. Part-time students and RNs progressing successfully
3. Students who withdrew passing. These students will be assigned to clinical slots in the order that their letter requesting to repeat the class is received.
4. Students who were successfully progressing in the program and took a leave of absence.
5. Students who failed a course or who withdrew failing and wish to retake the class.
6. Transfer students from another college of nursing.
7. Students applying for readmission to the College.

If more than one student within the same category of the rank order seeks placement in a clinical course, (e.g., two part-time students and RNs progressing successfully), then the student’s CON GPA would be the discerning factor in determining who would get assigned to the clinical course. The Students Called to Active Military Duty Policy will apply to students who must withdraw from the College due to orders for active military duty. Approved 3/27/2009, Rev. 5/21/2015

Auditing a Course

Courses without a laboratory or clinical component may be audited on a space available basis after all credit enrollments have been served. A student auditing a course is exempt from examinations, presentations and papers, but all other expectations remain the same. An auditor does not receive a grade or credit for the course. At the completion of the course, the transcript will show “AU” if attendance has been satisfactory or “AX” if not. A student must register for the course during the registration period and pay the regular tuition. To change from audit to credit or credit to audit, the student follows the Change in Registration Policy.

STUDENT-AT-LARGE  Students-at-large are students who wish to take classes but are not pursuing a degree or post grad certificate at the College. Students-at-large may earn credit for a maximum of 9 hours of credit. Students wishing to transfer the course credits to another college or university are advised to verify transferability with the receiving school prior to taking a course. To enroll, students should complete the student-at-large application and pay the $50.00 application fee. Prerequisites and other requirements may apply for some courses, and documentation may be required at the College’s request (official transcripts and nursing licensure). Students taking clinical courses must complete the College of Nursing Health Requirements as outlined in the Catalog and use the electronic tracking system. Students-at-large may register for classes based on availability and the Course Placement Policy. No advisor is assigned. Students-at-large, who wish to become degree or certificate seeking students must complete the established application process for the degree or certificate. Courses taken as a student-at-large would be included in the GPA if the student decides to pursue a degree or certificate at the College (with the exception of 499 Statistics, when taken as a prerequisite). Students-at-large are subject to all College policies and must maintain a GPA of 2.0 or higher for undergraduate courses and 3.0 or higher for graduate level courses in order to continue taking courses at the College. Students who have been academically dismissed may not take courses as a student-at-large.

TRANSFER OF CREDIT

The request for transfer of credit must be approved by the Dean of the appropriate program. Any student who plans on enrolling in a course at another institution while enrolled at the College should discuss this with the Dean of the appropriate program prior to enrollment. Only courses that are approved will be considered for transfer. Continuing education courses will not be considered for transfer. The student may request up to 9 hours of transfer credit. In the evaluation of courses from regionally accredited institutions, course descriptions and prerequisites, as listed in the catalogs of those institutions, will be studied. When information given is insufficient, it will be the student’s responsibility to provide additional materials, such as the course outline or syllabus.

To be eligible for transfer credit, the student must have:
1. Completed the course at a regionally accredited institution;
2. Achieved a grade of “C” or higher for undergraduate or “B” or better for graduate students; and
3. Completed the course within the last 5 years.

To request transfer of credit, the student should submit:
1. An official transcript showing the course title, and grade; and
2. A catalog course description and course syllabus (if available).

Quarter hours submitted for transfer credits are converted to semester hours based on the following formula: one quarter hour equals 2/3 of a semester hour. If a student transfers from one program to another, credit approved for the other program will not automatically be transferred.

ELECTRONIC HEALTH RECORD (EHR)

All students registered for courses with a clinical/practicum component are required to complete an electronic health record (EHR) training session, if applicable to the course. Sessions may be offered either through the College or through the OSF SFMC Learning Academy. As changes to the EHR occur, students may be required to complete mandatory training regarding these updates. Training, whether it is the initial training or the update training, may require the completion of an assigned web-based training (WBT) module PRIOR to the scheduled training session. Failure to complete this WBT
will result in the student not being allowed to attend the scheduled training class, which could lead to
the student being unable to participate in the clinical/practicum experience.

If a student misses his/her scheduled initial EHR training session, he/she is responsible for attending
the next scheduled student class offered at either the College or through OSF SFMC Learning
Academy. If there are no more student classes scheduled, students should attend the next EHR session
offered by the OSF SFMC or OSF SFMC Learning Academy. Any clinical experiences the student
misses due to missing or not completing the required EHR training will be considered unexcused.

Students may be advised to withdraw from the course if unable to meet clinical/practicum outcomes.
Approved College Senate May 7, 2010

College Senate Revised 5/22/2014, 3/16/2016

COLLEGE OF NURSING HEALTH REQUIREMENTS

Mandatory Health Compliance
The College of Nursing requires all nursing students to have current proof of health safety
requirements on file uploaded on to their online health tracker account throughout their enrollment.
Students will be registering for classes prior to the start of the term, so it is important that the required
Health Records forms be submitted **no later than three weeks prior to the start of the term**.

No student may attend classroom clinical or practicum if there is a deficiency in any of these
requirements. College Senate 3/06  (See Section – Support Services, Health Nurse for more
information.)

Electronic Health Requirements

The College requires all new students to submit necessary health documentation electronically.
Students are required to pay all fees related to creating their online health tracker account.

The College uses a service that allows students to download and access their own health records
during time of study. Information is secure, tamper-proof and kept confidential. The College will
receive all the information once the student completes the requirements.

**Students are required to complete and submit the following documentation to the designated
agency:**

1) **Health History & Immunization Forms** – The forms to be completed are mailed and/or
   emailed to all students. Students will not be able to begin class until these forms are
   completed and documented.

2) **Urine Drug Test 10 Panel Results** - Saint Francis Medical Center College of Nursing is
   committed to providing a safe environment for students, patients, and employees of the
   College. Consistent with this commitment, the requirements of clinical agencies who accept
   students for the College of Nursing, and to comply with applicable State and Federal laws, the
   College of Nursing is requiring a Ten (10) Panel Urine Drug Screen on all students. The drug
   screen package must be purchased from the College selected vendor, and the cost of the drug
   screen is the responsibility of the student. The student will use the package code supplied by
   the College of Nursing to purchase the drug screen package. Results of the 10-panel urine
drug screen will be uploaded (by College selected vendor) to the student’s online health
tracker account for review by the Student Health Nurse.
   The Student Drug Screening Policy is in the Student Handbook. The policy outlines the
   steps for dealing with a positive drug screen. Students who have a positive drug screen for
non-prescribed illegal substances will be denied admission to the College. If students are already registered for courses, they will be administratively dropped from all courses.

During New Student Orientation for BSN students, students will be asked to sign a Disclosure of Information consent form that gives the College permission to share the results of the drug screen with clinical agencies upon request. Graduate students are sent an e-mail with a document to sign electronically. The student’s signature gives the College permission to share results of the drug screen with clinical/practicum agencies upon request.

3) **Copy of CPR Certification** – Certification must be maintained throughout the nursing program at the College. The College of Nursing will only accept one of the following CPR Certifications:

<table>
<thead>
<tr>
<th>Organization</th>
<th>Type of Certification</th>
</tr>
</thead>
<tbody>
<tr>
<td>American Heart Association</td>
<td>BLS provider</td>
</tr>
<tr>
<td>American Red Cross</td>
<td>CPR for Healthcare Providers</td>
</tr>
</tbody>
</table>

### Required Screening/Immunizations

In accordance with regulations of the Illinois Department of Public Health and OSF Saint Francis Medical Center, all students are required to present proof of immunity against vaccine preventable diseases prior to beginning classes at the College. All documents are to be submitted to castlebranch.com, a secure website. Uploading all of the files associated with this website is the responsibility of the student. The following screening/immunizations are necessary to help protect yourself, classmates, and patients in the classroom and clinical setting.

#### Tuberculosis screening
- If student is currently getting annual TB testing, please provide documentation for the last two years.
- If student is not currently getting annual TB testing, a “2 step TB test” is required.

#### MMR
- Provide proof of immunity to rubella, rubeola, and mumps if born in 1957 or later.
- Documentation of two measles, mumps, rubella (MMR) vaccines Documentation of a rubella titer with detected immunity.
- IF documentation of 2 MMR vaccines cannot be provided, an MMR titer (checks antibody levels to measles, mumps, and rubella). A quantitative lab report is required.

#### Hepatitis B
- The series of three injections at recommended intervals is required, or the student must provide documentation of a positive Hepatitis B antibody titer.
- If the series is greater than ten years old, a Hepatitis B antibody titer is required to detect immunity (quantitative lab report required).

- High Risk individuals who should not receive the Hepatitis B vaccine include:
  - History of Hepatitis B infection
  - Pregnant women
  - Individuals with a serious concurrent infection
  - Individuals documentation of allergy to yeast or formaldehyde
  - *The student should check with their health care provider if they are concerned regarding any of the above risks.

#### Varicella (Chicken Pox) Immunity
Due to direct patient contact in the area of high risk health conditions, the Varicella titer is expected.
- Students must demonstrate immunity to varicella (chicken pox) by:
  - A positive antibody titer (varicella titer, quantitative lab report required).
  - If antibody titer shows non-immunity, varicella booster and second titer is required.
Tetanus and diphtheria

- Tetanus (DT) must be current within the last 10 years.
- Students born outside of the United States must provide documentation of a minimum of (3) doses (DPT/Td) with at least (1) dose within the past ten years.

Td

- Proof of a one-time dose after the age of 18 is required for all students.
- Vaccine is given irrespective of when the last TD was given and can be used as the 10 year tetanus update.
- If unable to receive the vaccine due to allergy, medical condition, etc., a written note must be provided by a healthcare provider.

Influenza

- Documentation of annual Influenza vaccination or declination waiver is required of all students.
- If unable to receive a vaccine due to allergy, medical condition, etc., a written note must be provided by the student’s healthcare provider.

*Student should check with their physician if they are concerned regarding any of the above risks.*

Pregnancy Accommodations

The College adheres to all policies related to pregnancy in the Illinois Human Rights Act, Pregnancy Discrimination Act, and Americans with Disabilities Act. Please see the College Health Nurse or Dean for questions on the policy or for requesting accommodations.

Reviewed by A & P Committee: 2/26/2016
Approved by College Senate: 3/2006, 5/26/16 (see section – Support Services, Health Nurse for more information.

Student Attendance Policy

In an education program preparing professional practitioners, attendance at all classes and laboratory or clinical/practicum experiences is expected. Students are responsible for all material presented and for the completion of course requirements and achievement of outcomes. When illness or other special circumstances prevent attendance, the student is responsible for contacting the instructor to plan for meeting the outcomes. Excessive absences of greater than 10% of the required clinical hours for each clinical course, or course with a laboratory component, may impact the undergraduate student’s overall grade or result in failure of the course. An exception to the policy may be made at the discretion of course faculty. Undergraduate students may be required to make up a missed clinical experience at the discretion of the instructor. Course faculty are to maintain attendance records in order to track attendance, meet the requirements of various financial aid programs, and provide information for employment references. Students in online courses are expected to support course attendance/participation policies. Graduate students are required to notify the preceptor of an absence and to reschedule the missed practicum time.

Cardiopulmonary Resuscitation (CPR) Certification Policy

The College of Nursing requires students to have CPR certification for healthcare providers (adult, child, infant, and AED) prior to admission to the College and recertification as required by the certifying organization. The College of Nursing will accept either of the following CPR certifications:

<table>
<thead>
<tr>
<th>Organization</th>
<th>Type of Certification</th>
</tr>
</thead>
<tbody>
<tr>
<td>American Heart Association</td>
<td>BLS Provider</td>
</tr>
<tr>
<td>American Red Cross</td>
<td>CPR for Healthcare Providers</td>
</tr>
</tbody>
</table>
Certification must be maintained throughout the nursing program at the College. Students will not be allowed to attend classes or clinical practicum until certification is completed and uploaded into online health tracker account (Graduate and Undergraduate). Each student is responsible to ensure that his/her CPR certification is current and to submit current proof of certification to the online health tracker account.

Approved College Senate March 26, 2010, Revised 5/21/2015

**Student Criminal Background and Fingerprinting Check Policy**

Consistent with this commitment, the requirements of clinical agencies who accept students from the College, and to comply with applicable State and Federal laws, the College of Nursing is requiring criminal background checks on all students at the College. Students enrolled at the College who have been convicted of committing or attempting to commit certain crimes specified by applicable law may be ineligible to continue in the nursing program at the College. The College accepts the definition of criminal history background information as defined in the Illinois Department of Financial and Professional Regulation (IDFPR) Rules for the Administration of the Nursing and Advanced Nursing Practice Act 2005 Section 1300.75 Refusal to Issue a Nurse License Based on Criminal History Record, parts a, b, c, and d. Criminal history background information is defined as information collected by criminal justice agencies on individuals consisting of identifiable descriptions and notations of arrests, detentions, indictments, or other formal charges, and any dispositions; including sentencing, correctional supervision and releases.

Fingerprinting may be required by clinical agencies. The student is responsible for the cost of fingerprinting.

**Purpose**

To obtain criminal history record information on all students at the College. To review and act on issues related to positive criminal background checks of students who are enrolled in the first semester nursing course at the College. To be in compliance with clinical agencies’ requirements.

**Policy**

Saint Francis Medical Center College of Nursing is committed to providing a safe environment for students, patients, and employees of the College. Therefore, the College of Nursing requires a criminal background check using a vendor selected by the College.. Fees are the responsibility of the student. Students who receive a non-negative results on the criminal background check will be required to present a deposition of the case. If the student was convicted of a crime, the student will be reviewed by the Deans of the College. If the background check reveals a conviction, the student may be disqualified from attending the College.

**Procedure**

Conducting the Criminal Background Check:
1. Students will be notified by mail, in the admission packet, about the Criminal Background Check and fingerprinting process. Instructions on how to complete the process are provided.
2. Prior to admission, all students will contact the College selected vendor and complete a statewide criminal background check. Students may not use similar reports on file at other agencies to satisfy this requirement.
3. Students will sign the Consent to External Background Check and Disclosure of Information Form (See Appendix B) which gives the College permission to access background check results completed by the College selected vendor and share those results with clinical agencies as needed. Failure to consent to release of information or to cooperate appropriately with regard to the process shall result in the student not being able to progress in the program.
4. Omission of required information or false or misleading information provided by the student on the criminal background check or in any communication with the College may result in disciplinary action or dismissal according to the Professional Standards section in the Student Handbook.

Dealing with Non-Negative Results

1. The Dean of the Undergraduate Program will access the electronic report from the selected company.
2. Students who have a non-negative result from a Criminal Background Check will be notified immediately by telephone by the Dean and by registered mail of the positive check.
3. The Dean will meet with the student to verify if the “hit” was in error or true.
4. If a student believes the conviction is erroneous, he/she may request a fingerprint-based check. The cost of the fingerprint check is the responsibility of the student. If the fingerprint-based check reveals no criminal conviction, the student will remain enrolled in courses at the College.
5. Students will be required to submit all public documents related to the crime including records of probation and disposition.
6. The Dean will notify the chair of the Admission & Progression Committee, or the Graduate Committee for graduate students, if the student was convicted of a disqualifying offense and the case needs to be reviewed by the Admission & Progression Committee or Graduate Committee.
7. The Admission & Progression Committee or Graduate Committee will meet within 2 weeks of the notification of the positive “hit” to investigate and evaluate the “hit.” The College will use IDFPR’s standards in determining the decisions on a case by case basis.
8. The Dean will discuss the “hit” with the appropriate person at the clinical agencies. If a clinical agency denies a student placement in their facility, the student will be unable to complete the required clinical component of the course. This will prohibit the student from progressing and completing the program successfully. Thus, the student will be dismissed from the program.
9. The criminal background check results will be kept confidential. All criminal background check reports and information related to the investigation of a non-negative “hit” will be kept in a secure file in the office of the Dean separate from the student’s admission/academic file.

Reviewed by A&P 11/16/12, 5/01/15, College Senate Rev. 5/21/2015

Student Drug Screen Policy

Saint Francis Medical Center College of Nursing adheres to the policies of clinical agencies with which the College of Nursing is affiliated for student clinical learning experiences. An increasing number of clinical facilities require drug screening for all students using the clinical facilities.

Purpose

To obtain drug screening on incoming nursing students at the College. This screening is in compliance with the clinical agencies used by the College of Nursing that stipulate in the clinical affiliation agreement that drug screening be performed before students are permitted into the clinical agencies. The rationale for this requirement for students is based on due diligence and competency assessment of all individuals who are providing patient care.

Policy

Saint Francis Medical Center College of Nursing is committed to providing a safe environment for students, patients, and employees of the College. Therefore, the College of Nursing shall require a Urine Drug Screening - Ten (10) Panel as a part of the health requirements for all students who are enrolling at the College. Students will order their urine drug screen through the designated agency as a component of the College’s health requirements. The drug screening MUST be completed prior to the start of classes, but not sooner than thirty (30) days prior to the start of class. Full acceptance into the nursing program is contingent upon satisfactory results. Admission to the College will be denied to
any student with a positive drug screen for illegal substances and for those refusing to have the screening done. The student is responsible for the cost of this drug screening.

Some clinical agencies require an additional drug screen sixty (60) days prior to a clinical/practicum experience. Students are responsible for completing this additional screening in a timely manner and for the cost of the drug screen.

All drug screen information will be kept confidential.

Procedure

Conducting the Drug Screening

1. Students will be given information on the requirement of the Drug Screening with other health requirements with admission and enrollment information prior to enrolling in classes.

2. Students will sign the Consent to Disclosure of Information Form which gives the College permission to access the drug screen results in the online health tracker account and share those results with clinical agencies as needed. Failure to consent to release of information or to cooperate appropriately with regard to the process shall result in the student not being able to begin or progress in the program.

3. Students who have not completed the Drug Screening or who refuse to have the screening done by the designated due date will be administratively dropped from courses at the College.

Dealing with Positive Results

1. The appropriate Dean of the Program will access the electronic report from the designated agency.

2. Students who have a positive urine drug screen will be notified immediately by telephone by the Dean and by registered mail of the positive check.

3. Students who have a positive drug screen for illegal drugs will be denied admission to the College. If students are already registered for courses, they will be administratively dropped from all courses.

4. Students who have a positive drug screen for prescription drugs will be asked to supply proof of prescription for the medication.

Reviewed by A & P Committee: 2/26/2016
Approved by College Senate: 3/18/2016

TRANSPORTATION

Various clinical agencies are utilized by the College for student clinical/practicum experiences. Students are responsible for transportation to and from all clinical/practicum agencies and for transportation associated with course assignments.

INSURANCE

All students are expected to carry health and hospitalization insurance. All costs incurred by a student and not covered by insurance will be billed to the student.
All students registered for a laboratory/clinical course are enrolled in a group professional liability insurance plan. The premium is included in the fees.

Students using their own cars for transportation during any clinical experience may be required to show evidence of automobile liability insurance.

VISITORS IN CLASS POLICY

Only students registered for the course are allowed in the classroom, clinical, or laboratory setting. Reviewed by A & P Committee 9/26/2014, 2/26/2016

COLLEGE CLOSURE FOR SEVERE WEATHER PROCEDURES

Weather conditions often develop which require the College to consider the status of operations. These considerations involve the weather forecast, status of snow removal, class cancellations, and the maintenance of essential College services. Decisions concerning class cancellations or College closure are undertaken by the President or designated Dean in the absence of the President. The possible decisions are:

1. Full College operations including scheduled classes with campus offices and facilities operational remain in effect.
2. Classes are cancelled with campus offices and facilities remaining operational. Employees should exercise judgment in terms of travel conditions. Designated essential College staff is required to report for duty as possible.
3. An emergency closure of the College is authorized due to a severe weather emergency. Classes are cancelled and all offices and facilities are closed.

Among the options outlined above, condition 1 will apply in most circumstances. As a general rule, the College is always open. Employees and students need to decide whether travel from their location to the College will be hazardous. It is the personal responsibility of all faculty, staff, and students to make their own decisions and judgments concerning travel conditions and the danger of attending classes or coming to work under conditions which they personally believe to be unsafe. The College administration will endeavor to make the best decision possible concerning general conditions and the overall needs of the College.

A student deciding not to attend class due to severe weather when the College has not cancelled classes needs to notify the appropriate faculty or clinical unit that they will not be attending. For students, absences for severe weather conditions where policy is followed with the proper notification are deemed excused and work may be made up at the discretion of the faculty. It is the faculty’s responsibility to notify clinical sites that the College is closed and students will not be present for scheduled clinical experiences.

Online courses will proceed as scheduled. All students should check the learning management system and for emails from faculty for possible alternate assignments when the College is closed due to severe weather.

Information concerning the operational status of the College during severe weather conditions will be made available by 0600. Information will be available on WMBD Channel 31 TV, WEEK Channel 25 TV, the College Facebook page and the learning management system.

Approved College Senate 03/18/05
RESEARCH REQUIREMENT

1. Any student or member of the faculty wishing to conduct research on human subjects or anyone who would like to conduct research on faculty or students at the College, must have the study reviewed by the Saint Francis Medical Center College of Nursing Research Committee. Research involving procedures not normally a part of the regular patient care or students’ professional activities of the unit, clinic, or department must be reviewed by the College Research Committee.

a. Submission of proposals for research should be made in writing to the Research Committee by submitting the proposal to the Dean of the Graduate Program two weeks prior to the meeting date. The researcher, and the researcher’s advisor, if the researcher is a student, should attend the Research Committee meeting in order to facilitate the process.

b. Research from student investigators must provide written approval from the appropriate research advisor.

c. Investigators desiring to do research on a unit, clinic, or department must obtain written permission from the manager prior to submitting the proposal to the Research Committee and get formal approval from the Professional Nursing Council.

d. If the researcher plans to publish the findings, it is expected that the confidentiality of institution and human subjects will be respected.

e. The Research committee meets as needed and is activated by the Dean of the Graduate Program. Approval of proposals by the Research Committee is dependent upon the analysis of factors which might affect the specific unit/population involved in the investigation:
   - compliance with ethical concerns and protection of subjects;
   - the number of projects in which a group of patients or staff members is already involved;
   - the complexity of care, condition of patients, number of personal contacts and the amount of stress already affecting the patients or staff.

CHANGE IN COURSE REGISTRATION

Course registration changes are permitted without academic penalty during the first week of classes. Students should obtain an Add/Drop Form from the Office of the Registrar (or learning management system for graduate students) and secure the required signatures. After the first week, no courses may be added, and courses dropped are subject to the Course Withdrawal Policy.

Course Withdrawal

A student who wishes to withdraw from a course must request the appropriate form from the Registrar (or learning management system for graduate students) and obtain the necessary signatures. A student, who is authorized to withdraw from a course prior to the established date, will receive a grade of “W”. The student should contact the Student Finance Office to determine the impact withdrawal will have on student’s financial aid or billing statement per refund policies. Students receiving any financial aid may be subject to repayment of monies received. A student who withdraws from a course after the established date will receive a grade of “WP” withdrew passing, or “WF” withdrew failing, depending upon the level of course work at the time of withdrawal. A WF is the same as failing a course. No credit or quality points are given for either grade; however, the grade of “WF” is included in the calculation of the student’s grade point average. If the WF is a second course failure for a student, the student will be academically dismissed at the end of the semester but may continue in the other courses in which he/she is currently enrolled. Non-attendance or verbal notification to an employee
other than Registrar or Dean does not constitute a course withdrawal and will result in a failing grade. A student who withdraws from a course is no longer enrolled in the course and may no longer attend class. Undergraduate students cannot withdraw from a single course more than one time, and graduate students cannot withdraw from a single course more than twice. A withdrawal of any type from the same course that exceeds the limit will result in academic dismissal from the College. This policy does not apply to courses dropped within the official drop period.

**Withdrawal from College**

A student may initiate withdrawal from the College by due notice provided he or she is not subject to dismissal because of failure or disciplinary action. An interview with the appropriate Dean is required. The Dean should advise the student to talk with the financial aid assistant to determine the impact the withdrawal will have if the student is receiving financial aid. Students receiving any financial aid may be subject to repayment of monies received. It is the student’s responsibility to obtain the Withdrawal form from the College (or learning management system for graduate students) and the signatures of the individuals stated on the form, return all college materials to the College Support Representative (ID badge, room key and library materials as appropriate), and return the completed form to the Registrar. A copy of the withdrawal form will be given to the student’s advisor. The official date of withdrawal is the date the completed form is filed by the Registrar. Telephone messages and/or nonattendance are not official notification of withdrawal and constitute an unapproved withdrawal. A grade of “WF is assigned for unapproved withdrawals. An individual who has officially withdrawn may apply for readmission by submitting a letter of request to the President (see Readmission Policy). Readmission will be based on space available.

Revised A & P 2/27/15
Approved College Senate 5/15/2015

**Administrative Drop/Withdrawal Policy**

**Purpose:** This policy establishes guidelines for administrative drop/withdrawal of students who quit attending class or fail to meet course prerequisites. The College is committed to consistently administering course prerequisites and attendance requirements. Students are responsible to ensure that course prerequisites are met and to withdraw from a course or the College, when needed. This policy is for when the students fail to carry out the drop/withdrawal responsibility.

**Policy:** Faculty may initiate dropping a student from the College based on the following criteria:
- **Lack of attendance:** A student who fails to attend the first week of classes without prior special arrangement with the faculty.
- **Prerequisites not met:** Students who are not able to show proof that they have completed course prerequisites.
- **Excessive Absences:** Excessive absences without prior approval as determined by faculty and administration. The last day the student attended class/clinical will be considered the withdrawal date.

Administration may initiate a withdrawal of a student for non-compliance with any policy, which indicates dismissal from the course as a possible consequence.

**Procedure:** Faculty, Student Advisor, or administration will first notify the students that they do not meet course prerequisites or are in non-compliance with College policies, which specify dismissal. Students are informed that they will be dropped/withdrawn and will be given a date requiring students to contact the faculty by the set date.
- The faculty informs the Registrar of students’ non-attendance. The Registrar initiates the withdrawal form. Student signature is not required on the form, but the Registrar and Dean signatures are required.
• The Registrar Office will provide a written, certified notification letter of the withdrawal to the students and the appropriate College Offices.
• Administrative drops relating to non-attendance and course prerequisites must be done the first week of class.
• Administrative withdrawal for violation of policies with dismissal as a possible consequence may occur after the first week of the semester.
• Students may appeal the administrative drop by using the Appeal Process in the Student Handbook.

Approvals:
College Senate March 28, 2008, Rev: 5/11, 5/14, 5/21/15
Educational Affairs Committee May 13, 2008, Rev. May 2011
College Board June 20, 2008, Rev June 2011
Effective Fall 2008
Revised: 4/2011
Revisions approved by Admissions and Progression Committee 11/15/13, 2/27/15

Incomplete Policy

A grade of incomplete “I” is given only when circumstances beyond control of the student prevent completion of course requirements. To qualify for an incomplete for a theory course, the student must have completed a minimum of 75% of the course work, 75% of the class time and have a passing course grade. Undergraduate students enrolled in clinical courses must complete 75% of the hours and have a passing grade. For undergraduate students, a passing grade is “C” or better, and for Graduate students a passing grade of “B” or better is required. Graduate students enrolled in courses with a practicum must have 50% of the required hours completed. The student must obtain an Incomplete Form (from the Admission’s Office or the learning management system for graduate students) and secure the required signatures. It is the student’s responsibility to contact the course faculty to determine the exact work required to remove the incomplete and the time frame for completing the work. Approval of the course faculty and the Dean is required. The completed form should be returned to the Registrar. It is strongly recommended that incompletes be removed prior to the beginning of the next semester. The maximum time allowed to remove an incomplete is one semester. Failure to complete the requirements by the established deadline will result in the “I” grade being converted to a Withdraw Failing. Courses, which are prerequisites for the next semester, must be completed prior to enrollment in that semester. Exceptions require written approval of the course faculty and the Dean. If a student does not complete a course and does not submit an incomplete form, a grade of “F” will be assigned.

Reviewed by Admission & Progression 1/15/2016

Leave of Absence

A student who must interrupt the academic program for reasons of prolonged illness or compelling personal situations may apply for a leave of absence. The leave of absence is not to exceed one academic year. The time from the leave of absence will not be counted toward completion of the degree. Requests must be submitted in writing to the Dean. Students must be in good academic standing to be considered for approval. The fees submitted for the semester of withdrawal will be refunded according to the College Refund Policy. At least three (3) months prior to intended re-enrollment, the student must notify the Dean in writing of his/her intent to return. The student will pay tuition and fees at the rates in effect at the time of re-enrollment. The tuition and fees submitted for one semester are not transferable to another semester. The student must satisfy the conditions of the leave before reentering and must comply with all policies, requirements, and course sequence in effect at the time of reentry. Students returning from a leave of absence will be enrolled in a course based on the Course Placement Policy and space availability.

Approved 3/27/2009, Rev. 5/21/2015
Students Called to Active Military Duty

A student called to active military duty who must withdraw from the College during a semester will be subject to the following:

1. A student withdrawing during the College’s published refund period has the option of: a) receiving 100% refund of tuition and fees with the understanding that the student will pay tuition and fees in effect at the time of re-enrollment; or b) not receiving a monetary refund at the time of withdrawal with a waiver of tuition and fees for the same number of semester hours upon re-enrollment.

2. A student withdrawing after the College’s published refund period will receive no monetary reimbursement, but tuition will be waived for the same number of semester hours upon re-enrollment after completion of the service obligation. The limited course withdrawal policy does not apply.

3. A student required to withdraw for active military service will have a “WM” recorded for each course. The “WM” will be noted as “Withdrawal for Military Service.”

4. The time spent in active military service will not count as part of the five years allowed for program completion following initial enrollment.

5. A student called to active military services shall present evidence of orders requiring withdrawal.

6. A student withdrawing under this policy shall: inform the Dean of the date the service obligation is fulfilled; present evidence of discharge from active duty status; and notify of intent to re-enroll within six months of that date; with re-enrollment within one year of discharge to qualify for the tuition waiver.

ACADEMIC PROGRESSION

Undergraduate nursing students must successfully complete all prerequisite courses before beginning in the nursing major. All courses with a clinical/laboratory component within a semester of the nursing major must be completed satisfactorily before progressing to the next semester. The upper division must be completed within five years of the initial enrollment. Graduate students must complete program prerequisites (statistics) within the first 9 credit hours in order to progress.

Graduate students must complete prerequisites to courses prior to enrolling in the course, or the student must obtain written permission from the faculty teaching the course to take a course out of sequence. The Out of Sequence form can be obtained from the Registrar or from the learning management system. Students have a maximum of five years to complete all program requirements, which begins when the first course is taken. One exception is the RN to MSN option, which has a six-year time limit due to the number of credit hours required for completion of the course.

Undergraduate students must achieve a course grade of “C” or above on all courses. Graduate students must achieve a “B” or above in all courses. If a course grade of “D”, “F”, or “WF (or “C” for graduate students) is earned, the grade is unsatisfactory, and the entire course, including any clinical/practicum hours, must be repeated. The credit hours and GPA of the grade for the repeated course will be counted in the cumulative GPA. Both grades (first course grade and grade for the repeated course) will appear on the transcript. A student may only repeat a course with an unsatisfactory grade as defined above. A student earning an unsatisfactory grade in two courses will be academically dismissed. Each course may be repeated only one time. If a student earns an unsatisfactory grade in a course, the student is required to repeat the course the next time it is offered (please see course placement policy). In case of course failure, select courses may be taken at another school with written approval from the appropriate Dean prior to enrolling in the course.
The College reserves the right to dismiss a student regardless of cumulative GPA for:
1. A grade of “D”, “F”, “WF”, or “U”, or “C” for graduate students, in any two College of Nursing courses.
2. Inability to demonstrate professional responsibility in nursing practice;
3. Excessive absence. (See Attendance, Student Policy in this handbook)

The faculty reserves the right to request the withdrawal of any student whose conduct, physical or mental health, or performance demonstrates lack of fitness for continuance in the nursing profession. Any such student not voluntarily withdrawing will be dismissed. The student has the right to appeal according to the Appeal Procedure.

Revised by Admission and Progression Committee 5-2-14
College Senate Revised 5/22/2014

ACADEMIC PROBATION POLICY

Undergraduate students: A semester GPA and a cumulative GPA are calculated at the end of each semester based on College of Nursing courses only. A student whose semester or cumulative GPA falls below 2.0 will be placed on academic probation. The semester and cumulative GPA must be raised to 2.0 by the end of the next semester. Academic probation is limited to one semester in the entire nursing program. Failure to raise the semester or cumulative GPA to 2.0 as required will result in academic dismissal.

Graduate students: A semester GPA and a cumulative GPA are calculated at the end of each semester based on College of Nursing courses only. A graduate student whose semester or cumulative GPA falls below 3.0 in any one term is automatically placed on probation. Any student placed on probation will receive written notice from the Registrar. Graduate students on probation are expected to meet
with their academic advisors. Failure to attain good academic standing after one semester may result in dismissal from the College.

Undergraduate students on academic probation will be required to complete an evaluation of learning needs through the Academic Development Center (ADC). Based on the evaluation, the student may be required to continue to work with ADC faculty to improve academic performance. Failure to meet with ADC faculty and/or follow through with recommendations could result in dismissal from the BSN program.

Procedures:
1. Students receiving a semester or cumulative GPA lower than 2.0 will be notified in writing by the Registrar of their placement on academic probation and requirements to be met in order to stay in the BSN program.
2. The ADC faculty and student advisor will be notified of the academic probation status by the Registrar.
3. The student will be responsible for contacting ADC faculty and setting up an appointment for evaluation within the first two weeks of the semester of academic probation.
4. The ADC Faculty will notify Dean of the Undergraduate Program, advisor and registrar if the student does not schedule an appointment within the first two weeks of the semester of academic probation. The Dean will follow up with the student.
5. Failure to comply with an ADC evaluation within the first two weeks of the semester could result in dismissal from the program.
6. Based on the recommendations of the ADC faculty, the student may be required to continue working with ADC faculty and/or counseling staff at the College.
7. The student’s status will be reevaluated at the end of a semester of academic probation.
8. If the student has a semester or cumulative GPA of 2.0 or greater, they may continue in the BSN program. If the student has not been able to raise their semester or cumulative GPA to a minimum of 2.0 they are dismissed from the BSN program.

Moving to a Different State
Students are responsible for notifying the Dean of the appropriate program, in a timely fashion, of their intent to move to a different state. The Dean will inform the student if the College is authorized to provide distance education in the new state.

TIME LIMITATIONS FOR COMPLETION OF GRADUATE PROGRAM
Students are expected to maintain continuous enrollment in the academic program. Students have a maximum of five years to complete all program requirements, which begins when the first course is taken. One exception is the RN-MSN option, which has a six year time limit due to the number of credit hours required for completion of this option. Periods of time on official leaves of absences do not count in the time to completion. Extensions may be granted when circumstances warrant. A student must request an extension in writing to the Dean of the Graduate Program. The request must specify the reason for an extension and an expected date of completion. Extensions will not ordinarily exceed one year. The maximum extension is two years. A student who withdraws and is later readmitted is not automatically granted additional time to complete the degree. The Dean of the Graduate Program will review each situation individually. Ordinarily, each extension requires the students to be enrolled in at least one credit hour per semester. Tuition and fees will be paid by the student at the rate for that semester.
Health Education Systems, Inc. (HESI) Exams Policy

Purpose:

To ensure student success in an academic environment that promotes a tradition of excellence in nursing education and enable the achievement of our success measure of “NCLEX pass rates will be maintained at 90% for the first time writer.”

Objectives:

1. To foster a tradition of excellence in nursing education by use of a test with documented reliability and validity enabling the prediction of the student’s ability to successfully complete the program and pass the NCLEX-RN EXAM.
2. To provide students experience in testing in a computer environment as occurs with the NCLEX-RN EXAM.
3. To provide students immediate feedback upon completion of the achievement tests.
4. To provide faculty advisors data to assist advisees in developing a successful plan of study in preparing for the NCLEX-RN EXAM.

Scope:

This academic testing policy covers all students prior to attending the College, at the completion of the J-2 academic semester as well as at the completion of the S-2 academic semester.

Definitions:

1) Evolve Reach, powered by Health Education Systems, Incorporated (HESI) is a testing company that has products to help students pass the NCLEX-RN exam. Questions are developed by experts to reflect questions on the actual NCLEX-RN exams, and all items have evidence-based reliability and validity to ensure accurate measurement of test scores and prediction of NCLEX-RN examination success. Immediate diagnostic reports are provided to identify areas that need further study.
2) Admission Assessment (A2) assesses academic readiness and identifies the student’s learning style. Remediation is included. The A2 is used for assessment purposes only.
3) Our Mid-Curricular (MC) Exam, a custom made test developed by HESI, was constructed based on the first half of our curriculum and allows for a comprehensive evaluation of students’ knowledge after the Junior year in the BSN curriculum. A HESI on-line nursing tutorial and remediation program, will be used for those students who do not meet the benchmark score on the MC exam to provide assistance in their identified areas of need.
4) The Exit Exam (E2) evaluates student readiness for the NCLEX-RN exam, with predictive accuracy of 98.5%. Remediation is also available for this exam.

General Guidelines:

- The A2, MC and E2 are all required exams.
- Students will take all HESI exams via computer at an off-campus site.
- The A2 will be taken prior to the beginning of the first semester. The MC and E2 exams will be taken at the end of the semester. Dates, times, and location of testing for the MC and E2 are available to students by mid-semester.
- Students are responsible for scheduling a testing time and providing their own transportation to the testing site.
- Students will know their results immediately following completion of the test.
- Students will complete a confidentiality statement at the time of HESI test taking, as these are secured exams.
• All HESI tests include free remediation.

Mid-Curricular (MC) Exam

The MC exam reflects the curriculum of the junior year at the College.
• If the student does not attain the required 900 HESI score, the student will identify areas of weakness from his/her HESI exam. The student will do this by reviewing the exam results sent to the student in an email from HESI. The student may contact his/her advisor if any questions arise regarding HESI remediation.
• Students will be required to complete HESI remediation if the benchmark score of 900 is not achieved.
• Students must complete all of the required remediation no later than 9 AM on the Wednesday prior to the beginning of classes for the next academic term.
• Successful completion of the HESI mid-curricular exam is a prerequisite to Conceptual Basis for Nursing III. Successful completion is defined as achievement of a HESI score of 900 or greater or completion of assigned remediation.
• The College may administratively drop the student from Clinical Nursing III if the assigned remediation is not completed as required.
• This is a required college test. Failure to take the exam during the scheduled time is regarded as attaining less than the satisfactory score and the student will be required to complete the required remediation.

HESI Exit Exam (E2)

• The Exit Exam is a part of the course grade for Conceptual Basis to Nursing IV Theory course. Students will not be allowed to retake the E2 for the purpose of improving their course grade.
• Students are highly encouraged to complete remediation to improve performance on the NCLEX exam.

Revised and approved by Admission and Progression Committee 5-2-14
College Senate Revised 5/22/2014

Retention

The retention program of the College of Nursing begins with the policy of accepting those students for admission who can be expected to successfully complete the program. Thereafter, student retention is facilitated through positive student interactions with faculty members in supportive, caring relationships. Faculty strives to be actively interested, approachable, available and accessible to students.

Student involvement with faculty promotes an environment conducive to learning, fosters the development of self-esteem and self-actualization, and encourages intellectual inquiry. Positive interactions with faculty members contribute directly to student persistence in obtaining their degrees.

Retention is promoted when faculty expectations of students are realistic, consistent, and clearly understood by both parties. A variety of teaching strategies encourage student interest and participation. Retention is further facilitated when students receive early and frequent feedback regarding their academic progress. Frequent meetings with academic advisors provide opportunities to develop supportive faculty/student relationships, solicit student feedback, and direct students to resources available for academic or personal assistance.

Support services foster program completion through contributions to student health and welfare. Good health practices are encouraged and assistance with health problems is available. The Counselor provides individual counseling, which includes teaching time and stress management skills, relaxation skills especially those related to test anxiety, and positive coping skills. The Academic Development
Center (ADC) provides individual assistance to students, as well as group sessions. Presentations on study skills and test taking skills, which are open to all students, are offered each semester. Language services for English language learners (ELL) students are also available. Resident Assistants (RA), the Students Offering Support group (SOS), and the Peer Teacher Program provide peer connectedness and support, which promotes retention for undergraduate students. The availability of financial assistance and financial literacy counseling through the Financial Aid Office further facilitates retention.

A & P Approved Changes 11-21-14
College Senate Rev. 3/23/2012, 5/21/15

Readmission – BSN

Students in good academic standing who have not enrolled in the College of Nursing within the last semester must notify the Director of Admissions/Registrar in writing of intent to return. An interview with the Director of Admission/Registrar and the Student Finance Representative may be required. Re-enrollment will be based on space available.

An individual who has officially withdrawn or has been dismissed may apply for readmission by submitting a letter of request to the President of the College. An interview with the Dean of the appropriate program is required. The individual will provide rationale for readmission and evidence of probable ability to complete the program satisfactorily. Following the required interview, on the recommendation from the Dean of the appropriate program, the Admissions and Progression Committee, or Graduate Committee for graduate students, will act on the request. The individual has the opportunity to attend the meeting of the Admission and Progression Committee/Graduate Committee with his/her former advisor, the College Counselor, or other member of the College faculty. The support person’s role is limited to moral support, and the support person is not allowed to speak at the meeting. Recording of the meeting is not allowed. Readmission will be based on individual consideration of previous performance, space available and the clinical course placement policy. The decision of the Admission and Progression Committee/Graduate Committee is final.

An individual accepted for readmission must meet the conditions for readmission stated in the readmission letter from the College. The student is subject to all policies, requirements, and course sequences in effect at the time of reentry. The student will pay tuition and fees at the rate in effect at time of re-enrollment. The College reserves the right to refuse to readmit any student at any time, if deemed necessary, in the interest of the student or the College.

Approved 1/16/2009, Revised 5/21/15

Change in MSN or DNP Option

Masters or doctoral students wishing to change options (majors) must submit the Request for Change in MSN or DNP Option form (located in the learning management system) no later than the second Friday of classes following the start of the fall, spring, or summer session. Approval of option changes are based on space and resource availability, and the earliest a student could begin the curriculum for the new option is the following semester. Once the Dean of the Graduate Program receives the form and analyzes the situation, the student will be notified by e-mail of acceptance or denial of the request. Students whose request is denied may choose to stay in the current option or leave the program.

Approved 1/16/2009, Revised 5/21/15

Approved 1/16/2009, Revised 5/21/15

Student Distance Learning Policy

Scope: This policy establishes definitions, standards, requirements, and procedures related to distance learning. It defines the roles and responsibilities of students, faculty, administration, and the Instructional Design and Technology Specialist. It also includes procedures and requirements for the management of the Learning Management System (LMS). Saint Francis Medical Center College of Nursing uses eCollege as its Learning Management System.

Approved 1/16/2009, Revised 5/21/15
**Purpose:** It is the purpose of the College to adapt to the changes in learning and education by integrating technology into its curriculum. This integration involves blended learning environments for traditional undergraduate classroom courses and predominately online courses for all graduate degrees.

**Policy Statement:** Saint Francis Medical Center College of Nursing recognizes the advantages provided by technology and the ever changing student body. The College of Nursing is committed to providing the resources, standards and guidelines needed to support distance education. This policy recognizes the importance of student services, academic freedom, and supports policies relating to instruction. The policy serves as the authoritative guide for all decisions relating to planning, implementing, administering, and evaluating distance education.

**Procedures:** The sections include definitions and procedures related to administrative, academic concerns, and site management.

**Administrative**

**Definitions**

**Distance Learning:** Saint Francis Medical Center College of Nursing defines distance learning as a course whose delivery is predominantly online. This physical separation is bridged through the use of technology. Learning can take place synchronously, asynchronously, or a combination of both. Content delivery methods may include audio, video, computer technologies, internet, wireless communication devices, conferencing, DVDs, and CDs. Through interactivity students will create a connection between themselves, faculty, and their classmates. All students are accountable for their own learning and are expected to collaborate with faculty and other participants. Faculty members are responsible for creating safe and engaging environments for students to learn and interact while facilitating learning events. This is congruent with the mission and philosophy of the College.

**Blended or Hybrid Learning:** involves the integration of online educational elements (as described above) into a traditional face-to-face course. Blended or Hybrid courses are taught in the traditional classroom setting and use a Learning Management System to distribute syllabi and course materials along with the integration of other features such as journaling, grade book, threaded discussions, dropbox, and email, which may replace inseat class attendance. All students are accountable for their own learning and are expected to collaborate with faculty and other participants. Faculty members are responsible for creating safe and engaging environments for students to learn and interact while facilitating learning events.

**Traditional Learning:** involves courses that deliver content in the classroom, clinical, and may include web-enhanced activities that do not replace classroom attendance. Courses with the predominate amount of instruction occurring in clinical settings with both the instructor/preceptor and student at the same place at the same time are considered traditional courses. All students are accountable for their own learning and are expected to collaborate with faculty and other participants. Faculty members are responsible for creating safe and engaging environments for student learning and interaction while facilitating learning activities.

**Learning Management System (LMS):** is the software program used to deliver courses to students through the online format. The LMS used by Saint Francis Medical Center College of Nursing is eCollege.

**Student Information System (SIS):** is a software program used for maintaining student records which contain the student’s name, address, courses, and grades. The SIS used by Saint Francis Medical Center College of Nursing is SonisWeb.
Areas of Responsibility

The College Board, administration, faculty, and students share in determining the desirability and the feasibility of using distance learning systems. The College Board oversees the resources and implementation of the program. The Deans collaborate with the designated faculty, the Curriculum Committee, Graduate Committee, and College Senate to appropriately assign courses delivered online. The faculty assures the rigor of the program and quality of instruction by retaining responsibilities for the curriculum, course development, implementation, evaluation and revision of the program. The Faculty agrees with the 1999 AAUP Statement on Distance Education, which asserts the fundamental principle that:

As with all other curricular matters, the faculty should have primary responsibility for determining the policies and practices of the institution in regard to distance education. The rules governing distance education and its technologies should be approved by vote of the faculty... and published and distributed to all concerned.

Students enrolled in distance learning courses will be expected to comply with course requirements. Administration will approve and oversee technology acquisition and allocation of funds to support technology needs and provide academic, clerical, and technical assistance and provide faculty time for adequate preparation for course delivery. Administration will ensure that appropriate library resources and student support services are available, based on need. The Instructional Design and Technology Specialist will serve as support for the distance learning courses and/or programs offered through the distance learning equipment.

Accountability

All students are accountable for their own learning and are expected to collaborate with faculty and other participants. Faculty members are responsible for creating safe and engaging environments for student learning and interaction while facilitating learning activities.

Copyright and Intellectual Property

Refer to the policy on Copyright and Intellectual Property.

Academic Concerns

Academic Honesty

Students taking distance learning courses are held to the same requirements of academic honesty as students taking traditional courses.

Refer to Professional Conduct Policy.

Distance Learning Education

The College has a commitment to prepare faculty, staff, and students to use distance technology. To fulfill this commitment, those members participating in the delivery of distance learning and hybrid/blended courses will be provided educational opportunities in technology, equipment, and methodologies to enhance online courses. In addition, education will be provided as changes and
updates to distance education take place. Education will occur both on campus and online in the forms of workshops, tutorials, and individual education.

**Site Management**

**Technical Considerations**

The College assumes the responsibility for the technical delivery of the course and technical support. Faculty is responsible to have sufficient technical skills to present the subject matter and to assume final responsibility for the presentation of the content as approved by the College Senate.

**Student Access to LMS and Courses**

Students will be given access (course opened) to the LMS and their course one week prior to the semester’s first class. Students will be batch loaded into the LMS one week after faculty has been provided access and/or upon confirmation from faculty that the courses are copied correctly. Students will have access to their enrolled courses until two weeks following the end of the semester. It is the student’s responsibility to maintain copies of their course materials for use in their portfolios. Semesters will be closed two weeks following the end of a semester. Due to software limitations no access will be granted to closed semesters or courses.

**Non-Instructional LMS Use**

The OSF Community semester is a non-instructional semester. The courses in this semester were created as a way for faculty, staff, and students to communicate and share with each other. The creation of Semesters and courses within the LMS is the responsibility of the Instructional Design and Technology Specialist. The maintenance of these semesters and courses are the responsibility of its users. Faculty members are responsible for updating and maintaining the files that they add to the community. Documents in Doc Sharing more than 3 years old may be removed by the Instructional Design and Technology Specialist. Requests for non-instructional LMS semesters and courses are to be made to the Instructional Design and Technology Specialist using the SBARO tool. Approval of the non-instructional semesters and courses will be made by college administration.

**Availability of Assistance**

Support is provided by the Instructional Design and Technology Specialist, Saint Francis Medical Center helpdesk, and the OSF Healthcare Online helpdesk. The availability of OSF Saint Francis Medical Center’s helpdesk is 24/7 and provides support for College hardware and software. OSF Healthcare Online helpdesk is available 24/7 and provides support for eCollege issues. Support from the Instructional Design and Technology Specialist is during normal business hours and consists of assistance for hardware, software, and eCollege issues along with course design questions.

**Authentication and System Integration**

The Instructional Design and Technology Specialist will create a user account for each user who needs access to the LMS. The users first and last name, birth date, and email address will be required to create a user account. The username will be set to the users Student Information System (SIS) ID. The password will be their 6 digit birth date in the MMDDYY format. Users will not be allowed to change their password. Users are responsible for maintain a current email address in the LMS and SIS.
**System Security Policy**

LMS (eCollege) and SIS (SonisWeb) are secure password protected systems. User IDs and passwords should not be shared. Only the user assigned a particular ID and password should utilize that ID and password to access these systems.

**PRECEPTOR POLICY AND PROCEDURE**

The policy of the College of Nursing is to provide supportive, faculty supervised clinically-based learning experiences necessary to prepare qualified entry level and advanced practitioners to work in a variety of health care settings. The Preceptor Handbook establishes the College of Nursing guidelines for using qualified masters prepared Registered Nurses (RNs) as preceptors to assist with clinical instruction. The handbook defines the roles and responsibilities of faculty, students, and preceptors. This policy applies to qualified Masters in Nursing RN preceptors and student relationships that are consistent and last an extended period of weeks. In designated courses the student will work under the direct clinical instruction of the preceptor who will guide and monitor student learning. The faculty retains the responsibility for student’s instruction and supports both the student and preceptor by providing their expertise to ensure that the learning experiences meet the course/clinical objectives. The preceptor and the faculty member collaborate in planning, monitoring, and evaluating the student. The policy does not apply to students who are assisted in the clinical area by different RNs each clinical day.

**Procedure:** The course faculty member has the responsibility to evaluate and recommend the clinical agency that will meet the course objectives. Administration will ensure that an agency agreement is established with the agency, including statement about the use of a preceptor. The faculty:

- Works with the student to select an appropriate preceptor that meets the approval criteria.
- Provides the preceptor with an orientation to the College, the course, clinical instruction, and guidelines outlined in this Handbook.
- Ensures that student’s goals are established with specific measures to meet the goal.
- Visits/contacts the agency on a regular basis (a minimum of three visits) to monitor and provide guidance to the preceptor.
- Collaborates with the preceptor to organize, implement, and evaluate the clinical experience and the student.
- Conducts the clinical evaluation sessions with students.
- Student may obtain a copy of the Preceptor Handbook online.

**ACADEMIC AWARDS**

**Dean’s List**

Undergraduate students who have achieved a grade point average (GPA) of 3.4 and above for the semester and who are enrolled in at least 12 semester hours are honored by being named to the Dean’s List. This list is published in the Medical Center newspaper and released to the press at the end of each semester. Students receive an individual certificate of achievement.
Graduation Honors

Undergraduate:
Graduation recognition and honor cords for undergraduate student academic performance is based on the following cumulative GPA:

- **Summa Cum Laude**: 3.85 - 4.00
- **Magna Cum Laude**: 3.70 - 3.84
- **Cum Laude**: 3.55 - 3.69

Master’s Student Graduation Honors:
The MSN students graduating with a cumulative GPA of 3.75 or higher will receive recognition and honor cords for “Graduating with Distinction”.

Graduation Awards

Undergraduate:
The College of Nursing established two awards for graduating seniors for the purpose of acknowledging and fostering a commitment to the ideals of professional nursing. The “Excellence in Nursing Award” recognizes a basic graduate and the “Nursing Achievement Award” recognizes an RN graduate. Seniors who have a minimum cumulative grade point average of 3.0 are eligible to be nominated for these awards. Nominees are considered on the basis of involvement and contribution to the College and community, enthusiasm, leadership, caring, positive attitude, and professional role model. Candidates are nominated by the faculty and selected by the Admission and Progression Committee.

College Senate Approved 1/16/2009, Reviewed by A&P 11/21/2014, Revised 5/21/2015

Graduate:
The College has an award for the outstanding MSN graduate. The criteria for the Sister M Ludgera Memorial Award for Outstanding Masters in Nursing are as follows: 1) High academic achievement as evidenced by graduating with distinction, 2) Excellent leadership abilities demonstrated by serving as a positive role model to others, willingly mentoring/tutoring other graduate students, and innovative approaches to issues, 3) Professionalism is shown by maintaining integrity, high ethical standards, and by being an asset to the profession of nursing, 4) Demonstrating a consistently positive attitude and a willingness to go “above and beyond”.

Approved 1/16/2009, Reviewed by A & P Committee 11/21/2014

GRADUATION
Degree Granted
Upon successful completion of the prescribed program, a degree is awarded-a Bachelor of Science Degree in Nursing (BSN), Master of Science Degree (MSN) or Doctor of Nursing Practice (DNP) as appropriate. Graduation exercises are held in December and May. Students are encouraged to attend the ceremony. All students expecting to graduate must apply for graduation by a specified date.

Graduation Requirements-BSN
To be eligible for the Bachelor of Science Degree in Nursing, a student must:
1. Have a final semester GPA of at least 2.0
2. Have a cumulative GPA of 2.0 or better.
3. Successfully complete the prescribed curriculum of 123 semester hours for RN to BSN or 124 semester hours for BSN.
4. Meet all requirements of the College of Nursing
5. Earn a minimum of 30-31 semester hours of credit on campus.
6. Provide official transcripts of any courses taken outside the College during the nursing major.
7. Complete the "Application for Graduation". (See Student Handbook for application process)
8. Meet the requirement of specific financial aid programs for an exit interview as applicable.

In the last semester of the nursing major, all students are expected to participate in comprehensive examinations which assist in preparing students for the licensure examination. Individual results are used in academic advising. The overall group results of the examinations are used by faculty in program evaluation.

**Graduation Requirements-Graduate Program-MSN or DNP**

To be eligible for the MSN or DNP degree, a student must:
1. Have a final semester GPA of at least 3.0.
2. Have a cumulative GPA of at least 3.0.
3. Successfully complete the prescribed curriculum within 5 years. (6 years for RN-MSN)
4. Meet all requirements of the College of Nursing.
5. Earn the specified number of required semester hours for the enrolled program of study as stated in the Residency Requirements.
6. Provide official transcripts of any courses taken outside the College during the program.
7. Complete and submit the Application for Graduation (See Student Handbook for application process).
8. Meet the requirement of specific financial aid programs for an exit interview as applicable.

Approved 1/16/2009

**Graduation Application Process**
At the end of the semester prior to graduation, Admissions personnel send a memo to the undergraduate students regarding graduation costs including NCLEX-RN EXAM fees, the fingerprinting fee, and the graduation fee. Admissions personnel also send a memo to graduate students about the graduation fee so all students will be informed and able to budget for the expenses related to the final semester of the program. The graduation fee pays for the student’s nursing pin (if applicable) and the cap, gown, tassel, and hood (if applicable).

The Applications for Graduation Forms are available in the Admissions’ Office and under docsharing in the Undergraduate or Graduate Community in the Learning Management System. The Application for Graduation form must be signed by the student and then submitted to the Registrar’s Office during the designated course registration dates. The MSN students must have their academic advisor sign the form verifying they have completed the courses required for graduation. All students must meet graduation requirements as stated in the Saint Francis Medical Center College of Nursing Catalog in order to graduate. Students must clear all financial obligations with the College of Nursing in order to assure the release of the diploma and final transcript.

7/07

**Criminal Background Check and Fingerprinting Prior to Graduation for Premise Students**
Section 60-10 of the Nurse Practice Act requires applicants for initial licensure (Registered Nurse) to submit to a criminal background check as part of the qualifications for licensure.

All individuals applying for initial licensure as a Registered Nurse in Illinois must submit to a criminal background check and provide verification of fingerprint processing from the Illinois Department of State Police, or its designated agent, for fingerprint processing. This service is provided at the College
of Nursing for students within sixty (60) days of application for licensure. If unable to attend this session, students should contact the approved vendor or Illinois State Police to schedule an appointment. Each applicant will be provided a written receipt from the vendor or State Police once they have been printed. This receipt must accompany the examination application and fee in order for the applicant to be scheduled for the examination and receive their examination approval letter. The cost of fingerprinting and the background check fee will be the responsibility of the student.

Revised and approved by Admission and Progression Committee 2/27/15, Approved College Senate 5/7/10, 5/21/15

Licensure
The practice of professional nursing requires a current, valid license in the state in which employed. After receiving the baccalaureate degree, graduates are eligible to take the examination for licensure as a registered professional nurse. College Administration will provide information for the National Council Licensure Examination for Registered Nurses (NCLEX-RN EXAM).

The Illinois Application for Licensure requires all applicants to answer truthfully a section titled "Personal History Information" which includes the following five questions:

*1. Have you been convicted of any criminal offense in any state or in federal court (other than minor traffic violations)?
*2. Have you had or do you now have any disease or condition that interferes with your ability to perform the essential functions of your profession, including any disease or condition generally regarded as chronic by the medical community, i.e., (1) mental or emotional disease or condition; (2) alcohol or other substance abuse; (3) physical disease or condition, that presently interferes with your ability to practice your profession?
*3. Have you been denied a professional license or permit, or privilege of taking an examination, or had a professional license or permit disciplined in any way by any licensing authority in Illinois or elsewhere?
*4. Have you ever been discharged other than honorably from the armed service or from a city, county, state or federal position?
*5. Are you a U.S. citizen OR a lawfully admitted alien of the United States?

*An applicant who answers "yes" to one or more of the first four questions must submit specific additional documentation with the application.
For further information or questions, please contact the President or Dean of the Undergraduate Program.

Transcripts
Transcripts are issued upon written request of the student. The fee for each transcript is $3.00. Transcripts will be issued only to individuals in good financial standing with the College of Nursing.

Graduation Pictures
Each semester graduating seniors will be notified of available dates and times to have their senior pictures taken. The College currently works with a local vendor. Around the fourth week of the semester, a notice will be sent from College Support Representatives outlining the details for pictures.

PROFESSIONAL CONDUCT

1. Students MUST maintain professional confidentiality. Patients should not be discussed in the cafeteria, public places, at social functions, or with family and friends.
2. Students may not give information concerning patients or the clinical agency to newspaper reporters, lawyers, insurance agents or others not connected with the clinical agency. Refer these people to the instructor or appropriate person at the clinical agency.

3. Undergraduate students may not sign as a witness to legal documents (ie. Wills, Power of Attorney), baptisms, marriages, surgical/procedural or autopsy permits/consents.

4. Students must observe OSF Saint Francis Medical Center or clinical agency regulations when visiting patients on a social basis. Students may not use their privileges as nursing students to access clinical areas or client information. Students are not to read patient records or provide care when visiting.

5. Students must promote a quiet environment in patient care areas.

6. Students may use telephones in clinical agencies for professional purposes only and not for personal calls.

7. In order to maintain compliance with federal laws regarding immediate notification of emergency events, students will be allowed to keep their cell phones with them during classroom and clinical instruction. The phones are to be kept on the vibrate mode and are to be used ONLY for emergency notification and not for other types of personal communication. Faculty reserves the right to dismiss the student from the learning experience for inappropriate cell phone usage.

8. The student, when answering a clinical agency telephone, identifies the agency, unit and gives both name and title.

9. Students, with authorization of the instructor, may use the public address system or audio pagers of the clinical agency.

10. Students should conduct all communications with physicians, patients and employees in a professional manner. Physicians are not to be called without first consulting with the instructor/preceptor.

11. Students shall report to the instructor/preceptor when arriving on the nursing unit/agency and when leaving.

12. Students shall report any broken or defective equipment or supplies to the instructor or appropriate clinical agency personnel.

Revised and approved by Admission and Progression Committee on 1/17/2013, 11/17/2015

Ethical and Professional Conduct Policy

**Scope**-The Ethical and Professional Conduct Policy establishes guidelines for faculty to use in cases of academic dishonesty, including cheating on tests and plagiarism, and unethical clinical behavior.

**Purpose**-The purpose of the Ethical and Professional Conduct Policy is to “uphold our responsibility to create, maintain, and contribute to environments that support the growth of virtues…such as honesty” (American Nurses Association Code of Ethics 6.1), to support Saint Francis Medical Center College of Nursing (the College) values of integrity and justice, and to hold students accountable for professional and moral behavior expected of nurses.

**Detailed Policy Statement**-As a community dedicated to the principled pursuit of knowledge and truth, the College regards integrity and honesty as foundational to all aspects of education and the
nursing profession. We understand ethical and professional conduct in terms of five fundamental values: honesty, trust, fairness, respect, and responsibility (Center for Academic Integrity, 1999). The College thus expects the following of its students, faculty, and staff:

- “Intellectual and personal honesty in learning, teaching, research, and service” (p. 5).
- “Mutual trust and the free exchange of ideas” (p. 6).
- “Respect of a wide range of opinions, ideas, and persons” (p. 8).
- “Fairness in the interaction of students, faculty, staff, and administrators” (p. 7).
- “Personal responsibility for choices and the importance of action in the face of wrong doing” (p. 9).

This policy was based upon the assumption that most students want to grow and flourish in the following values. Therefore, the CON invites students to commit to the following habits of excellence appropriate for professional formation and which establish a foundation for professional development. The professional nurse:

- Seeks the formation of one’s character through the development of the virtues of wisdom, honesty, courage, compassion and patience (American Nurses Association, 2001).
- Communicates respect for the inherent dignity of persons (peers, patients, and faculty/staff/administration) as the basis for compassionate responses.
- Preserves, strengthens, and demonstrates personal moral respect and integrity as foundations of wholeness of character, in the formation of knowledge, skill, and trust.
- Recognizes and appreciates diversity of persons and seeks to grow in habits of effective and excellent communication and collaboration.
- Interprets and accepts this SFMC-CON Honor Pledge and commitment as an orientation toward the American Nurses Association (ANA) Code of Ethics.
- Practices moral self-reflection so as to appreciate the promise of accountability and responsibility in the life of the student nurse, which links each classroom/learning activity to the professional care of patients.
- Lives moral virtues and follows ethical principles (autonomy, beneficence, justice and autonomy) within a learning community which seeks to also live the core values of OSF (teamwork, supportive work environment, trust, and stewardship).

Definitions:

Academic honesty constitutes behaviors that demonstrate truthfulness, trust, fairness, respect, and responsibility in academic and clinical settings (Center for Academic Integrity, 1999).

Academic dishonesty consists of activities such as cheating on examinations, plagiarizing, presenting someone else’s work as his/her own, receiving improper assistance on assignments, and intentionally facilitating cheating on the part of others (Elzubeir and Rizk, 2003).

Plagiarism- “In an instructional setting, plagiarism occurs when a writer deliberately uses someone else’s language, ideas, or other original (not common-knowledge) material without acknowledging its source” (Council of Writing Program Administrators, 2003, p.1).

Misuse of Sources-“A student who attempts (even if clumsily) to identify and credit his or her source, but who misuses a specific citation format or incorrectly uses quotation marks or other forms of
identifying material taken from other sources, has not plagiarized. Instead, such a student should be considered to have failed to cite and document sources appropriately.” (Council of Writing Program Administrators, 2003, p. 2).

“Cheating— an act or an attempted act of deception by which a student seeks to misrepresent that he or she has mastered information that has not been mastered. Cheating includes, but is not limited to:

- Copying all or any portion of another’s academic or clinical work and submitting it, in part or in its entirety, as one’s own;
- Allowing another person to copy one’s own academic or clinical work—whether intentionally or recklessly;
- The use or possession of a class textbook, notes, test questions, clinical paperwork or any other material in order to complete or prepare academic [or clinical] work without prior approval of the faculty;
- Collaboration with any other person on an academic or clinical exercise, including collaboration on a take-home, online, or make-up academic [or clinical] exercise without prior approval of the faculty;
- The use of electronic instruments, such as cell phones, pagers, Personal Digital Assistants (PDA), or personal response systems (i.e. clickers), etc. in order to access or share information without prior approval of the faculty; or
- Completion of academic [or clinical] work for another person, or permitting someone else to complete academic or clinical work for oneself, including through the use of personal response systems such as clickers” (University of Delaware, 2010).

Fabrication or Falsification of Data— “constructing observations or data out of one’s head, as if it were true, or borrowing the observations of others as if they were one’s own genuine data” (Yale College, 2010).

Multiple submissions— “submitting the same work, such as a paper, (or substantially the same work) for more than one assignment or course” unless approved by course faculty (Yale College, 2010).

Unethical Clinical Behavior— behavior that is dishonest, may put the client’s safety and best interest at risk, or disadvantages the healthcare institution. Some examples include but are not limited to: failing to act as a patient advocate, breaching confidentiality, stealing, falsifying documentation, or coming to clinical under the influence of drugs or alcohol (Hilbert, 1985).

Violations of academic honesty will result in disciplinary action. Actions will include, but are not limited to, one or more of the following:

- Automatic failure of the work
- Automatic failure of the course
- Dismissal from the College

Saint Francis Medical Center College of Nursing Honor Code

As member of the community at Saint Francis Medical Center College of Nursing, I commit myself to act honestly, responsibly, and ethically, in all aspects of campus life. I am accountable for all that I say, write, and do. I am responsible for integrity in my academic work and ethical behavior on clinical units. I pledge that I will not misrepresent my work, and I will not give or receive aid without prior approval by faculty. I commit myself to behave in a manner which demonstrates concern for the personal dignity, rights, and freedoms of all members of the community. I am respectful of College and Medical Center property and the property of others. I will not tolerate lack of respect for these values. I accept responsibility to maintain the Honor Code and support the mission of OSF-SFMC and SFMC-CON at all times (Wheaton College, n.d.).
I. Responsibilities

A. Student Responsibilities

- The College expects integrity from its students in all aspects of student life including both academic and clinical work. The ultimate responsibility for understanding and adhering to the Ethical and Professional Conduct Policy lies with the student.
- Students are responsible for maintaining academic honesty and ethical clinical behavior by (St. Olaf, n.d.):
  - Refraining from cheating and plagiarism as defined.
  - If unsure, asking for clarification regarding working with others on an assignment or the use of resources to complete the assignment, etc.
  - Participating equitably in group projects.
  - Exhibiting integrity in fulfilling the requirements of the clinical experience, including truthful reports of student activities and patient care.
  - Reporting observed instances of academic dishonesty or unethical clinical behavior to the instructor or the appropriate Dean.
  - Acknowledging knowledge and acceptance of the expectations encompassed in the Ethical and Professional Conduct Policy.

Undergraduate

- Honor Pledge
  1. Initial Pledge-During new student orientation, students will receive a copy of the Honor Code Pledge. Students will sign a form indicating that they have read the Honor Code Pledge and agree to abide by the Honor Code. Graduate students are sent an e-mail with a document to sign electronically. The student’s signature indicate the student agrees to comply with the honor code.
  2. Renewal of the Pledge-Students will demonstrate acceptance and adherence to the Honor Pledge by signing a form at the same time they sign the HIPAA form. Graduate students are sent an e-mail each semester with a document to sign electronically. The student’s signature indicate the student agrees to comply with the honor code.

- Professional and Ethical Behavior Education
  - New students will review the five educational modules found in e-College including: (a) Civility and the Common Good, (b) Overview of the Policy, (c) Plagiarism and the Use of Sources, (d) Academic Honesty, and (e) Ethical Clinical Behavior. There is one posttest that incorporates content from each of the modules, which the student must pass with at least 77%. For undergraduate students, the results of the post-test will be included as part of the Health Assessment course.
  - Graduate students must complete the modules and pass the test with a 77% within 30 days or risk being locked out of the College’s learning management system.
  - Students are not allowed to make up work due to being locked out of learning management system.

Revised and approved by Admission and Progression Committee 11/15/2013, 11/17/2015
College Senate Revised 05/30/2006, 05/22/2014, 3/18/2016

Professional Standards

Students enrolled at Saint Francis Medical Center College of Nursing are expected to follow a code of behavior in keeping with the standards of the College of Nursing. Students shall comply with all rules and regulations of the College, cooperating agencies, and with local, State, and Federal laws. Failure to do so shall constitute misconduct. Misconduct is subject to discipline, up to and including dismissal from the College. Any violations of the professional standards set forth below will be referred to the appropriate person/committee: College Administration, the Admission & Progression Committee,
Graduate Committee or the Judicial Board. Disciplinary action will include but will not be limited to: reprimand, fines, loss of dorm/study room privileges, probation, suspension, or dismissal from the College. Any of these disciplinary actions may be utilized without following a specific disciplinary sequence when a single incident or event is determined serious enough to warrant such action in the sole discretion of the College, or a pattern of behavior, actions or omissions has been established that violates such professional standards. A student who is disciplined based on professional standards, other than receiving a reprimand, shall have the right to an appeal, as set forth in the College’s Disciplinary Action Appeal Procedure.

1. Abuse, malicious misuse, damage, destruction or theft of College property or property of others.
2. Violation of local, State or Federal law.
3. Unauthorized entry into, occupation of, or obstruction of any building, structure, or part thereof at any time and anywhere on campus.
4. Failure of identification when requested by an authorized official or by a faculty member when such action is in compliance with the rules and regulations of the College or cooperating agencies.
5. When logging in, the student must use the appropriate login. For example, when the student is in the student role, the student should login as a student, and when the student is in the role of an employee, the student should login as an employee.
6. Violation of any duly established rules and regulations of cooperating agencies.
7. Violation of the:
   a. Confidentiality policy/HIPPA
   b. Drug/Alcohol policy
   c. Professional Conduct policy
   d. Campus Community Life policies, including no smoking policy
   e. Violations of the fire policy
8. Falsification of any document, statement, patient or health care record or College document.
9. Violation of the Academic Honesty policy or any form of academic dishonesty.
10. Physical abuse, threats, harassment or endangerment in any manner of the health and safety of any person connected with the College or cooperating agencies including any act of dating/domestic violence, sexual assault, and/or stalking.
11. Any act which causes a disruption in the harmony of the College environment, cooperating agencies or any College sponsored event.

Revised and approved by Admissions and Progression Committee on 3/21/2014, 11/21/2014, 11/17/2015
College Senate Revised 5/22/2014, 5/21/15, 3/18/2016

Health Insurance Portability and Accountability (HIPAA) Statement

All Protected Health Information (PHI) is held in strictest confidence. It is your responsibility as a student not to violate this confidence through indiscriminate discussion pertaining to other students, patients, physicians, or facility employees and their treatment or progress, without authorization. Any unauthorized disclosure of PHI is a violation of the law and the College of Nursing Professional Standards for students (See Handbooks).

All persons accessing the information systems of any clinical agency or facility are prevented by law from willfully and wantonly disclosing confidential information. Confidential information includes, but is not limited to patient or client demographic or clinical information and financial information. Disclosure of information violates the Health Insurance Portability and Accountability Act of 1996 and the Illinois Public Act 94-0526. It is also a violation of the College of Nursing Professional Standards (See Handbooks). The protection of PHI does not end when the student leaves the College through graduation or for other reasons. Students, who violate or continue to violate confidentiality may be dismissed from the College.
Students will be required to participate in an education session on security awareness before having access to patient records. Students may only access patient medical information that is pertinent to their nursing care activities.

1. In preparation for classroom, clinical, or practicum experiences, students are not to put protected identifiable patient data into a personal electronic device and/or use any means of electronic or paper copying of the patient health record.

2. Students are not allowed to print patient information from the electronic medical record or to copy and paste information from the electronic medical record into their clinical paperwork. Students are only to print off the hand off communication sheet and are to destroy it prior to leaving clinical.

3. Assignments with protected patient identifiable information will not be posted at the College or sent by email to students because of the inability to ensure the security of personal computers and networks.

4. Electronic Health Record security identifications, access codes and passwords are strictly confidential. If these security identifications, access codes and passwords involve PHI, they may not be shared with anyone. It is strictly prohibited to use valid log on information via electronic communications or misrepresent data by maliciously transforming it in print. Students must log in with their student log in (not an employee login).

5. Students conducting research will have to follow agency policies and protocols for recruiting patients for the research study. Students doing research involving personal identifiable health information must complete the CITI education as required by the Peoria Community Institutional Review Board (IRB). Research informed consent documents must include the required HIPAA language related to protection of subjects’ personal health information.

6. Some examples of inappropriate actions:
   a. Discussion of patient information in public areas.
   b. Repeating patient information to friends and/or relatives when information is learned during the course of the college curriculum.
   c. Accessing patient information without “a need to know”, this includes accessing your own health information.
   d. Asking about patient information without a need to know.

7. Students should not provide any information to the media.

8. Students must sign a Confidentiality Agreement each semester they are enrolled at the College. The signed agreement will be kept on file in the office of the appropriate Dean. Graduate students are sent an e-mail each semester with a document to sign electronically. The student’s signature indicate the student agrees to comply with the confidentiality/HIPAA policies.

9. When communicating about patients in post conference, utmost care should be given to protect the confidentiality and privacy of PHI.

**OSF HealthCare Confidentiality Agreement**

This Agreement is entered into at the time of, in consideration for, and in connection with the issuance of a user name and security password by OSF HealthCare to the individual named below (“User”) which will enable them to access confidential and sensitive information. The protection of the privacy, security and confidentiality of information is a matter of concern for all persons who have access to confidential and sensitive information. Each person accessing this information holds a position of trust relative to this information and must recognize the responsibilities entrusted to them in preserving the privacy, security, and confidentiality of this information.
Confidential and sensitive information is defined as: patient information, health plan member information, employee information, financial information, and/or business information. Confidential and sensitive information may be accessed in a variety of ways including: the OSF electronic information systems or paper records.

Users will not use or disclose the contents of any record or report except as necessary and appropriate and as permitted by federal, state, and local laws and to comply with all applicable policies of OSF HealthCare. This includes both paper and electronic records. Furthermore, it is recognized that confidential and sensitive information will only be disclosed to those authorized to receive it.

Electronic Users hereby agree:
1. To undergo training and orientation to the electronic information system designated by OSF prior to using a Password.
2. That I am the only person with access to my User ID and Password and the only person authorized to use this User ID and Password.
3. That I will not under any circumstances convey or disclose my User ID and/or Password which has been assigned to me by OSF to another person, except Service Center staff during problem resolution. Following the service call, I agree to promptly change my password.
4. That my Password and electronic signature code combination is the equivalent of my signature and that I am accountable for all entries and actions recorded under them.
5. That I will not attempt to access any information including confidential or sensitive information by using a Password other than my own.
6. That I will authenticate each report and entry separately and only after verification of the accuracy of its content.
7. That I am responsible for locking or logging out of the information systems prior to leaving the area and that I will not leave a display device that I have logged onto unattended.
8. Upon my termination from employment or upon the termination of my relationship with OSF, or the revocation or termination of this Agreement, or the revocation of my assigned Password, I will not attempt to access any information including confidential and sensitive information from the OSF information systems by using my assigned Password or any other Password required to access such information.

All Users agree:
1. That I will complete Privacy and Security training during orientation and at other times specified by OSF.
2. That I will use any information, including confidential and sensitive information only as needed to perform my legitimate duties. This means among other things that:
   • I will only access any information, including confidential and sensitive information that is necessary for the performance of my job.
   • I will not in any way divulge, copy, release, sell, loan, review, alter, or destroy any information including confidential and sensitive information except as properly authorized within the scope of my job duties.
3. That I will report any suspected privacy or security violations to my immediate supervisor as soon as possible.

Revised CON Confidentiality policy to match SFMC. Approved by A and P on 5/2/2014, 11/17/2015
Guidelines for Use of Social Media

This social media policy (Social Media (143)) applies across the OSF Healthcare System, which includes employees and students at the College of Nursing. The wording is written for employees, but students will be held to the same social media policy as employees and must also comply. The College of Nursing also follows the guidelines on social media and networking for nurses developed by the American Nurses Association (ANA) and the National Council of State Boards of Nursing (NCSBN).

Definitions:

Social Media: Any website or forum that allows for open communication and sharing of information on the internet including, but not limited to:
- Social Networking Sites (LinkedIn, Facebook);
- Micro-blogging Sites (Twitter);
- Blogs (including company and personal blogs);
- Video and photo-sharing websites (YouTube, Flickr, Instagram)

Purpose:

To provide guidelines to all OSF Healthcare System employees, Providers, volunteers, and students who participate in the use of Social Media.

Policy:

1. Always be fair and courteous to fellow employees. The content of any personal social networking sites or other forums maintained by employees should not contain malicious, obscene, defamatory, threatening, harassing, or libelous information or materials, and should not infringe on any intellectual property rights, invade the privacy of others, or contain content that is illegal or injurious to another person. Harassment, bullying, discrimination or retaliation that would not be permissible in the workplace is not permissible between co-workers on-line.

2. Keep in mind that you are more likely to resolve work-related complaints by speaking directly with your co-workers than by posting complaints to a social media outlet.

3. Make sure you are always honest and accurate when posting information or news, and if you make a mistake, correct it quickly. Remember that the Internet archives almost everything; therefore, even deleted postings can be searched. Never post any information or rumors that you know to be false about OSF Healthcare System, its employees, or its patients.

4. Social media activities should be consistent with the OSF Standards of Conduct. The same principles and guidelines found in all OSF policies apply to your activities online. Carefully read all of OSF Healthcare System’s ethical and discrimination/harassment rules in order to ensure that your postings are consistent with these policies.

5. Employees should only express personal opinions, recommendations or endorsements on social media. Where your connection to OSF Healthcare System is apparent, make it clear that you are speaking for yourself and not on behalf of OSF Healthcare System. In those circumstances, you should include this disclaimer: "The views expressed on this [blog; website] are my own and do not reflect the views of my employer." If the site has an "About me" section, add the above disclaimer to your blog or social media profile. Do not create a link from your blog, website or other social networking site to an OSF Healthcare System website without identifying yourself as an OSF Healthcare System employee.

6. Do not share confidential or proprietary information that you acquire in the course of your employment with OSF Healthcare System. Examples of confidential or proprietary information include protected health information (as defined by HIPAA), information about prospective OSF...
business plans, trade secrets, systems, processes, products, know-how, technology, internal reports, policies, procedures, or other internal business-related confidential communications. Maintain patient privacy as required by HIPAA and all other relevant rules, regulations and policies. Be aware that protected health information includes any information that could be used to identify a patient, such as a diagnosis, a procedure or a room number, even if the patient's name is not used.

7. Unless explicitly given permission to do so by your operating unit's Marketing and Communications Department, do NOT speak on behalf of OSF Healthcare System or represent yourself as a spokesperson for OSF Healthcare System.

8. Social media activity should not interfere with your work commitments, professional relationships and performance. Limit the use of social media during working hours or on equipment provided by OSF Healthcare System to that which is work-related and authorized by your supervisor.

9. Clinicians should utilize OSF Healthcare System approved educational clinical references.

10. Do not use OSF provided email addresses to register on social networks, blogs or other websites for personal use.

11. Caregivers are discouraged from interacting with patients and their families on Social Media to maintain professional boundaries and the therapeutic relationship.

12. Respect all copyright and other intellectual property laws. For OSF Healthcare System's protection as well as your own, it is critical that you show proper respect for the laws governing copyright, fair use of copyrighted material owned by others, trademarks and other intellectual property, including OSF Healthcare System's own copyrights, trademarks, and brands. If your social media activity has a commercial purpose, your social media name, handle, email address and URL should not include an OSF Healthcare System name or logo.

13. Any OSF HealthCare employee who abuses the Social Media Policy is subject to the Positive Discipline Policy.

The College follows the guidelines on social media and networking for nurses developed by the American Nurses Association (ANA) and the National Council of State Boards of Nursing (NCSBN) as outlined below.

**ANA’s Principles for Social Networking and the Nurse**

- Nurses must not transmit or place online individually identifiable patient information.
- Nurses must observe ethically prescribed professional patient-nurse boundaries.
- Nurses should understand that patients, colleagues, institutions, and employers may view postings.
- Nurses should take advantage of privacy settings and seek to separate personal and professional information online.
- Nurses should bring content that could arm a patient’s’ privacy, rights, or welfare to the attention of appropriate authorities.
- Nurses should participate in developing institutional policies governing online conduct.

**ANA’s 6 tips to Avoid Problems**

- Remember that standards of professionalism are the same online as in any other circumstance.
- Do not share or post information or photos gained through the nurse-patient relationship.
- Maintain professional boundaries in the use of electronic media. Online contact with patients blurs this boundary.
- Don’t make disparaging remarks about patients, employers, or co-workers, even if they are not identified.
- Do not take photos or videos of patients on personal devices, including cell phones.
- Promptly report a breach of confidentiality or privacy.
The College of Nursing also recommends review of the NCSBN white paper, “A Nurse’s Guide to the Use of Social Media” found at https://ncsbn.org/Social_Media.pdf.

Students must adhere to all clinical agency policies regarding confidentiality, as well as use of social media. Inappropriate use of social media is a violation of the College’s Professional Standards policy related to confidentiality and HIPAA located in the Student Handbook.

Violations of the Professional Standards will be referred to the appropriate person/committee: College Administration, the Admission & Progression Committee, Graduate Committee, or the Judicial Board. Disciplinary action will include but is not limited to: reprimand, fines, suspension, or dismissal from the College.

Dress Code General Guidelines

Our behavior and the behavior of others is influenced by our dress and appearance. College of Nursing students are expected to present a professional, appropriate appearance. All clothing/uniforms must be neat and clean, properly fitted, and meet the course specific requirements. Attire should not be revealing and undergarments should not be visible (From General Guidelines of OSF Dress Code, Personal Appearance and Grooming Guidelines HR Policy 115).

I. Clinical Clothing Policies:
1. Students will wear white, opaque tops or dresses and navy blue pants or skirts. Undergarments must be white/beige and opaque in color. Uniform tops must extend below waist. Uniforms may include pants, dresses, jumpers, split skirts, and jump suits. Knit tops, Henley, mock-turtlenecks, turtlenecks, short or long sleeved polo shirts, in high quality material are acceptable. All skirts/split skirts must be below knee length. White lab coats may be worn with the student uniform on the clinical area.
2. The school emblem must be sewn on the deltoid left sleeve of all uniforms and lab coats.
3. Items of clothing that are not acceptable are as follows:
   A. T-shirts, sweatshirts, hoodies, sleeveless tops, crop tops or tank tops.
   B. Low necklines
   C. Sheer or see-through material
   D. Blouses, sweaters or tops with messages
   E. Shorts
   F. Leggings, stretch pants, nylon sport pants or sweatpants
   G. Jeans or jean style pants
   H. Capri pants, flood pants, no pants above the ankle, or printed pajama pants
4. Hosiery/socks
   A. Hosiery/socks must be plain white
   B. Women’s full-length hosiery will be worn with dresses, skirts, culottes, and jumpers
5. Shoes
   A. All white closed toe vinyl/leather shoes are required; clogs with heel straps may be worn.
   B. Shoes may contain manufacturer’s insignia in subdued color

October 2010
6. When not giving direct client care, but within the clinical area, the student must wear his/hers personal name badge and a lab coat over professional dress clothes.

7. When caring for patients with Psychosocial Problems: Specific clothing guidelines will be presented during course orientation.

8. When caring for pediatric patients:
   A. Pediatric print tops or lab coats may be worn on the pediatric units.
   B. Students may wear conservative blouses/tops and jewelry for two weeks prior to the holidays of Halloween, Thanksgiving, Christmas, Valentine’s Day, St. Patrick’s Day and Easter.
   C. When working with neonates, specific guidelines will be discussed during the course orientation.

9. When caring for patients in the community
   A. Navy blue ankle length pants or below the knee skirts; solid light blue or white polo shirts, navy or white cardigan sweater or white lab coats.
   B. Dark shoes; navy or black preferred. Should be low heel. Loafers are acceptable. Boots may be worn during winter months.
   C. Navy, black or tan hose.

10. Graduate students in outpatient offices will dress appropriately for the site. For example, if the Masters or doctorally prepared nurses at the site wear scrubs, the graduate student should dress similarly. If the preceptor wears professional dress clothes and a clean lab coat, the student should dress similarly. The lab coat should have the Saint Francis patch on the left shoulder of the sleeve. Students should always dress conservatively in accordance with the dress code of the College.

II. Grooming Guidelines
1. Good personal hygiene is expected of all students.
2. Neat and clean uniforms/clothing must be worn each day. All clothing must be appropriate for your size and not be tight or sloppy.
3. Hair must be neat, clean, controlled and worn off the collar in such a manner as not to cause potential contamination to clients or present a safety hazard. Hair ornaments must be small and conservative. Hair color must be of a natural tone. Headwear if required for safety or religious practices must be plain and unadorned.
4. Male students are expected to be clean-shaven or wear neatly trimmed mustaches, sideburns, and beards and not greater than two inches in length. Beards may not be appropriate for jobs requiring personal protective equipment.
5. Fingernails are to be neatly manicured and of reasonable length (less than ¼ inch beyond the fingertip). Nail polish may be worn. Nail polish is to be free of chipping. Dark colors (purple, black, blue, orange, green) are not appropriate. Artificial nails or enhancements are not allowed. Anything applied to natural nails other than nail polish is considered an enhancement. This includes, but is not limited to, artificial nails, tips, wraps, appliqués, acrylics, gels and any additional items applied to the nail surface.
6. Tattoos must be concealed and covered unless contraindicated per clinical agency policy.
7. Fragrances (male and female) must be used sparingly so as not to be offensive to others. Presence of smoke odors which may be offensive to others are prohibited.
8. Make-up may be worn in moderation as appropriate for professional appearance.
9. Gum chewing is not allowed in the clinical areas.
III. Accessory Guidelines
1. Bandage scissors, a black ink pen, penlight, stethoscope and a wristwatch with a second hand are required when in uniform.
2. No more than 2 small post-type earrings per ear may be worn with the student uniform. No hoop earrings are allowed. Wedding, engagement and pre-engagement rings are acceptable jewelry. Chokers, necklaces and neck chains are not allowed.
3. Body piercing ornaments worn during work shift (rings in nose, tongue, lips, eyebrow, etc) are inappropriate and not allowed.
4. Pins, buttons, and other adornments that are OSF related are allowed on lab jackets provided they are kept to a minimum.

IV. Name Badge Guidelines
1. Name badges as supplied by the College of Nursing will be worn by all students while on campus and at the clinical experience.
2. Name badges will be worn with picture facing out and worn in a visible location in the shoulder/chest area.
3. Name badges will be free of any pins, stickers, or adornments so that our clients can clearly identify students.
4. The badge is to be replaced if it is damaged or lost at the student’s expense.
5. Students must wear their own name badge.
6. The plastic badge displaying the words Nursing Student is to be placed behind the name badge with no other badges to be worn when in the student role i.e. employee badge.

V. Classroom, Library, Cafeteria, and Public Area Guidelines
1. Name badge must be worn at all times within the Medical Center complex, including public areas of the College facility.
2. Street clothing (not sleepwear) must be worn in all public areas of the College facility (Ground, 1st, 2nd, 6th, and 7th floors).
3. Attire that is offensive or in poor taste is not allowed.
4. Footwear must be worn in all public areas (Ground, 1st, 2nd, 6th, and 7th floors).

NURSING RESOURCE CENTER PRACTICE LAB POLICY

Purpose
To provide students with an opportunity to learn and practice clinical skills, decision making, and priority setting in a structured environment with faculty guidance and assistance.

Objectives:
1. To foster a tradition of excellence in nursing education by use of a safe, structured, faculty/RN staff-supervised setting in which students can learn and practice clinical skills, decision making, and priority setting.
2. To provide students experience with hands-on clinical skills, decision making, and priority setting, including use of simulation equipment and participation in the simulation scenario experience.
3. To provide students with immediate feedback following practice or proficiency of a skill, as well as provide a debriefing session following participation in the simulation scenario.

Scope
This policy covers all students utilizing the practice labs at each level of their nursing education.

Sign up process
Students will sign up for practice time in the lab online using the lab sign up link accessible via student eTools on the College of Nursing website. Students are only to sign up for themselves. Students are required to sign up at least one (1) hour prior to the practice session they would like to attend. If a student has signed up for a practice session and cannot attend, he/she is expected to cancel their reservation by 0800 the day of the scheduled practice. If a student is more than 10 minutes late for a scheduled lab practice, he/she will forfeit the practice time and be required to reschedule on a different day. If a student signs up for a lab session and does not show up without cancelling prior to the lab time, his/her clinical instructor will be notified of the occurrence and there may be an associated effect on the student’s grade, depending on individual course policy. If the student does not show up a second time without prior notification, he/she will be required to schedule any further practice or proficiency time for the semester through the Nursing Resource Center (NRC) Coordinator. Students that are sent to lab for remediation are to contact the NRC Coordinator.

Lab utilization for practice and proficiency
The lab is to be utilized for skill practice and proficiency. During practice lab sessions students are not to use the time for individual or group work related to the theory portion of any class. Students are not allowed to practice and proficiency a skill or attempt to re-proficiency in the same day.

Use of reference material
Reference material is available in the labs for student and faculty use. Reference material cannot be signed out.

Equipment sign out
Equipment sign out is at the discretion of the NRC Coordinator. The student should contact the NRC Coordinator with specific requests. A specific sign out form will be utilized and it is the student’s responsibility to return the equipment to the NRC Coordinator at the agreed upon day/time. If the student fails to return the equipment by the agreed upon time, he or she will not be allowed to borrow equipment from the lab in the future and will be required to pay the cost of the equipment. Simulation equipment cannot be signed out.

Lab Maintenance
Everyone is responsible for keeping the labs neat and in order, including cleaning counters and putting equipment away before leaving the lab for the day. Furniture is to remain in the original location. Dirty linen should be put in the blue bags and placed in the linen bin outside the Basic Skills lab door.
Computer use

Computers at each bedside are to be used only as task stations during clinical sessions and for practice and proficiency as required by instructors. The computers are not to be used during practice lab time for personal use.

Children in the lab

Children of any age are not allowed in the practice lab.

Conduct in the lab

Professional behavior is expected as described in the student handbook under Professional Standards.

Practice lab faculty have the authority to ask students to leave a lab due to lack of professional behavior. In the event of such an occurrence, practice lab faculty involved will notify the NRC Coordinator. Discipline for infractions with respect to professional behavior will be handled according to College policy as outlined in the Student Handbook. Students are required to wear their ID badge and closed-toed shoes during any practice lab session. If the student comes to the practice lab without an ID or closed-toed shoes, he/she will be asked to leave and will need to reschedule the practice session. Food or drink is not allowed near computers, simulation equipment, or at the bedside but is acceptable in the classroom area of the lab. Students may practice with the simulation mannequins, but faculty members are the only ones who are allowed to manipulate the settings. **Students are not allowed to be present/practice in the lab without faculty supervision.**

Use of student lounge and kitchen

Students will be respectful of the lounge and kitchen by keeping these areas clean and picked up. Food placed in the refrigerator or freezer is to be labeled with the student’s name. Food is not to be left in the refrigerator overnight.

Student Orientation

Lab use as well as policies and procedures will be discussed during orientation week.

College Senate Reviewed/Approved 3/18/2016

**STUDENT APPEAL PROCESS**

**Student Appeal Procedure**

The student has the right to appeal grade reports, course or clinical grades that result in academic probation or dismissal from the College, or decisions where there is reason to believe that they were capricious, discriminatory, arbitrary, or in error. Dissatisfaction with a grade is not a sufficient reason to appeal the grade. In order to provide a mechanism for the fair resolution of disagreements, the College has developed an Appeal Procedure for students. Students have the right to appeal grades, academic or student policies, and disciplinary action resulting from violation of academic or student policies. All parts of the Appeal Procedure will be private and all persons present will consider all information presented to be confidential. However, if the student discloses information discussed during a meeting, the student’s interest in the confidentiality will be deemed waived.
The student has the right to appeal any decision. At either a Student Appeal or a Disciplinary Action Appeal, a student is entitled to be accompanied at the hearing by a fellow student, parent or representative, who may be an attorney.

I. Academic Appeal Procedure

The student initiating an appeal should be prepared to document evidence for the appeal. At this time, the student may seek the assistance of the academic advisor. Appeals should be settled at the lowest possible level. A student appealing a grade may continue in the academic program during the review process unless there is reason to believe such continuance would jeopardize the well-being of the student or others. The appeal should be initiated within ten (10) business days after the grade is issued by the Instructor or Registrar. If the specified time limits are not met by the student, the issue shall not be subject to further appeal. Each appeal step listed below must be accomplished before proceeding to the next step. The decision at each step will be documented.

1. The student should make a sincere effort to resolve the issue with the instructor assigning the grade or faculty member in charge of the course.
2. If the issue is unresolved, the student should submit a written request for a meeting with the appropriate Dean within ten (10) business days. If the appropriate Dean is the instructor assigning the grade, the written request should be submitted to the other Dean. The request shall specify the nature of the issue and attempts made to resolve the issue. The Dean shall meet with the student within ten (10) business days of the receipt of the request. The student is given adequate notice in writing at this step and all subsequent steps of the date, time, and place of the meeting. The Dean makes a decision which resolves the issue or recommends that it is taken to the Admission and Progression Committee or the Graduate Committee (for graduate students).
3. If unresolved, the student submits a formal written appeal to the Admission and Progression Committee or Graduate Committee chairperson within ten (10) business days of the meeting with the Dean.
4. The student and instructor shall be given due notice of the date and time of the Admission and Progression Committee or Graduate Committee Meeting. The meeting will be held within ten (10) business days of the student’s request. The President will not be in attendance at the arranged Committee Meeting. Each party may present evidence or witnesses to the issue. The committee may question each party. Following a period of closed deliberation, the decision of the Committee will be forwarded in writing to both parties and the President within three business days following the meeting.
5. If the decision of the Committee is unacceptable to the student or instructor, either may file a written notice of intent to further appeal to the President within three (3) business days of receipt of the decision.
6. The President shall have a maximum of ten (10) business days to call a meeting of both parties to resolve the situation. The President will review all current records or documentation relating to the appeal. No new documentation may be introduced at this time. If necessary to avoid undue hardship or injustice to either party, the President may extend the ten (10) day limitation.
7. The President may approve or reverse the decision of the Committee.
8. The written decision of the President shall be sent to both parties and the appropriate Dean no later than three (3) business days following the appeal meeting.
9. The decision of the President shall be final.

II. Disciplinary Appeal Procedure

For the appeal process regarding disciplinary actions, the disciplinary appeal procedure set forth below will be used.
**Judicial Board**

A Judicial Board is formed to act on cases of violations of the Student Code of Conduct/Professional Standards. (See Professional Conduct)

The Judicial Board shall consist of:

1. Three faculty members.
2. Chairperson shall be a faculty member elected by the Board.
3. Two students selected by the Judicial Board.

The faculty representatives will be elected as provided in the by-laws of the College Senate. A quorum of the Board shall consist of all members. Disciplinary actions may include: reprimand, fines, disciplinary probation, suspension, or dismissal. Disciplinary action of the Judicial Board is not limited to these categories. All decisions require a majority vote except for dismissal or suspension, which require an affirmative vote of at least four.

In the event the College recommends suspension or dismissal of the student, such suspension or dismissal shall be put on hold during the appeal/hearing procedure set forth below. Only if the recommendation of suspension or dismissal is based on violation of Professional Standards which places students, faculty, patients or any other person in immediate harm or danger will the student be suspended during the appeal/hearing procedure. In no event, will the student be dismissed from the College until the President has rendered a final decision under the disciplinary appeal procedure.

**Appeal/Hearing Procedure**

1. The student must submit a written request to appeal within five (5) business days of receiving such a disciplinary action. The written request must be accompanied by rationale for a hearing to the President within five (5) business days of receipt of the decision. If such a written request is not received within such five-day period by the President, the student will be deemed to have waived his/her right to appeal, and the disciplinary action will stand.
2. The President shall call a meeting of the Judicial Board within ten (10) business days. The student may request in writing a postponement for ten additional business days in order to prepare for the hearing. The student will be notified in writing in advance of the date, time, and place of the meeting.
3. The Judicial Board shall meet to review and/or hear the case and render a decision. If the student does not appear at the scheduled time, unless such nonappearance is based on exigent circumstances, in the sole discretion of the Judicial Board, the appeal will be dismissed.
4. The hearing will be held on an informal basis and, if attorneys are involved, shall not be conducted according to the rules of law/evidence. Both parties may call, examine and cross-examine witnesses who voluntarily agree to appear on behalf of the participant calling such witness. Re-examine and re-cross are not allowed.
5. The Judicial Board may request in advance that both parties or their representatives, present an opening oral statement outlining the position of each party and what each party hopes to show with its evidence. The Judicial Board may add any other procedural rules, such as written statements prior to or after the Hearing. At the Judicial Board’s sole discretion, the hearing may be adjourned and rescheduled.
6. Within five (5) business days after the adjournment of the hearing, the Judicial Board will prepare a written recommendation which will be immediately forwarded to the student and the President.
7. If the Judicial Board’s recommendation is adverse to the student, and the student desires further appeal, he/she shall submit a written request for an appeal, including rationale, to the President within five (5) business days of receipt of the Judicial Board's recommendation. If the Judicial Board’s recommendation reverses or reduces the severity of the College’s
disciplinary action, the appropriate Dean, on behalf of the College, may submit a written request for an appeal, including rationale, to the President within five (5) business days of receipt of the Judicial Board’s recommendation.

8. Upon such appeal the President may discuss the case with any witness, the student, any member of the Judicial Board, or any other person. In any event, the President will review the information provided to the President by the Judicial Board. The President may affirm the recommendation or send the recommendation back to the Judicial Board to reconsider either an increase or reduction in the severity of the Disciplinary Action. The Judicial Board shall determine what manner of reconsideration it shall use, such as a rehearing, interviewing or re-interviewing a witness(es), reviewing the record or merely reviewing its recommendation.

9. If the President affirms the Judicial Board’s recommendation, the decision of the President shall be given to the student and the College within five (5) business days, and such decision is final with no further appeal.

10. If the recommendation is sent back to the Judicial Board for reconsideration, the Judicial Board, after its reconsideration, will submit a final recommendation to the President. The President may affirm or revise the reconsidered recommendation. The Dean’s decision will be final, with no further appeal.

Revised by College Senate 5/22/2014, 3/18/2016
Revised by Admission and Progression committee 11-17-2015

STUDENT LEADERSHIP

RESIDENT ASSISTANTS (RA)

The Resident Assistant will work closely with students occupying dorm/study rooms at Saint Francis Medical Center College of Nursing. Responsibilities include policy enforcement, student accountability, information referrals, reporting facility needs and organizing activities for students residing on campus.

Resident Assistant Position Description

I. Information, Communication and Resource Referral

a. Handles information concerning staff/or students with the utmost confidentiality.

b. Be familiar with the Saint Francis Medical Center College of Nursing campus and community services. Serve as a resource person for students and make appropriate referrals.

c. Facilitate students' interactions during floor meetings and all dorm meetings to keep students informed of all pertinent campus information and deadlines.

d. Interpret, communicate and enforce maintenance, safety, emergency and housing policies and procedures.

e. Establish and enforce courtesy hours and other dorm floor regulations.

f. Assist Administration, Faculty, and Support Staff in identifying needs of students and any related implementation.

II. Community Building

a. Be visible, available and approachable to residents.

b. Get acquainted with all students on the dorm floors. Be aware of their personal, social and academic concerns.

c. Strive to develop a sense of community among residents by organizing Floor Meetings and All Dorm Meetings.
d. Organize and/or support College of Nursing, Student Senate, Student Nurse Association, social, recreational, and educational activities. Attend and be active in dorm and College functions.

III. Maintenance and Safety

a. Conduct a weekly inspection and report needs of assigned floor. Report needed repairs according to established procedure. Clean kitchen when on-call with help of other students. Clean refrigerator and freezers when on-call during the week-end.

b. Prepare and maintain dormitory records as assigned.

d. Understand and familiarize residents with community safety, emergency and fire evacuation procedures.

IV. Limit Setting and Residential Safety

a. Know, enforce and be able to explain CON’s Building Rules and Regulations.

b. Respond reasonably and rationally to emergency situations.

c. Encourage students to take responsibility for their own actions.

d. Enforce behavioral standards and emphasize the concept of common courtesy and consideration for others according to Campus Life in the Student Handbook.

e. Refer recurring disciplinary matters to the Counselor as stated in Building Rules and Regulations.

f. Report and document in a neat, timely and orderly fashion all incidents and situations which threatens the health, safety and security of residents. Complete an OSF Incident Report and give to the Counselor.

g. Adhere to fire safety evacuation procedures for the area.

h. Model appropriate behavior at all times.

V. Administrative

a. Complete assigned paper work and administrative tasks.

b. Provide assistance in the College when necessary.

c. Assist in maintaining furniture inventory, control and records.

d. Assist with semester opening and closing procedures per On Call schedule.

e. Assist with Open Houses and Orientations.

f. Complete all other duties as assigned.

VI. On Call Duty Responsibilities

a. Participate in a rotating, on-call duty schedule: week nights, Saturday, Sunday, and some holidays. (See On Call Schedule in Counselor’s office.) The On Call schedule starts the week prior to the first day of classes, and ends at 12 noon the Sunday after the last Friday of each semester. There are 3 RA Teams, each with 2 students. One team will be on call at all times. RA’s are responsible for their assigned floors each week and help as needed with any emergency. The On-Call RA’s are in charge of emergencies.

b. The responsibilities of the On Call RA’s include:
   • Remaining on OSF campus and accessible during assigned on call time.
   • Being the CON contact person in case of emergencies
   • Security pager – Security will page the RA On-Call to inform when there is a student at one of the entrance doors needing into building.
   • Fire alarms/drills – open gate behind the College and follow Fire Evacuation Procedures.
   • Storm pager – coordinates Black and Gray alerts
• Clean kitchen with help of other students.
  c. Follow all other duty procedures/policies as outlined.
  d. Arrive before students move in and remain after the closing of the dorms to assist in opening
     and closing procedures.

VII. Other duties as assigned.

VIII. Personal Development

  a. Attend all meetings and trainings. If unable to attend a scheduled RA meeting, the RA will
     notify the college counselor by 12:00 pm (noon) on the day of the meeting. The RA must
     make an individual appointment with the Counselor.
  b. Maintain a positive attitude towards residence life and the College
  c. Be committed to the needs of the College and the students of SFMC CON
  d. Other duties as assigned.

IX. Minimum requirements:

  a. Demonstrates mature and responsible behavior.
  b. Uses an assertive/professional communication style.
  d. Must have an overall GPA of 3.0, and maintain a semester GPA of 3.0. A semester GPA of
     below 3.0 will result in loss of the RA position, giving the student more time to devote to
     studying. The RA turns in a copy of his/her GPA for each semester to the Counselor.

A total of $2,250.00 RA Waiver per semester will be given to students fulfilling the RA position. The
$2,250.00 will be applied to their student account to help meet educational costs. In the event the
student does not fulfill the RA agreement, an amount will be prorated based on the level of
fulfillment.

X. Selection of RA’s:

The Counselor notifies the student body through emails and College of Nursing bulletin boards
during Spring Semester for interested students to submit applications and two reference letters for
the next academic year. A deadline date for submitting the forms is stated. The Counselor and the
Assistant Dean of Support Services review the applications and reference letters. The Assistant
Dean of Support Services and Counselor interview the applicants together. The Counselor meets
with the Assistant Dean and the President before making a final decision. The Counselor notifies
all of the applicants of the final selections prior to posting them. Information about the applicants
and the selection process is kept confidential.

STUDENT OFFERING SUPPORT (SOS)

An SOS student is a College of Nursing (CON) senior, selected by the Counselor, who has agreed to
mentor an assigned group of J1’s for the juniors’ first two semesters. The SOS team members are
available to listen to juniors concerns, answer questions and support them. It is the goal of each SOS
senior to have monthly contact with their junior students.

The Counselor coordinates the efforts of the SOS students. After sending notices to the J2’s asking for
volunteers to be SOS team members when they are seniors, the Counselor selects approximately 20
students. The Counselor meets with each of the SOS team members, providing information on
substance abuse and prevention, and the use of supportive communications. The Counselor discusses
with each SOS student the importance of referring any J1 they become concerned about to the
Counselor.
The SOS team actively helps J1’s during orientation, providing information and support to help make a positive adjustment to nurses training and to CON. The SOS students are active participants in each orientation’s schedule of presentations.

**STUDENT REPRESENTATION ON FACULTY COMMITTEES**

The following standing committees of the College Senate have student representation.

**Admission and Progression**

This committee:

- evaluates and recommends policies for admission, progression and graduation of students to the College Senate;
- establishes procedures and guidelines for admission, progression and graduation of students;
- makes decisions on appeals from students relative to admission, progression or graduation;
- implements admission, progression and graduation policies for students as requested by the Director of Admissions;
- establishes criteria for the Dean's list;
- establishes criteria for graduation honors;
- reports annually on attrition and retention rates.

**Curriculum**

This committee:

- uses assessment data for the development, revision, and maintenance of the curriculum;
- reviews evaluation data for additions, deletions, and changes in curriculum structure;
- recommends revisions, deletions and changes in the curriculum to the College Senate;
- recommends course offerings and schedules each semester to College Senate;
- recommends content and credit hour requirements of prerequisite courses to the College Senate;
- facilitates implementation of curriculum changes;
- evaluates and approves elective course offerings;
- reviews recommendations of the Dean regarding the curriculum satisfaction survey.

**Evaluation**

This committee:

- coordinates the activities required for total College evaluation;
- reviews the "Plan for Systematic Evaluation" of the College;
- reviews, revises, and/or recommends the selection or design of all evaluation instruments used in the systematic evaluation of the educational programs;
- surveys graduates of the programs at regular intervals as specified in the Systematic Evaluation Plan.

**Educational Resources**

This committee:

- assesses and evaluates the educational resources of the College (library holdings, computer and audiovisual equipment and materials);
- recommends additions and/or deletions of resources;
- formulates and recommends policies for the use of these resources.
Graduate Committee
Some of the functions of this committee:
- Evaluate, review, recommend, and implement policies for admission, progression, and graduation of students to the College Senate.
- Conduct ongoing development of the curriculum and/or the program and facilitation implementation of the curriculum.

STUDENT ORGANIZATIONS POLICY

Scope

The College believes in providing opportunities for student leadership and purposeful participation between students with the primary purpose being common professional, social, political, and religious interests that represent the good of the College community.

The College accepts the responsibility for providing a framework of policies and procedures that outline the application for recognition, organizational structure, College supported funding, privileges and responsibilities of each organization. Organizational groups recognized by the College will be able to use the College’s name, facilities; solicit members on campus; conduct fundraising and educational events.

All organizations must abide by the Mission and beliefs of The Sisters of the Third Order; the College of Nursing Mission, Philosophy; all policies and procedures listed in the Student Handbook; and State or Federal Laws. Student organizations exist to satisfy the needs of the organization and fulfill a need of the College as a community. Certain types of organizations that will not be recognized by the College are those not fitting the above criteria, immoral in nature, or subversive to the goals of the College. These may be excluded without any further consideration.

Application for Recognition

Organization/group recognition is defined as the acceptance of a group to operate on campus with the identified requirements, privileges, and responsibilities as spelled out in this policy. Any student group who meets more than once a year for a determined purpose, not directly related to a course assignment, must register annually with the Assistant Dean. Groups who do not register annually will lose their privilege to use the College’s name and facilities, and to solicit members on campus.

Group Registration

Groups desiring College recognition must fulfill the following requirements:
1. Discuss plans for the organization with the President/Assistant Dean to ensure that the group fits the needs and Mission of the College as a whole.
2. Secure a minimum of five members.
3. Ensure that membership is open to all currently enrolled students who meet the organization’s membership requirements. The control of the organization must be within the campus group, not an external organization.
4. Secure a full time faculty/staff to serve as advisor. This should be a person who can provide expert information and advice to the group concerning the purpose of the group. The advisor should also help the students to apply principles of leadership, finance, problem solving, conflict resolution, OSF and College mission, College policies and procedures. The advisor should also help the organization to work at their highest level of quality. The organization will be expected to consult with the advisor regularly concerning group activities and programs.
5. Draft Bylaws. For a model for the Bylaws see the Student Senate Bylaws in the Student Handbook. Must comply with all College policies, regulations, and procedures established by the
College and with federal and state regulation. The Assistant Dean will oversee the Bylaws development of each new group. The group must include a plan to revise Bylaws on a consistent basis.

6. Show that the development of the Bylaws and the election of officers were a group effort and show that the group will hold a meeting to elect officers annually.
7. Submit a College of Nursing Student Organization Form with all requested documents to the Office of the Assistant Dean by May 30 for the following academic year.

The Assistant Dean, in consultation with the President/Student Activities Committee, will process the application and render a decision to the group by July 1.

Withdrawal of Group Recognition

Groups may have their recognition withdrawn by the Assistant Dean in consultation with the President if the organization is found not to be abiding by Mission and beliefs of The Sisters of the Third Order and the College of Nursing Mission, Philosophy, all policies and procedures listed in the Student Handbook, State or Federal Laws, and not adhering to the group’s goals/purpose statement.

Privileges of Recognized Groups

Groups that are properly registered on campus will have the following privileges:
1. May use the College’s name in connection with the campus organization, as outlined in these policies and specifically following the guideline relating to fund-raising.
2. May recruit members on campus.
3. May hold meetings and social and educational functions on campus with the requirement to follow the College’s procedure for facility use.
4. May apply for funding through Student Senate.
5. May seek approval for exhibiting material in the appropriate areas on campus.

Responsibilities of Recognized Groups

1. Must register and provide the required document by the established deadline and receive approval to operate on campus each year.
2. Provide a record of officers with address, telephone and email addresses to the Assistant Dean’s Office. This record must be kept current and accurate throughout the academic year.
3. Must provide a list of members to the Student Activities Office /Assistant Dean, using membership policy as designed in the group’s Bylaws, if available.
4. Set-up membership list, designating officers, using eCollege Community for each organization, if possible. eCollege may also be used to communicate with individual groups.
5. Provide a current copy of the organization Bylaws for the Student Activities Office operated by the Assistant Dean’s Office. When the Bylaws are revised; a revised copy should be submitted to the Assistant Dean. The Bylaws must abide by the Mission and beliefs of The Sisters of the Third Order and the College of Nursing Mission, Philosophy, all policies and procedure listed in the Student Handbook, State or Federal Laws, adhere to the group’s goals/purpose statement, and state a date for periodic revisions.
6. Must be accountable for the conduct of its members at student organization activities. Must abide by the rules and regulations governing use of the facility. Consult the Student Handbook.
7. Submit information to the Administrative Assistant Office for approval prior to posting information at the College. The Administrative Assistant seeks approval from the President or Assistant Dean. If the announcement is approved, it will be stamped approved by the Administrative Assistant. All posted announcements must follow safety/fire regulations. (Consult Student Handbook.)
8. Must fulfill their purpose and are able to maintain a certain minimum membership. Minimum membership is 5 members including officers.
9. Submit reports to the Student Senate, as requested or stipulated by the Student Senate Bylaws.
10. Submit an annual financial report to Assistant Dean and to Student Senate by June 1. If no funds were received from Student Senate, the organization is required to submit a report indicating “not applicable” to serve as a tracking method.

11. Seek approval for use of facilities prior to usage.

12. Seek approval of off-campus activities that are sponsored by the organization prior to the activity.

13. Ensure that any fund raising activity on campus is for the benefit of either the College, organization as a whole or charity. No funds shall be distributed to any person or organization by the officers, advisor, or members without documented approval.

14. No speaker from outside the College of Nursing should be invited to campus without the approval of Assistant Dean/President.

**Definition of Groups**

1. Professional groups: activities and membership centered on specific curriculum or course of study (i.e. CNS Group, SNAI, Research, etc. The College could sponsor an organization (Peer Tutors Group).

2. Special Interest: activities and membership centered on a particular interest, i.e. Chi Alpha, social issues, political issues.

3. Honor, Leadership, and Recognition: activities and membership involves volunteering and service.

The Student Senate is recognized by the College as the student governance body, with Bylaws and must report to the Assistant Dean.

**Financial Procedures**

1. Each organization should keep sound financial records, including funds collected and disbursed through Student Finance to the Student Senate and submit to the Assistant Dean financial reports showing revenue and expenses. The Assistant Dean may request an audit at any time.

2. The Student Senate is to submit an annual report of revenues and expenses, showing funds disbursed to each organization.

3. Each organization should designate/elect a member who is responsible for the collection and disbursement of funds and for maintaining the records and books.

**STUDENT SENATE**

The students assume major responsibility for conduct of their College life through student government. Acting in legislative and executive capacities, elected student representatives deal with significant issues of College life and administer the student activity fee.

The Student Senate functions according to its Constitution and By-law (See following page). The purposes of this organization are: 1) to give the students an opportunity to share the responsibility for self-government; 2) to promote cooperation between the student body and faculty of the College; and 3) to foster good citizenship by providing opportunities for leadership and service. Standing committees of the Student Senate are: Activities, Public Relations, Revisions, Finance.

Student Senate representatives are elected by their peers with one representative per ten students. Election practices of the College Student Senate serve as a procedural guide.
CONSTITUTION AND BY-LAWS OF THE STUDENT SENATE

PREAMBLE

We, the members of the student body of Saint Francis Medical Center College of Nursing, in order to enhance the well-being of the College and to further the spirit of cooperation between ourselves and the faculty, establish the Student Senate of Saint Francis Medical Center College of Nursing. We ordain and establish this Constitution.

ARTICLE I: NAME

Section 1. The name of the organization shall be the Student Senate of Saint Francis Medical Center College of Nursing. Hereafter, the name will be referred to as the Student Senate.

ARTICLE II: PURPOSE

Section 1. The purpose of the Student Senate shall be to provide an organization to:

a. facilitate the transaction of business pertaining to the whole student body.
b. further cooperation between students, administration, faculty, Saint Francis Medical Center, and the community.
c. promote and maintain a spirit of cooperation and loyalty to the College. 
   Assist the Administration of the College in establishing policies and regulations concerning student life.
d. promote and maintain high educational and professional standards, and to provide opportunity for developing initiative, interest, and participation in college activities.
e. foster good citizenship by acquainting students with responsibility and by providing opportunities for participating in leadership and service.
f. provide the Constitution and By-Laws for each student as included in the Student Handbook and on e-college undergraduate community.
g. recognize students for “Caring in Action”.

ARTICLE III: MEMBERSHIP AND VOTING PRIVILEGES

Section 1. The membership of the Student Senate shall consist of the President, Vice President, Secretary, Treasurer, and Senators for each class. Only these aforementioned members shall be accorded voting privileges and constitute a quorum, with the exception of the President as specified in Section 4.

Section 2. The Executive Committee shall consist of the President, Vice President, Secretary, and Treasurer.

Section 3. The Vice President, Secretary, Treasurer, and each of the Senators shall have one vote.

Section 4. The President of the Student Senate shall be a non-voting member except in the case of a tie, when she/he shall have one vote.

Section 5. The Advisors shall be non-voting, ex-officio members.
Section 6. All members of the Student Senate shall be bound by the Constitution and By-Laws.

ARTICLE IV: ADVISOR QUALIFICATIONS AND DUTIES

Section 1. The advisors of the Student Senate shall be the counselor and two full-time members of the faculty.

Section 2. The faculty advisors will be elected by a majority vote of the Student Senate at the last monthly meeting of the academic year. Faculty advisors shall serve a two-year term with the opportunity to be re-elected. Both advisors may not be replaced during the same year so as to maintain continuity.

Section 3. If a seated advisor chooses not to be re-elected, the Executive Committee shall contact any interested faculty members to fill the open advisor position.

Section 4. At least one of the advisors shall be present at all scheduled and special meetings of the Student Senate.

Section 5. One of the advisors shall edit meeting agendas and minutes prior to distribution to the Student Senate section of eCollege.

Section 6. The Advisors shall make decisions regarding Leadership Scholarship recipients.

a. Determine and revise scholarship criteria.

b. Determine annual scholarship amounts.

c. Review applications and choose scholarship recipients annually.

d. Report on scholarship recipients at the first meeting of the academic year.

Section 7. One of the advisors shall receive all applications for either Senator or Executive Committee Elections and post applications on the bulletin board outside the West recreation room one week prior to all elections. The advisor shall prepare and print the ballots for distribution at elections.

Section 8. The assigned Student Senate advisor shall use the Student Senate budget to reconcile spending from the student activities account each month. It is the responsibility of the Student Senate advisor to reconcile the OSF Fiscal Service report with known spending activity. Any discrepancies or questions are to be reported to assigned Fiscal Services representatives.

Section 9. The assigned Student Senate advisor will be in charge of tracking the use of the assigned Visa Card. The original receipts of purchases made by the groups using the credit card will be given to the Administrative Assistant of the College and a copy will be made for the Student Senate Treasurer. The advisor will check the weekly credit card statement to track appropriate usage and will reconcile expenditures with the monthly report sent by OSF Fiscal Services. If a check is required for payment of services or items, the Student Senate Advisor will send an email request to the Administrative Assistant including the amount, recipient, and business or personal social security number requesting a check from OSF Accounting Department. The money will be deducted from the undergraduate activity fee account.

Section 10. In case of misplacement or loss of the Visa Card, the person in possession of the card must notify the Student Senate advisor to cancel the card (directions included with the
card). Any purchases made on a lost card that are not legitimate will be reported to the credit card company.

ARTICLE V: Executive Committee Officers

Section 1. The officers of the Student Senate Executive Committee, elected by the student body by majority vote during the spring election, shall consist of:

a. President
b. Vice President
c. Secretary
d. Treasurer

Section 2. The above officers shall serve one complete academic year, including summer interim, after assumption of office according to the procedures set forth in this Constitution.

Section 3. The Executive Committee and the Advisors shall

a. Develop the financial budget for the academic year and present it to the Student Senate for approval at the August meeting.

Section 4. The Executive Committee and the Advisors shall:

a. Review and revise the Constitution and By-laws every other year on odd years.
b. Present recommended amendments or revisions of the Constitution and By-laws to the Student Senate for approval at the April meeting of the revision year.
c. Distribute revised By-laws to chair of Student Handbook committee and post current copy in the Student Senate section on eCollege undergraduate community.

Section 5. The Executive Committee and at least one advisor shall meet the week prior to all scheduled meetings to plan the meeting agenda.

Section 6. The Executive Committee shall represent the Student Senate at the All College Liturgy by serving as scripture readers.

Section 7. Leadership cords will be available for Executive Committee members to purchase to wear at graduation.

ARTICLE VI: QUALIFICATIONS OF THE EXECUTIVE COMMITTEE OFFICERS

Section 1. All applicants for office must have the following qualifications:

a. Enrollment in at least first semester courses for all officers except the President.
b. For the position of President, at least one semester of active and current service in the Student Senate and current enrollment in the program. Active and current service is defined as serving in one of
the following capacities: Senator, or student representative to one of the College Senate committees.

c. Have at least one academic year remaining in the program.
d. Willingness and ability to serve the Student Senate.
e. Professional in ethics, social conduct, and dependability

Section 2. Removal from office shall be at the discretion of the Student Senate for failure to meet the qualifications stated in Section 1.

ARTICLE VII: DUTIES OF THE EXECUTIVE COMMITTEE OFFICERS

Section 1. The President shall:

a. call to order and preside over meetings of the Student Senate.
b. represent the Student Senate whenever necessary.
c. act as ex-officio member of all Student Senate committees.
d. meet with the Executive Committee and an advisor to plan the agenda for all meetings at which she/he presides.
e. act as liaison officer between the student body and the Administration of the College when necessary.
f. appoint persons to fill vacancies (with the approval of the Executive Committee) until the next election.
g. consult with Advisors when making decisions.
h. compile and submit an annual report on senate activities to the Advisors for the College's Annual Report.
i. establish special committees as deemed appropriate and appoint chairpersons if needed.
j. assist the Vice President whenever necessary during Student Senate sponsored activities.
k. publicize Student Senate Activities through eCollege email to the student body.
l. send out monthly reminders for “Caring in Action” nominations. Nominations will be read at each meeting and be sent to all students through eCollege email.

Section 2. The Vice President shall:

a. assume the duties of the President in her/his absence or in case of vacancy.
b. assist the President in her/his duties.
c. arrange for food and other needed supplies for all Student Senate sponsored events.
d. present receipts of all spending to the Advisor/Treasurer for accurate tracking in the academic budget.
e. be responsible for getting and returning Visa cards from the advisor for payment of event costs.
f. coordinate Senator volunteers to help with Student Senate sponsored activities.

Section 3. The Secretary shall:

a. keep accurate minutes of all meetings of the Student Senate.
b. keep an accurate record of the attendance at the meetings of the Student Senate.
c. submit a draft of the minutes to an Advisor for editing. The Advisor posts an edited copy of the minutes on ecollege undergraduate community. The Administration, faculty, undergraduate student body as well as Student Senate advisors, Officers, and Senators can access the minutes from the Undergraduate Community/Senate folder on e-College.
d. be responsible for correspondence of the Student Senate (i.e., business, courtesy, bereavement, and social issues).
e. prepare agenda for upcoming meetings and submit a draft to an advisor for editing. The advisor posts the edited agenda on undergraduate community eCollege and notifies Student Senate members when it is available.
f. count the ballots for all elections and communicate the election results to the advisors, winners of the election and the student body. Ballots are kept for one year and then are destroyed.
g. in the designated revision year, prepare the draft of proposed changes to the Constitution and By-Laws of the Student Senate for presentation to the Student Senate for approval.

Section 4. The Treasurer shall:
a. oversee expenditure of all student activity funds of the Student Senate.
b. reconcile expenditures with monthly report from OSF fiscal services.
c. record all expense vouchers, receipts, and checks in the approved budget excel spread sheet. All receipts are to be kept for 7 years.
d. submit a budget report at each meeting of the Student Senate. Email an updated copy to the advisor to post on undergraduate community eCollege prior to each monthly meeting.
e. maintain the financial records for accuracy and availability.
f. oversee disbursement of funds to approved College and student groups.

ARTICLE VIII: QUALIFICATIONS OF MEMBERS OF THE STUDENT SENATE

Section 1. All applicants for Senator must have the following qualifications:
a. willingness and ability to serve the Student Senate.
b. professional in ethics, social conduct, and dependability.
c. have at least one academic year remaining in the program.

Section 2. Any officer of the Student Senate Executive Committee who has served a full term and has one or more semesters remaining in the program, may remain as an honorary member of the Student Senate.

Section 3. Removal from office shall be at the discretion of the Student Senate for failure to meet the qualifications stated in Section 1.
ARTICLE IX: DUTIES OF SENATORS

Section 1. The Senators for each class shall be elected by their peers.

   a. There will be one Senator elected for every 10 students per class.
   b. The Senators shall serve two consecutive semesters under the requirements of Article VIII.
   c. J1 and S1 Senators shall be elected by a majority vote of their peers at a special election to be held after the first meeting of the Student Senate each semester.
   d. S1 Senators must apply for re-election to serve a second term.
   e. The one senator per 10 students ratio can be overridden at the discretion of the Executive Committee.
   f. RN-BSN students may volunteer to serve as Senators for their program.

Section 2. Senators shall:

   a. publicize and promote educational, social, and professional extracurricular and co-curricular activities for nursing students.
   b. present student class issues at the Student Senate meetings.
   c. vote on action items presented at Student Senate meetings.
   d. participate in at least one Student Senate sponsored activity per semester.

ARTICLE X: ELECTION PROCESS

Section 1. All applicants for Student Senate membership must have the qualifications outlined under Article VIII, Section 1.

Section 2. Applicants shall display evidence of leadership ability and submit a Student Senate application for public posting with a picture. Applications are posted on the bulletin board outside the West recreation room for one week prior to all elections.

Section 3. Voting shall be by written ballot, and majority of votes shall elect. In case of a tie vote, a revote may be conducted to determine which candidate shall be elected or the Executive Committee may choose to accept both candidates.

Section 4. Ballots for each election will be kept by the Secretary for one year and will then be destroyed.

Section 5. Members of the current Executive Committee and the Advisors shall:

   a. confirms the eligibility of all nominees according to Article VIII, Section 1.
   b. ensure that a fair and impartial election takes place.

Section 6. The election of Executive Committee officers for the upcoming academic year shall be held in April of the current academic year. The elections for J1 and S1 Senators shall take place after the first meeting of each semester so that newly elected Senators can assume office at the second meeting of the semester.
Section 7. The incoming Executive Committee officers shall assume their respective offices at the last meeting of the current academic year according to the procedure set forth in Section 6. These officers shall work closely with the outgoing officers and Advisors until fully oriented to the duties of the respective office.

ARTICLE XI: DUTIES OF COLLEGE COMMITTEE REPRESENTATIVES

Section 1. Representatives to College Senate Committees shall:
   a. be volunteers from Student Senate or the student body.
   b. express student views and interests at the following College Senate Committees: Admission and Progression, Curriculum, Educational Resources, and Evaluation.
   c. Each committee may have at least two representatives who volunteer for one academic year. Representatives may serve a second year if they have a year remaining in the program.
   d. report verbally or in writing to the Student Senate any important issues at the next Student Senate meeting following a College Senate Committee meeting.

Section 2. Representative to the Tau Omicron chapter of Sigma Theta Tau International shall:
   a. express student views and interests at committee meetings.
   b. report verbally or in writing to Student Senate at the next meeting following a Tau Omicron committee meeting.

Section 3. Representative to the College Board shall:
   a. be an elected Senator in good standing.
   b. not be an officer of the Student Senate
   c. have at least two semesters remaining in the program.
   d. be elected by the Student Senate annually at the April meeting to serve for one academic year.
   e. attend all College Board meetings
   f. report verbally or in writing to Student Senate at the next meeting following a College Board meeting.

ARTICLE XII: STUDENT ORGANIZATIONS

Section 1. Student Organizations that receive funding from the Student Senate budget must submit a monthly report of activities to the Student Senate. It is preferred that a member of the organization attend the monthly Senate meeting and present the report verbally. If unable to do so, a written report must be submitted to the Student Senate Executive board prior to the monthly Senate meeting.

Section 2. The Student Organization must submit an annual budget to the Executive board by the first week of the Fall semester each year. Based on the submitted budget, the Executive Committee will determine the funds available to the group for the academic year.

Section 3. Based on the approved Student Senate Budget, student groups will have access to the Visa credit card for expenditures to not exceed the allotted budgeted amount. The
Student Organization advisor or member of the organization will notify the Student Senate advisor to arrange for pick up of the credit card prior to the date needed. The advisor of the student group will be responsible for the card and dispensing it to the appropriate student when a need to buy food or other supplies occurs. The Visa credit card and receipt(s) must be returned to the Student Senate advisor after the purchases have been made. Original receipts of expenditures will be given to the Administrative Assistant by the Student Senate Advisor.

Section 4. In case of misplacement or loss of the Visa Credit Card, the person in possession of the card must notify the Student Senate advisor to cancel the card (directions included with the card). The advisor is responsible for checking the balance against receipts.

Section 5. It is the Student Organization or student sponsored group’s responsibility to stay within the budgeted amount for the year. Need for additional money must be presented to the Student Senate at a monthly meeting with documented rationale for the increase. The request for additional money requires a majority vote by the Student Senate for approval and is dependent on available funds.

ARTICLE XIII: MEETINGS

Section 1. The entire Student Senate shall meet on a monthly basis, August–November and January-April, on the last Monday of the month at 4:30. Meeting dates or times may be changed at the prior month’s meeting. All meetings require attendance of at least one advisor to officially conduct business.

Section 2. The Executive Committee shall hold a meeting one week prior to the Student Senate meeting each month to determine the Agenda.

Section 3. Special meetings of the Student Senate may be called by the President, Advisors, or by petition from the student body. Meetings of the entire Student Senate require one week’s notice.

Section 4. All students enrolled in the College may attend scheduled meetings and participate in discussions. Only Senators may vote on decision items.

Section 5. Any petition from a student must be received by the President one week prior to the next scheduled Senate meeting to be an agenda item. Topics can also be addressed during discussion of Senator issues at the monthly meeting.

Section 7. Student Senate meetings are mandatory.

   a. Any officer, committee representative, or Senator must attend all scheduled monthly Student Senate meetings unless excused.
   b. To be excused the member must notify the advisor of the reason for the absence prior to the meeting.
ARTICLE XIV: QUORUM

Section 1. A quorum of Student Senate members must be present to conduct a meeting of the Student Senate that includes issues requiring a vote. A quorum shall be designated as one more than one-half of the total membership as specified in Article III, Section 1.

Section 2. The Student Senate shall reserve the right to hold special elections to replace any class Senator vacancy to fulfill the quorum as specified in Section 1. This will guarantee that membership of the Student Senate represents fairly and proportionally the student body.

ARTICLE XV: AMENDMENTS OR CHANGES

Section 1. A change or amendment in the Constitution and By-laws may be proposed by any member of Student Senate at an official meeting of the Student Senate. Before the Student Senate votes on the proposed change or amendment, a written copy of the proposal must be presented to all students attending the meeting. The proposed change or amendment requires at least a two-thirds vote of all members of Student Senate.

Section 2. A change or amendment in the Constitution or By-laws may be proposed by the student body according to the following procedure.

a. A petition requesting the change or amendment and containing the signatures of over half (51%) of the student body shall be presented to the President of the Student Senate.

b. The President shall notify the Student Senate of this action at the next regularly scheduled meeting and the Executive Committee must schedule a special Student Senate vote to decide on the proposed change within three weeks after receiving the petition.

Section 3. Revisions shall be made as needed and a complete evaluation for the need of revisions shall be made by the Executive Committee every two years on the odd years.

STUDENT NURSES ASSOCIATION

The National Student Nurses Association (NSNA) is the only national organization for students of nursing. Students are eligible for active membership in NSNA, which includes membership in Student Nurses' Association of Illinois and the College Chapter. Students enrolled in the pre-nursing curriculum at other Colleges and universities are eligible for associate membership. Chapter meetings are planned and organized by members of the College Chapter.
STUDENT NURSE ASSOCIATION CONSTITUTION

ARTICLE I - NAME OF ORGANIZATION

Section 1. The name of this organization shall be Saint Francis Medical Center College of Nursing Student Nurse Association. The organization may also be referred to as SNA. From here on refer to Saint Francis Medical Center College of Nursing as SFMCCON SNA.

ARTICLE II - PURPOSE AND FUNCTION

Section 1. Purpose

A. To assume responsibility for contributing to nursing education in order to provide for the highest quality of health care
B. To provide programs representative of fundamental interests and concerns to nursing students, as well as community involvement
C. To aid in the development of the whole person, including his/her professional role, his/her responsibility for health care of people in all walks of life

Section 2. Function

A. To have direct input into standards of nursing education and influence the education process
B. To influence health care, nursing education and practice through legislative activities as appropriate
C. To promote and encourage participation in community affairs and activities towards health care and the resolution of related social issues
D. To represent nursing students to the consumer, to institutions, and other organizations
E. To promote and encourage students' participation in interdisciplinary activities
F. To promote and encourage recruitment efforts, participation in student activities, and educational opportunities regardless of a person's race, color, creed, national origin, ethnicity, age, gender, marital status, lifestyle, disability or economic status
G. To promote and encourage collaborative relationships with nursing and health related organizations

ARTICLE III – MEMBERS

Section 1. School Constituent

A. School constituent membership is composed of active members who are members of the National Student Nurses Association (NSNA) and the state association when one exists.
B. SFMCCON Student Nurse Association shall be composed of at least 10 members from SFMCCON. There shall be only one chapter on this school campus.
C. For yearly recognition as a constituent, an officer of the SFMCCON Student Nurse Association shall submit annually the Official Application for NSNA Constituency Status which shall include the following areas of conformity: purpose and functions, membership, dues, and representation. The Constituency Status Application is due each year by April 15th.
D. School Constituency in the Student Nurses’ Association of Illinois (SNAI) relies on the membership of at least 5 NSNA/SNAI members from SFMCCON or total school enrollment if less than 5. There shall be only one chapter for the State of Illinois Constituency.
E. A constituent association that fails to comply with the bylaws and policies of NSNA shall have its status as a constituent revoked by a 2/3 vote of the Board of Directors, provided that written notice of the proposed revocation has been given at least two months prior to the vote and the constituent association is given an opportunity to be heard.
F. SFMCCON Student Nurse Association is an entity separate and apart from NSNA and its administration of activities, with NSNA and Student Nurses’ Association of Illinois (SNAI) exercising no supervision or control over these immediate daily and regular activities. NSNA
and SNAI have no liability for any loss, damages, or injuries sustained by third parties as a result of the negligence or acts of SFMCCON Student Nurse Association or the members thereof. In the event any legal proceedings are brought against NSNA and SNAI, SFMCCON Student Nurse Association will indemnify and hold harmless the NSNA and SNAI from any liability.

Section 2. Categories of Constituent Membership

Members of the constituent associations shall be:

A. Actively Involved Members*
   1. Attend 75% of all SFMCCON Student Nurse Association meetings held each academic semester
   2. Be involved in at least one community or one SNA organized school based event each semester (these are separate from monthly meetings)
   3. (Note: this is optional, as it is at your expense) Attend at least 1 state or national convention or conference during the duration of SNA membership.

* Upon graduation, anyone considered an Actively Involved Member of SNA will be eligible to receive an SNA designated graduation cord upon graduating from the SFMCCON program. SNA will provide the graduation cords to recognize these participants from funds raised through sources other than the school, if funds are available.

B. Active members:
   1. Students enrolled in state approved programs leading to licensure as a registered nurse
   2. Registered nurses enrolled in programs leading a baccalaureate degree with a major in nursing
   3. Active members shall have all the privileges of membership at the school chapter level

C. Individual members:
   Individual membership shall be open at the national level to any eligible student when membership in a constituent association is not available. Individual members shall have the privileges of membership as prescribed in NSNA bylaws. Any fees associated with the membership are at the individual’s expense.

D. Active membership shall be renewable annually.

Section 3.

A. Active NSNA membership may be extended six months beyond graduation from a student's program in nursing providing membership was renewed while the student was enrolled in a nursing program.

ARTICLE IV - DUES

Section 1.

A. SFMCCON SNA membership is free for current student nurses in the program.
B. Students wishing to belong to the NSNA will pay national and state dues. Dues shall be payable directly to NSNA. NSNA shall remit to each state constituent the dues received on behalf of the constituent. NSNA shall not collect nor remit school chapter dues.
C. Any member who fails to pay current dues shall forfeit all privileges of NSNA membership.
D. All NSNA membership dues will be financed out of the school chapter’s annual budget for the SNA board members. This includes the roles of President, Vice President, Treasurer, Secretary, Legislator, and Graduate Advisor/Adjunctive Faculty. The number of NSNA memberships financed shall not exceed six.
ARTICLE V – BOARD OF DIRECTORS

Section 1. Composition

A. The Board of Directors will consist of: President, Vice President, Treasurer, Secretary, and Legislator.

Section 2. Responsibilities

A. The Board of Directors shall be responsible for:
   1. Transacting business of the association between membership meetings and shall report transactions at the next regularly scheduled membership meeting
   2. Filling vacancies in any office by two-thirds majority vote of Board of Directors except the office of President
   3. Reviewing monetary disbursements, acquisitions and fund raising activities and shall be responsible for procuring persons for audit of all accounts on an annual basis

Section 3. Quorum.

A. The quorum for the board meetings shall consist of the President, Vice President, Treasurer, Secretary, and Legislator.

Section 4. Duties of the Board of Directors shall consist of:

A. President
   1. Shall preside at all meetings of this association (except in the case of an emergency), appoint special committee as needed, perform all other duties pertaining to the office and represent this SFMCCON Student Nurse Association in all matters related to SNAI, NSNA, and other professional and student organizations.
   2. Shall serve as chairperson of the Board of Directors
   3. Appoint committees and their delegates
   4. Maintain contact with faculty advisor and nursing department faculty as the Student Nurse Association representative.
   5. Calls special meetings of the organization
   6. Obtains appropriate facilities for organization activities
   7. Notifies all members and student body of the monthly Student Nurse Association meetings
   8. Prepares and files any report required; this includes the annual Constituency Status report (Section 1, Article C)
   9. Represents organization at official functions
   10. Meets with newly elected President at the end of each term to hand down role appropriately and facilitate transition of the board

A. Vice President
   1. Shall preside at all meetings of this association (except in the case of an emergency)
   2. Shall assume responsibility of the office of President in the event of the vacancy occurring in the office until the next regular election
   3. Shall assist the President as delegated and act as advisor to the President
   4. Plans all board member meetings
   5. Coordinates organizational recruitment efforts
   6. Coordinates organization elections held in April of every academic year
   7. Represents organization at official functions as needed
   8. Meets with newly elected Vice President at the end of each term to hand down role appropriately and facilitate transition of the board
B. Secretary
1. Shall preside at all meetings of this association (except in the case of an emergency)
2. Shall record and distribute the minutes of all meetings of this association as directed by the President
3. Shall keep on file as a permanent record all reports, papers and documents submitted to the Secretary
4. Refer to dully appointed committees the necessary records for the completion of business
5. Forwards minutes from all SFMCCON Student Nurse Association meetings to the faculty advisor to be posted in the eCollege Undergraduate course shell, for viewing by general membership. This shall be done within one week’s time of the respective meeting.
6. Prepare the calendar of events for the organization
7. Keeps a record of all members of the organization
8. Keeps a record of all activities of the organization
9. Creates and distributes agendas for each meeting of the organization
10. Represents organization at official functions as needed
11. Delegates tasks to the Legislator in order to ensure monthly meeting duties are accomplished
12. Meets with newly elected Secretary at the end of each term to hand down role appropriately and facilitate transition of the board

C. Treasurer
1. Shall preside at all meetings of this association (except in the case of an emergency)
2. Submit financial reports to the membership as directed by President
3. Prepare financial reports submitted at the monthly Board of Directors Meeting
4. Keep a permanent record of all dues received from members and any other income and expenses
5. Remit payment for approved debits according to the following:
   a. Disbursement of Funds
      1) Requests for disbursement of funds shall be made in writing to the faculty advisor of the SFMCCON Student Nurse Association
      2) Upon approval the treasurer will issue checks for those requests approved
      3) No funds will be disbursed without prior approval
6. Prepare an annual budget and maintain the organization’s ledger
7. Prepare all monetary requests for additional funding for the organization
8. Is familiar with accounting procedures and policies
9. Coordinator of fundraising
10. Represents organization at official functions as needed
11. Meets with newly elected Treasurer at the end of each term to hand down role appropriately and facilitate transition of the board

D. Legislator
1. Shall preside at all meetings of this association (except in the case of an emergency)
2. Sets the goals and objectives of the Student Nurse Association for the academic year
3. Communicates with other school chapter Board of Directors and SNAI Board of Directors as appropriate
4. Serves as the primary board member in regards to Political Action Day, held annually in Springfield, Illinois
5. Represents SFMCCON in the role of Delegate at all SNAI/NSNA functions as allowed, as described in Article VIII
6. Role of Delegate may be forfeited for the academic year if the Legislator prefers. This change must be voted on by the Board of Directors and passed with a majority vote.
7. Maintains accuracy of SNA bylaws and initiates amendments in current bylaws to reflect changes within SFMCCON Student Nurse Association, SNAI, and NSNA as needed
8. Assists the Secretary as needed in monthly meeting duties
9. Meets with newly elected Legislator at the end of each term to hand down role appropriately and facilitate transition of the new board

Section 5. Absences

A. Members of the Board of Directors who have missed more than two regularly scheduled meetings of any current term year without prior notification to the Board of Directors and who offer no valid reason for such absences may be removed from office by a plurality vote of the current membership present at the next scheduled meeting. The officer in question will be notified in advance of the meeting.

B. An officer may also be removed from office by a plurality vote of the members of the Board of Directors present at a meeting called for that purpose if that officer is deemed negligent in the functions of that office as stated in these bylaws.

C. Prior notification of two weeks shall be given to the individual in question and a special Board of Directors meeting shall be held to review the circumstances.

D. It is recommended that all members of the Board of Directors shall be present at 75% of all SFMCCON Student Nurse Association meetings in order to use the organization as a resume enhancement.

ARTICLE VI - ELECTIONS

Section 1. Election of Board of Directors

A. Elections shall be held each first meeting in April for the following academic year.

B. The President may schedule an election in the event that an office, other than President, becomes vacant during the term.

C. A plurality vote of members present and voting shall constitute an official election.

D. All nominations shall be made from the floor.

E. All nominees must deliver a short speech as to why they want to become an officer of the SFMCCON Student Nurse Association.

F. All elections shall be by secret ballot.

G. In the event of a tie, a revote shall be held between the two people in the tie.

H. The Vice President shall preside over election balloting and results shall be posted within 24 hours via email and bulletin board.

I. Ballots shall be destroyed after finalization of election.

Section 2. Exclusions from Voting

A. Senior nursing students holding an officer position may vote.

B. All senior and junior nursing students, currently enrolled in the nursing program may vote.

C. Pre-nursing students not yet admitted to the SFMCCON, faculty advisors, and adjunct faculty may not vote.

ARTICLE VII – MEETINGS

Section 1. Membership Meetings

A. The Board of Directors shall prepare a calendar of scheduled meetings during the first meeting of every semester.

B. Meeting location and time will be voted on and approved by a plurality vote by Board of Directors.

C. The President shall have the authority to convene a special meeting as such time as is deemed necessary and shall notify the general membership of such meeting, location, and time.
Section 2. Meeting Requirements

A. This organization will hold monthly meetings during the academic year on every second Monday of the month
B. This organization will comply with the requirements of the SFMCCON

ARTICLE VIII – DELEGATES

Section 1. Purpose and Function

A. To serve as spokesperson for this association at the annual state and national conventions
B. Present to the state and national organizations all proposed resolutions or amendments to bylaws or policies proposed by this association
C. Keep informed as to all current and proposed resolutions at the state and national levels and report information to this association's membership at regularly scheduled membership meetings
D. Make available to members updates, explanations, and copies of current and proposed state and national resolutions

Section 2. Qualification and Appointment

A. The Legislator role on the Board of Directors is the primary delegate at all events, however role can be forfeited as aforementioned (Article V, Section 4)
B. Any member who is in good academic standing with SFMCCON, who is active in Student Nurse Association projects, and is nominated by current membership at a regularly scheduled meeting is eligible to hold the position of delegate
C. Appointment shall be for one (1) year and shall be made by nomination of those members eligible and voted on by the current membership eligible to vote and voting. The nominee receiving the majority of votes cast shall be awarded the position

Section 3. Delegate Representation

A. School constituents:
   1. SFMCCON Student Nurse Association, when recognized as an official NSNA constituent, shall be entitled to one voting delegate and alternate at the NSNA House of Delegates. An official NSNA constituency consists of at least 10 active NSNA members. In addition, SFMCCON Student Nurse Association shall be entitled to one voting delegate and alternate for every additional 50 members.
   2. The SFMCCON Student Nurse Association delegate(s) and alternate shall be a member(s) in good standing in the chapter and shall be selected and/or elected by members of the school chapter at a proper meeting according to chapter bylaws. The school association may designate an alternate delegate for each delegate by one of the following two mechanisms:
      a) Selection and/or election by members of the school chapter according to chapter bylaws; or
      b) Written authorization to the State Board of Directors requesting them to appoint a member of the State Board (SNAI) to act as a state-appointed alternate for their school chapter
         1. School chapters shall approve the appointment
         2. The State Board of Directors shall verify that any state appointed alternate is a member in good standing of the NSNA and the state association (SNAI)
         3. A school chapter must have a selected and/or elected delegate present at the NSNA Convention in order to have a state-appointed alternate seated in the House of Delegates
         4. All alternates, whether school selected or state-appointed, shall have the same privileges as an elected delegate when seated in the House
         5. The school association shall be entitled to delegates according to the number of
members in good standing in NSNA. Delegates shall be computed on the basis of the number of members in each constituent as evidenced by the annual dues received by NSNA on a date eight weeks prior to the annual meeting.

ARTICLE IX – AMENDMENTS

A. Amendments to the Bylaws may be made with a 2/3 vote of those present and voting at a membership meeting provided that notice of proposed amendments has been sent to members at least two weeks prior to the meeting. Only proper amendments submitted in writing and carrying the proponent's signature will be considered.

ARTICLE X - PARLIAMENTARY AUTHORITY

A. All meetings of this association shall be conducted according to the parliamentary law as set forth in Robert's Rules of Order Newly Revised where the rules apply and are not in conflict with these bylaws.

NATIONAL STUDENT NURSES' ASSOCIATION

THE BILL OF RIGHTS

The Student Bill of Rights was adopted by the National Student Nurses' Association (NSNA) House of Delegates in April 1975, and amended in 1994, as follows.

1. Students have a right to a sound education, including:
   - A right to and a responsibility for having a creative educational opportunity;
   - A right to and a responsibility for having the highest quality practitioner-teacher;
   - A right to and a responsibility for achieving self-directed learning;
   - A right to and a responsibility for achieving equal participation in all areas of clinical practice;
   - A right to and a responsibility for participating in interdisciplinary activities.

2. Students have a right to due process including a right to and a responsibility for insuring peer review and self-evaluation.

3. Students have all the rights and privileges of self-governance.

4. Students have a right to and a responsibility to organize and participate in an organization directed towards achieving professional goals:
   - A right to and a responsibility for facilitating change in health care delivery through various channels;
   - A right to and a responsibility for assembling and exploring professional issues and concerns;
   - A right to and a responsibility for organizing a flexible structure to encompass and represent the diversities within nursing and be representative of the fundamental and current professional issues and concerns;
   - A right to and a responsibility for fostering a better correlation between nursing education and practice.

SIGMA THETA TAU INTERNATIONAL (STTI), TAU OMICRON CHAPTER

The Saint Francis Medical Center College of Nursing Honor Society was chartered as a new chapter of the International Nursing Honor Society Sigma Theta Tau at the biennial convention in November 2005. On March 18, 2006, the newly created chapter, Tau Omicron, was chartered with 136 members. Sigma Theta Tau International (STTI), an honor society that promotes leadership and scholarship in
nursing practice, education and research, was chartered in 1922 in Indianapolis and consisted of 6 members. The Society has now grown to include 431 chapters located in 14 countries.

The Tau Omicron Chapter meets quarterly for business meetings and then a current nursing issue is presented by area nurses. Topics vary from evidence-based practice to nursing in the military. Each winter potential inductees are evaluated based on the criteria set forth by STTI to be invited to the March induction ceremony.

STUDENT ACTIVITIES

RELIGIOUS ACTIVITIES

As part of its commitment to the personal development of students, Saint Francis Medical Center College of Nursing offers opportunities for formal and informal religious expression. Chapel services are held during the academic year for students of all denominations who choose to attend. The Chaplain of OSF Saint Francis Medical Center, members of the faculty, and the student body participate in the services.

Prayer and Meditation Room

The Marie E. Cooper Prayer and Meditation Room is available for student use at the College twenty-four hours a day. It is located in room 114 on the first floor. Inspirational books and magazines are located here for student use. A Prayer Board and Post-it notes are available for students to post special prayer intentions throughout the week; prayers will be offered for these each week.

OSF SFMC Chapel Services

The chapel, located in Saint Francis Medical Center off the hall on 2400, is open at all times for all students. Mass is offered as follows:

<table>
<thead>
<tr>
<th>Day</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monday through Friday</td>
<td>6:00 a.m. and 12 Noon</td>
</tr>
<tr>
<td>Saturday</td>
<td>4:00 p.m.</td>
</tr>
<tr>
<td>Sunday</td>
<td>11:00 a.m.</td>
</tr>
</tbody>
</table>

Confessions are heard in the chapel by request.

The Chapel Bulletin is posted on the bulletin board by the 6th floor entrance of the College. Protestant services are held each Sunday at 1:00 p.m. in the chapel. A number of churches of all denominations are within walking distance of the College. Students are encouraged to attend the church of their preference.

STUDENT ACTIVITIES AND SPECIAL COLLEGE EVENTS

Student activities at Saint Francis Medical Center College of Nursing are coordinated and administered through the on-going involvement of students, faculty and staff working together to provide a broad range of activities.

The Student Senate and Resident Assistants sponsor social activities throughout the year. Past events have included: Thanksgiving dinner, picnic, and get-together lunches. Other College events are a
dance sponsored by the Professional Medical Staff of OSF Saint Francis Medical Center. The student body also participates in various community social service activities.

All students are encouraged to attend College functions and meetings of committees and Student Senate.

**COMPUTER RESOURCES**

**MINIMUM COMPUTER REQUIREMENTS**

All College of Nursing courses require the use of a computer and an e-mail account. You may use the College’s computer labs or your own personal computer. If you choose to use a personal computer, you will need the following:

<table>
<thead>
<tr>
<th>Minimum Hardware Requirements*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Microsoft Windows 7, XP, Vista, or Mac OS X higher (in classic mode)</td>
</tr>
<tr>
<td>1 GB RAM</td>
</tr>
<tr>
<td>1 GB Free Space</td>
</tr>
<tr>
<td>G4, G5 or 1GHz Intel Processor</td>
</tr>
<tr>
<td>G Wireless Networking</td>
</tr>
<tr>
<td>High speed modem and Internet connectivity</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Minimum Software Needed*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Microsoft Office 2010</td>
</tr>
<tr>
<td>Browser:</td>
</tr>
<tr>
<td>Internet Explorer 8.0 or newer</td>
</tr>
<tr>
<td>Foxfire 12.0 or newer</td>
</tr>
<tr>
<td>Google Chrome 19 or newer</td>
</tr>
<tr>
<td>Safari 5.0 or newer <em>(Mac)</em></td>
</tr>
<tr>
<td>Sun's Java 2 SDK (Java 1.5 or Java 1.6)</td>
</tr>
<tr>
<td>Microsoft JVM (Windows XP SP1 only)</td>
</tr>
<tr>
<td>MacOS Classic Java (MRJ 2.2.5) <em>(Mac)</em></td>
</tr>
<tr>
<td>DirectX 9</td>
</tr>
</tbody>
</table>

*Additional system requirements and/or software may be required and is based on the technology individual instructors choose. Check with your instructor for specific requirements.

**Can be downloaded from [https://www.sfmccon.edu/distance-learning/technology.html](https://www.sfmccon.edu/distance-learning/technology.html)

<table>
<thead>
<tr>
<th>Minimum Requirements for Mobile Devices*</th>

</tr>
<tr>
<td>Blackberry OS Browser 5.0 and above</td>
</tr>
<tr>
<td>webOS OS Browser 1.4.1 and above</td>
</tr>
<tr>
<td>Symbian OS Browser 3.0 and above</td>
</tr>
</tbody>
</table>

*Mobile Devices are not required and use of devices for or during courses is at the faculty members’ discretion.
COLLEGE INTERNET POLICY

The College of Nursing offers Internet services to provide health science information in accordance with the library's statement of purpose to support the mission and goals of the College.

Students and staff are encouraged to use the Internet to facilitate finding information for College-related work and projects. Students and staff have the obligation to use the library access to the Internet in a responsible and informed way. Use of the Internet is a privilege, not a right, and may be revoked at any time for inappropriate conduct.

Inappropriate conduct includes, but is not limited to:

- Use of the Internet for unlawful activities
- Use of the Internet for commercial activities not related to the College, e.g., buying and selling
- Activities that interfere with the ability of others to make effective use of the Internet
- Violations of computer system security
- Any communication which violates laws and regulations
- Violations of copyright laws including but not limited to illegal file sharing

ELECTRONIC MAIL PRIVILEGES

All students are required to have an e-mail address. It is the student’s responsibility to keep this address current in the OSFHealthCareOnline (eCollege) and SONISWEB systems to assure communication between the students and the College.

E-mail addresses can be obtained for free from service providers such as Yahoo, MSN mail, and Google. Usernames should be the students first and last name so they can be easily identified by other students. Usernames such as sexygrandma and bigdaddy are inappropriate and should not be used.

The guidelines on the use of e-mail are not based on etiquette alone. The mail system simply does not have the capacity to process a very large number of e-mail messages at once. The proliferation of electronic chain letters is especially abusive to the mail system and the network. Chain letters waste valuable computing resources, and may be considered harassing. Use of the mail system to send messages to the entire student body for any reason is prohibited.

OSFHealthCareOnline (eCollege) is part of the information assets of the College of Nursing. Use of the website is limited to College business. Any abuse of the e-mail functionality of the site may be considered a violation of Professional Conduct and subject to Judicial Board Action.

STUDENT COMPUTER LABS

A. Computers are located throughout the building in rooms 214, 135, 216, east rec room, west rec room, Academic Development Center (ADC), and the library. All computers have access to the Internet and are loaded with Microsoft Office as well as various instructional programs.

B. Computer laboratory policies:
   1. The lab is open 24 hours per day for residents of the College. Non-dorm students have access from 6 am to 11 pm.
2. Students must save their work to portable storage devices.
3. Students cannot add or delete software or tamper with any existing program on College computers.
C. Violation of these policies may result in loss of computer privileges or disciplinary action.

WIRELESS CONNECTIVITY

Students at the College of Nursing are able to use their own laptops to access references, on-line courseware, and e-mail. Wireless Internet is available on all dorm floors (3, 4 and 5), in the 2nd floor library and in the Allied Lab building. This connection is unsecured and open to the public through Saint Francis Medical Center. Students access the wireless network at their own risk. OSF, Saint Francis Medical Center, Saint Francis Medical Center College of Nursing, and its subsidiaries are not liable for any damage that may occur from use of the wireless network.

Instructions for accessing the wireless network:

To connect to the wireless network complete the following steps:
You need to setup a new wireless profile on your laptop with the following information.

<table>
<thead>
<tr>
<th>SSID</th>
<th>GUEST</th>
</tr>
</thead>
<tbody>
<tr>
<td>Authentication</td>
<td>Open</td>
</tr>
<tr>
<td>Encryption</td>
<td>None</td>
</tr>
<tr>
<td>Ad Hoc</td>
<td>No</td>
</tr>
<tr>
<td>Connect if not broadcasting</td>
<td>Yes</td>
</tr>
<tr>
<td>Connect whenever available</td>
<td>Yes</td>
</tr>
</tbody>
</table>

Each time you access the Internet using the wireless network:

- Open a browser window.
- On the error page select “Continue to this website (Not recommended).” A User Agreement will be displayed.
- Scroll to the bottom of the page and accept the agreement. Accepting the agreement will redirect you to the OSF Home Page.
- Enter your desired website.

Limited Use Access:

This access is provided to students for educational purposes and e-mail access. Students are expected to maintain professional standards as outlined in the Student Handbooks. Any misuse of the network may result in loss of computer privileges or disciplinary action.

OSFHEALTHCAREONLINE – eCollege

All courses have a course page at www.osfhealthcareonline.org. Each student is given a secure online account when they register. The students’ “SONISID” is the username and the password is the students six digit birth date (MMDDYY).
Home Page

The home page contains College wide announcements and a “Student Union” section. Within the “Student Union” section students can access the “Classifieds” to sell, buy, and trade college related items such as textbooks and uniforms. In the left navigation students can create or join an organization or study group. These areas allow private and non-private student groups to collaborate and share information.

E-mail

To enter your e-mail address into the system, please choose “My Profile” located on the right of the black strip. Enter the correct e-mail address and click the “Update with new values” button at the bottom of the page.

Enrolled Courses

Your courses will be listed under the “Course List” section on the “Academics PSH” tab.
OSF Community: The other area you will want to look at is the OSF Community area. Here you will find information including student organizations, newsletters, College forms, and announcements of interest to all students. In addition, all student e-mail addresses are available in the e-mail area of this course. This allows you to e-mail a fellow student without knowing the e-mail address. You can use this area to e-mail other students, faculty and professional staff.

Orientation: Within the OSF Community is an “Online Technology Orientation” course. Completing this course will assist you in navigating the courses offered here at the College.

Current Courses: All courses at the College have an area on OSFHealthCareOnline (eCollege) to use for class materials and communication. Faculty varies in the materials found here. All faculty will use this area to communicate course grades. Most will use this area for assignments and other communication.

Avoiding Inactivity Timeout

“Satellite & Cellular Internet connections: If this is the only connection you have access to please note that you may experience sporadic issues while working in your online courses. If you report these problems to the helpdesk we will attempt to address them with your Satellite or Cellular connection provider.

Wireless Routers/Connections: While working in your online courses via a wireless router or wireless connection you may experience problems such as various error messages. If you contact the online Helpdesk please be aware that part of the troubleshooting process may be to have you bypass your wireless router or connection. If bypassing the wireless router resolves the problems you are experiencing you will either need to continue to bypass the router or contact the router's manufacturer's support to further diagnose the source of this problem.” (www.osfhealthcareonline.org)

SONISWEB -ONLINE ACCESS TO STUDENT INFORMATION

SONISWEB allows users to:
- View your Biographical data
- Update Biographic data
- Register for Classes
- View your Schedule
- View your Student Billing Account
- View course semester Grades
- View your Degree Progress “Degree Audit”

Accessing SONISWEB

1. Open the Saint Francis Medical Center College of Nursing website www.sfmcccon.edu.
2. Select “Student eTools” in the left navigation.
3. Select “Student” under SONISWEB in the center of the page.
4. Login to SONISWEB™. The PIN and IDs for accessing SONISWEB™ are mailed to students upon receipt of their Enrollment Forms.
5. You get a display with tabs like this:

   ![Image of the display](image)

   **Registration for 20101/1**
   Currently registering under degree
   at Saint Francis MC Coll. Nsg. Peoria, IL

   The registration period ended on 04/08/2010 at 10:00 PM.

   Copyright © RN Systems, Inc. 10/1-2010

### Reviewing Your Schedule

1. Log in as described on the previous page. Click the “Schedule” tab.
2. You may also use the print icon on the top of your browser display to print the Web page with your schedule.

### NOTES

- Please update your e-mail address on the “Update Bio” page, as soon as possible.
- If your e-mail address is current and if you forgot your ID and/or PIN, SONISWEB will e-mail your ID and PIN. There is a statement at the bottom of the log-on page, click on the designated place. The next page will ask for your e-mail address. If your e-mail address that you enter matches with what is in SONISWEB, your ID & PIN will be e-mailed to you.
- SONISWEB has a security feature that will disable access after three unsuccessful attempts at logging into the system. If you receive a message that your ID has been disabled, call the Instructional Design and Technology Specialist at (217) 502-0116 or e-mail elizabeth.k.reynolds@osfhealthcare.org to have your SONISWEB account enabled.
- Your personal computer may be set up to retain passwords and IDs. This may cause problems after you have changed your SONISWEB password and the old password is retained in your system. Follow the directions below to clear –
  a. While in Internet Explorer
  b. Select Tools
  c. Internet Options
  d. Temporary Internet Files
  e. Delete Cookies
  f. Delete Files (Be sure to check the Delete all Offline Content)
  g. Go to Settings – “Check for newer version of stored page”. Make sure – “Every time you start Internet Explorer” is checked.
  h. Reboot your computer to be sure changes are in place.
- For assistance with eCollege or SONISWEB, contact the Instructional Design/Technology Specialist at (309) 655-4121 or see her in her office, room 602.

### CAMPUS COMMUNITY LIFE

### COLLEGE BUILDING INFORMATION This Relates to All Students

#### Access to the Building

Students, faculty, staff, guests and visitors may access the College of Nursing from the sixth floor bridge doors or the 511 NE Greenleaf Street entrance. A keyless entry system has been installed to allow students, faculty and staff access to the building during times that are appropriate to their course, housing status or work schedules. Loss of Access Cards must be reported immediately to the College
Support Representative during day hours and the OSF SFMC Security Office during evenings and weekends.

**Building Access Rights/Limitations**

**Students**
Residents - Residing on campus in a dorm or shared study room will have access to the building, 24 hours a day, 7 days a week excluding dorm/study room closures (holidays, semester breaks, etc.). During dorm/study room closures, access will be granted from 8:00 AM to 4:00 PM, Monday through Friday (excluding College holiday closures).

Commuters - Not residing on campus in a dorm or shared study room will have access to the building, 6:00 AM to 11:00 PM, 7 days a week. During dorm/study room closures (holidays, semester breaks, etc.), access will be granted from 8:00 AM to 4:00 PM, Monday through Friday (excluding College holiday closures).

College and Dorm/Study Room Closure information will be announced through eCollege.

**Guests for Students**
A guest to the College of Nursing is someone invited by a student. The student should arrange to meet their guest at the appropriate door. All guests are the responsibility of the person giving access to the building and must remain with the guest during their visit. Children are welcome to visit the College of Nursing in the company of the student. Babysitting in the College of Nursing is prohibited. No child or guest may be left unattended in student rooms, lounges, recreation rooms, lobby or kitchen.

**Visitors**
A visitor to the College of Nursing is someone inquiring about the College, on campus to attend a scheduled meeting or an unexpected guest of a student, faculty or staff member. Visitors will receive access to the building by the College Support Representatives, 8:00 AM to 4:00 PM, Monday through Friday excluding College closures (holidays and/or semester breaks). All visitors will be asked to sign-in. Visitors not attending a scheduled meeting will be retained by the 6th floor entrance or the lobby until the appropriate person can assist the visitor and then must be escorted at all times. Visitors attending a scheduled meeting will be given directions to the meeting area.

**Guest/Visitor Restrictions:**
Guests and visitors may visit dorm/study room floors during the hours of 9:00 AM to 11:00 PM on Sunday through Thursday and 9:00 AM to 1:00 AM on Friday and Saturday (unless the floor has agreed to more limited hours). Community areas (lobby, kitchen, computer labs, library, and recreation room) are open to guests during the hours of 7:00 AM to 11:00 PM (unless otherwise posted). Students with dorm/study rooms, see the Building Rules and Regulations for additional information.

**Building Access Responsibilities**
Students, faculty and staff have the responsibility to each other to maintain a safe and secure environment. Each student, faculty and staff member will take responsibility by:

1. Using their Access Card to enter the College of Nursing
2. Not prop or hold the door open for any length of time. An alarm will be set off if the door is held open.
3. **Immediately reporting the loss of an Access Card** to the College Support Representative during day hours and the OSF SFMC Security Office during evenings and weekends.
4. Not loaning your access card to anyone.
5. Not allowing anyone to enter the College of Nursing while they are entering or leaving the building.
6. Meeting all guests at the appropriate door for entry into the College of Nursing
7. Explaining to family and friends the need for planned arrivals to the College of Nursing, hour limitations and the policy for visitors (unexpected guests).
8. Reporting violations to the College Support Representative during day hours and the Resident Assistant during evenings and weekends.

**Building Access Card Problems**

Card does not work - Between the hours of 7:00 AM and 5:00 PM, Monday through Friday, notify the College Support Representative by using the phone located outside the access doors (6th floor, off Greenleaf and the West Patio Door). After 5:00 PM and before 7:00 AM or on weekends, contact OSF SFMC Security located on the main floor of the hospital. A picture ID must be presented to gain entry.

Misplaced or Forgotten Cards - Between the hours of 7:00 AM and 5:00 PM, Monday through Friday, notify the College Support Representative by using the phone located outside the access doors (6th floor, off Greenleaf and the West Patio Door). After 5:00 PM and before 7:00 AM or on weekends, contact OSF SFMC Security located on the main floor of the hospital. A picture ID must be presented to gain entry. Students will need to complete the Misplaced/Forgotten Incident Report and will only be given access one day without the card being considered lost or stolen. A $10.00 Access Card replacement fee will be assessed.

Lost or Stolen Cards - Immediately report it. Between the hours of 7:00 AM and 5:00 PM, Monday through Friday, notify the College Support Representative by using the phone located outside the access doors (6th floor, off Greenleaf and the West Patio Door) or calling 655-2217. After 5:00 PM and before 7:00 AM or on weekends, contact OSF SFMC Security located on the main floor of the hospital or by calling 655 - 2131. A picture ID must be presented to gain entry. A $10.00 Access Card Replacement fee will be assessed. Students must complete a Lost/Stolen Incident Report.

**Lobby Area**

Student, faculty or staff member may use the open lobby area on the ground floor. It should be maintained in an orderly fashion to present a welcoming appeal to visitors and guests. The area behind the counter and the mailboxes is for authorized personnel only.

**Meals/Kitchen Usage**

Any student may use the kitchen on the ground floor to prepare and/or eat meals. The kitchen is the only room on campus in which meals can be prepared. It is the responsibility of all students using the kitchen to clean up after themselves. Housekeeping service is provided to only empty the trash and clean the floors.

**Kitchen Regulations**

1) Refrigerators have been assigned for commuting students and for each dorm/study room floor. Commuting students’ refrigerators are not locked and is used on the honor system. Dorm/study room students’ refrigerators have optional key access. If the need arises, specific refrigerator keys are distributed by dorm floor to each dorm/study room student. Contact the College Support Representative in the lobby for replacement keys.

2) The kitchen is equipped with a limited amount of small appliances along with microwave ovens, refrigerators/freezers and full size stoves/ovens.

3) Food kept in the kitchen MUST be labeled with name, room number and date it was placed in the kitchen.

4) The refrigerators will be cleaned out between semester breaks. Any food left in the refrigerators will be thrown in the garbage.

5) Stay with your food while you are cooking. Unattended cooking which activates a fire alarm will result in loss of kitchen privileges and student will be fined an amount equal to the charge assessed to the College by the Fire Department.

6) Anyone who uses the kitchen must clean up after himself or herself. Failure to do so may result in loss of privileges.
7) The College furnishes dishwashing soap. Dispose of solid wastes in the trash can, not the sink.
8) Students must furnish their own kitchen linen and/or additional small appliances (e.g. hand mixers, etc).

Note: Any student who activates the fire alarm by illegal activities or negligence will be fined an amount equal to the charge assessed to the College by the Fire Department. The Fire Evacuation Procedure is found in College Building Information, Safety/Security, Fire Safety Policy and is posted on each floor and in each room.

**Dorm Microwave Regulations**
1) Microwaves are placed on each of the three dorm floors (rooms 318, 418, 513).
2) The microwaves will not be moved or relocated once stationed on the dorm floors.
3) Dorm students are only to use the microwave located on their floor. It is not acceptable to go to an alternate dorm floor to use their microwave.
4) Microwaves must be cleaned after each use to prevent fires.
5) Popcorn is not allowed to be popped in the dorm microwaves. (This policy is in conjunction with OSF SFMC.)
6) Any student who activates the fire alarm by illegal activities, negligence, or accident will be fined an amount equal to the charge assessed to the College by the fire department.
7) A “3 strikes” policy will be implemented. If the microwaves cause a safety concern, or if the fire alarm has been repeatedly sounded due to neglect, the microwaves will be removed from the dorm floors.
8) At any time, without notice, the microwaves may be removed from the dorm floors.

**Vending, Ice and Change Machines**
Vending/change machines may be used by anyone and are located on the ground floor in or by the West Recreation Room. Problems with the machines should be reported to the College Support Representative.

**OSF SFMC Cafeteria**
OSF SFMC Cafeteria is located on the first floor of the hospital. Students may purchase meals in the cafeteria of OSF Saint Francis Medical Center at the employee rate. The student MUST be wearing his/her I.D. Badge.

**Recreational Facilities**
- A recreational area adjacent to the College and the brick patio with grill and patio furniture provides the opportunity for outdoor activities and cookouts. The area has lights for night use. Access to the patio and recreational area is through the security doors located between first and second floors. Students must use their Access Card to obtain entry back into the building. Do not prop the door open.
- Exercise equipment is located in the East Recreation Room on the ground floor. A pool table, ping-pong table, pianos, cable television, DVD player, and stereo are available in the recreation rooms.

**College Announcements**
The College will make "All College" announcements in eCollege. Students should check eCollege periodically for information and updates.

**Public Address System**
The College Support Representative on duty may announce a routine student group meeting as an "all school page". Permission of Administration is required for all other pages.

**Quiet Hours**
Quiet hours and courtesy hours are set by students to show consideration for others and to provide quiet for rest and study. Excessive noise which is disturbing to others is prohibited at all times. Courtesy hours are defined as: stereos, radios, TV's, musical instruments and all conversations must be
kept to levels that will not interfere with the study or sleep of others. Quiet hours are defined as: room noises which are not heard in hallways. Quiet hours are 9:30 p.m. to 9:00 a.m.

Classrooms
Classrooms are air-conditioned and located on floors 1, 2 and 7. All windows should be closed when the air-conditioning or the heat is in operation.

Restrooms
Women's restrooms are located on ground floor and floors 1, 2, 3*, 4*, 5*, 6 and 7. Men's restrooms are located on ground floor and floors 1, 2, 3* and 6. No one may use restroom facilities designated for use by the opposite sex.
* Designates Dorm/Study Room floors

Lockers
• A limited number of lockers are available, on a first come basis, to students not residing in a dorm or study room for short-term day use only (6 AM – 11 PM, Monday – Friday). Overnight locker storage is not available. Lockers are located in the ground floor East Recreation Room. Students must provide their own locks to secure personal belongings. The College of Nursing is not responsible for lost or stolen articles.
• In an emergency, special arrangements may be requested to extend locker usage. Please contact the College Support Representative between the hours of 7:00 AM and 5:00 PM, Monday through Friday, to complete the necessary documentation.
• The College of Nursing administration reserves the right to open and discard locker contents when the student does not abide by the usage guidelines, institutional policies and/or to secure the health and safety of students, employees or the building.

Effective – January 11, 2006

Facility Problems and Repair Requests
Students, faculty and staff are asked to complete the Facility Request Form to report any problems or see the need of repairs within the building or on the grounds of the College. Forms are located in the West Recreation Room, Room 651 and ground floor lobby desk. Completed forms are submitted to the College Support Representative Room 651 or the ground floor lobby desk.

Pets and Other Animals
No birds, dogs, cats or other animals (Exception: Students in dorm/study room may have fish as outlined in the Housing Building Rules and Regulations) shall be permitted into the College facility unless approved as a special program. Guide dogs and other assistive animals may accompany disabled individuals.

STUDENT HOUSING

Dorm/Study Rooms
A limited number of Dorm and Shared Study Rooms are located on floors 3, 4 and 5. These floors should be limited to those who have secured a dorm or study room. Applications to reside in a dorm or study room become available each semester. The Housing Committee makes room assignments using criteria of room availability, need for local housing, educational level, special circumstances and past campus housing history. Dorm/Study Room agreements and Building Rules and Regulations must be signed prior to move-in. Each floor has two Resident Assistants assigned to assist with housing and student life issues. Students must abide by the Building Rules and Regulations (See Appendix).

Dorm Rooms at the College of Nursing are intended to provide temporary housing for students while they attend the College of Nursing. They are intended to serve as the student’s primary place of residence. Students may contract for a single occupancy Dorm Room. All student financial assistance, surveys and reports will reflect Dorm Rooms as living on campus
Shared Study Rooms at the College of Nursing are intended to provide a room close to the hospital for course preparation and an occasional overnight stay. They are not intended to serve as the student’s primary place of residence. Students must keep an updated address (primary place of residence) with the College Support Representative. Students may contract for a single or shared Study Room.

**Internet Access in Dorm/Study Rooms**

Internet access is available in each dorm/study room. All dial-up connections must be made to a local number. The phones in each dorm/study room have a jack on the side of the phone to plug in your modem cord. **Do not unplug the phone from the wall.** Internet access/phone usage should be limited to 1 (one) hour increments. OSF Saint Francis Medical Center is charged per minute for all calls (including local calls). Administration has the right to define excessive usage and to request payment.

Wireless internet access is available in the College of Nursing on the classroom and dorm floors. Please refer to the “Wireless Connectivity” section of this handbook for additional information.

**Dorm/Study Room Floor Lounges for Residents**

Each Dorm/Study Room Floor has one (when available two) lounge available for the students residing on that floor. Each lounge is equipped with cable television, DVD player and furniture to accommodate small group gatherings. The lounges on each floor are for community usage. The doors to lounge areas should remain open until quiet hours begin at 9:30 pm.

**Freezer Usage for Dorm/Study Room Residents**

A freezer/refrigerator is located in the kitchen area on the ground floor and on the individual dorm floors. Dorm/study room students’ refrigerators have optional key access. If the need arises, specific refrigerator keys are distributed by dorm floor to each dorm/study room student. Contact the College Support Representative in the lobby for replacement keys. All food left in the freezer MUST be appropriately labeled and wrapped in aluminum foil or a plastic bag. The freezers will be cleaned out between semester breaks. Any food left in the freezers will be thrown in the garbage.

**Laundry Facilities for Dorm/Study Room Residents**

Coin operated laundry facilities for dorm/study room residents are available on the ground floor. The laundry is equipped with ironing boards. Students must bring their own irons. **ALL** ironing is to be done in the laundry.

**Mail Service for Dorm Room Residents**

Each dorm room occupant will receive a mailbox key at the beginning of the semester/school year. Assigned mailboxes are in the Lobby. Mail, packages, and messages should be picked up daily. Mail is usually distributed to the mailbox after 10:00 AM, Monday through Friday. No mail service on weekends. Student must report lost/stolen keys to the College Support Representative. A $5.00 key replacement fee will be charged.

**OSF SFMC PARKING**

**OSF Saint Francis Medical Center Parking**

Students wishing to park in OSF Saint Francis Medical Center Parking Facilities must complete a parking consent form provided by OSF SFMC Parking Services. Parking Services will contact new students and dorm/study room students during the summer. Parking Services will also be available during orientation. The following is information that will appear on the consent form:

**Dorm Students’ Responsibilities**

- **Fall ☐ Spring ☐** Please mark the semesters for which you have a signed contract for dorm housing.
- Students living in the dorm may obtain a parking permit to park in an assigned parking deck by paying (mark the appropriate box/boxes):
$40—students contracted to live in the dorm one semester
$80—students contracted to live in the dorm two semesters (must pay for both semesters)

- Parking permits are not transferable and can only be used in the assigned parking deck
- There will be a $5 charge any time a permit is forgotten; deck tickets cannot and will not be validated by cashiers
- When parking rules and regulations are violated
  - First offense—$15 ticket
  - Second offense—vehicle towed at the student’s expense
  - Final offense—revocation of any deck parking privileges
  - Deposit may be forfeited for lack of payment or other violations

**Off-Campus Students’ Responsibilities**

- Parking assignments, at no cost to the student, in one of the three off-campus parking lots will be issued by Parking Services
- Students may use the shuttle service from 5:30 AM-12 AM, Monday-Friday, to get from any of the parking lots to the College of Nursing and back
- Off-campus students found parking in any of the parking decks will result in
  - First offense—$15 ticket
  - Second offense—vehicle towed at the student’s expense
- Parking on N.E. Greenleaf Street is metered parking (monitored by the City of Peoria police)
- Parking on Fowler Street is limited to three hours per day (monitored by the City of Peoria police)

**SAFETY/SECURITY**

**EMERGENCY RESPONSE PROCEDURE**

Emergency Response Procedure

**Purpose:** To outline the College of Nursing’s employee response to potentially life-threatening situations to any person in the building.

**Mission:** In following the Mission of OSF SFMC, we believe that it is a necessity to allow and honor our ability to help another in time of need.

**Procedure:**

1. If a person is awake and alert, offer to call an ambulance for transport to the emergency department or direct them to their primary care physician or an urgent care. If non-emergency transport is needed, call Advanced Medical Transport (494-6200) and advise them of the need for a non-emergency transport.
2. If the person is unconscious or in respiratory distress, notify 911 immediately.
3. If doubt or concern in regards to the situation, contact the health nurse or counselor who will arrange for assistance. In their absence, notify administration, faculty or staff to respond to the urgent need.
4. Provide the emergency transport with information regarding the situation, age, sex, current status, what started the situation and what is currently taking place.
5. Direct someone to meet the emergency personnel at the designated door and bring them to the person in distress.
6. While waiting for assistance, stay with the person by remaining with them until help arrives.

This new policy will allow us to act quickly and benefit all to the best of our ability.
The desired outcome will be that all who need emergency assistance in a situation understand that SFMC College of Nursing has the ethical and moral right to call “911” for help when the party in distress is unable to make the decision for themselves. The person who was in need of assistance will be responsible for the cost obtained (financial responsibility will not be that of SFMC CON).

This policy will benefit all by allowing us to care and provide care for those in need. It will also establish boundaries or financial responsibility being that of the person.
Effectivc: October 15, 2005

SMOKING POLICY
Effective July 4, 2007, OSF SFMC became a smoke free environment. The use of tobacco products in any form (cigarettes, cigars, chewing tobacco, snuff, pipes, electronic cigarettes, etc.) is prohibited on the OSF Saint Francis Medical Center property. This includes land, buildings, parking lots, leased spaces; hospital owned vehicles and privately owned vehicles on hospital property. Also included are sidewalks adjacent to hospital buildings and parking lots. SFMC College of Nursing will abide by the rules governed by OSF SFMC. Please see OSF SFMC’s Policy 116 in Appendix I of this handbook for more information.

Adapted from the OSF SFMC policy # 116, Tobacco Free Environment, dated 07/04/07

NEEDLE STICK INJURY PROCEDURE

Process to follow if stuck by a dirty needle or exposed to blood or body substance:

1. First Aid
   a. Puncture Wound
      i. Make bleed
      ii. Wash with soap and water
   b. Splash Mucous Membrane
      i. Rinse with water for 5 minutes
      ii. Eyes: immediately wash eye and report to ED

2. Notification
   a. Nursing student will immediately notify the instructor and charge/resource nurse or manager
   b. If a College of Nursing Student, faculty is to notify the Student Health Nurse ASAP @ 655-2221 for tracking and monitoring purposes.
   c. Information needed:
      i. Student Name
      ii. Name or source patient and/or Medical Record Number of source patient
   d. Check source history for possible risk factors
   e. Student is to contact the OSF Call Center at 1-888-6-ASK-OSF immediately to report and make appointment with Occupational Health.
   f. **At present date, financial responsibility is that of the student.

3. Prompt Evaluation (1 to 2 hours post exposure)
   a. Review and complete OSF Occupational Health Blood/Body Substance Exposure Evaluation packet which are available in the Practice Lab and Student Health Nurse’s Office (603) or the Counselor’s Office (112).
      i. It is the Exposed Student’s responsibility to complete page 1 and 2 before presenting to Center for Occupational Health or ED. Forms are available in the Student Health Nurses’ office at CON, SFMC, or Occupational Health.
      ii. Complete page 2 regarding source patient risk factors referencing source patient’s chart if able.
   b. Follow the directions of the Occupational Health staff in regards to follow up and testing ordered.

4. Student is to notify the Student Health Nurse in regards to required follow up.
EARTHQUAKE POLICY

I. Earthquake Potential

Most tremors are west of the Rocky Mountains. However 39 states are a potential target for earthquakes. Saint Francis Medical Center College of Nursing is on the north edge of a potentially major quake area.

II. Occur suddenly and with little or no warning.

III. Affect entire communities thereby usually making community services unavailable for assistance.

IV. Injuries are caused by:

A. Building collapse or damage, such as falling brick, light fixtures, collapsing walls, etc.
B. Flying glass from broken windows.
C. Overturned bookcases, fixtures, furniture, appliances, equipment, etc.
D. Fires from broken gas lines, etc. This danger could be aggravated by a lack of water caused by broken mains.
E. Fallen power lines.
F. Drastic human reaction resulting from fear.

V. What To Do During the Shaking Occurrence

A. Don't panic. The motion is frightening but, unless it shakes something down on top of you, it is harmless. Keep calm and ride it out. The earth DOES NOT yawn open, gulp down a neighborhood and slam shut. Reassure students, residents, other employees and visitors.
B. If INDOORS, stay indoors. Take cover under desk, tables, in doorways, halls and against wall. Stay away from glass.
C. Do NOT use candles, matches or any open flame, either during or after a tremor. Put out ALL fires.
D. If OUTSIDE, move away from buildings and utility wires. Once in the open, stay there until shaking stops, do not attempt to remain standing. Do not run through, to, or near buildings. The greatest danger from falling debris is just outside doorways and close to outer walls.
E. If in a moving vehicle, stop as quickly as safety permits, but stay in vehicle. A car will jiggle fearsomely on its springs during the earthquake; but it is a good place to stay until the shaking stops.
F. If in a high-rise building, get under a desk or similar heavy furniture. DO NOT dash for exits, since stairways may be broken and/or jammed with people. NEVER use elevators.
G. Keep residents, students, visitors, and other employees out of stairwells and elevators.
H. The most important thing to remember is to remain calm. Reassure and assist students, residents, visitors and other employees. DO NOT ABANDON YOUR POST.
IV. What To Do After the Shaking Occurrence

A. STAY CALM.
B. Assemble personnel at predetermined location. Take a head count of employees, residents, students, and known visitors.
C. Shut off/conserve all unnecessary utilities, equipment and hazardous material supply lines.
D. Put out or contain fires as required.
E. If you smell gas, open windows and notify Security. Leave rooms and areas with heavy gas leakage.
F. Do not use telephones except to report emergencies.
G. Assess damage, supplies needed, functioning capability, etc.
H. Notify President/Dean or College Staff of assessed status.
I. Stand by in your immediate area for internal directions.
J. Give aid to others in your area as it is available.
K. Check for injuries. Do not move injured persons unless in immediate danger of further injury.
L. Immediately clean up spilled liquids and other harmful materials.
M. DO NOT eat or drink anything from open containers near shattered glass.
N. DO NOT touch downed power lines or objects touched by the downed or shorted power supply lines.
O. Turn on your radio and/or television (if conditions permit) to get latest emergency bulletins.
P. Assist as directed with salvage operations.
Q. Stay out of severely damaged areas; aftershocks can shake them down. If fire occurs follow fire procedures (Red Alert).
R. DO NOT go sightseeing. If evacuation is necessary, follow evacuation procedures.

FIRE SAFETY POLICY

I. Policy Statement

Faculty, students, residents and staff of the College of Nursing shall follow the Fire Safety policy specific to the Residence as applicable. During clinical experience within OSF Saint Francis Medical Center, faculty and students shall follow Medical Center policy in regard to Fire Safety, specifically the policy for the assigned clinical area. It is the responsibility of Faculty to inform students of specific policies governing assigned clinical areas.

II. Location of Equipment

A. Pull-Boxes
   Located next to East and West stairwells on all floors.
B. Fire Extinguishers
   1. Dry Chemical Extinguishers (used on any type of fire) are located in fire hose cabinets on all floors next to stairwell.
   2. 7th Floor has Carbon Dioxide Extinguishers I (used on electrical fires) in both the East and West mechanical equipment rooms.
   3. The 7th Floor Student Finance Office has one dry chemical extinguisher on the inside.
   4. Ground floor has Carbon Dioxide Extinguishers in each recreation room with two smaller extinguishers in the kitchen and a dry chemical extinguisher in the east recreation room.
C. Fire Alarm Annunciator Panel
   The master panel is located on the ground floor. The panel is located in the mailroom behind the lobby desk.
D. Stairway
   1. West stairwell located next to West elevator
   2. East stairwell located next to East elevator

E. Fire Doors
   1. In the center of corridor on all floors.
   2. One set of doors for each wing:
      a. North-east wing
      b. South-east wing
      c. North-west wing
      d. South-west wing

Fire Safety – General Instructions

In Case of Fire

1. Assist any person in immediate danger to safety, if it can be accomplished without risk to you.
2. Pull the red fire pull box (located at each exit to the building and stairwells) Call Security at 53333 to report any information you may have such as room number or cause of the fire. If using an outside line you should call 655-2131.
3. Evacuate the building and close door when exiting the room.
   • A closed door can provide good protection against fire and smoke.
   • Use available materials to seal door and air ducts.
   • If smoke enters the room, stay low as heat and gas tend to rise.
   • Signal your position at window.
   • Place the red evacuation sign on the door knob when leaving.
4. Attempt to extinguish fire only if you can do it safely. Do not attempt to extinguish fires larger than a small garbage can.

Fire Prevention

The two greatest possible fire sources are the careless use of smoking materials and shorted or overheated electrical circuits. Observe the following to minimize these risks.

• Smoking is NOT ALLOWED in the College.
• Turn off all electrical appliances before leaving your room.
• Do not cook in your room.
• Do not iron clothes in your room.
• Stop using and report immediately any electrical equipment that is not operating properly.
• Burning of candles and incense is prohibited.
• Do not prop doors open with wedges or other items.
• Hallways are to be kept clear of furniture.
• Exits are to be kept unobstructed.

NOTE: Violations of fire policies are subject to disciplinary action.

When Fire Alarm Sounds

1. Calmly evacuate the building. Do NOT use elevator.
2. Follow instructions of “SFMC College of Nursing Fire Evacuation Procedures.”
3. Report anyone suspected of remaining in the building. By calling 53333 (internally) or 655-2131 (externally).
4. Move away from building, down Greenleaf, leaving a clear access and unobstructed roadway for emergency services. Medi Park III is locked at 10 pm until 5 am.
5. Do not re-enter the building until authorized by Fire Department, Security, or Police.

**If Unable To Evacuate**

1. Call Security 53333 or 655-2131. Know your location and room number. Security is in constant contact with the Peoria Fire Department and meets to debriefs them when they arrive.
2. A closed door can provide good protection against fire and smoke. Use available materials to seal door and air ducts.
3. If smoke enters room, stay low as heat and gases tend to rise.
4. Signal your position at a window.

Persons with mobility difficulties or who use wheelchairs should move to an area of refuge (stairwell, room with phone).

**Fire Extinguisher Usage**

When operating a fire extinguisher follow the steps below (PASS):
- “P” – Pull the pin
- “A” – Aim
- “S” – Squeeze
- “S” – Sweep

During a Red Alert drill, remember (RACEE!)
- “R” – Rescue
- “A” – Alarm
- “C” – Contain
- “E” – Extinguish
- “E” – Evacuate

**Fire Safety Evacuation Procedure**

**HORIZONTAL and VERTICAL evacuations will be initiated with each fire alarm.**

A total evacuation of the building to Greenleaf and/or SFMC Glen Oak Main Building South Entrance will be initiated with each fire alarm. Everyone must evacuate the building.

When reporting a fire, initiate a horizontal evacuation from the area of the fire to a safe area beyond fire doors. Individuals shall move from the area of the fire immediately.

**Ground Floor**

Exit through the Greenleaf doors and proceed East. If the fire is obstructing the Greenleaf doors, proceed to the stairwell and exit through the rear stairwell doors (between the first and second floors) opposite the fire location.

*Push bars have been installed on the back gate for emergency evacuation.*
First Floor

Go up one flight of stairs to the rear stairwell doors or closest access to outside and exit the building opposite the fire location.

All Other Floors (including the 7th floor)

Exit through the rear stairwell doors (between 1st and 2nd floors) or closest access to outside the building opposite the fire location and proceed to ground level.

6 West

Individuals may exit through the bridge doors and proceed inside to OSF SFMC Glen Oak Main Building South Entrance (which is the rear entrance across from the bridge leading to the College of Nursing).

Report to the sign that specifies your group (J1, J2, S1, S2, faculty/staff/others) and report to the safety coordinator at the station immediately.

Resident Assistants, CON Safety Coordinator, and/or position designee will proceed to Greenleaf or OSF SFMC Glen Oak Main Building South Entrance. Report your safe arrival for recording purposes. Report anyone missing immediately.

Resident Assistant (RA) Responsibilities

Two representatives from each floor used for student living will assist with the evacuation process. If both RAs are gone, another trained student will accept the responsibility of assisting evacuation for the floor. RAs educate the members of the floor in the fire evacuation process.
RA’s are responsible for helping to:

1. Maintain personal safety.
2. Alert all residents. Knock loudly on “un-evacuated” doors and turn knob to enter and confirm rooms on designated floor are empty.
3. Check for closed doors.
4. Place red evacuation sign outside on doorknob facing hall.
5. Initiate horizontal and then total evacuation.
6. All students to evacuate by proper and safe routes
   • 6th floor: Evacuate inside to SFMC Glen Oak Main Building South Entrance (the rear entrance leading to the College of Nursing building.)
   • 2nd floor: Evacuate to the Greenleaf (ground level).
   • Greenleaf: Evacuate to the Greenleaf (ground level).
7. Assist CON Safety Coordinator or position designee in taking role call of those present.
8. Assist in maintaining a calm environment.
9. Participate in the “Review of Red Alert” following the activation of the procedure as needed.

BOMB THREAT

If you receive a bomb threat by telephone, try to remain calm and get as much information as possible from the caller. Call Security ASAP!

• Write down exact words
• Check for caller ID
ASK:
• When will the bomb explode
• Where is the bomb
• What does it look like
• What kind of bomb is it
• What will cause it to explode
• Did you place the bomb
• Why
• What is your name and address

NOTICE:
• Voice – male or female
• Approximate age
• Voice patterns, accents, distinctive voice sound
• Tone or attitude of voice
• Did it sound recorded
• Were there background noises or clues about location

IF YOU ARE TOLD TO EVACUATE, TAKE YOUR NOTES WITH YOU

If the threat came in a form other than a call such as a note:
• Notify Security immediately
• Report the time, location and content of the threat message as well as your location and phone number
• Stay on the line until you are told to hang up

Any items such as backpacks and purses are subject to search. Be prepared to assist law enforcement in a building search.

IF YOU ARE TOLD TO EVACUATE, TAKE THE NOTE WITH YOU

TORNADO SAFETY POLICY

Alert Notification, when feasible, an alert will be made by College employee, the Resident Assistants or other designated individual shall:

1. Announce "Severe Weather Alert" “Tornado Watch/Warning” when called by Medical Center.
2. Restrict phone use.
3. Indicate number of available personnel, if requested.
4. Announce "All Clear". (Call Medical Center if not called by them within 10-15 minutes.)
5. 6th Floor: Pull window shades. Move out of the office to center hallway.
6. Main Floor: Stay behind information counter or move into area between mailboxes and small room.
Individuals (students, visitors and employees) within the College of Nursing building shall:

1. Take cover immediately.
2. Move to an interior corridor without windows.
3. Where possible, close windows, draw drapes or blinds.
4. Prepare to move away from large glassed areas into center hallways.
5. Close room doors and fire doors.
6. Restrict use of telephone.
7. Do not leave building.

A tornado can happen instantaneously when no warning has been given. Be alert to conditions that indicate the necessity of taking cover.

A College employee, Resident Assistant or designated individual will maintain contact with OSF Saint Francis Medical Center via text message pager regarding tornado and weather conditions.

**UTILITY SYSTEM FAILURE**

Utility system failures exist when the following situations occur:

1. Emergency generators go on, unplanned.
2. Lights go out.
4. No drain will drain.
5. Unannounced loss of heat/air conditioning.

In the event of a utility failure, individuals within the College of Nursing building should:

1. Notify a College Support Representative or Resident Assistant of the type of utility failure.
2. Follow directions as given.

Security Policies

Campus Crime Statistics

In accordance with the Student Right to Know and Campus Security Act of 1990 and its 1997 revisions, Saint Francis Medical Center College of Nursing is required to publish and distribute an annual report of Campus Crime Statistics and Security policies to all students, employees, and prospective students and employees. In compliance with the Campus Security Act, Saint Francis Medical Center College of Nursing complies, tabulates, and publishes the “Campus Crime and Security Survey” which is required annually by the United States Department of Education by Section 485(a) and (f) of the Higher Education Act. See Saint Francis Medical Center College of Nursing Annual Report for reportable crimes and statistics related to these crimes.

In an attempt to educate faculty, staff, and students about personal safety, the College of Nursing sponsors a variety of programs throughout the academic year. These programs include discussions about topics such as acquaintance rape and self-defense.

Campus Security Department

Security for the College of Nursing is provided by the OSF Saint Francis Medical Center Security Department and Securitas, an outside security agency contracted by the OSF Saint Francis Medical Center to patrol the Allied Building during the late afternoon and evening hours. Security can be reached at 655-2131 (general phone number) or 5-3333 (in-house emergency).

Safety Hints

Building and Residence

• Lock your door even if you will be gone for only a few minutes.
• Do not leave your keys in the lock unattended.
• Do not loan your keys, ID card, or College of Nursing Access Card to anyone.
• Do not offer to let someone you don’t know well use your room.
• Do not “advertise” that you have items of value in your room.
• Small items of value in your room should be kept out of sight.
• Consider having your driver’s license number engraved on all valuables for identification purposes.
• Report thefts immediately to the appropriate person (Resident Assistant or OSF Saint Francis Medical Center Security Department).
• Report the theft of checks or credit cards to your bank or Credit Card Company immediately and notify OSF Saint Francis Medical Center Security.
• All entrance doors to the residence are locked and should NOT be propped open.
• Residents planning to use the patio should remember to take their Access Card.
• Report any door, locks, or windows in need of repair to either the College Support Representative or the On-Call Resident Assistant.
• Be alert to unknown persons loitering in or near the College of Nursing buildings. Note their description and inform the College Support Representative, faculty, staff, On-Call Resident Assistant, or OSF Saint Francis Medical Center Security immediately.
• Soliciting by door-to-door salespersons is prohibited by College of Nursing regulations. No one is allowed in the building for the purpose of making sales.
At Night

- Avoid walking alone at night.
- Be conscious of your surroundings.
- Carry a whistle or personal alarm.
- Notify another person of your destination when leaving the College of Nursing.
- Maintain a tight grip on your personal property.

Walking, Jogging, or Biking

- Know your surroundings and neighborhood.
- Avoid vacant lots, alleys, constructions sites. Only use well-lighted busy streets.
- Never hitchhike.
- Face traffic when walking so you can see the approaching vehicles.
- Have you key in your hand and ready as you get into your car or home.
- Wear comfortable shoes.
- Never walk, jog, or ride your bike alone or at night.
- If a purse or valuables must be carried, keep a firm grip on it. Hold it close to your body.
- Do not wear headphones.
- Use the buddy system in notifying each other of location.

Car Safety Tips

- Make sure your car is in good working order.
- Check your battery, tires, lights, steering, and brakes regularly.
- Learn how to make simple repairs to your car.
- If you go on a trip, plan out what route you are going to take before you leave.
- Leave this route with a relative or close friend.
- Keep windows up and doors locked.
- Park in well-lighted areas.
- Be alert in parking structures.
- If you park in an attended lot, leave only your car key with the attendant.
- Always have a spare set of keys hidden somewhere on the car.
- Never put your address or phone number on a key chain.
- Do not leave valuables visible from the outside of the car.
- Always look in the back seat before you get into the car.
- If you work late at night, do not walk to your car alone.
- If you have someone give you a ride home, have them wait until you get into the residence before they leave.
- If you think you are being followed, go to the nearest open business, police station, or fire department.
- If your car breaks down, put up the hood and turn on flashers. If someone stops, have them call a relative, repair service, or police. Do not get out of the car to talk to them.
- If you are pulled over by an unmarked police car, be sure of the officer’s identity.
- If you feel something is not right, put your flashers on and go to the next open business, slowly.
Policy Against Misconduct, Domestic and Dating Violence and Stalking

Saint Francis Medical Center College of Nursing ("the College") is committed to creating and maintaining an atmosphere at the College in which the administration, faculty, students, staff, College Board and volunteers may work, interact and learn free of all forms of harassment, violence, exploitation or intimidation.

Sexual misconduct, like unlawful harassment on the basis of race, age, disability, religion or any other protected class, is a form of discrimination expressly prohibited by law. Sexual misconduct is a violation of Title VII of the Civil Rights Act of 1964, of Title IX of the Education Act Amendments of 1972, and of the Illinois Human Rights Act. The College will not tolerate, condone or subject anyone to such misconduct. In addition to being illegal, sexual misconduct violates the dignity of the individual and the integrity of the College as an institution of learning.

Likewise, the College does not tolerate domestic violence, dating violence or stalking, regardless of whether these acts are based on an individual's sex. Domestic violence, dating violence and stalking are crimes in Illinois and are subject to criminal prosecution.

Academic freedom can exist only when each person is free to pursue ideas in a non-threatening, non-coercive atmosphere of mutual respect. The College is therefore committed to fully investigating and addressing any instances of sexual misconduct, domestic or dating violence and stalking of which it receives notice. Students perpetrating such acts will be subject to disciplinary action, up to and including expulsion. And, employees perpetrating such acts will be subject to disciplinary action, up to and including termination.

Accordingly, the College has adopted the Policy Against Misconduct, Domestic and Dating Violence and Stalking and is included in the handbook as Appendix L.

Sexual Harassment Policy

The College of Nursing is committed to providing an environment in which faculty, students, and staff are treated with courtesy, respect, and dignity. The College of Nursing will not tolerate or condone any actions by any persons which constitute sexual harassment. Sexual harassment is defined as unwelcome sexual advances; requests for sexual favors; and other verbal, written, or physical conduct of a sexual nature by faculty or other personnel where such conduct is either made in an explicit or implicit term or condition for a specific grade, satisfactory achievement in a course, or employment, or where such conduct has the purpose or effect of substantially interfering with an individual’s academic progress or work. A complaint of sexual harassment should be brought to the attention of either the Dean or the President. Such a complaint will be promptly and fully investigated and, if founded, subject to disciplinary action.

Sexual Assault Policy

For the purpose of this policy, sexual assault is defined as attempted or actual unwanted sexual activity including forcible and non-forcible sex offenses which occur on campus. Such conduct is prohibited by the College of Nursing and a violation is subject to disciplinary action according to the below policy, which is also found in the Student Handbook located at http://www.sfmccon.edu.

Information on sex offenders can be found at http://www.isp.state.il.us/sor.

Professional Conduct

1. Students MUST maintain professional confidentiality. Clients should not be discussed in the cafeteria, public places, at social functions, on social media, or with family and friends.
2. Students may not give information concerning clients or the clinical agency to newspaper reporters, lawyers, insurance agents or others not connected with the clinical agency. Refer these people to the instructor or appropriate person at the clinical agency.

3. Students may not act as witnesses to wills, baptisms, marriages, surgical or autopsy permits.

4. Students must observe OSF Saint Francis Medical Center or clinical agency regulations when visiting clients on a social basis. Students may not use their privileges as nursing students to access clinical areas or client information. Students are not to read patient records or provide care when visiting.

5. Students must promote a quiet environment in client care areas.

6. Students may use telephones in clinical agencies for professional purposes only and not for personal calls.

7. The student, when answering a clinical agency telephone, identifies the agency, unit and gives both name and title.

8. Students, with authorization of the instructor, may use the public address System or audio pagers of the clinical agency.

9. Students should conduct all communications with physicians, clients and employees in a professional manner. Physicians are not to be called without first consulting with the instructor/preceptor.

10. Students shall report to the instructor/preceptor when arriving on the clinical/practicum site and when leaving.

11. Students shall report any broken or defective equipment or supplies to the instructor or appropriate clinical agency personnel.

Unprofessional conduct may also result in criminal proceedings under the law. Students are encouraged to report an incident of sexual assault to the appropriate campus personnel such as the President, Dean, or Counselor. The College of Nursing will assist the student in obtaining appropriate medical attention and will inform the Security Department of OSF Saint Francis Medical Center. The student will be encouraged to cooperate with appropriate law enforcement officers and will be supported in so doing by campus personnel. The student who has experienced a sexual assault will be encouraged and assisted in making arrangements for counseling with an appropriate counselor. The student may receive necessary physical care through the Emergency Department. A student who resides in a dorm or study room of the College of Nursing will be assisted in moving to a different room/floor if desired.

The following procedure should be followed in the event of a sex offense:

1. Contact any administrative personnel of the College of Nursing or Resident Assistant, who will then initiate further procedures.

2. Report the incident to the College’s President or Dean.

In the case of an on-campus disciplinary hearing for an alleged sexual assault in which both parties are students, both the accuser and the accused may present evidence. Both parties will be informed of the outcome of the disciplinary hearing and have the right to appeal according to the appeal procedure for disciplinary action. Disciplinary actions may include but not be limited to the following: loss of dorm/study room privileges, suspension, and or dismissal from College of Nursing. Please refer to the Sexual Assault section for additional questions.

**Weapons Possession**

The use, possession, or carrying of firearms, hard bullies, dangerous knives, explosives, or other dangerous weapons while on College of Nursing or OSF Saint Francis Medical Center property, or at College of Nursing sponsored or supervised activities is not permitted. The only exception is for authorized law enforcement officers or other persons specifically authorized by the College of Nursing or OSF Saint Francis Medical Center. Violation of this policy constitutes misconduct which is subject to disciplinary action including the possibility of dismissal.
Reporting Criminal Actions or Emergencies

To report criminal actions or concerns on campus, an individual should call the Security Department at 655-2131, or call 5-3333 from an in-house campus phone. Security will respond promptly, usually within 5 minutes. Security personnel will call the police department and will request the College Support Representative or On-Call Resident Assistant on duty to notify appropriate College of Nursing personnel. 911 should be called when urgent help is needed. By dialing 911, immediate and direct access is given to local police, fire, and ambulance services. When appropriate, the College will publish information regarding any current danger that reported criminal activity may be present.

Hostile Intruder/Violent Incident Guidelines

In a hostile situation, or one that is perceived as threatening violence, it is recommended that you follow the below guidelines. This information is to help in a critical situation and does not cover every possible situation.

- Stay calm and quiet.
- Call 911. If calling from an on campus phone dial 9-911.
- Leave the area quickly and orderly if safe to do so. Once outside of the building follow the direction of the emergency personnel.
- If unable to leave the area lock yourself in the room you are currently in. If unable to lock the door, barricade door with available objects.
  - Stay out of the vision of the violent individual.
  - When communicating with the police, be prepared to provide them with the following information: location, situation, involved parties, weapons involved, and your name.
  - Do not stay in the hallway.
  - Do not sound fire alarm. People will attempt to evacuate, and leave the safe rooms to go to the hallway.
  - Stay away from the windows.
  - Keep the windows locked and blinds or drapes pulled shut.
  - Turn off all lights and equipment.

Warning Signs of a Potential Hostile Intruder

- Physically or verbally assaults others.
- Threatens harm.
- Talks about killing others.
- Starts fights and confrontations.
- Loses temper easily.
- Constantly angry or agitated.
- Swears.
- Owns and carries weapons.
- Uncontrollable behavior.
- Withdrawn.
- Isolates or ‘a loner.’
- Noticeable mood change.
- Relationships conflicted.
- Alcohol and/or Drug abuse.

Important information regarding telephone usage: signs are placed next to each phone designating the prefix that must be dialed initially in calling out. Please be aware of the specific prefix that applies to the phone or phones in your location.
Dear College of Nursing Students and Employees,

We, as a College, are committed to demonstrating the caring that is emphasized within our Mission. One way caring is reflected is the commitment to maintaining a healthy drug and alcohol free environment. I want to address with you briefly a matter of great importance to all of us.

One of the pitfalls on any campus is drug and alcohol abuse. Monroe (2009) states that there is an increased risk for alcohol and substance dependence by nurses and nursing students. Alcohol and drug use has been found to interfere with succeeding with classroom and exam performance, the quality of clinical performance, and patient care. I hope this section of the Student Handbook helps you to make healthy informed decisions.

The Drug/Alcohol Abuse Prevention Section in the Student Handbook has important points for you to consider as you make decisions about drugs and alcohol.

First I want you to be safe.

Some of the common risk factors are binge-drinking and driving under the influence of drugs and/or alcohol, which puts you at risk for injury and death.

Alcohol and drug abuse can lead to impaired judgment. You cannot protect yourself as effective while under the influence of drugs and alcohol. According to the law, you must be 21 or older to consume alcohol; otherwise you are at risk for arrest.

I challenge you to make the best of your time here at the College of Nursing both socially and academically. This Handbook and the programs provided at the College of Nursing are designed to assist you with making the best choices. I ask you to commit yourself to being responsible for your own well-being and that of your fellow students and employees.

Best wishes,

Patricia A. Stockert, RN, PhD

Patricia A. Stockert, RN, PhD
President
INTRODUCTION

This information has been prepared to fulfill the requirements of the Drug-Free Workplace Act of 1988 (Public Law 101-690), and Section 22 of The Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226). The law requires that institutions adopt and implement a program to prevent the illicit use of drugs and the abuse of alcohol by students and employees in order to maintain eligibility for participation in any of the Federal financial assistance programs. The program must include the following:

- Standards of conduct that clearly prohibit the unlawful possession, use, or distribution of drugs and alcohol by students and employees on the institution’s property or as any part of the institution’s activities;
- A description of the applicable legal sanctions under local, State, and Federal law for unlawful possession, use, or distribution of illicit drugs and alcohol;
- A description of the health risks associated with the use of illicit drugs and the abuse of alcohol;
- A description of any drug and alcohol counseling, treatment, or rehabilitation programs that are available to students and employees;
- A clear statement that the institution will impose disciplinary sanctions on students and employees for violations of the Standards of Conduct and a description of those sanctions up to and including expulsion or termination of employment, and referral for prosecution for violations of the standards of conduct;
- A biennial review of the institution’s programs related to effectiveness and consistency of enforcement of sanctions.

Information in regard to all of the above requirements is found within this booklet. New Junior 1 students, administration, faculty, professional staff, and staff will receive hard copies of the Student Handbook. Other students, interested persons may have access to the Student Handbook by going to the College’s website: www.sfmcccon.edu

6/06, 6/07, 6/08

STANDARDS OF CONDUCT

Students

ALCOHOL AND OTHER DRUG ABUSE PREVENTION

Saint Francis Medical Center College of Nursing seeks to inform all students, faculty, and staff about the effects of alcohol and other drugs. The College recognizes alcohol and other drug abuse as health problems. The College of Nursing has developed an Alcohol and other Drug Abuse Prevention Program designed to: increase student, faculty and staff awareness and knowledge of drug and alcohol abuse; recognize individuals with problems; and make appropriate professional referrals. The objectives of the program are to:

1. Have alcohol and drug free students, faculty and staff.
2. Increase knowledge and awareness of alcohol and other drug abuse through regularly scheduled educational programs.
3. Recognize indicators of potential problems for intervention and/or referral.
4. Provide assistance and/or referral for individuals identified as having problems related to alcohol and other abuse.
5. Establish disciplinary guidelines for violations of the Alcohol and other Drug Abuse policy.

Referrals for immediate assistance may be made to the:
- College Counselor, Office 112, phone 309-655-7100
- OSF SFMC Emergency Department, 530 NE Glen Oak, 309-624-0087
- OSF SFMC Center for Occupational Health, 100 NE Randolph St, 309-655-2429
Referrals for treatment for substance abuse will be made to a community agency such as:
- White Oaks Center, 3400 W. New Leaf Lane, Peoria, IL, 61615, 309-692-6900
- Illinois Institute for Addiction Recovery, Proctor Hospital, 5409 N. Knoxville Ave, Peoria, IL 61614, 309-691-1004
- Antioch Group, 6615 N. Big Hollow Rd., Peoria, IL. 61615, 309-692-6622

The student pays the cost for treatment. These agencies provide inpatient and outpatient treatment, counseling and educational services in the community of Peoria. All documentation related to a student’s assessment and treatment is confidential and kept in the Counselor’s office.

SECTION I: ALCOHOL AND OTHER DRUG ABUSE POLICY

A. The following have been identified by the College of Nursing as prohibited:
   1. Possession or use of alcohol or any alcoholic beverages in the Residence Hall or College campus.
   2. Possession or use of any controlled substance or dangerous drug as defined by Section 812, Schedules I - V., of Title 21, United States Code, Section 801, including but not limited to marijuana, any narcotic drug, and hallucinogen, any stimulants, any depressant or any date rape drugs.
   3. Any glue or aerosol paint as defined by state law or any other chemical substance, including but not limited to, lighter fluid and reproduction fluid, for inhalation.
   4. Any abuse or overuse of prescription or "over-the-counter" medications, such as: vitamins, laxatives, aspirin, or other pain relievers, diet pills, "no-doze" pills, cough syrup, not taken as prescribed.

B. It shall be against the College of Nursing policy for any student to:
   1. Violate Federal, State, or local law regarding drugs and alcohol.
   2. Possess, use, or distribute any drug or alcohol in violation of law.
   3. Possess alcoholic beverages and/or controlled substances in the Residence.

C. The College will refer illegal drug activities to law enforcement and licensing agencies.

D. Any alcoholic beverages available at off campus College sponsored functions MUST be under the control of and served by an establishment with a liquor license. The College will NOT be responsible for alcoholic beverages at such events.

SECTION II: ALCOHOL AND OTHER DRUG ABUSE POLICY AND PROCEDURE

Any College of Nursing Faculty, Professional Staff, Support Staff, and Resident Assistant who has reasonable cause to suspect that a student is under the influence of alcohol and/or drugs in the classroom, clinical area, or public areas of the College of Nursing should:

1. Document behavior and/or complete Saint Francis Medical Center College of Nursing Observation Checklist at the end of this Substance Abuse Prevention Handbook.
2. Contact Counselor, Student Health Nurse, President or Dean.
3. Coordinate transfer of the student from the clinical area to a setting designated by the Counselor, Student Health Nurse, President, or Dean. The student is responsible for providing a driver for transportation to the agreed destination.
4. If a student has a dorm/study room, inspect student’s room, per the Building Rules and Regulations Contract, with the student’s approval, in the presence of the student and, if preferred, a witness of student's choice.
The Counselor, Student Health Nurse, President or Dean shall:
1. Assess the student’s situation, and if needed, make a referral to a community treatment program for assessment of level of care needed. Also, a referral is made to the student’s physician for medical needs.
2. Arrange for drug or alcohol testing, if appropriate. The Consent Form located at the end of this Alcohol and other Drug Abuse Prevention section of the Student Handbook must be completed.
3. Allow a witness, of student's choice, to be present during all discussions. The Counselor coordinates the treatment intervention and follow up plans: return to school details, sessions with the Counselor, possible behavioral contract.

SECTION III: DISCIPLINARY ACTION*

Failure of the student to cooperate in assessment of the situation or to correct an identified problem will result in disciplinary action. Violation of College policy in regard to possession/use of alcohol and/or drugs is subject to disciplinary action by the appropriate group. Disciplinary action will include, but not be limited to the following: responsible to cover costs of any damages to College of Nursing property and/or damages to personal property of others on the College of Nursing premises; loss of study/dorm room privilege(s), suspension, and/or dismissal. The College will refer illegal drug activities to law enforcement and licensing agencies.

This Student Handbook, including the Alcohol and other Drug Abuse Prevention section, describing health risks and legal sanctions is available in hard copy to Junior 1 students, administration, faculty, professional staff and staff annually. Other students, interested persons may have access to the Student Handbook by going to the College’s website.

*Saint Francis Medical Center College of Nursing, Student Handbook (Professional Standards and Student Appeal Process).

Employees
Human Relations Policy No.: 605
Title: Substance Abuse

OSF HealthCare is committed to providing an environment free of the effects of substance abuse in order to maintain a work environment that is safe for our patients, residents, members and visitors as well as our employees.

OSF HealthCare recognizes that safety and productivity is compromised by substance abuse, including alcohol and drug abuse (as those terms are defined in this policy), by increasing the potential for accidents, absenteeism, substandard performance, poor employee morale and damage to OSF HealthCare’s reputation. OSF HealthCare has zero tolerance for substance abuse, including the abuse of drugs and alcohol.

For further information on OSF HealthCare’s Substance Abuse Policy, including definition, employer responsibility, employee responsibility, testing protocol, reasonable suspicion, search and seizure, please go to http://intranet.osfhealthcare.org/policies/Corp_HR_Policies/Disciplinary_action/pol_605.htm

APPLICABLE LEGAL SANCTIONS

For specific legal sanctions go to the following links:

Controlled Substances:
Introduction

Saint Francis Medical Center College of Nursing has a mission of caring for others as well as ourselves. In an effort to assist you in becoming responsible colleagues within the nursing profession, the following information has been prepared. The symptoms and behaviors described below are warning signs that may reflect the presence of a drug or alcohol problem in an individual. We encourage you to familiarize yourself with these signs so that you may recognize them in yourself or in your peers. Interventions for drug and alcohol problems are best managed with early identification and treatment. If you identify some, but not necessarily all of these characteristics, seek assistance. The College is committed to helping students in need. Contact the College Counselor or Student Health Nurse with your concerns.

Warning Signs of Drug/Alcohol Problems in Nursing Students

- Frequently being absent or tardy
- Late assignments accompanied by a peculiar or improbable excuse
- Avoiding peers, faculty, or group work
- Unsafe performance in the clinical area
- Frequently leaving the clinical area
- Deteriorating class and clinical performance
- Smell of alcohol or marijuana (may be masked by breath mints or air freshener)
- Slurred speech, sleepiness, nervousness, excessive giddiness or talkativeness
- Red eyes and inappropriate use of sunglasses

BINGE DRINKING

According to Nakate (2011), binge drinking is “heavy consumption of alcohol, approximately 5 standard drinks for men and 4 drinks for women usually in a short span of time”. Consuming the same number of drinks over a long span of time is not considered to be binge drinking. If this type of heavy drinking occurs 3 times in a period of 2 weeks it is considered to be heavy binge drinking.

College students are among the fastest growing group of people who binge drink. Some of the factors involved are peer pressure, trying to “fit in”, or just be more social. Even though the legal drinking age in the US is 21, the growing number of college students who suffer from alcohol addiction show that the age limit is defied in most cases. In 2003, the percentage of first-semester boys and girls who binged at least twice a week was 41 and 34 respectively.
Among college students high concentrations of alcohol can have the following effects:

- Drinking affects sleeping patterns. Irregular sleeping patterns can cause problems with concentration, poor grades, ultimately leading to dropping out of college.
- Drinking can lead to anger and irritation severing relations with friends and family.
- Depression can be a result of heavy alcohol consumption.
- Intoxication leads to losing control of your actions and ability to think clearly. This can lead to violent criminal behavior.
- Drinking and driving is a dangerous to human lives. College students who drink and drive account for more than 50% of all accidents.

College students face many challenges and binge drinking is one of them. As you can see there are many consequences of binge drinking and some of them are permanent. Binge drinking not only impacts our health negatively but also impacts those around us.

References:

**DATE RAPE DRUGS**

**What are date rape drugs?** These are drugs that are sometimes used to assist a sexual assault. They can be slipped into your drink when you are not looking. The drugs often have no color, smell, or taste so you can’t tell if you are being drugged. The drugs can make you become weak, confused or even pass out so that you are unable to refuse sex or defend yourself.

The 3 most common date rape drugs are:

Rohypnol, GHB and Ketamine.

**Rohypnol (flunitrazepam) is also known as:**

<table>
<thead>
<tr>
<th>Circles</th>
<th>R-2</th>
<th>Rope</th>
</tr>
</thead>
<tbody>
<tr>
<td>Forget Pill</td>
<td>Rib</td>
<td>Rophies</td>

<td>Death</td>
</tr>
</tbody>
</table>

Rohypnol is being replaced in some parts of the US with clonazepam (Klonipen) and alprazolam (Xanax). It comes as a pill or can be ground into a powder.

This drug also may contain a dye that can turn your drink bright blue or cloudy. If you have a dark drink, it may be hard to notice a color change.

**GHB (gamma hydroxybutyric acid) is also known as:**

<table>

</table>
Ketamine comes as a liquid and a white powder.

The club-drug **Ecstasy** can be slipped into a drink. It can also be taken willingly to make a person feel ‘lovey-dovey’ towards others. It lowers a person’s ability to give reasoned consent while under the influence.

*Even if a victim of sexual assault drank alcohol or willingly took drugs, the victim is NOT at fault for being assaulted. You cannot ‘ask for it’ or cause it to happen.*

If you suspect you have been drugged, you should seek medical assistance. If an assault has occurred, you should not have to pay for any drug testing, as it will be covered under the Sexual Assault Survivors Emergency Treatment Act (SASETA). However, if there has been no assault, but you would like testing, you may have to pay for it yourself.

Talk with the College Counselor or Health Nurse if you need assistance or call:

Women’s Strength/Rape Crisis Line – 691-4111 or

Center for Prevention of Abuse – 691-0551

CONSENT FORM FOR ALCOHOL AND/OR DRUG TESTING
STUDENT

I have been informed that based upon my behavior and appearance, Saint Francis Medical Center College of Nursing is concerned that I may be under the influence of alcohol and/or drugs, or that I may have otherwise violated the College Alcohol and other Drug Prevention Policy. I have been requested to submit to alcohol and/or drug testing on a specimen of my blood and/or urine obtained by

OSF ED, Proctor Prompt Care, 1120 E. War Memorial Dr, or other medical services

I understand I am responsible for any cost for this testing.

I have been informed that my agreement to submit to this testing is voluntary, and I have the right to refuse to submit to this testing. I am aware that if I refuse to submit to this testing, my refusal may be grounds for disciplinary action against me, up to and including dismissal. I agree to have the results of this alcohol and/or drug testing reported to the Counselor and the President (or designee). These results may form the basis for referral to an assistance program or disciplinary actions.

With full knowledge of the above information, I have decided to voluntarily submit to the requested alcohol and/or drug testing, and I give my permission to have the test results reported in the manner described.

Registration

The Registrar will distribute a schedule of classes, registration dates and instructions two weeks before the registration period. Prior to the scheduled registration dates, all students are required to meet with their assigned advisor to plan the next semester’s schedule and receive approval for registration. New students must arrange to meet with their faculty advisor prior to registration in order to develop a Plan of Study. Without the assigned faculty advisor’s approval, the students cannot submit their registration to the Registrar.

Currently enrolled students and incoming Junior 1 students will have online access to register during the registration dates noted in the Class Schedule and Registration Guide.

Specific directions are found in each semester’s Class Schedule and Registration Guide booklet. For questions about registration, please contact the Registrar’s Office. The College of Nursing reserves the right to change or adjust clinical or lab schedules of students as needed. Students will not be able to register if they have delinquent financial obligations to the College or financial aid programs.

Transcripts

Transcripts are issued upon written request of the student. The request forms are available in Office 623. The fee for each transcript is $3.00. Transcripts are issued only to individuals in good financial standing with the College of Nursing.

Graduation Application Process-(See Graduation)
COLLEGE SUPPORT REPRESENTATIVES

Contact Information

Office Hours: 8:00 am – 4:00 pm, Monday through Friday (unless posted otherwise)
Office Location: Ground floor lobby desk and Room 651
Phone Number: (309) 655-2217 or (309) 655-6363

College Support Representative hours may vary during vacation periods and summer. Schedules are posted on the bulletin boards throughout the building.

Carlene Murali, College Support Representative II
(309) 624-5626 Office #651 or Lobby Desk
carlene.j.murali@osfhealthcare.org

Elizabeth Zaluska, College Support Representative II
(309) 655-6363 Office #G11 (next to Lobby Desk)
elizabeth.zaluska@osfhealthcare.org

College Support Representatives are available to assist with:

1. College directional information
2. Communicate general institutional policies
3. Dorm/study room application, assignment, and room/mailbox keys
4. Building access
5. Student ID/Access Cards
6. Senior picture communications
7. Reporting/tracking facility maintenance/repair requests

SISTER MARY LUDGERA PIEPERBECK LIBRARY AND RESOURCE CENTER (COLLEGE LIBRARY)

Purpose of the Library

• Professional conduct is expected of all students while using the library

The Saint Francis Medical Center College of Nursing Library (Sister Mary Ludgera Pieperbeck Library and Resource Center) serves as an intellectual resource center for the teaching and learning mission of the College of Nursing. The Library provides access to and delivery of information resources in the field of nursing by developing and organizing its own collection and by supplying links to remote information sources. The Library provides instruction for information literacy and information management as a means of facilitating learning, empowering students and faculty, encouraging critical thinking, promoting scholarship, and improving institutional outcomes. The Library strives to provide exceptional personal service to all of its users. To the extent possible, the Library provides resources and services to those not affiliated with Saint Francis Medical Center College of Nursing.

The Library is located on the second floor of the College of Nursing.

Hours and Contact Information:

</tbody>
</table>
Library hours vary during vacation periods and summer session. Schedules are posted on the library door, bulletin boards throughout the building, eCollege, and the Library section of the College web page.

Library staff can be contacted by phone (309) 655-2180, fax (309) 655-3648, or e-mail CONlibrary@osfhealthcare.org

Professional staff:

William Komanecki – Librarian
E-mail: william.g.komanecki@osfhealthcare.org

Rebecca R. Rundall - Library Technician
E-mail: rebecca.r.rundall@osfhealthcare.org

Personalized assistance is available at orientation, via e-mail or telephone, SKYPE with appointment, and in person with Library personnel. Tutorials are also posted on the College of Nursing Library web site and in eCollege → Undergraduate community link → DocSharing

Borrowing Library Materials

Student IDs are used for library cards. These IDs (bar codes beginning with D6000) are issued at orientation and becomes valid when the student is registered for classes. The CON library ID is accepted at all I-Share Libraries. A list of I-Share Libraries is located at http://www.carli.illinois.edu/membership/mem-libs

All students currently registered with the Saint Francis Medical Center College of Nursing have a Library account associated with their ID. Student ID is the D6000 bar code number issued at orientation. Password is student’s last name. If no D6000 bar code, follow directions at this web site https://i-share.carli.illinois.edu/sfm/cgi-bin/Pwebrecon.cgi?PAGE=pbLogon&PID=BG0qTAxO60pOANbwLcBwz&SEQ=20130716112633

I-Share includes the resources of Illinois Libraries belonging to the Consortium of Academic and Research Libraries in Illinois (CARLI). Students may search the contents of the Saint Francis Medical Center College of Nursing Library online catalog located at https://i-share.carli.illinois.edu/sfm/cgi-bin/Pwebrecon.cgi?DB=local&PAGE=First

Every item in the Saint Francis Medical Center College of Nursing Library Collection has a circulation card located in it. Write the current date and your name on this card and have it scanned by one of the Library staff if you wish to remove a book from the Library.

- Undergraduate students may check out books from the stacks with a borrowing limit of two (2) weeks.
- Books may be renewed at the end of borrowing period, unless there is a hold on the book by another patron.
- Books may be renewed in person, by phoning the library 309-655-2180 or by emailing library staff at CONlibrary@osfhealthcare.org
- To renew books electronically, students can access their account at: http://i-share.carli.illinois.edu/ileso/cgi-bin/welcome
- Students should choose Saint Francis Medical Center College of Nursing Library from the drop-down menu and then choose the Renew Books/My Account tab located at the top of the screen.
- All books are subject to recall at any time, if faculty or student demand warrants the need.
- No book may be borrowed in another person's name. The borrower who signs the circulation card is responsible for that item.
- All books and other materials checked out are entered into the Library's computerized circulation system.

REFERENCE BOOKS

Reference Books are identified with a “Reference” sticker located on the spine.

- Reference Books are to remain in the library. Students may request permission to use a reference book for a class presentation or special project.
Reference Books may be checked out 30 minutes prior to the Library’s posted closing time. These items MUST be returned by 8:00 a.m. the next morning (or before library opening hours on the weekends in order not to incur late fees and/or other penalties.

**CIRCULATING REFERENCE BOOKS**
The Library shelves a number of Reference items that may be borrowed for home use.

- Circulating Reference items may be checked out for 3 days with one renewal.
- These items are also identified with a spine label

**RESERVE MATERIALS**
- Books which are needed by a number of students for a short period of time are placed on reserve at the request of the faculty and identified by a spine label indicating same.
- Reserve books may be taken from the Library with permission of the Librarian.

**ELECTRONIC JOURNALS**
Please review the Research How-To Tutorial available on the Library web site for instructions on searching the online databases for journal articles [http://www.sfmccon.edu/library/articles-and-journals.html](http://www.sfmccon.edu/library/articles-and-journals.html)

The Library maintains electronic reserves for courses. These are available to undergraduate students via I-Share, Course Reserves Tab, then search by course number (see screen shot)

After searching, a screen of hypertext links to journal articles will appear, allowing the student to access the full text with the click of a mouse. IF ACCESSING FROM OFF-CAMPUS, you will be prompted to enter a Proxy ID to access full text. Usually your EPIC user name and password will work. If not, contact the Library for your Proxy ID and password.

Print reserve Materials may be checked out 30 minutes prior to the Library’s posted closing time. These items must be returned by 8 a.m. the next morning in order not to incur late fees and/or other penalties (except weekends, when these are to be returned by the library’s opening hours).

**PERIODICALS**
- Professional journals (bound and unbound) do not circulate.
- Electronic journals can be accessed by this web link [http://www.sfmccon.edu/library/articles-and-journals.html](http://www.sfmccon.edu/library/articles-and-journals.html)
AUDIOVISUAL MATERIALS

- The library has a collection of AV materials which includes CDs, DVDs and access to online streaming databases.
- Reserve AV material can be borrowed for two hours or three days. They may be renewed if no one is waiting to use them.
- Materials are due on the date specified. Items may be placed in the drop slot outside the College Library.
- Whoever signs out materials remains responsible for their return as well as for the fine if returned late or not at all.
- Students are able to monitor returns in their account on I-Share.
- Students may return Universal borrowing items to the College Library or any I-Share Library.

Fines

- Fines for books = 5 cents per day after the first overdue day, until returned or renewed.
- A fine of 50 cents per day, after the first overdue day, will be charged for Reference, Circulating Reference materials, and books which are in high demand.
- Fine for Reserve Books = 50 cents per hour or part of an hour.
- Students with overdue library materials and/or unpaid library fines will not be allowed to register or begin classes for the next semester. They may not graduate if overdue library materials are not returned.

GENERAL CONDUCT IN THE LIBRARY

All students are expected to behave in a professional manner and respect the study rights of others.

LIBRARY EQUIPMENT

- The library has two photocopy machines, six computers, two printers, a fax machine, and a private study room with computers for student use. Two computer labs are also available on the first and second floors of the College of Nursing building, as is wireless computer access.

UNIVERSAL BORROWING AND INTERLIBRARY LOANS

- Universal borrowing and interlibrary loans are both ways to obtain collection items from other Libraries.
- Students registered at the Saint Francis Medical Center College of Nursing have the option to request collection items not owned or currently on the shelf at the CON Library from one of the I-Share Libraries through universal borrowing. Students wishing to request an item from an I-Share Library may do so by selecting the Request tab for the item within the I-Share catalog.
- Students indicate the I-Share Library that they wish to collect the item from.
- There is no fee for borrowing from an I-Share Library.
- Students may return the item to the I-Share Library that is most convenient for them.

Interlibrary loans are available through the College Library. This form is also used for article requests. For items not owned by an I-Share Library, students should make requests through the library’s website at http://www.sfmccon.edu/library/inter-library-loan.html

Interlibrary loans can be made through any college in North America and Canada. Some schools charge fees or postage for this service. Students will be notified if there is a fee.

DISTANCE EDUCATION

All electronic Library resources are available to distance education students. For other resources, distance education students will use their local libraries. Students are expected to adhere to the polices and guidelines of those libraries.
ADDITIONAL RESOURCES
• Students have access to the following databases through the library’s web site
  http://www.sfmccon.edu/library/articles-and-journals.html
  
  • Obtain EZ Proxy ID and password from the College Library.
  
  • On Campus Link
  
  • Off Campus Link

Electronic Journal Databases

• Medline via OvidWeb
• CINAHL Plus via EBSCOHost
• OCLC First Search
• Nursing Consult
• Drug Databases, Micromedex, LexiComp (available as PDA or Blackberry downloads)
• Patient Education Materials
• Cochrane Database
• ERIC

LOCAL LIBRARIES  Students have access to five local area libraries. Students may use the resources of the OSF Medical Center Library and Resource Center, which is located in the North Building on campus. Other area libraries with nursing materials include Bradley University, Illinois Central College (downtown campus), University of Illinois College of Medicine at Peoria (UICOM-P).

Students are also eligible to use any OSF affiliate libraries. These include OSF Saint Anthony, OSF Saint James, OSF St. Joseph, OSF Saint Francis, OSF St. Mary, OSF Holy Family.

LIBRARY LEGISLATION
• This Library supports the Illinois Library Theft Act. The Act is posted in the Library.

• The Library fulfills the conditions of the Copyright Law of the United States (Title 17, United States Code) regarding photocopies.

STUDENT FINANCE

Student Accounts

Contact Information

Dana Briggs, Assistant, Student Accounts & Business Services (309) 655-2344
E-mail: dana.briggs@osfhealthcare.org

Alice Evans, Coordinator of Student Accounts & Business Services (309) 655-3450
E-mail: alice.evans@osfhealthcare.org

Offices are located on the seventh floor in Room 710
Office Hours: 8:00 am – 4:00 pm, Monday through Friday

Student Accounts and Business Services hours vary during vacation periods and summer. Schedules are posted.
Student Account Due Dates and Payment Policy

Payment or payment arrangements should be made by the following due dates:

<table>
<thead>
<tr>
<th>Semester</th>
<th>Due Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall 2016</td>
<td>July 15, 2016</td>
</tr>
<tr>
<td>Spring 2017</td>
<td>December 16, 2016</td>
</tr>
<tr>
<td>Summer 2017</td>
<td>April 21, 2017</td>
</tr>
</tbody>
</table>

Payment Policy:
- Payment arrangement due dates are scheduled 30 days prior to the first day of each semester/session.
- Payment may be made by cash, check, debit/credit card or Financial Aid.
- Make Checks payable to “Saint Francis Medical Center College of Nursing”
- Installment Payment Plans are available.
- OSF Saint Francis Medical Center employees may be eligible for payroll deduction.
- Delinquent accounts will be assessed a monthly late charge of $25.
- Students who have not satisfied their financial obligations will be refused registration and class attendance.
  Graduation requirements will not be met; diplomas and academic transcripts will not be issued.

Installment Payment Plan (IPP)
Installment Payment Plans are available through the Student Finance Office and must be established prior to class attendance. Payments are generally over 4 month period for the Fall and Spring semesters and an 8 week period for Summer session. The standard Installment Payment Plan involves ½ of total semester charges due by the first payment due date. The remaining balance is due in three installments. A signed agreement and $25 fee is required each semester/session. Payments may consist of a combination of financial aid, cash, check or credit card. A multi-use credit/debit card authorization is also available.

The Student who fails to comply with the terms of their payment agreement may be denied the Installment Payment Plan option in subsequent semesters.
Saint Francis Medical Center College of Nursing
“Tradition of Excellence in Nursing Education”

2016-2017 Tuition and Fees

Payment Policy:
Payment arrangements are due 30 days prior to the first day of each semester. Payment may be made by cash, check, credit card, and/or Financial Aid/Student Loans. Make checks payable to “SFMC College of Nursing”. Installment Payment Plans are available.

Estimated Tuition/Fees:

</tbody>
</table>

Itemized Fees on Billing Statement (Statement of Student Account):
- Tuition - Undergraduate $580 per semester hour – Undergraduate courses
- Tuition – Graduate $625 per semester hour – Graduate courses
- Technology Fee $85 per semester - all students
- Activity Fee $50 per semester - all students
- Course Fee $90 per courses 310, 325, 331, 427, 431.2, 431.4, 431.6, 439, 517
- Testing Fee $150 assessed to BSN students in courses 324, 330, 426 & 438
- Graduation Fee $275 assessed to all students in semester prior to graduation
- Installment Payment Fee $25 per semester. Signed agreement is required.
- Late Charge $25 monthly fee assessed to late or delinquent accounts.
- Portfolio Fee $500 review of Advance Placement portfolio for RN-BSN

Miscellaneous College of Nursing Fees (Not on the billing statement):
- Application Fee (Non-refundable): $50
- Transcript Fee: $3
- Uniform Patches: $2

***The following charges are not billed by the College***
Estimated expenses provided to assist with financial budgeting. Actual costs are set by the vendor.

- Transportation – Students are responsible for their own transportation to clinical agencies.
- Parking – OSF SFMC Parking Services Off Campus: Free, Dorms: $40 per semester fee
- Food – On campus options: OSF SFMC cafeteria or College kitchen facilities
- Immunization Tracker – (all students) $35.00
- Textbooks/Supplies – Graduate (book list provided 2-4 weeks prior to each semester) $1,350.00
- Textbooks/Supplies – Undergraduate: (book list provided 2-4 weeks prior to each semester) $1,952.00
- Criminal Background Check/Drug Screen – Undergraduate $95.00
- Uniforms / Accessories - Undergraduate (requirements provided by clinical instructors) $360.00
- Undergraduate expenses following graduation:
  - National Council Licensure Examination for Registered Nurses (NCLEX-RN) $298.00
  - Fingerprinting Fee $55.00

For Student Account Questions Contact: Dana Briggs, Assistant (309) 655-2344 dana.briggs@osfhealthcare.org

Saint Francis Medical Center College of Nursing reserves the right to change or correct tuition, fees, expenses without notice.
Institutional Student Account Refund Policy

A student who officially withdraws from the College or course(s) may receive a full or partial refund (credit) according to the following schedule. The withdrawal date is established by the student’s completion of all official steps for completing the process and is based on the date that the Registrar’s Office records the withdrawal. If a student withdraws from the College or any course(s) at any time without having completed the official process, no refund credit will be made. The College reserves the right to modify the refund schedule as circumstances may dictate.

Additional Notes:

The student’s allocation of any refund is distributed only after the requirements of federal and non-federal aid programs are satisfied. See the Financial Aid Return of Funds Policy for additional information.

Financial Aid Return of Funds Policy

Federal Title IV Funds

The Higher Education Amendments of 1998, Public Law 105-244 mandate the way funds paid toward a student’s education are to be calculated when a recipient of Title IV funds withdraws from the semester. A statutory federal formula is applied through the 60% point of each semester to determine the amount of Title IV funds a student has earned at the “date of withdrawal.” (After the 60% point in the semester, a student has earned 100% of the Title IV funds.)

The amount of unearned Title IV aid disbursed to the student must be returned. The institution and the student share the responsibility in returning funds. (The division of returning funds will depend on what funds were received and how they were disbursed.) Title IV funds returned by the College must be in the following order: Unsubsidized loan, Subsidized loan, PLUS Loan, Pell.

Eligible earned aid not disbursed prior to withdrawing will be applied first to any outstanding student account balance for allowable charges.

Statutory Federal Formula

Earned Percentage of Title IV Aid

Determine the calendar days completed in the semester of enrollment divided by the total calendar days in the semester of enrollment (exclude scheduled breaks of 5 days or more AND days that the student was on an official approved leave of absence).

Unearned Percentage of Title IV Aid

100% Aid Disbursed – % Earned Aid = % Unearned Aid (Title IV Return)

Example:

Days Completed - 19 ÷ Total Days in the Semester 115 = .1652 = 16.5% Earned Aid
100% Aid Disbursed – 16.5% Earned Aid = 83.5% Unearned Aid (Title IV Return)
$5,000.00 Aid Disbursed – $825.00 Earned Aid = $4,175.00 Unearned Aid (Title IV Return)

Effective Date: Semesters beginning on or after July 1, 2000

1Federal Title IV Funds (at SFMC CON) - Pell Grant, Federal Stafford Student Loans (Subsidized and Unsubsidized) and Federal PLUS loan.
Date of withdrawal – A student who wishes to withdraw from a semester must request the appropriate form from the Registrar or Associate Dean and obtain the necessary signatures. Non-attendance or verbal notification to an employee other than the Registrar or Associate Dean does not constitute a withdrawal. The date of withdrawal is the date the form is filed.

Disbursed – Aid that has been applied to the student’s account for tuition, fees and other allowable charges and/or aid that was disbursed directly to the student or parent (PLUS loan).

Leave of Absence – The student must follow the leave of absence policy as written in College publications (Catalog, Student Handbook, SFMC CON Website).

Financial Assistance

Contact Information

Nancy Perryman, Coordinator of Student Finance, Financial Assistance (309) 655-4119

Department e-mail: CONFinAid@osfhealthcare.org
Offices are located on the seventh floor in Room 710
Office Hours: 8:00 am – 4:00 pm, Monday through Friday

Financial Assistance Opportunities

A variety of scholarships, grants and loans are available from many community organizations, foundations, civic and religious groups, and governmental agencies. Students are encouraged to investigate these resources. The College of Nursing participates in the Illinois Student Assistance Commission Monetary Award Program (MAP); the Veterans Educational Benefits (V.A.), the Federal Pell Grant, Federal Direct Loan Programs, and various tuition assistance programs offered by local hospitals. Students applying for financial assistance should complete the Free Application for Federal Student Aid (FAFSA) online at www.fafsa.ed.gov and a College of Nursing institutional application, which is available from the Student Finance Office. The Student Finance Office coordinates the different types of financial assistance and is available to counsel students.

Institutional Scholarships

Through the generosity of individual donors and businesses, Institutional & Private College of Nursing Scholarships/Loans are available to qualified students. To be considered for these scholarships, students need to complete only one application. The application will then be matched against the different scholarship criteria. For a copy of the Institutional & Private College of Nursing Scholarships/Loans application or for details regarding the various scholarship criteria, students may visit the College of Nursing Website or the Student Finance Office. Deadline dates are April 1 and November 1.

Students are encouraged to file all applications early for private funds as well as state and federal grants and loans preferable between January and April for the following fall and spring semesters. Satisfactory academic progress is required for eligibility for financial assistance.

Satisfactory Academic Progress Requirements For Financial Aid Recipients (Undergraduate and Graduate)

1/15/2015 – Effective immediately and replaces all other satisfactory academic progress policies for financial aid recipients printed in any institutional publication or document.
Federal and state regulations require that the College of Nursing establish and implement a policy to measure satisfactory academic progress toward the baccalaureate and the master of science degree in nursing. Standards of satisfactory academic progress are applied to all students who wish to establish or maintain financial aid eligibility at Saint Francis Medical Center College of Nursing. The progress of financial aid recipients is evaluated each semester (including summer) based on qualitative measurement, quantitative measurement and program completion. Students must be making academic progress regardless of whether the student has previously received aid. Students who have completed their Bachelor's of Science in Nursing (BSN) and enroll in the graduate program will not have their undergraduate coursework count towards hours attempted/completed. Before aid is disbursed, a student’s progress will be evaluated according to policy guidelines.

**Qualitative Measurement (GPA)**
- An undergraduate student must maintain a credit and cumulative grade point average of 2.0 on a 4.0 scale.
- A graduate student must maintain a credit and cumulative grade point average of 3.0 on a 4.0 scale.
- If a student repeats a course, only the higher grade and credit are computed into the grade-point average although both grades will appear on transcript (please refer to the catalog for any questions regarding academic policies). Please note that grades can be excluded for prior attempts when calculating a student’s GPA, but these prior attempts will be included when measuring the quantitative component or cumulative credit hours required.

**Quantitative Measurement (Credit Hours)**
Each semester, the student must successfully complete two thirds (or more) of cumulative credit hours attempted (rounded up to the nearest whole credit hour). Grades of C (graduate program only), D, F, U, W, WF, WP or I are not counted as successful completion of credit hours, but are counted as attempted credit hours.

If a grade change report is received from the Director of Admissions/Registrar, Satisfactory Academic Progress will be re-evaluated to determine eligibility to receive further financial assistance. Student will be notified in writing of any changes in their financial aid eligibility.

**Program Completion Time**
The maximum time frame may not exceed 150% of the published length of the program measured in credit hours attempted. Each semester, the student must successfully complete two thirds (or more) of cumulative credit hours attempted (rounded up to the nearest whole credit hour).

- **Bachelor of Science in Nursing – Undergraduate**
  The published length is 65 credit hours. The maximum time frame must not exceed 98 attempted credit hours at Saint Francis Medical Center College of Nursing (includes any transfer nursing curriculum courses).

- **Accelerated Pathway RN to BSN – Undergraduate**
  The length of the program is 64 credit hours. The maximum time frame must not exceed 97 attempted credit hours at Saint Francis Medical Center College of Nursing (includes any transfer nursing curriculum courses).

- **Accelerated Pathway to MSN for RN’s with a Non-Nursing Baccalaureate Degree – Graduate**
  Students must complete their educational program within a time frame no longer than 150% of the published length of the educational program. The published length for a student to obtain his/her degree varies. Please refer to the College of Nursing Catalog to determine the published length of the degree option you are pursuing.

- **Adult Gerontology Clinical Nurse Specialist – Graduate**
  The published length is 43 credit hours. The maximum time frame must not exceed 65 attempted credit hours at Saint Francis Medical Center College of Nursing (includes any transfer nursing curriculum courses).

- **Nurse Educator – Graduate**
  The published length is 36 credit hours. The maximum time frame must not exceed 54 attempted credit hours at Saint Francis Medical Center College of Nursing (includes any transfer nursing curriculum courses).

- **Nursing Management Leadership – Graduate**
  The published length of this program is 33 credit hours. The maximum time frame must not exceed 50 attempted hours at Saint Francis Medical Center College of Nursing (includes any transfer nursing curriculum courses).
• **Clinical Nurse Leader – Graduate**
  The published length of this program is 36 credit hours. The maximum time frame must not exceed 54 attempted credit hours at Saint Francis Medical Center College of Nursing (includes any transfer nursing curriculum courses).

• **Family Nurse Practitioner – Graduate**
  The published length of this program is 44 credit hours. The maximum time frame must not exceed 66 attempted hours at Saint Francis Medical Center College of Nursing (includes any transfer nursing curriculum courses).

• **Neonatal Nurse Practitioner – Graduate**
  The published length of this program is 45 credit hours. The maximum time frame must not exceed 68 attempted hours at Saint Francis Medical Center College of Nursing (includes any transfer nursing curriculum courses).

• **Family Psychiatric/Mental Health Nurse Practitioner – Graduate**
  The published length of this program is 46 credit hours. The maximum time frame must not exceed 69 attempted hours at Saint Francis Medical Center College of Nursing (includes any transfer nursing curriculum courses).

• **DNP Clinician – Post Masters Doctorate Degree**
  The published length of this program is 39 credit hours. The maximum time frame must not exceed 59 attempted hours at Saint Francis Medical Center College of Nursing (includes any transfer nursing curriculum courses).

• **DNP Leadership – Post Masters Doctorate Degree**
  The published length of this program is 39 credit hours. The maximum time frame must not exceed 59 attempted hours at Saint Francis Medical Center College of Nursing (includes any transfer nursing curriculum courses).

**Financial Aid Warning**
Warning occurs when requirements have not been met in either area (qualitative and quantitative). Student can receive financial aid during this warning status, but must “make satisfactory progress” when measured against all areas at the end of the next period of enrollment.

**Financial Aid Academic Progress Suspension**
Suspension occurs when requirements have not been met after a semester of warning. Students on suspension are not eligible for federal or state assistance (See Types of Financial Aid). Students on financial aid suspension have the right to appeal (See Financial Aid Progress Appeal Process).

**Financial Aid Probation**
Probation occurs when a student who is on financial aid suspension appeals the suspension and has eligibility for aid reinstated based on the appeal. Students on probation will be required to meet specific terms and conditions during the payment period for which probation is approved. At the end of each semester the student must meet the required Satisfactory Academic Progress standards or the specific terms and conditions for the semester or no further aid will be disbursed.

**Notification of Financial Aid Warning/Suspension/Probation**
The College of Nursing Student Finance Office will notify, in writing, students through the US Postal Service (using the address in Admissions). Students applying for financial assistance will be notified prior to disbursement of aid.

**Financial Aid Academic Progress Appeal Process**
Students on Financial Aid Academic Progress Suspension must appeal in writing for reinstatement of financial aid eligibility to the Coordinator of Student Finance, Financial Assistance, Saint Francis Medical Center College of Nursing. The appeal letter should address specific reasons for requesting the appeal. Mitigating circumstances include:

- Serious injury of the student and/or the student's immediate family
- Serious extended Illness of the student and/or the student's immediate family
• Death of a student's relative
• Other circumstances that affect the student's ability to meet SAP

Describe in detail:
1. The reason for past performance difficulties (including supporting documentation).
2. How the situation has changed. If it has not changed, describe how it is now being handled. Supply an outline of solutions for improvement.
3. Outline of courses remaining to complete the baccalaureate program and the semester in which you plan to complete the course. The written appeal must be submitted within thirty (30) calendar days of notification from the Student Finance Office, or after receipt of credit grades, whichever is first. Appeals are processed on a case-by-case basis. The student's circumstances, academic advisement and current federal regulations are taken into consideration. Appeal decision will be mailed within (30) calendar days (mailing procedure is the same as the suspension notification).

Types of Financial Aid

Financial aid programs covered by this policy are: Federal PELL Grant, Federal Direct Loan Programs (Federal Stafford Subsidized and Unsubsidized, Federal Parent PLUS, and PLUS Loan for Graduate or Professional Students) and the Illinois Student Assistance Commission Monetary Award Program.

Notes: Financial aid programs not listed above may have additional or more stringent conditions which must be met for continuation.

Contact the source which made your award or processed your application materials. Examples: Saint Francis Medical Center College of Nursing institutional awards, OSF Saint Francis Medical Center scholarships/contracts, private agency funds or scholarships.

Original 8/92; REVISED 11/91, 12/93, 5/95, 9/99, 11/01, 4/05, 5/06, 2/07, 8/09, 2/11, 7/12, 7/13, 5/14, 1/15

STUDENT HEALTH SERVICES

Philosophy of the Student Health Services

We believe, as members of society, every person has the right to obtain healthcare in a safe and confidential manner. We believe that every person is created by God and has personal dignity and rights. It is our responsibility as healthcare providers to promote health and wellness and to guide those with illness to better themselves.

Student Health Costs and Fees

1. Students are responsible for all medical expenses and are expected to carry health and accident insurance.
2. All costs not covered by the student’s insurance will be billed to the student for payment.
3. Any emergency room visits, ambulance services, medical assistance or services, testing, or prescribed medications are financially the full responsibility of the student.
4. Students are to create an account with the College selected immunization and background check service(s) for submission of health records and a background check. Fees are the responsibility of the student.

Reviewed by A & P Committee: 2/26/2016; Approved by College Senate: 3/18/2016
Latex Allergy Protocol

Purpose: To identify those students who are at high risk for the development of, or who are allergic to latex. To manage the student and their environment in such a way as to prevent negative outcomes, students performing patient services must adhere to this policy while working at OSF Saint Francis Medical Center.

Supportive: It is an industry consensus that latex allergy is more prevalent in healthcare than any other industry. The allergy may be life threatening. It may cost lost productive work hours and/or medical expenses. All health care workers are at risk for becoming latex allergic. Of those at risk employees, some are of a higher risk.

Procedure:

1. All students, upon acceptance to the program, will be screened for latex allergy and/or risk factors by way of questionnaire.
2. Students suspected of having a latex allergy will need follow up care and testing at the student’s expense. A physician’s report of diagnosis and follow up is requested.
3. It is the student’s responsibility to notify the college faculty of any concern or documented allergy prior to latex exposure.

Health Records

Physical examination records and health information are available to the Student Health Nurse while the student is enrolled in the College. Following graduation, withdrawal or dismissal from the College, the health record is archived in the certifiedbackground.com website and accessible to the health nurse. The student can maintain their record by arrangement with the website. All information is held confidential to the College of Nursing.

Procedure for Reporting Absence Due to Illness

For each day of illness, the student will:

1. Clinical:
   a. Notify the course faculty.
   b. Notify the clinical unit.
   c. Notify the Student Health Nurse.

2. Class:
   a. Notify faculty member at least one hour prior to start of class.
   b. Notify the Student Health Nurse.

3. A student who is ill three (3) or more consecutive school days, must present a release from a physician to the Student Health Nurse in order to return to class or clinical. The faculty will then be notified.

4. A student who has surgery of any type (inpatient or outpatient) must present a release or specified restrictions from a physician to the Student Health Nurse before returning to class or clinical.

5. It is the student’s responsibility to notify the faculty of any restrictions.

6. In case of injury or if the need for an exam is triggered by evidence of problems related to clinical performance and/or safety, a student will be required to present a medical release to their instructor and the health nurse upon return to the classroom and clinical setting. The medical release must state a return date, a provider signature and that the student is cleared to participate in classroom education and nursing clinical rotation. A student will be denied participation in classroom and clinical rotation until such a release is provided.
Reporting Health Related Emergencies

Emergencies should be reported immediately to the Student Health Nurse. In her absence, notify College Administration for direction. Call 911 for Emergency Care or SFMC Security @ 655-2131 for assistance. Any cost accumulated is at the student’s expense. In the event a student experiences a health emergency in one of the College buildings and 911 is called, College Administration will notify the student’s designated emergency contact of the student’s health emergency.

A Licensed Clinical Social Worker is available to all enrolled undergraduate and graduate students. Counseling services are free for all College of Nursing Students. Appointments can be made or walk-ins are welcome. Common issues that students see the Counselor for are stress related to school, personal/family, and employment issues that may impact academic performance. Topics commonly include low self-esteem, relationship conflicts, stress/time management, and test taking anxiety. The Counselor makes referrals to community medical and mental health professionals as necessary for further assessments and treatment of symptoms that extend beyond the scope of short term, solution-focused counseling. The Counselor’s focus is to help students have a positive and successful experience at SFMC College of Nursing.

For emergencies requiring immediate assistance, see the Counselor, call 911, or get yourself to the nearest emergency room for help.

All contact with the Counselor is kept confidential. Information is released only with the written consent of the student, except as required by law when safety is a concern either for the student or for another person.

ADDITIONAL COLLEGE POLICIES AND INFORMATION

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

The information presented here is in compliance with the Family Educational Rights and Privacy Act of 1974. The Act requires that students be informed annually of their rights and of the College's policies and procedures in compliance. The Family Educational Rights and Privacy Act (FERPA) afford students certain rights with respect to their education records.

They are:

1. The right to inspect and review the student's education records within 45 days of the day the College receives a request for access.
2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative,
supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor, or collection agent); a person serving on the College Board; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the College discloses education records without consent to officials of another school in which a student seeks or intends to enroll, after, making a reasonable attempt to notify the student of the records request.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-4605

STUDENT RECORDS

Location of:

Educational: This record is kept in the locked file in the office of the Director of Admissions/Registrar.

Health: This record is kept in the locked file of the Student Health Nurse

Financial: This record is kept in the locked file of the Student Finance Office.

Permanent: This record is kept in the locked file in the Record Room. A microfilmed copy is kept in a locked, fireproof vault in OSF Saint Francis Medical Center.

Content of:

Educational: Application for Admission, Transcripts, Student Course Summary Report, Enrollment Form, Pre-and post admission correspondence. Copy of current LPN/RN Illinois registration, when applicable

Health: Physical examinations

Immunization record: On file with the Student Health Nurse.

Financial: Information to determine aid eligibility, financial aid transcripts, financial awards, correspondence in regard to awards.

Permanent: Application for Admission, High School and College Transcripts, Acceptance letter, Enrollment Form, and copy of RN Illinois license, when applicable, Student Course Summary Reports, Student's Final Transcript, Attendance Record, Application for Licensure/Examination, Immunization record, health record, record releases, and postgraduate correspondence.

STUDENT ACCESS TO FILES

The student may request, in writing, an opportunity to review the content of these records. The request should be made to the President of the College. An opportunity to review the record will be arranged. The student will review the record in the presence of the President or Dean. Health records are available upon request.

If, during the review, the student questions the accuracy of the record, the College's representative will attempt to solve the problem. If this informal means does not solve the problem, a formal hearing will be set for within
thirty days. At the formal hearing, a College administrative person or a person who has no direct interest in the problem will represent the College. The student will be given a copy of the record prior to the meeting, if desired. The cost of each copy, $2 per sheet, will be paid by the student. The student will be given a fair hearing and will be permitted to present evidence to the issue being discussed. The student will receive a written decision within thirty days. A copy of the decision and of the student's request will be placed in the student's file.

This part of the Act is to insure that the record is not inaccurate, misleading or in violation of the student's rights. It does not permit the student to challenge a grade. It does encourage the student to challenge the correctness of the recording of the grade.

The Act excludes from review, specific records; among these records are:

- Records created by and for use of the faculty only.
- Financial records of parents and all information included therein.
- Any record to which the student has waived his or her rights.

**DIRECTORY INFORMATION: RELEASE OF PERSONALLY IDENTIFIABLE INFORMATION**

The College will NOT release any personally identifiable student record information to a third party unless the information has been specifically requested in writing, and the student has consented to the release in writing. One exception is a recent amendment to FERPA, which permits educational institutions to disclose-without the consent or knowledge of the student—personally identifiable information from the student’s education records to the Attorney General of the United States or to his designee in response to an order issued by a court of competent jurisdiction in connection with the investigation or prosecution of terrorism crimes specified in sections 2332b(g) (5) (B) and 2331 of title 18, U.S. Code.

At the student's request, the College will furnish a copy of information to the student for which consent is being sought. Copies of requests and of the student's consent will be kept in the student's file. Each copy released to a third party or to the student will be at the expense of the student. All transcripts and other materials will carry the College Seal.

The Act provides for the College to release information to personnel of the College who are determined by the College to have legitimate educational interest and to officials of other schools in which the student intends to enroll. The student will be notified of the request; receive a copy of the requested material if desired; and have the opportunity to challenge the record. The student is charged for each copy of the material sent to these schools and to the student.

Materials under the Act are sent to: authorized representatives of the Controller General of the United States; the United States Secretary of Health, Education and Welfare; the Commissioner of Education; the Director of National Institute of Education; to state and local officials requiring disclosure by virtue of State Statutes adopted prior to November, 1974.

Information will also be sent to: organizations conducting studies for educational agencies or institutions, provided the studies are conducted in a manner that will not permit the personal identity of the student or his or her parents to be known to others than the representatives of the organization; accrediting organizations to aid in carrying out accrediting functions; parents of dependent students as defined by the Internal Revenue Code of 1954; comply with judicial order or subpoena, providing the student is notified in advance of compliance; protect the health or safety of the student or other persons. The College will share the information with a third
party under the above listing only on condition that they do not share information received unless they have the
written consent of the student.

Disclosures: The following information is available upon request: enrollment rates, crime statistics, financial
aid information, and program completion rates.

NONDISCRIMINATION POLICY

The College admits qualified students without regard to national or ethnic origin, race, color, creed, sex, age, or
disability that does not interfere with nursing performance.

VOTER REGISTRATION

In compliance with the 1998 Higher Education Act, the College will make voter registration forms available to
all enrolled students.

Prior to Illinois’s voter registration deadline for federal and gubernatorial elections, students will receive a
notice that voter registration forms are available upon their request. A person designated by the President will
assume responsibility for obtaining the forms and notifying the students.

POLICY FOR UNDERGRADUATE STUDENT ADMINISTRATION OF IV PUSH MEDICATIONS

In the first semester of the senior year, students will be instructed in the correct technique for administration of
IV push medications as an expected skill. Administration of selected IV push medications by the first semester
senior students will be at the discretion of the faculty member. Students will NOT administer IV push
medications in emergency situations. Only IV medications which do not require RN certification on the assigned
unit will be considered for student administration.

Students must be supervised in the administration of IV push medications by a registered nurse (RN). All IV
push medications must be checked by the faculty or an RN as they are with other types of medication
administration. Students are required to follow the same safety guidelines for IV push administration as they do
for other medication administration. Students are required to demonstrate knowledge of the drug and follow the
administration technique set forth in the Micromedex and Lexicomp medication resources.

POLICY ON LOGGING STUDENT COMPLAINTS

To comply with federal and regional and program accreditation agency regulations, the College of Nursing will
maintain records of formal, written student complaints that are filed with the offices of the President, Deans, or
Assistant Dean of Support Services. The records will include information about the disposition of the
complaints, including those referred to external agencies for final resolution. These records will be available to
team members during scheduled accreditation visits.

College of Nursing Guidelines
To implement this policy, the College of Nursing will keep a record of:

- Signed, written, formal complaints from students
- Formal academic grievances – (Using the current Appeal Procedure)
- Reports of signed, written student complaints sent to the College from governmental and accrediting
  agencies

To comply with federal and regional and program accreditation agency regulations, the College of Nursing will
maintain records of formal, written student complaints that are filed with the offices of the President, Deans, or
Assistant Dean of Support Services. The records will include information about the disposition of the
complaints, including those referred to external agencies for final resolution. These records will be available to team members during scheduled accreditation visits.

**College of Nursing Guidelines**

To implement this policy, the College of Nursing will keep a record of:

- Signed, written, formal complaints from students
- Formal academic grievances – (Using the current Appeal Procedure)
- Reports of signed, written student complaints sent to the College from governmental and accrediting agencies

Examples of student complaints are: alleged personal injury from decisions made by faculty, staff, and/or administration; procedural unfairness; and accusations about a decision-making process. The log of student complaints will be kept in the President’s office. Included in the log will be:

- Date the complaint was first formally submitted to the appropriate person
- The nature of the complaint
- The steps taken by the institution to resolve the complaint
- Resolution by CON, including date of resolution
- External actions initiated by the student to resolve the complaint, if known to the institutional, e.g., lawsuit

The above information must be shared with accrediting agencies, but student identity will be protected. The procedure for making a formal complaint is found in the Undergraduate and Graduate Student Handbooks, which are located on the College of Nursing website at [http://www.sfmcon.edu/publications](http://www.sfmcon.edu/publications).

**Student Academic Complaints**

The student has the right to appeal grade reports, course or clinical grades that result in academic probation or dismissal from the College, or decisions where there is reason to believe that they were capricious, discriminatory, arbitrary, or in error. Dissatisfaction with a grade is not a sufficient reason to appeal the grade. In order to provide a mechanism for the fair resolution of disagreements, the College has developed an Academic Appeal Procedure for students. Students have the right to appeal grades, academic or student policies, and disciplinary action resulting from violation of academic or student policies and Professional Code of Conduct. Students should refer to the Student Appeal Procedure, Academic Appeal Procedure found in the Undergraduate and Graduate Student Handbooks.

**Student Non-Academic Complaints**

The Assistant Dean for Support Services shall be responsible for responding to complaints from students on non-academic (non-classroom and grading) issues. These issues include, but are not limited to: parking violations and towing; refunds of tuition and fees; admission, registration and records matters; financial aid matters; Residence building issues; counseling matters; and student activities.

The student is expected to initiate her/his complaint with the staff member immediately responsible for the area in which the problem occurred, in a sincere effort to resolve the issue in an informal manner at the lowest level.

If the issue is not resolved in an informal manner, the student may proceed with a formal written appeal of the matter to the Assistant Dean of Support Services. The Assistant Dean of Support Services shall meet with the student within ten business days of receipt of the request in an attempt to resolve the issue. If the decision of the Assistant Dean is unacceptable to the student, the student may file a written notice of intent to further appeal to the President within three business days of receipt of the decision. The President shall have a maximum of ten business days to call a meeting of all parties to resolve the situation. The President will review all current records or documentation relating to the appeal. No new documentation may be introduced at this time. The written decision of the President shall be sent to the student and Assistant Dean within three business days following the appeal meeting. The decision of the President with regard to student non-academic complaints shall be considered final.

ACADEMIC DEVELOPMENT CENTER

The Academic Development Center was created to assist students in achieving academic success. The College of Nursing is dedicated to helping its students succeed. The Center provides an individual assessment of learning needs. The assessment process may begin with the administration of a Learning style Inventory to identify the students learning preferences and identify appropriate learning strategies. Assistance is also available with time management, study skills/note taking, understanding course content, and test taking strategies. Referrals are made for students requiring assistance with test anxiety and other needs not provided by the Center. The Center is located in room 127 at the College and is coordinated by Paulette M. Archer RN, EdD. Information and appointments are available by calling 309-624-3161 or emailing paulette.m.archer@osfhealthcare.org.

### At Risk Profile (1 or more):

- 1 or more Cs in a term
- Term GPA < 3.0
- HESI Mid Curricular Score < 900
- HESI Exit Score < 900
- Academic Probation for course failure
- 3 or more Cs overall at the CON
- Pre-Nursing Science GPA < 2.8
- Pre-Nursing GPA < 3.0

### Available resources:

- Get help early in term from faculty.
- Early referral to the Acad Dev Center
- Meet with College Counselor
- Participate in peer teaching program
- Review HESI
- Take an NCLEX review course.

### Comments:

- May 2016

If a J1 drops/wd from 310 or 312 or 314 and they are enrolled in 324 & 325, they must drop/wd 324 & 325.

Saint Francis Medical Center College of Nursing
Peoria, Illinois

Consent to External Background Check and Disclosure of Information

I hereby authorize Saint Francis Medical Center College of Nursing (hereinafter referred to as “College of Nursing”) or any qualified agent, or clinical facility, where I may receive clinical education (“Clinical Facilities”) to receive the following in connection with my clinical educational experience: criminal background information including copies of my past and present law enforcement records to include both misdemeanor and felony convictions. This criminal background investigation is conducted for the purpose of assisting the College of Nursing and Clinical Facilities in evaluating my suitability for a clinical experience. The release of information pertaining to this criminal background investigation to those persons necessary to determine my suitability to participate in the clinical educational experience is expressly authorized.

I understand that information contained in the criminal background report may result in my being denied a clinical experience and may result in dismissal from the College of Nursing. If negative information is contained in my report, I understand that I will be notified by the College of Nursing and I have the right to contest the accuracy of the report and subsequently provide documentation the report is in error.

I hereby give the College of Nursing permission to obtain and release criminal background information to facilities to which I may be assigned for clinical experience prior to beginning the assignment. I hereby release and hold harmless the College of Nursing, OSF Healthcare System, its trustees, the College Board, OSF employees and agents, and Clinical Facilities (all hereinafter referred to as “OSF”) from liability or damage in providing such criminal background information or acting on such information. I hereby agree that a copy of this authorization may be accepted with the same authority as an original.

I hereby further release the OSF from any and all claims including but not limited to, claims of defamation, invasion of privacy, negligence or any other damages resulting from or pertaining to the collection of this information.

I also agree that I must immediately report any future criminal convictions to the Dean Undergraduate Program at the College of Nursing.

My signature below certifies: a) agreement and approval of the above statements; b) that all information given is true and reliable; and c) that I am responsible for all fees associated with this process. Any false information given may result in dismissal from the College of Nursing.

Saint Francis Medical Center College of Nursing
BUILDING RULES AND REGULATIONS
Dorm and Study Rooms
Fall 2016 and Spring 2017

Student's Name        SFMC CON ID#

A. Responsibility as a Member of a Community
   1. A student taking occupancy in a dorm or study room at Saint Francis Medical Center College of Nursing becomes a member of the residence hall community.
   2. Conduct in violation of the rights of others is grounds for immediate termination of occupancy in the College of Nursing residence hall and/or withdrawal of future housing privileges.

B. Room Definitions
   1. Dorm rooms at the College of Nursing are intended to provide temporary housing for students while they attend the College of Nursing. They are intended to serve as the student’s residence while classes are in session. Students make an agreement for a single occupancy dorm room.
   2. Study rooms at the College of Nursing are intended to provide a room close to the hospital for course preparation and an occasional overnight stay. They are not intended to serve as the student’s residence. Students must keep an updated address (primary place of residence) with the College Support Representative. Students make an agreement for a single or shared study room.

C. Release from Agreement
   1. A student withdrawing from their dorm or study room must submit a written statement to the College Support Representative three weeks prior to move-out. The statement should outline the move-out date, a new/forwarding mailing address, and the reason for withdrawing from the residence agreement. Requests for agreement withdrawal will be forwarded to the Student Finance Office for a financial evaluation.
   2. A student may be released from the dorm or study room agreement during a semester for the following reasons: (a) academic dismissal, (b) disciplinary exclusion from the College, (c) induction into military service, or (e) health, upon written recommendation of the SFMC College of Nursing Student Health Services area.
   3. Refunds, if applicable, are prorated based on the number of weeks (full or part) under the agreement. No account refund will be issued to the student until the entire account balance has been satisfied.
   4. All keys and the student access card must be returned at the time of move-out. The charges for replacing keys and the access card are as follows: access card, $10; mailbox key, $5; room key, $10.

D. Housekeeping and Safety Regulations
   1. To comply with housing codes and to insure the general welfare in the building, the College reserves the right to enter and inspect rooms for health reasons or fire safety during an emergency to protect life or property from imminent danger or to provide repair or maintenance services. Closets that are part of the room may be opened and inspected. Any hazardous conditions or violations noted during a safety inspection must be corrected upon notification to the resident. Absent an emergency or imminent threat to health or safety, no search of the contents will be made without either consent of a resident of the room or a search warrant.
   2. Fire alarms, automatic sprinklers, extinguishers, and other devices are provided for the safety of residents in case of fire. Propping open exit doors and disabling (or tampering with) a fire door is prohibited. Tampering with these devices or using them for other purposes is prohibited. Illinois law requires fire drills. All occupants must leave the building during a fire alarm or exit drill. Sounding a false alarm is a violation of city and state law as well as College regulations. Persons found to have sounded a false alarm, tampered with extinguishers, or smoke or fire detection devices, or automatic sprinklers may be fined and other disciplinary sanctions may be applied up to and including removal from College housing.
   3. By Illinois law, a person commits aggravated arson when, by means of fire or explosive, he or she knowingly damages, partially or totally, any building, and he or she knows, or reasonably should know
that one or more persons are present therein. Aggravated arson is a Class X felony; imprisonment of not less than six years, without probation, must be sentenced upon conviction.

4. In accord with regulations of the Illinois Department of Public Health and OSF Saint Francis Medical Center, all students are required to present proof of immunity against vaccine preventable communicable diseases, including rubella, mumps, measles (2 doses), and diphtheria/tetanus (less than 10 years old). Evidence and appropriate documentation from a physician or healthcare provider is required in regards to updated immunizations, a physician diagnosed disease, or laboratory data. Contact the College of Nursing Health Nurse for necessary requirements.

5. The housing code forbids the use or storage in dorm/study rooms of microwaves, hot pots, toaster ovens, or any appliances for cooking or heating food or beverages. In addition, other heat producing appliances such as irons and space heaters may not be used in dorm/study rooms, and refrigerators with interiors larger than three cubic feet are prohibited.

6. Humidifiers are permitted in dorm/study rooms (approved by CHSP 1/23/08).

7. Smoking is prohibited (including e-cigarettes) in all areas of the SFMC College of Nursing campus.

8. Room decorations are permitted except for hanging blankets, tapestries, rugs or fishnets. Combustible decorations must not be put on the ceiling, in the entryway, on the door, or near heat sources such as light bulbs. Halogen lights are prohibited. Any method of affixing decorations that puts holes in or mars walls, woodwork, doors, or furnishings is prohibited.

9. Burning candles, live holiday trees, holiday or decorative lights, incense, fireworks, explosives, and incendiary materials are prohibited. The possession or use of firearms or other weapons of any description and for any purpose is prohibited. No decorations, flags, banners, or other items may be hung on the exterior or draped from a window or doorway of the building. Signs or posters in windows are subject to the approval of the College.

10. No bicycle, motorcycle, or other motor vehicle is permitted into any area of the building for storage or for any purpose whatsoever.

11. The removal of windows or opening windows when air conditioning or heat is on by residents, either permanently or for a short period of time is prohibited. The installation of air conditioners by residents is prohibited.

12. The use of waterbeds, lofts, bed risers are prohibited. The building of or installation of “loft” furniture or other structures of any kind or size is prohibited. All College furnishings and fixtures must remain in the room at all times. Furniture in lounges and common areas must not be removed.

13. Additions to, modifications of, and unauthorized connections to existing wiring systems are prohibited and will be removed at the student’s expense; such systems include electrical, telephone, data, and television/radio signal wiring and distribution systems. Residents are prohibited from installing additional wiring or distribution systems, including satellite dishes. Any such unauthorized wiring will be removed at the owner's expense. Only the jacks and outlets provided in a resident’s room may be used for obtaining electrical power or for connecting telephone and data transmission equipment. No cameras or recording devices may be installed in any area of the College of Nursing. The College of Nursing does not provide cable TV to dorm or study rooms. Any unauthorized connections are prohibited.

14. A resident may not use any facilities or areas, including the room assigned to the resident, for any commercial purpose or activity without written authorization from the Assistant Dean, Support Services. Only College supported activities will be authorized.

15. Rooms must be maintained in good sanitary condition and must be returned in as good repair as when possession was taken, ordinary wear and tear accepted. Damages to students’ rooms, including costs for replacing missing furnishings, will be charged to the last known student occupant(s) of that room. Damages to the public areas of a residence hall, including costs for replacing missing furniture and other furnishings which cannot be attributed to specific individuals or groups will be charged to all residents of the smallest applicable area of the hall, the total being divided equally. Assessments for damages are made on a regular basis at the discretion of the Assistant Dean, Support Services.

16. No pets or animals of any kind, except fish, are permitted in the dorm or study room at any time for any reason. Fish aquariums are limited to three gallons.

17. All room keys and access cards are the property of SFMC College of Nursing. Residents are prohibited at all times from giving and/or loaning their keys or access cards to anyone for any reason. Any duplication of College keys/cards is strictly prohibited. Replacements for lost keys must be obtained
from the College Support Representatives located on the ground floor. The charges for replacing keys or access card are as follows: access card, $10; mailbox keys, $5; room key, $10.

18. No surface of any room may be painted, and no locks can be changed or added on any door within the building.

19. Any student vacating a dorm or study room for any reason, including but not limited to withdrawal from the College, moving to a different residence, and vacating at the end of the semester must return all keys and access card within 24 hours. Failure to return any keys within this time limit will result in replacement fees added to your student account.

E. Miscellaneous Rules and Regulations

1. These rules and regulations are subject to change, as the College deems appropriate. The College then will notify students under an agreement of any revisions as soon as practicable.

2. Signing the residence agreement automatically constitutes acceptance of the floor/room to which a student is assigned with all rights, privileges, and responsibilities.

3. A resident may not unreasonably interfere with any other resident’s rights under a dorm or study room agreement. This includes the right to a reasonable degree of quiet, and each living unit, under direction of Resident Assistant, is expected to determine a quiet hour policy at the beginning of each semester. Playing musical instruments in any resident’s room and engaging in physical games of any kind in the building is prohibited. Infractions that cannot be resolved by the Residence Assistant will be referred to the counselor who will have discretion to resolve such problems through administrative/disciplinary action.

4. Only residents assigned by SFMC College of Nursing may reside in their assigned rooms; residents may not invite or permit any other person to reside in their assigned room or in any other area of the building. Residents are prohibited from renting or subleasing college dorm rooms to protect residents and the community from exposure to safety and security risks.

5. A resident may have overnight guests, limited to one guest per resident at any one time, provided proper written approval of roommates (in shared study rooms) and guests are properly registered with the College Support Representatives. Guest privileges are limited to a maximum of two consecutive nights and a total of seven nights per resident per semester. Overnight guests must be of the same sex as that of the resident assigned to the room. A guest is defined as a non-resident who requires a room in which to sleep for the night. Guests may not occupy or sleep in common areas of residence halls.

6. A resident may have visitors in the resident’s room between 9 a.m. and 11p.m Sunday thru Thursday, Friday and Saturday hours are extended until 1am. A visitor is defined as a non-resident of a room who is invited by a resident of that room to spend some time in the room, presumably of a short duration. Visitors must be escorted by a resident at all times.

7. No individual resident, overnight guest or visitor may use washroom facilities designated for use by the opposite sex.

8. All telecommunication services in the building, including but not limited to, direct dial local and long distance telephone services and data services are provided exclusively through Saint Francis Medical Center. Residents agree to comply with the policies and procedures for SFMC CON telephone and data services, and agree to pay all charges incurred. Credit cards and calling cards may be used to place and bill local and long distance calls. One telephone line is provided per room as part of the room rental charge. One data port per resident is provided per room as part of the room rental charge; residents must provide their own computers. Operation of file or web servers is prohibited.

9. SFMC CON will repair without charge all interior telecommunication wiring to telephone jacks in student rooms, except when damage to jacks or wiring is caused by vandalism or tampering with the jacks, lines, or equipment. In the case of such damage, SFMC CON will perform the repair and charge the cost of the repair to the person or persons renting the room or found responsible.

10. When it appears, through reports of the staff, Resident Assistants, SFMC Security, etc., that a student has broken the residence agreement or has violated a dorm or study room rule or other College rule or regulation as specified herein, the College reserves the right to review the case and take appropriate action administratively. The Dean will appoint the reviewing administrator. When, in the opinion of the reviewing administrator, a student has broken the agreement, the reviewing administrator may remove the student from housing, or apply a lesser sanction such as a required room or hall change or housing probation. The decision of the reviewing administrator will be final.

11. The Assistant Dean, Support Services may act administratively to maintain the living and learning environment by moving a student to a room other than the one to which he or she was initially assigned.
or by moving the student to another residence floor, as determined by the Assistant Dean. The Assistant Dean’s decision on such matters will be final.

12. The College shall not be responsible for disruption or non-performance as a result of a major campus disruption, strike, fire, flood, wind, or snow storm, or other acts of God, act of terrorism, or other events beyond the College’s control. In the event of such occurrences as described in the preceding sentence or for the convenience of the College for construction or other purposes, the College may, at any time, and at its sole discretion, close all or part of the building (including dorm and study rooms). If a dorm or study room is prematurely closed, the affected resident(s) shall vacate that hall within 24 hours of such closing and shall be relieved of all subsequent room obligations for that building after the closing date.

13. At the College’s sole discretion, construction may take place near residential units. No adjustment will be made to any residence charges at any time based solely on that construction. In some cases, it may become necessary to assign students to “temporary rooms”, for example, converting a lounge. The temporary assignment may not be equipped with all of the furnishings or amenities (internet access, phone, etc.) of a regular room.

14. No resident may remain in the dorm or study rooms during any holiday breaks, semester and summer breaks, or dorm closures. Student’s belongings may remain in their room during holiday breaks, but must be removed during summer break and/or during dorm closures. See Dorm/Study Room Agreement for closure dates.

15. Residents must move out of their dorm room no later than the Sunday immediately after commencement or the Sunday of commencement. **Exception:** Graduating seniors may apply for a one-week extension while attending the NCLEX Review Course.
F. Certification of Agreement

When you sign this agreement and the Dorm/Study Room Agreement and move into the residence, you receive the privilege of living in a SFMC CON dorm or study room. Along with that privilege come responsibilities and obligations. You are also agreeing to a “social agreement” with the following expectations:

1. I have read and understand the rules and regulations enumerated within the Building Rules and Regulations and understand they are those referred to in the Saint Francis Medical Center Dorm/Study Room Residence Agreement; by that reference, they are incorporated into and part of the residence agreement between the student and Saint Francis Medical Center College of Nursing.

2. I agree to accept the responsibilities and obligations associated with being a resident at Saint Francis Medical Center College of Nursing:
   a. I agree not to interfere with the rights of other residents.
   b. I agree to cooperate fully and in a reasonable manner with the Resident Assistants (RA) and any other College staff and/or administration.
   c. I agree to be responsible for my behavior and to respect the rights of others.

Saint Francis Medical Center College of Nursing
Dorm Room Agreement Fall 2016 / Spring 2017

Name: ________________________________ Date: ____________________

CON ID #: ____________________ Room #: ____________________

Dorm Room Rate: $1,750 per semester or $3,500 for academic year

This agreement is a contract between Saint Francis Medical Center College of Nursing (SFMC CON) and the undersigned student for the following semester(s).

Mark one or both semesters:

❑ Fall 2016 semester: August 8 (move-in week after 7:30 am each day, with an appointment) to December 11 (move out by noon). The dorm/study room areas of the College will be closed during:
  • Thanksgiving Holiday beginning Wednesday, November 23 from 5:00 PM to 2:00 PM on Sunday, November 27. Students are not permitted to stay in the dorm during the Thanksgiving break; however students may keep personal belongings in their rooms over the holiday.
  • Fall Semester Ends - Sunday, December 11 all students and their belongings must be vacated by noon. If continuing the agreement for the spring semester, personal belongings may stay in the room over the semester break.

❑ Spring 2017 semester: January 9 (move-in week after 7:30 AM each day, with an appointment) to May 21 (move out by noon). The dorm/study room areas of the College will be closed during:
  • Spring Break beginning Friday, March 10 from 5:00 PM to 2:00 PM on Sunday, March 19. Students may keep personal belongings in their rooms over the break. Students will have to vacate the building before 5:00 PM and cannot return until 2:00 PM.
  • Spring Semester Ends - Sunday, May 21. All students and their belongings must be vacated by noon.

The student agrees to comply with all federal, state, city laws, and SFMC CON Building Rules and Regulations. The student will act in a way that promotes the existence of a quiet, safe, and secure housing environment.

Dorm room charges will be applied to the Statement of Student Account and shall be paid according to established deadlines or payment arrangements; all policies regarding payment, installment payments plans and account balances. The last day to make changes in room arrangements is through the 100% refund period, week 2 of the semester. For questions regarding Dorm Room Charges, please contact the Student Finance Office at 309-655-2344.

HOUSING IS NOT AVAILABLE DURING SPECIFIED HOLIDAYS, SPRING BREAK, AND THE SUMMER.

To withdraw from this agreement, please refer to the enclosed Building Rules and Regulations in the Release from Contract section.

Saint Francis Medical Center College of Nursing, according to established channels, reserves the right to establish fees and expenses and make changes without notice if circumstances make it necessary to do so.

I agree to abide by the Saint Francis College of Nursing Rules and Regulations:

Appendix H

POLICY NO.: 115
TITLE: Personal Appearance
OSF Saint Francis Medical Center

OSF HealthCare is dedicated to having all employees present a professional appearance to those we serve. An organization may be judged not only by the quality of its services but by the appearance of those providing the services. Therefore, while freedom of individual expression and changing styles and fashion are recognized, it remains important to convey a sense of professionalism to patients and their families, visitors and business associates. Appropriate clothing and good habits in personal hygiene are important aspects in personal appearance.

It is the responsibility of all OSF leadership to assure that employees are dressed in an acceptable manner consistent with their specific environment, and appropriate for interaction with individuals they come in contact with. In order for OSF HealthCare to continue to maintain a professional atmosphere, attitude, and to promote safety for all employees, the following information is intended to serve as a guide to help define appropriate dress for employees in various settings. It is not intended to be all inclusive. Rather, it sets the general parameters for proper attire and allows employees to make intelligent judgments about items that are not specifically addressed. Department leadership is responsible for interpretation of the guidelines, and as necessary, may require more stringent or restrictive, but not more lenient, dress codes, as deemed necessary by their functions. Department specific requirements must be approved by the appropriate Vice President.

If there is any doubt about whether an article of apparel is appropriate, assume it is not. When in doubt, dress conservatively. All clothing must be neat & clean, properly fitted, and meet the job specific requirements. Attire should not be revealing, and undergarments should not be visible.

Clothing
1. Shirts: Casual shirts with collars, knit tops, sweaters, turtlenecks, polo shirts, in high quality material are acceptable. Inappropriate items include: Shirts and jackets made from denim, T-shirts, sweatshirts, tank tops, halter tops, hooded shirts, shirts with messages, advertisements, slogans, photographs, large lettering or logos (with the exception of OSF logos) and any tops with bare shoulders unless worn under another blouse or jacket. Shirts should be of an appropriate length and cover the midriff when arms are extended over the head.
2. Slacks: Casual dress slacks are acceptable. Denim jeans of any color, cargo pants, sweatpants/suits, shorts, pants above the ankle, capris, bib overalls, spandex or other form fitting pants are not allowed. However, brown or black denim jeans may be allowed in Maintenance departments, if approved by the appropriate Vice President.
3. Dresses and skirts: Casual dresses, jumpers, skirts, and split skirts, not greater than 2 inches above the knee, are acceptable. Dresses and skirts made from denim are not acceptable.
4. Scrubs: Designated departments will be allowed to wear scrubs. Only solid colored scrub pants may be worn. Printed scrub tops may be worn, if the print is appropriate for the workplace. A solid color-coordinated T-shirt or white T-shirt may be worn underneath scrub tops provided it does not hang out below the end of the scrub top. Hospital scrubs should never be worn or carried off OSF property without being signed out by proper authorization.
5. Casual clothing will be acceptable for attendance at department meetings that require employees to come into the operating unit on a scheduled day off. Casual clothing may also be worn by those employees coming and leaving work, if they change into appropriate attire once they get to their department.

Footwear
1. For employees whose primary job is in a clinical area, footwear is limited to closed toe shoes without any holes on top, such as athletic shoes, tennis shoes, and non-vented Crocs/clogs with a strap around the heel.
2. For employees whose primary job is in a non-clinical area, open toe shoes and dress sandals, in addition to dress, closed toe shoes, are acceptable as long as department safety guidelines are not violated. Heel height should not be greater than 3 inches. Socks/stockings are not mandatory providing a professional appearance is maintained and the department specific dress code does not require them. Athletic shoes, tennis shoes, and sneakers are not to be worn, unless the department safety guidelines require them.
3. Flip flops, barefoot shoes, and slippers are not appropriate for any setting. Footwear should generally be professional and appropriate for the workplace.

Settings Requiring Uniforms
Some departments may require a standard uniform as their dress code. Specific dress code and uniform requirements will be maintained for each department requiring a uniform. It is the responsibility of employees to supply and clean their own uniforms, except in specialty areas as defined by OSF HealthCare.

Grooming
1. Good personal hygiene is expected of all employees.
2. Hair needs to be clean, neatly styled and manageable for the job performed. Hair ornaments must be kept to a minimum and hair color should be of a natural tone. If the length of the hair could impose a safety hazard for the job performed, it needs to be fastened away from the face. Employees who come into direct contact with patients and/or food preparation may be required to cover their hair and/or beard with a hair net or cap in order to comply with Public Health regulations.
3. Male personnel are expected to be clean shaven or wear neatly trimmed mustaches, sideburns, and beards not greater than two inches in length.
4. Make-up needs to be moderately applied and appropriate for professional/business appearance.
5. Tattoos must be concealed and covered to maintain a professional appearance. If the tattoo is unable to be covered by clothing, it must be covered by a bandage when at work.
6. Odors should not be excessive. No overpowering odors (fragrances, body odor, tobacco or other smoke, etc.) shall be noticeable from an employee during work hours.
7. Fingernails are to be neatly manicured and of reasonable length (less than ¼ inch in length). For those individuals providing direct patient care, cleaning patient/treatment rooms, and/or/preparing items that touch the patient or are used for patient care, artificial nails, extenders, or enhancements are not allowed. Anything applied to natural nails, other than nail polish, is considered an enhancement. Nail polish colors need to be appropriate for professional/business appearance. Dark nail polish colors, such as purple, black, blue, orange, and green, etc., are not appropriate.

Accessories
1. Except for small conservative earrings placed in the ears, any other visible “piercing” jewelry (including nose, lips, eyebrow, and tongue piercings) is not acceptable.
2. Jewelry and other adornment must be simple and appropriate for job duties.
3. Pins, stickers, or other adornments that do not recognize an OSF HealthCare sponsored activity are not allowed. Pins may not be placed on or through the employee name badge.
4. Hats/caps and sunglasses, unless authorized by the department leadership as specific to a job, are not to be worn while on duty.

Name Badges
1. Name badges must be worn by all employees while on duty and for OSF related business.
2. Name badges will be worn with the picture facing out and worn in a visible location, as appropriate per the work area.
3. Name badges and/or plastic badge holders are to be replaced if lost or the plastic becomes ragged.

Jeans for a Cause Days
Senior leadership may, at their discretion, authorize a “Jeans for a Cause” work day. These days will be limited to no more than once per month. All other aspects of this Personal Appearance policy must be adhered to on “Jeans for a Cause” work days. Jeans worn on these days should not have holes or be frayed. In some patient care settings, Jeans for a Cause days are never appropriate and may not be approved by senior leadership. Exceptions to dress or uniform codes for bona fide physician certified health reasons may be made. Non-compliance with the dress code will be addressed through the Positive Discipline Policy (See Policy #601, Positive Discipline).
Questions about specifics on this policy can be addressed through the department leader or Human Resources.

Effective: 07/02/2012
Appendix I

TOBACCO FREE ENVIRONMENT (116)

Purpose:
To explain OSF HealthCare's commitment to be a tobacco-free environment and employees' responsibilities to not use tobacco on OSF HealthCare property. This applies to OSF HealthCare employees including contract employees, as well as volunteers, visitors, students, and contractors.

Policy:
1. The use of tobacco products in any form (i.e. cigarettes, cigars, chewing tobacco, snuff, pipes, electronic cigarettes, etc.) is prohibited on OSF HealthCare property.
   a. This includes land, buildings, parking lots, leased spaces, and all vehicles on property leased or owned by OSF HealthCare.
2. OSF HealthCare is committed to the promotion of health through the treatment and prevention of disease, and for providing a safe and healthy environment for our employees, physicians, volunteers, visitors and those we serve.
   a. OSF HealthCare recognizes the adverse health effects of tobacco products and second-hand tobacco smoke.
3. Employees are not be allowed to use tobacco products during their paid work time or paid breaks, and are strongly encouraged not to use tobacco products during their unpaid lunch break.
   a. No smoke odors are to be noticeable from an employee during work hours.
4. Success of this policy depends on the thoughtfulness, consideration and cooperation by everyone.
   a. Employees are expected to be good neighbors to those property owners adjacent to us. Do not trespass on their property or loiter on the sidewalks near their homes or businesses.
5. Employees are responsible for the enforcement of this policy.
   a. Anyone observed violating this policy should be asked by an employee, member of leadership or security to discontinue the use of their tobacco product while on OSF property.
6. Employees who violate this policy are subject to disciplinary action up to and including termination.
7. Employees interested in quitting smoking are advised to contact Human Resources for details of smoking cessation programs offered by OSF.
Appendix J

POLICY NO.: 117
TITLE: Parking
OSF Saint Francis Medical Center

It is the policy of OSF Saint Francis Medical Center to provide a convenient and safe parking environment for our patients, visitors, employees, volunteers, medical staff and students. It is very important that our patients and visitors have the ability to park in the most convenient areas possible. In order to help assure that such parking is available to patients and visitors, all employees, medical staff and students will be assigned to a designated parking area. Failure to adhere to the following policy may result in the loss of your parking privileges and/or disciplinary action.

1. REGISTRATION OF MOTOR VEHICLES
   A. All employees, physicians, volunteers, contracted employees, contractors, sub-contractors, students, etc. who wishes to park a motor vehicle on Medical Center property must register at the OSF SFMC Parking Services Office and complete the owner/vehicle registration form, in its entirety. Once the form is completed, a parking assignment will be issued. Multiple vehicles may be registered. Medi III will be accessed using the employees I.D. card. Proximity card readers will control the entrance gates. The employee I.D. badge will be the only authorized method of entrance to the deck.
   B. A "parking assignment" shall be defined as a privilege extended to the driver by the Medical Center to park their vehicle in specifically designated areas on a space available basis. Parking permits, decals, and stickers are only to be used by the cardholder, and are not to be shared, sold or given to any other person.
   C. Parking fees will be established by OSF SFMC Administration. Parking fees can be paid through payroll deduction for employees or through periodic billing for non-employees. Failure to pay parking fees can result in revocation of parking privileges.

   The fee schedule is as follows:
   - $5.00/pay 80 hrs
   - $4.00/pay 64 hrs
   - $2.50/pay 40 hrs or less
   - $4.50/pay 72 hrs
   - $3.50/pay 58 hrs

   Parking fees do not apply to regularly scheduled 3rd shift employees. Employees regularly scheduled to work 3rd shift will be assigned parking in Medi Park III. (Employees working 3rd shift must have a note from their manager in order to receive proper parking assignments.) It is the responsibility of the employee to inform Parking Services of any changes in employment status. Employees, who transfer from free parking on 3rd shift to another shift, will be subject to the above fee schedule. Employees will also be subject to reimbursement of any owed parking fees since their transfer date.
   D. Medi Park III is open for all employees parking on weekends and holidays. You must enter and exit from the top Glen Oak Avenue level driveways. The entrance gate is raised Friday night at midnight and is put back in service on Monday morning at 5:00.
   E. All parking card permits, decals, stickers and hanging permits shall be obtained and used in accordance with the regulations prescribed.
   F. When assigned to a lot requiring a parking decal, the decal must be affixed to the left rear glass (driver’s side) within 24 hours after being issued and shall be kept and displayed upon the motor vehicle for which it is issued at all times. Unless the parking decal is attached, the vehicle shall not be considered a registered vehicle. Hanging permits are to be placed on the rear view mirror, with the permit number facing outward. Vehicles not displaying a decal/permit, or displaying a decal/permit incorrectly can be ticketed.
   G. When a vehicle has been registered and another vehicle is acquired, the new vehicle must be promptly registered. It is the responsibility of the individual to inform Parking Services Department of any changes in information, i.e.: vehicle type and license plate number.
   H. Parking permits expire immediately upon resignation or termination of the employee.
   I. Parking permits issued to users of OSF SFMC parking system remain the property of OSF SFMC. The Medical Center reserves the right to:
      1. Refuse issuance of a parking permit
      2. Revoke or recall a permit
      3. Change parking assignments as deemed necessary
4. Restrict the use of any parking space or lot at any time
5. Determine hours of control
6. Change any or all of its parking regulations at any time
7. Close, reserve or restrict parking areas as deemed necessary
8. Change fees, traffic rules and regulations at any time without prior notification.

J. The responsibility for locating a legal parking space rests with the operator of the vehicle. Lack of space is not a valid reason for violating these regulations.

2. HANDICAPPED PARKING PERMITS

A. Handicapped parking permits:
   Occupational Medicine can provide temporary recommendations for parking assistance up to 6 weeks based on medical criteria. Temporary parking assistance will only be granted with Occupational Medicine’s recommendation. Individuals with needs for parking assistance that are chronic or in need of greater than 6 weeks assistance are required to obtain a state disability certification for a parking placard. It is anticipated that such placard process can take 10 – 21 days or longer depending on how fast their treating doctor completes the appropriate forms. Occupational Medicine can direct the employee where to get the Illinois State forms but will not fill out such forms unless the employee is currently receiving treatment from an Occupational Medicine physician. All other employees need to be proactive in following through with their treating physicians for assistance with the state disability certification.

Typical criteria for State issued parking placards is as follows:
1. Cannot walk without the use of, or assistance from, a brace, cane, crutch, another person, prosthetic device, wheelchair, or other assistive device
2. Restricted by lung disease to such an extent that his or her FVC for one second, when measure by spirometry is less than one liter, or oxygen tension less that 60 mm/hg with room air at rest
3. Uses portable O2
4. Has cardiac condition to the extent that person’s functional limitation are classified in severity of Class III or higher around to the AHA
5. Is severely limited in the person’s ability to walk due to an arthritic, neurological, or orthopedic condition
6. Cannot walk 200 feet without stopping to rest because of one of the above 5 conditions.

Designated assisted parking locations will be determined by the OSF Parking Services Office.

3. PARKING POLICIES

A. No motor vehicle shall:
   1. Be parked on campus property not designated for parking purposes. Be parked in any driveway or walkway of OSF SFMC property so as to hamper or impede the free use of the driveway or walkway.
   2. Be parked outside of, or straddle the yellow lines that define each parking space.
   3. Be parked in a parking area other than that for which the vehicle is authorized.
   4. Be parked in a loading zone.
   5. Be parked while failing to display a current parking permit.
   6. Tailgate through the automatic gates.
   7. The gates must be allowed to close after each vehicle.
   8. The posted speed limit in all SFMC parking decks/lots is 10 MPH.
   9. Crossing through ramps at unauthorized locations is prohibited.

B. Employees and physicians may park only in areas designated for their use.
C. Motorcycles may park only in a parking space.
D. All vehicles, whether registered with the OSF SFMC Parking Services office or not, which belong to the immediate family of anyone required to display a permit will be considered the responsibility of that person. All parking and other violations charged against such a vehicle will be charged to the permit holder.
E. Permit required vehicles may park as a patient when they are in fact a patient. Parking tickets issued in these instances will be waived by Security with proof of physician’s appointment.

F. Employees called in to work on their days off or on off-shift hours, must park in their assigned lot. The only exception will be 3rd shift call-ins, or for those whose assigned parking is off-campus.

G. Violations of this policy will result in disciplinary action as outlined below:

First Offense-parking violation
Second Offense-parking violation & supervisor notification with coaching of employee
Third Offense-parking violation & supervisor notified to: Level I Reminder employee
Fourth Offense-parking violation & supervisor notified: Level II Reminder employee
Fifth Offense- parking violation & supervisor notified: Decision-Making Leave (DML)
Sixth Offense- Employee terminated

4. DAILY PARKING DESIGNATIONS
   A. Patients and visitors may park in any designated parking space in North Deck or Medi Park II. They must, without exception, display the proper handicapped designators to park in handicapped spaces.
   B. Physicians and medical staff will park in the areas designated for “Physician Parking Only” or “Professional Medical Staff Parking Only,” located in the North Deck or Medi-Park II.
   C. OSF SFMC Security Department has been authorized to issue City of Peoria parking tickets. Tickets will be issued as required by the Security officers to enforce all parking regulations. In addition, any employee who violates the Parking policy will receive disciplinary action as outlined in the Positive Discipline Policy (See Policy #601).
   D. Special Parking - Parking Services has the authority to issue special parking decals/tags as required. This service is primarily designated for Off-Campus employees who are required to come to the Medical Center as part of their job. This service can also be offered to other groups, eg., contractors, on-call personnel, etc. as deemed necessary by the Parking Service Director/Supervisor. The decal/tag will allow parking in spaces designated by signage as ‘Decal Parking Only’. The signage will specify the specific group allowed to park. The decal/tag must be displayed by hanging the tag from the inside rear view mirror. Decals are assigned to individuals and as such, an owner/vehicle registration information form must be completed prior to issuance of a decal. Decal parking is not intended to provide extended parking on a regular basis. The time limit for the Off-Campus decal parking spots is 2 hours. “Decal parking only” restriction is enforced Monday – Friday, 7:00 am-2:00 pm. If you require regular on campus parking, please contact the Parking Services office to arrange for a regular employee parking assignment.
   E. Contractor Parking: Light blue hanging tags will be issued through Parking Services. On-campus parking spaces will be provided for General contractor superintendent and sub-contractor Superintendent parking only. (Location of contractor parking to be determined by Parking Services Department.) Each sub-contractor will be issued one (1) decal for the use by their designated Superintendent. The General Contractor will be issued an appropriate number of decals to meet their work volume needs. All other construction workers will be required to park in the Contractor’s parking lot located at the corner of Wayne and Glendale Streets. In order to have decals issued, the requested registration information must be completed and taken to the Parking Services office. Should contractors need any additional contractor decals, this will be addressed on a case-by-case basis.
   F. APPEAL OF ASSESSMENT FOR VIOLATION
      1. To appeal the ticket, call the Security Department office at 655-7468 to set an appointment.
   G. GENERAL PROVISIONS
      1. The OSF SFMC Security Department is authorized to impound and remove or have removed any motor vehicle illegally or improperly parked on the property of OSF Saint Francis Medical Center. All towing and storage charges accrued on account of the impounding of the motor vehicle shall be paid by the owner or operator of the vehicle.
      2. The OSF SFMC Security Department Director, upon direction of the Chief Executive Officer, the Chief Operating Officer, in an emergency or as other situations demand, may temporarily change access to any parking area and/or transfer an individual’s parking privileges to another location.
      3. Saint Francis Medical Center does not assume responsibility for any motor vehicle parked on the campus. When they park on campus, individuals assume all risk of accident and agree that OSF SFMC shall not be liable for personal injury, or for property loss or damage. Drivers should always
lock their cars and take their keys. Leaving valuables in parked cars may be an invitation to theft. Drivers should take valuables with them, or lock them in the vehicle’s trunk out of sight.

H. EMPLOYEE SHUTTLE SERVICE
1. OSF SFMC operates an employee shuttle service to all off-campus parking lots. There is no shuttle service on weekends or Holidays. During those times only, employees with off campus parking may park in Medi Park III. The top entrance gate to Medi Park III will be raised between Friday, at Midnight thru Monday, at 5:00am and on Holidays.

I. PATIENT SHUTTLE SERVICE
1. OSF SFMC operates a patient shuttle service in the North Parking deck. The service is provided to transport patients/visitors from all areas of the parking deck to the connecting bridge back to the Medical Center. A separate shuttle service operates at the bridge link to transport patient/visitors directly to the drop-off area in the Medical Center.

APA Style Guidelines

Most students are familiar with MLA writing style guidelines. However, the College of Nursing uses the *Publication Manual of the American Psychological Association, 6th ed.* For information regarding APA format, please go to eCollege, undergraduate communication, APA format. The book will be in the Reference section in the Library.
INTRODUCTION

Saint Francis Medical Center College of Nursing ("the College") is committed to creating and maintaining an atmosphere at the College in which the administration, faculty, students, staff, College Board and volunteers may work, interact and learn free of all forms of harassment, violence, exploitation or intimidation.

Sexual misconduct, like unlawful harassment on the basis of race, age, disability, religion or any other protected class, is a form of discrimination expressly prohibited by law. Sexual misconduct is a violation of Title VII of the Civil Rights Act of 1964, of Title IX of the Education Act Amendments of 1972, and of the Illinois Human Rights Act. The College will not tolerate, condone or subject anyone to such misconduct. In addition to being illegal, sexual misconduct violates the dignity of the individual and the integrity of the College as an institution of learning.

Likewise, the College does not tolerate domestic violence, dating violence or stalking, regardless of whether these acts are based on an individual's sex. Domestic violence, dating violence and stalking are crimes in Illinois and are subject to criminal prosecution.

Academic freedom can exist only when each person is free to pursue ideas in a non-threatening, non-coercive atmosphere of mutual respect. The College is therefore committed to fully investigating and addressing any instances of sexual misconduct, domestic or dating violence and stalking of which it receives notice. Students perpetrating such acts will be subject to disciplinary action, up to and including expulsion. And, employees perpetrating such acts will be subject to disciplinary action, up to and including termination.

Accordingly, the College has adopted the following policy (hereinafter referred to as the "Policy").

JURISDICTION

This Policy applies to everyone who is a part of the College community, including students, employees, visitors, volunteers and contractors, regardless of sex, sexual orientation or gender identity. It includes conduct occurring on campus, as well as conduct occurring off-campus that is related to the College's programs or activities, or which may create a hostile environment on campus or in a College program or activity.

NOTE ON TERMINOLOGY

Throughout this Policy, the term "victim" is often used to denote an individual who is alleged to have been victimized by sexual misconduct, domestic or dating violence or stalking. Likewise, the term "perpetrator" is, at times, used to denote the individual alleged to have engaged in one of these acts. The use of these terms is consistent with the language of the Violence Against Women Reauthorization Act of 2013 and should not be construed as a pre-judgment as to whether a violation of this Policy occurred.

It should further be noted that this Policy uses the umbrella term "sexual misconduct" to encompass a range of conduct, including sexual harassment, sexual assault and sexual exploitation. By using the term "misconduct," the College does not intend to diminish the serious nature of any type of sexual harassment, violence or exploitation.

Finally, the term "employee" is used throughout this Policy and is intended to include all faculty members, administrators, staff and other employees of the College.
PROHIBITED CONDUCT

Sexual Assault

What Is Prohibited

No person may engage in sexual assault.

Definitions

Sexual Assault

“Sexual assault” is actual or attempted sexual contact with another person without that person’s consent. Sexual assault includes, but is not limited to:

• Intentional touching of another person’s intimate parts without that person’s consent; or
• Other intentional sexual contact with another person without that person’s consent; or
• Coercing, forcing, or attempting to coerce or force a person to touch another person’s intimate parts without that person’s consent; or
• Penetration, no matter how slight, of (1) the vagina or anus of a person by any body part of another person or by an object, or (2) the mouth of a person by a sex organ of another person, without that person’s consent.

Consent (Applicable to Sexual Assault)

“Consent” must be informed, voluntary and mutual, and can be withdrawn at any time. There is no consent when there is force, expressed or implied, or when coercion, intimidation, threat or duress is used. Whether a person has taken advantage of a position of influence over another person may be a factor in determining consent. Silence or absence of resistance does not imply consent. Past consent to sexual activity with another person does not imply ongoing future consent with that person or consent to that same sexual activity with another person. Evidence of a prior consensual dating relationship between the parties by itself does not imply consent or preclude a finding of sexual misconduct.

If a person is mentally or physically incapacitated or impaired so that such person cannot understand the fact, nature or extent of the sexual situation, there is no consent; this includes impairment or incapacitation due to alcohol or drug consumption that meets this standard, or being asleep or unconscious.

Sexual Exploitation

What Is Prohibited

No person may engage in sexual exploitation.

Definitions

Sexual Exploitation

“Sexual exploitation” occurs when a person takes sexual advantage of another person for the benefit of anyone other than that person without that person’s consent. Examples of behavior that could rise to the level of sexual exploitation include:

• Prostituting another person;
• Recording images (e.g., video, photograph) or audio of another person’s sexual activity, intimate body parts or nakedness without that person’s consent;
• Distributing images (e.g., video, photograph) or audio of another person’s sexual activity, intimate body parts or nakedness, if the individual distributing the images or audio knows or should have known that the
person depicted in the images or audio did not consent to such disclosure and objects to such disclosure; and,

- Viewing another person’s sexual activity, intimate body parts or nakedness in a place where that person would have a reasonable expectation of privacy, without that person’s consent, and for the purpose of arousing or gratifying sexual desire.

**Consent (Applicable to Sexual Exploitation)**

“Consent” must be informed, voluntary and mutual, and can be withdrawn at any time. There is no consent when there is force, expressed or implied, or when coercion, intimidation, threats or duress is used. Whether a person has taken advantage of a position of influence over another person may be a factor in determining consent. Silence or absence of resistance does not imply consent. Past consent to a particular activity with another person does not imply ongoing future consent with that person or consent to that same activity with another person. Evidence of a prior consensual dating relationship between the parties by itself does not imply consent or preclude a finding of sexual misconduct.

If a person is mentally or physically incapacitated or impaired so that such person cannot understand the fact, nature or extent of the situation, there is no consent; this includes impairment or incapacitation due to alcohol or drug consumption that meets this standard, or being asleep or unconscious.

**Sex-Based Harassment**

**What Is Prohibited**

No person may engage in sex-based harassment that creates a hostile environment in or under any program or activity of this College.

No person who is an employee or agent of this College (including a student employee) may condition a decision or benefit on a student’s or employee's submission to sex-based harassment.

**Definitions**

**Sex-Based Harassment**

“Sex-based harassment” includes sexual harassment and gender-based harassment.

**Sexual Harassment**

“Sexual harassment” is unwelcome conduct of a sexual nature, including, but not limited to, unwelcome sexual advances, requests for sexual favors, or other verbal or nonverbal conduct of a sexual nature, including sexual assault and sexual exploitation. In addition, depending on the facts, dating violence, domestic violence and stalking may also be forms of sexual harassment. (See "Sexual Assault" on page 183, "Sexual Exploitation" on page 183, "Domestic and Dating Violence" on page 187, and "Stalking" on page 187.)

**Gender-Based Harassment**

“Gender-based harassment” is unwelcome conduct of a nonsexual nature based on a person's actual or perceived sex, including conduct based on gender identity, gender expression and nonconformity with gender stereotypes.
Unwelcome

Conduct is considered “unwelcome” if the person did not request or invite it and considered the conduct to be undesirable or offensive. Unwelcome conduct may take various forms, including, name-calling, graphic or written statements (including the use of cell phones or the Internet) or other conduct that may be physically threatening, harmful or humiliating. Unwelcome conduct does not have to include intent to harm, be directed at a specific target or involve repeated incidents. Unwelcome conduct can involve persons of the same or opposite sex.

Participation in the conduct or the failure to complain does not always mean that the conduct was welcome. The fact that a person may have welcomed some conduct does not necessarily mean that the person welcomed other conduct. Also, the fact that a person requested or invited conduct on one occasion does not mean that the conduct is welcome on a subsequent occasion.

Hostile Environment

A “hostile environment” exists when sex-based harassment is sufficiently serious to deny or limit a person's ability to participate in or benefit from the College's programs or activities. A hostile environment can be created by anyone involved in a College’s program or activity (e.g., employees, students, campus visitors, etc.).

In determining whether sex-based harassment has created a hostile environment, the College considers the conduct in question from both a subjective and objective perspective. It will be necessary, but not enough, that the conduct was unwelcome to the person who was harassed. But the College will also need to find that a reasonable person in the person's position would have perceived the conduct as undesirable or offensive in order for that conduct to create or contribute to a hostile environment.

To make the ultimate determination of whether a hostile environment exists for a person or persons, the College considers a variety of factors related to the severity, persistence or pervasiveness of the sex-based harassment, including: (1) the type, frequency and duration of the conduct; (2) the identity and relationships of persons involved; (3) the number of individuals involved; (4) the location of the conduct and the context in which it occurred; and (5) the degree to which the conduct affected one or more person's education or employment.

The more severe the sex-based harassment, the less need there is to show a repetitive series of incidents to find a hostile environment. Indeed, a single instance of sexual assault may be sufficient to create a hostile environment. Likewise, a series of incidents may be sufficient even if the sex-based harassment is not particularly severe.

Sexual Harassment by Higher Education Representative

What Is Prohibited

No higher education representative may make any unwelcome sexual advances or requests for sexual favors to a student.

No higher education representative may exhibit any conduct of a sexual nature toward a student, when such conduct has the purpose or effect of substantially interfering with the student's educational performance or creating an intimidating, offensive or hostile educational environment.

No higher education representative may exhibit any conduct of a sexual nature toward a student when the higher education representative either explicitly or implicitly makes the student's submission to such conduct a term or condition of, or uses the student's submission to or rejection of such conduct as a basis for, determining any academic decision.
Definitions

Higher Education Representative

A "higher education representative" includes the president, chancellor or other holder of any executive office on the administrative staff of an institution of higher education, and any member of the faculty of an institution of higher education, including, but not limited to, a dean or associate or assistant dean, a professor or associate or assistant professor and a full- or part-time instructor or visiting professor, including a graduate assistant or other student who is employed on a temporary basis of less than full-time as a teacher or instructor of any course or program of academic, business or vocational instruction offered by or through an institution of higher education.

Unwelcome

Conduct is considered “unwelcome” if the person did not request or invite it and considered the conduct to be undesirable or offensive. Unwelcome conduct may take various forms, including name-calling, graphic or written statements (including the use of cell phones or the Internet) or other conduct that may be physically threatening, harmful or humiliating. Unwelcome conduct does not have to include intent to harm, be directed at a specific target or involve repeated incidents. Unwelcome conduct can involve persons of the same or opposite sex.

Participation in the conduct or the failure to complain does not always mean that the conduct was welcome. The fact that a person may have welcomed some conduct does not necessarily mean that the person welcomed other conduct. Also, the fact that a person requested or invited conduct on one occasion does not mean that the conduct is welcome on a subsequent occasion.

Hostile Educational Environment (Applicable to Sexual Harassment by Higher Education Representative)

A "hostile educational environment" includes conduct which is severe or pervasive and which is objectively and subjectively offensive. Conduct is objectively offensive if a reasonable person would find such conduct to be egregious. Factors that will be considered when determining if an environment is objectively offensive include the frequency and severity of the conduct, whether it is humiliating or physically threatening and whether it unreasonably interferes with the student's educational performance.

Academic Decision

An "academic decision" includes, but is not limited to:

- Whether the student will be admitted to an institution of higher education;
- The educational performance required or expected of the student;
- The attendance or assignment requirements applicable to the student;
- The courses, fields of study or programs, including honors and graduate programs, to which the student will be admitted;
- The placement or course proficiency requirements that are applicable to the student;
- The quality of instruction the student will receive;
- The tuition or fee requirements that are applicable to the student;
- The scholarship opportunities that are available to the student;
- The extracurricular teams the student will be a member of or the extracurricular competitions in which the student will participate;
- The grade the student will receive in any examination or in any course or program of instruction in which the student is enrolled;
- The progress of the student toward successful completion of or graduation from any course or program of instruction in which the student is enrolled; and
- The degree, if any, the student will receive.
Domestic and Dating Violence

What Is Prohibited

No person shall engage in domestic violence or dating violence against any member of the College community, including students, employees, visitors, volunteers and contractors.

Definitions

Domestic Violence

The term “domestic violence” includes physical abuse committed by:

- A current or former spouse or intimate partner of the victim;
- A person with whom the victim shares a child in common;
- A person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner;
- A person similarly situated to a spouse of the victim under the domestic or family violence laws of the State of Illinois; or
- Any other person against an adult or youth victim who is protected from that person’s acts under the domestic or family violence laws of the State of Illinois.

Dating Violence

The term “dating violence” includes physical abuse committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim.

Physical Abuse

"Physical abuse" includes, but is not limited to:

- Sexual abuse;
- Knowing or reckless use of physical force, confinement or restraint;
- Knowing, repeated and unnecessary sleep deprivation; and
- Knowing or reckless conduct which creates an immediate risk of physical harm.

Stalking

What Is Prohibited

No person shall engage in the stalking of any member of the College community, including students, employees, visitors, volunteers and contractors.

Definition

Stalking

"Stalking" is a course of conduct (i.e., a pattern of actions composed of more than one act over a period of time, however short, evidencing a continuity of conduct) directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others or suffer substantial emotional distress.

Stalking includes any behaviors or activities occurring on more than one occasion that collectively instill fear in a victim and/or threaten her or his safety, mental health or physical health. Such behaviors and activities may include, but are not limited to, the following:
• Non-consensual communication, including face-to-face communication, telephone calls, voice messages, e-mails, text messages, written letters, gifts or any other communications that are undesired and place another person in fear;
• Use of online, electronic or digital technologies, including:
  o Posting of pictures or information in chat rooms or on Web sites
  o Sending unwanted/unsolicited email, text messages or talk requests
  o Posting private or public messages on Internet sites, social networking sites and/or school bulletin boards
  o Installing spyware on a victim’s computer
  o Using Global Positioning Systems (GPS) to monitor a victim;
• Pursuing, following, waiting or showing up uninvited at or near a residence, workplace, classroom or other places frequented by the victim;
• Surveillance or other types of observation including staring, “peeping”;
• Trespassing;
• Vandalism;
• Non-consensual touching;
• Direct verbal or physical threats;
• Gathering information about an individual from friends, family, and/or co-workers;
• Threats to harm self or others, including pets; and
• Defamation – lying to others about the victim.

Retaliation Prohibited

The College prohibits retaliation of any kind (including intimidating, threatening, coercing or in any way discriminating) against those who file a complaint or third-party report of a violation of this Policy or who otherwise participate in the investigative and/or disciplinary process.

The College will take strong responsive action, up to and including expulsion or termination of employment, if retaliation occurs.

Intimidation Prohibited

The College prohibits intimidation of any kind against any member of the College community with the purpose or intent of: preventing that person from reporting a violation of this Policy; causing that person to withdraw a complaint or recant a statement related to the violation of this Policy; or discouraging participation in the College's investigative and/or disciplinary process.

The College will take strong responsive action if such intimidation occurs.

"Prohibited Acts" Defined

Throughout this Policy, all of the underlined acts above shall be referred to as "Prohibited Acts."

Note on First Amendment Rights

This Policy does not impair the exercise of rights protected under the First Amendment. The College applies and enforces this Policy in a manner that respects the First Amendment rights of students, employees and others.
COMPLAINT AND ADJUDICATION PROCEDURE

A. Right to an Advisor

At all times during the complaint, investigation and adjudication process, the complainant and respondent each have the right to have an advisor present. This advisor can be anyone of the party's choosing, other than a member of the Title IX Team, who has agreed to serve that function, including an advocate, attorney, friend or family member. However, this advisor may not participate in the College's investigation or adjudication process other than by providing the party with advice and/or support.

Reporting Procedures

Any member of the College community who has been a victim of sexual misconduct, domestic or dating violence or stalking has a number of reporting options.

Formal Reporting to College

Prohibited Acts may be reported to the College by notifying any employee of the College, including the Title IX Coordinator. Kevin Stephens, the Title IX Coordinator, may be reached by phone at (309) 655-2291, by email at kevin.n.stephens@osfhealthcare.org, or in person at 511 NE Greenleaf Street, Peoria, IL in room 622.

All employees of the College are required to notify the Title IX Coordinator of any notice they receive of a Prohibited Act while acting as employees of the College.

It should be noted that the College employs health care providers and priests as faculty members. Though discussions with these individuals outside the College, when they are providing health care services or pastoral counseling, may be confidential, any notice they receive of a Prohibited Act while they are acting as employees of the College will be reported to the Title IX Coordinator.

All such reports of Prohibited Acts will be investigated by the College as set forth in the "Investigation Procedures" on page 191 of this Policy.

Formal Reporting to Law Enforcement

Reports to law enforcement may also be made at any time, regardless of whether a report has been made to the College. The Peoria Police Department can be contacted at any time at (309) 673-4521 (non-emergency) or 911 for emergency.

Reports to law enforcement will not automatically be shared with the College by the police; therefore, if a victim of a Prohibited Act wishes for the College to also investigate the matter, s/he should also make a report to the College.

Privileged or Confidential Disclosures

The College encourages victims of Prohibited Acts to talk to somebody in order to get the support they need. Regardless of whether a victim wishes to make a report to the College and/or law enforcement, a number of resources are available for confidential or privileged discussions regarding Prohibited Acts. See "Reporting and Confidentiality" on page 196 of this Policy for further information on confidentiality rules with respect to various resources.

Third-Party Reporting

Anyone can report a Prohibited Act to the College, regardless of whether the person making the complaint was the victim of the Prohibited Act. Third-party reports may be made to any employee of the College,
including the Title IX Coordinator. Such reports will be investigated per "Investigation Procedures" on page 191 of this Policy.

**Anonymous Reporting**

Anyone, including a victim, can make an anonymous report of a Prohibited Act to the College by contacting the Title IX Coordinator and requesting to make an anonymous report. The complainant may request that this report be kept confidential and/or not be investigated by the College. If an individual discloses a Prohibited Act to the College but wishes to maintain confidentiality or requests that no investigation into a particular incident be conducted, the College, through the Title IX Coordinator, must weigh that request against the College's obligation to provide a safe, non-discriminatory environment for all students, including the victim.

Please see "Requesting Confidentiality from the College" on page 198 of this handbook for further information on how such a request will be considered.

**Amnesty**

Any individual participating in the investigation or adjudication of a complaint involving an alleged Prohibited Act (including the complainant, respondent and witnesses) will be given amnesty from any student conduct policy of the College, including the College's drug and alcohol policy, for all acts discovered during the course of the College's investigation that are materially relevant to the Prohibited Act being investigated or adjudicated.

For example, should the College learn during an investigation into a reported sexual assault that the complainant and respondent were both violating the College's alcohol policies at the time of the incident, the College will grant amnesty to both complaint and respondent for that particular violation of the alcohol policy.

This grant of amnesty is intended to encourage open and honest reporting of information needed for the College to fully and fairly investigate allegations of Prohibited Acts.

**Interim Safety and Accommodative Measures**

Once the College has notice of a potential Prohibited Act, it will immediately seek to ensure that the complainant is safe and is being provided the resources that are needed, regardless of whether the victim wishes to make a formal complaint and/or participate in the College's investigation.

The College will remain ever mindful of the victim’s well-being and will take ongoing steps to protect the victim from retaliation or harm and work with the victim to create a safety plan. The College will:

- Assist the victim in accessing available victim advocacy, academic support, counseling, disability, health or mental health services and legal assistance both on and off campus;
- Provide other security and support, which could include issuing a no-contact order, helping arrange a change of working arrangements or course schedules (including for the alleged perpetrator pending the outcome of an investigation) or adjustments to assignments or tests; and
- Inform the victim of the right to report a crime to campus or local law enforcement and provide the victim with assistance if the victim wishes to do so.

Because the College is under a continuing obligation to address Prohibited Acts campus-wide, reports of Prohibited Acts (including non-identifying reports) will also prompt the College to consider broader remedial action, such as: increased monitoring, supervision or security at specific locations; increased education and prevention efforts, including to targeted population groups; conducting climate assessments/victimization surveys; and/or revisiting its policies and practices.
Investigation Procedures

The College’s Title IX Coordinator is responsible for overseeing the College’s response to reports and complaints of Prohibited Acts.

Unless a complainant specifically requests that an investigation not take place, the Title IX Coordinator will order and oversee an investigation into any reports of Prohibited Acts. (For further information on the Title IX Coordinator’s role and responsibilities, see "Title IX Coordinator" on page 193 of this Policy.) Should the complainant request that no investigation be performed, the Title IX Coordinator will exercise best efforts to comply with that request; however, should the nature of the facts known suggest an ongoing threat to the complainant or the campus community or otherwise demonstrate a compelling need to proceed with an investigation, the Title IX Coordinator may proceed with an investigation despite the complainant's request to the contrary.

Should the complainant wish to make a formal complaint but also request that her/his identity remain confidential, the ability of the College to investigate her/his complaint may be limited. (Please see "Reporting and Confidentiality" on page 196 of this Policy for further information.)

The Title IX Coordinator will choose an investigator to investigate alleged Prohibited Acts on a case-by-case basis. Any such investigator will be trained and qualified to perform investigations into the specific type of Prohibited Act being alleged and will be neutral and impartial.

Investigations will be thorough and prompt. They will likely include interviews with the complainant, respondent and witnesses, and the gathering, review and analysis of relevant evidence. Investigations will be conducted with utmost attention to maintaining the privacy of complainants and respondents.

Consistent with the College’s mission and values, the complainant and respondent will be provided equitable rights and will be treated fairly and respectfully throughout the investigation. Both complainant and respondent will receive notice of any formal investigation conducted in order to give both parties the opportunity to offer their accounts, provide names of witnesses and offer any other relevant evidence to the investigator. The College will not hold any hearing or quasi-judicial proceeding on these matters other than the investigation itself.

At the conclusion of the investigation, the investigator will provide a written report to the Title IX Coordinator setting forth her/his findings of fact and an opinion as to whether a Prohibited Act occurred. The investigator will use the preponderance of the evidence standard when making findings of fact and determining whether a Prohibited Act occurred. A "preponderance of the evidence" means that a particular finding is more likely than not (i.e., is supported by the greater weight of the credible evidence).

When weighing the evidence in a sexual misconduct matter, the investigator shall not take into account evidence regarding the complainant's previous sexual behavior with persons other than the respondent if such evidence is presented for the purpose of disparaging the complainant's character or suggesting that it is more likely than not that the complainant would have consented to the act(s) at issue.

Adjudication Procedures

Upon receipt of the investigator's report, the Title IX Coordinator will meet with the College's Title IX Team, which will review the report and determine whether to adopt the findings of the investigator. (See "Title IX Team" on page 201 of this Policy for further information on the Title IX Team.) Any member of the Title IX Team having a conflict of interest with respect to any party to the complaint that might cause a reasonable person to question her/his objectivity shall recuse her/himself from the adjudication of the particular matter.

Neither the parties nor their advisors are entitled to be present during the meetings of the Title IX Team.

The Title IX Team will conclude that a Prohibited Act occurred only if it finds that such a conclusion is supported by a preponderance of the evidence.
In the event the Title IX Team concludes that a Prohibited Act occurred, it will determine the appropriate responsive action to be taken, which may include remedies and/or accommodations to the victim, remedies to the College community and sanctions for the person found in violation. Remedies to the victim may include, but are not limited to: continuation of interim measures, issuance of no-contact orders, allowing a student to withdraw from or retake a class without penalty, providing access to tutoring and providing access to counseling. Remedies to the College community may include, but are not limited to: training and educational programs, and implementation of additional safety or security measures. Sanctions against the respondent may include, but are not limited to: no-contact orders, suspension, expulsion, demotion and termination of employment, as applicable.

If the victim wishes, an appropriate responsive action may be mediation between the parties, facilitated by the College. However, mediation is not appropriate and will not be used if there has been a finding of that a sexual assault occurred.

The Title IX Coordinator shall provide simultaneous written notice to the complainant and respondent of its conclusions and responsive actions, options and procedures for appeal, any changes to the result and when such results become final. For purposes of this Policy, "simultaneous" shall mean as close together in time as reasonably possible without requiring the complainant and respondent to be physically present in the same place at the same time.

The College will not require a party to abide by any nondisclosure agreement, in writing or otherwise, that would prevent the re-disclosure of information related to the outcome of the adjudication.

**Appeal Procedures**

Either the complainant or respondent may appeal the Title IX Team's conclusions, sanctions or other responsive actions to the President of the College in writing within five (5) business days of receiving written notice of those conclusions and responsive actions from the Title IX Coordinator. However, an appeal may only be made on the following grounds:

- That a member of the Title IX Team had a conflict of interest that should have precluded him/her from participating in the adjudication.
- That additional relevant information has become available that was not considered by the investigator and/or Title IX Team.
- That the investigation and/or adjudication procedures set forth in this Policy were not followed by the investigator and/or Title IX Team.

Upon receipt of an appeal, the President of the College will either reject or accept the appeal within five (5) business days. The President of the College will use the preponderance of the evidence standard when considering the appeal. Any rejection of an appeal by the President of the College shall be final.

In the event the President of the College accepts the appeal, s/he shall send the matter back to the Title IX Team with one of the following instructions: 1) that a member or members of the Title IX Team recuse her/himself; 2) that the Title IX Team send the matter back to the investigator for consideration of additional evidence; or 3) that the Title IX Team and/or investigator comply with the investigation and/or adjudication procedures set forth in this Policy, specifying what procedures have not been properly followed, and reconsider the matter using the proper procedures.
Timeframe

The College will strive to resolve any matter falling under this Policy within sixty (60) days of receiving notice of a Prohibited Act, including investigation, adjudication and appeal.

OPTIONS FOR ASSISTANCE

A. Options for Assistance Following a Sexual Assault or Other Prohibited Act

The College is committed to providing assistance to any member of the College community who is a victim of sexual misconduct or other Prohibited Act.

What to Do If You Are the Victim of Sexual Assault

In the immediate aftermath of a sexual assault, the most important thing is for the victim to get to a safe place. Whether it be the victim’s home, a friend’s home or with a family member, immediate safety is what matters most. When a feeling of safety has been achieved, it is vital for the victim to receive medical attention, and strongly recommended for the victim to receive a forensic examination.

DNA evidence is an integral part of a law enforcement investigation that can build a strong case to show that a sexual assault occurred and to show that the defendant is the source of any biological material left on the victim’s body. Victims should make every effort to save anything that might contain the perpetrator’s DNA and should not:

- Bathe or shower;
- Use the restroom;
- Change clothes;
- Comb hair;
- Clean up the crime scene; or
- Move anything the perpetrator may have touched.

Even if the victim has not yet decided to report the crime, receiving a forensic medical exam and keeping the evidence safe from damage will improve the chances that the police can access and test the stored evidence at a later date.

Resources for Immediate Assistance

The resources below are available to anyone who has been the victim of sexual assault or any other Prohibited Act.

Title IX Coordinator

At the College, the Title IX Coordinator, Kevin Stephens, can be contacted at (309) 655-2291 at any time to assist a victim in connecting with trained advocates and counselors who can provide an immediate response in a crisis situation, regardless of whether the victim wishes to make an official report or participate in the institutional disciplinary or criminal process.

The Title IX Coordinator can also provide assistance in contacting law enforcement, should the victim wish to do so. The victim has the right to decline to report to law enforcement. (See "Reporting and Confidentiality" on page 196 of this Policy for further information.)

And, the Title IX Coordinator can provide information to the victim about obtaining a no-contact order against the perpetrator, issued by a court. This option is available to the victim regardless of whether s/he wishes to make a formal complaint with the College or report the matter to law enforcement.
**Employee Assistance Program (Available to Students Also)**

The College's free and confidential Employee Assistance Program is available to both students and employees 24 hours per day, 7 days per week. This program provides individuals with the services of licensed professionals, including counselors and legal consultants, at no charge to the victim.

- OSF HealthCare Employee Assistance Program  
  800-433-7916

**Off-Campus Advocates and Counselors**

Immediate confidential assistance from off-campus advocates and counselors can be obtained from the following resources:

- Center for Prevention of Abuse (sexual assault resources)  
  (309) 691-0551  
  720 Joan Court  
  Peoria, IL  
  [www.centerforpreventionofabuse.org](http://www.centerforpreventionofabuse.org)

- Sexual Assault Center for Prevention of Abuse – 24 Hour Hotline  
  (309) 691-4111 or (1-800) 559-SAFE

- Agape Counseling  
  (309) 692-4433  
  2001 West Willow Knolls Drive  
  Peoria, IL 61614  
  [www.agapecounselors.net](http://www.agapecounselors.net)

**Law Enforcement**

Regardless of whether a victim of sex-based harassment, sexual assault, sexual exploitation, domestic or dating violence or stalking wishes to make a report to the College, the option to report to local law enforcement is always available. Assistance can be obtained from law enforcement as follows:

- Peoria Police Department  
  Emergency: 911  
  Non-Emergency: (309) 673-4521  
  600 SW Adams Street  
  Peoria, IL 61602  

**Medical Care**

Immediate medical care for treatment of injuries, preventative treatment for sexually-transmitted diseases and other health care services can be obtained from the following resources:

- OSF Saint Francis Medical Center Emergency Department  
  (309) 655-2000  
  1306 N. Berkley Avenue  
  Peoria, IL 61603  
  [www.osfsaintfrancis.org/services/EmergencyServices/](http://www.osfsaintfrancis.org/services/EmergencyServices/)
Both of these providers have trained Sexual Assault Nurse Examiners available to perform a rape kit in order to preserve evidence of a sexual assault. A victim of sexual assault does not need to make an immediate decision as to whether to seek criminal charges against a perpetrator; however, having a rape kit performed allows the victim the ability to preserve evidence should the victim choose to pursue criminal charges immediately or in the future.

Resources for Ongoing Assistance

The resources below are available to anyone who has been the victim of sexual assault or any other Prohibited Act.

Title IX Coordinator

At the College, the Title IX Coordinator, Kevin Stephens, can be contacted by phone at (309) 655-2291 or by email at kevin.n.stephens@osfhealthcare.org to help a victim of a Prohibited Act connect with trained advocates and counselors who can provide ongoing assistance, regardless of whether the victim wishes to make an official report or participate in the institutional disciplinary or criminal process. (See "Reporting and Confidentiality" on page 196 of this Policy for further information.)

Employee Assistance Program (Available to Students Also)

Ongoing counseling and other assistance can also be obtained on-campus by contacting the College's Employee Assistance Program, which is a confidential resource available to both students and employees, at 1-800-433-7916.

Off-Campus Advocates and Counselors

Ongoing confidential assistance from off-campus advocates and counselors can also be obtained from the following resources:

- Center for Prevention of Abuse (sexual assault resources)
  (309) 691-0551
  720 Joan Court
  Peoria, IL
  www.centerforpreventionofabuse.org

- Agape Counseling
  (309) 692-4433
  2001 West Willow Knolls Drive
  Peoria, IL 61614

  www.icasa.org
  National Sexual Assault Hotline: 800-656-HOPE (4673)
REPORTING AND CONFIDENTIALITY

A. Talking about What Happened

The College encourages victims of sexual assault and other Prohibited Acts to talk to somebody in order to get the support they need, and so the College can respond appropriately.

This Policy is intended to make the College community aware of the various reporting and confidential disclosure options available – so individuals can make informed choices about where to turn should they become a victim of a Prohibited Act. The College encourages victims to talk to someone identified in one or more of these groups.

The Options

Privileged and Confidential Communications

Victims who wish to speak with someone in confidence without triggering an investigation by the College have several options.

Professional Counselors

Professional, licensed counselors who provide mental health counseling (including those who act in that role under the supervision of a licensed counselor) will not report any information about an incident to the College without a victim’s permission.

Following is the contact information for these individuals provided by the College at no charge to the victim:

- OSF HealthCare Employee Assistance Program
  (800) 433-7916
  (This service is available to students as well as employees of the College.)

Off-Campus Counselors and Advocates

Off-campus counselors, advocates and health care providers will also generally maintain confidentiality and not share information with the College unless the victim requests the disclosure and signs a consent or waiver form.

Following is contact information for such off-campus resources:

- Center for Prevention of Abuse (sexual assault resources)
  (309) 691-0551
  720 Joan Court
  Peoria, IL
  www.centerforpreventionofabuse.org
• Agape Counseling
  (309) 692-4433
  2001 West Willow Knolls Drive, Peoria, IL 61614
  www.agapecounselors.net

• Illinois Coalition Against Domestic Violence
  Illinois Domestic Violence Hotline: 877-863-6338
  National Domestic Violence Hotline: 800-799-7233/TTY 800-787-3224
  www.ilcadv.org

• Illinois Coalition Against Sexual Assault
  www.icasa.org
  National Sexual Assault Hotline: 800-656-HOPE (4673)

• Illinois Domestic Violence Help Line
  (877) 863-6338

• Rape, Abuse and Incest National Network (RAINN)
  (800) 656-HOPE
  www.rainn.org

Exceptions to Confidentiality

While professional and non-professional counselors and advocates may maintain a victim’s confidentiality with respect to the College, they may have reporting or other obligations under state law. Examples of such instances under Illinois law include the following:

• Physicians, nurses and/or medical facility administrators are required to notify local law enforcement when an individual who is not accompanied by a law enforcement official requests treatment at a medical facility and reasonably appears to be the victim of a crime; and

• Physicians, clinical psychologists, and other qualified examiners must report to the Illinois Department of Human Services any person who is determined to pose a clear and present danger to himself, herself or others. Other categories of individuals, including therapists, are legally permitted to disclose information when they determine such disclosure to be necessary in order to protect against an imminent risk of injury to self or others. Such disclosure may include disclosure to law enforcement.

Communications Which Are Not Privileged or Confidential

Reporting to a College Employee

When a victim tells a College employee about a Prohibited Act, the victim can expect the College to take immediate and appropriate steps to investigate what happened and to resolve the matter promptly and equitably.

A College employee must report to the Title IX Coordinator all relevant details about the incident shared by the victim that the College will need to determine what happened – including the names of the victim and alleged perpetrator(s), any witnesses and any other relevant facts, including the date, time and specific location of the alleged incident.

To the extent possible, information reported to a College employee will be shared only with people responsible for handling the College’s response to the report. A College employee should not share information with law enforcement without the victim’s consent or unless the victim has also reported the incident to law enforcement.
Before a victim reveals any information to a College employee, the employee should try to ensure that the victim understands the employee's reporting obligations – and, if the victim wants to maintain confidentiality, direct the victim to confidential resources.

If the victim wants to tell the College employee what happened but also maintain confidentiality, the employee should tell the victim that the College will consider the request, but cannot guarantee that the College will be able to honor it. In reporting the details of the incident to the Title IX Coordinator, the employee will also inform the Coordinator of the victim’s request for confidentiality.

College employees will not pressure a victim to request confidentiality, but will honor and support the victim’s wishes, including for the College to fully investigate an incident. By the same token, College employees will not pressure a victim to make a full report if the victim is not ready or does not wish to do so.

**Requesting Confidentiality from the College**

If a victim discloses an incident to a College employee but wishes to maintain confidentiality or requests that no investigation into a particular incident be conducted or disciplinary action taken, the College, through the Title IX Coordinator, must weigh that request against the College’s obligation to provide a safe, non-discriminatory environment for all students, including the victim. (For further information on how the decision to investigate is made, see "Investigation Procedures" on page 191 of this Policy.)

If the College honors the request for confidentiality, a victim must understand that the College’s ability to meaningfully investigate the incident and pursue disciplinary action against the alleged perpetrator(s) may be limited.

Although rare, there are times when the College may not be able to honor a victim’s request for confidentiality in order to provide a safe, non-discriminatory environment for all students. The College's Title IX Coordinator will evaluate requests for confidentiality once an employee is on notice of alleged Prohibited Act. When weighing a victim’s request for confidentiality or request that no investigation or discipline be pursued, the Title IX Coordinator will consider a range of factors, including the following:

The increased risk that the alleged perpetrator will commit additional acts of misconduct or violence, such as:
- whether there have been other complaints about the same alleged perpetrator
- whether the alleged perpetrator has a history of arrests or records from a prior school indicating a history of violence
- whether the alleged perpetrator threatened further sexual violence or other violence against the victim or others
- whether sexual violence was committed by multiple perpetrators;
- whether sexual or other violence was perpetrated with a weapon;
- whether the victim is a minor;
- whether the College possesses other means to obtain relevant evidence (e.g., security cameras or personnel, physical evidence); and
- whether the victim’s report reveals a pattern of perpetration (e.g., via illicit use of drugs or alcohol) at a given location or by a particular group.

The presence of one or more of these factors could lead the College to investigate and, if appropriate, pursue disciplinary action. If none of these factors is present, the College will likely respect the victim’s request for confidentiality.

If the College determines that it cannot maintain a victim’s confidentiality, the College will inform the victim prior to starting an investigation and will, to the extent possible, only share information with people responsible for handling the College’s response. The College will not require a victim to participate in any investigation or disciplinary proceeding if the victim does not wish to do so.
If the College determines that it can respect a victim’s request for confidentiality, the College will also take immediate action as necessary to protect and assist the victim.

**Miscellaneous**

**Take Back the Night and Other Public Awareness Events**

Public awareness events such as “Take Back the Night,” the Clothesline Project, candlelight vigils, protests, “survivor speak outs” or other forums in which students disclose incidents of sexual violence are not considered notice to the College of sexual violence for purposes of triggering its obligation to investigate any particular incident(s). Such events may, however, reveal the need for campus-wide education and prevention efforts, and the College will provide information about students’ Title IX rights at these events.

**Clery Act Reporting**

Certain campus officials have a duty to report sexual misconduct and certain other Prohibited Acts for federal statistical reporting purposes under the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (the "Clery Act"). All personally-identifiable information is kept confidential – neither the identity of the victim or offender are ever revealed in the College's annual Campus Security Report – but statistical information regarding the type, date and general location of the incident (i.e., on-campus, off-campus, etc.) may be published. This report helps to provide the community with a clear picture of the extent and nature of campus crime, to ensure greater community safety.

**Emergency Notifications and Timely Warnings**

Victims of sexual misconduct and certain other Prohibited Acts should also be aware that College administrators must issue immediate timely warnings for incidents reported to them that are confirmed to pose a substantial threat of bodily harm or danger to members of the campus community. The College will ensure that a victim’s name and other identifying information is not disclosed, while still providing enough information for community members to make safety decisions in light of the danger. When it has been determined that a crime creates a threat of continuing danger to the campus community, a crime alert will be posted throughout the campus, and an e-mail will be sent to the campus community. Kevin Stephens, Assistant Dean Support Services, will be responsible for issuing the timely warnings.

**TITLE IX COORDINATOR**

**A. Role of the Title IX Coordinator**

Pursuant to federal law, the College’s Title IX Coordinator has primary responsibility for coordinating the College’s efforts to comply with and carry out its responsibilities under Title IX, which prohibits sex discrimination in all the operations of this College, as well as retaliation for the purpose of interfering with any right or privilege secured by Title IX.

Sexual misconduct against students, including sexual harassment, sexual assault and sexual exploitation, can be a form of sex discrimination under Title IX, as can domestic or dating violence or stalking. The Title IX coordinator oversees the College’s response to reports and complaints that involve possible sex discrimination to monitor outcomes, identify and address any patterns, and assess effects on the campus climate, so the College can address issues that affect the wider school community.

A member of the College community should contact the Title IX Coordinator in order to:

- Seek information or training about individuals’ rights and courses of action available to resolve reports or complaints that involve potential sex discrimination, including Prohibited Acts;

---

1 See Title IX of the Education Amendments of 1972 and the U.S. Department of Education’s implementing regulations at 34 C.F.R. Part 106.
File a complaint or make a report of sex discrimination, including Prohibited Acts;
Notify the College of an incident or policy or procedure that may raise potential Title IX concerns;
Get information about available resources (including confidential resources) and support services relating to sex discrimination, including Prohibited Acts; and
Ask questions about the College’s policies and procedures related to sex discrimination, including this Policy.

Functions and Responsibilities of the Title IX Coordinator

The Title IX Coordinator's functions and responsibilities include the following:

Training for Students and Employees

The Title IX Coordinator provides or facilitates ongoing training, consultation and technical assistance on Title IX for all students and employees, including:

- Regular training for students outlining their rights and obligations under Title IX, including what constitutes sexual misconduct and when it creates a hostile environment, the definition of consent, reporting options (including reports to employees, campus and local law enforcement, and confidential reporting to counselors or advocates), the grievance procedures used to process complaints, applicable disciplinary code provisions relating to sexual misconduct and the consequences of violating those provisions, the role of alcohol and drugs in sexual misconduct, the effects of trauma, strategies and skills for bystander intervention, the offices or individuals with whom students can speak confidentially, the offices or individuals who can provide support services, the employees who must report incidents to the Title IX coordinator and Title IX’s protections against retaliation.

Investigations

The College is responsible for conducting adequate, reliable and impartial investigations of reports and complaints of sexual misconduct. The Title IX Coordinator oversees many aspects of this response, including:

- Determining whether the report or complaint alleges conduct that may, upon investigation, constitute a Prohibited Act;
- Appointing an investigative team upon such determination;
- Making certain that individual reports and complaints are handled properly and in a prompt and timely manner;
- Informing all parties regarding the grievance process;
- Confirming that all parties have been notified of grievance decisions and of the right to, and procedures for, appeal, if applicable;
- Maintaining information and documentation related to the investigation in a secure manner; and
- Monitoring compliance with timeframes specified in the grievance procedures.

The Title IX Coordinator also evaluates requests for confidentiality by those who report or complain about a Prohibited Act in the context of the College’s responsibility to provide a safe and nondiscriminatory environment for all students.
Remedies, Including Interim Measures

Upon learning of a report or complaint of a Prohibited Act, the Title IX Coordinator will promptly take steps to ensure the complainant’s equal access to the College’s programs and activities and to protect the complainant, as necessary. Such steps include taking interim measures before the final outcome of any investigation, providing remedial measures after the final outcome of investigation and making the complainant aware of all available resources, including victim advocacy, academic support, counseling, disability services, health and mental health services, and legal assistance.

Upon a finding that a Prohibited Act occurred, the Title IX Coordinator determines whether campus-wide remedies should be adopted in response, including review and revision of the College’s policies, increased monitoring, supervision or security at specific locations, and increased education and prevention efforts.

If the Title IX Team finds that an individual engaged in a Prohibited Act, the Title IX Coordinator reviews proposed sanctions before they are imposed to ensure that they, along with the College’s interim and long-term measures taken in response to the sexual misconduct, are reasonably calculated to stop the sexual misconduct and prevent its recurrence.

Monitoring and Advising

In order to address sexual misconduct on campus and ensure ongoing compliance with Title IX, the Title IX Coordinator:

- Coordinates campus climate surveys;
- Analyzes data collected by any climate surveys to assess the rates and nature of sexual misconduct, any location hot-spots or risk factors; knowledge of the College’s sexual misconduct policies, procedures and resources and the consequences of violating such policies; and the effectiveness of the College’s efforts to ensure that the College is free from sexual misconduct;
- Reviews regularly all reports and complaints raising potential Title IX issues throughout the College to ensure that the College responded consistent with its Title IX obligations, even if the report or complaint was initially filed or raised with another individual;
- Reviews regularly all reports and complaints raising potential Title IX issues throughout the College to identify and address any patterns;
- Reviews regularly the College’s policies and procedures to ensure that they comply with the requirements of Title IX;
- Organizes and maintains files related to grievances, reports, complaints and other records of potential sex discrimination, including sexual misconduct, in a secure manner;
- Assesses regularly the College’s compliance with, and the effectiveness of, policies and procedures related to sex discrimination, including sexual misconduct, and recommends modifications where appropriate;
- Consults regularly with the President of the College and campus stakeholders to promote campus-wide awareness and discussion of Title IX-related issues, and develop and implement any modifications of policies and procedures to prevent and eliminate sex discrimination, including sexual misconduct; and
- Ensures that appropriate policies and procedures are in place for working with local law enforcement and coordinating with local victim advocacy organizations and service providers, including rape crisis centers.

Title IX Team

The College’s Title IX Team includes:

- Kevin Stephens is the College’s Title IX Coordinator and can be reached in person at 511 NE Greenleaf St., Peoria, IL, Room 622, by telephone at (309) 655-2291 or by email at kevin.n.stephens@osfhealthcare.org.
• Sue Brown, RN, PhD, DNP, is a member of the College’s Title IX Team and can be reached in person at 511 NE Greenleaf St., Peoria, IL, Room 606, by telephone at (309) 655-2206 or by email at sue.c.brown@osfhealthcare.org.

• Kimberly Mitchell, RN, PhD, CNE, is a member of the College’s Title IX Team and can be reached in person at 511 NE Greenleaf St, Peoria, IL, Room 607, by telephone at (309) 655-2230 or by email at kim.a.mitchell@osfhealthcare.org.

• Jennifer Carlock, MSW, LCSW, is a member of the College’s Title IX Team and can be reached in person at 511 NE Greenleaf St. Peoria, IL Room 112, by telephone at (309) 655-7100 or by email at Jennifer.m.carlock@osfhealthcare.org.

• Kevin Stephens is a member of the College’s Title IX Team and can be reached in person at 511 NE Greenleaf St., Peoria, IL, Room 622, by telephone at (309) 655-2291 or by email at kevin.n.stephens@osfhealthcare.org.

• Robin Strange is a member of the College’s Title IX Team and can be reached in person at 511 NE Greenleaf St., Peoria, IL, Room 603, by telephone at (309) 229-8113 or by email at robin.l.strange@osfhealthcare.org.

The Title IX Team is responsible for adjudicating complaints of Prohibited Acts. The Title IX Team will receive annual sexual violence training, including training on how to conduct investigations, protect the safety of victims and promote accountability.

Conflicts of Interest

In the event that the incident, policy or procedure about which the student seeks to file a report or complaint creates the appearance of a conflict of interest with one of the members of the Title IX Team, students may contact any other member of the team or notify the President of the College, Patricia Stockert, RN, PhD, at (309) 655-4124.

PREVENTION, EDUCATION AND TRAINING

The College is committed to providing prevention training and education to its community, including training on this Policy. The Title IX Coordinator shall ensure that training or educational programs are available to students and employees on an at least yearly basis on the topics of sexual harassment, sexual assault, domestic/dating violence and/or stalking. The Title IX Coordinator shall also ensure that the Title IX Team and all employees receive adequate training on issues related to sexual harassment, sexual assault, domestic/dating violence and stalking, as well as on this Policy.

ADMINISTRATIVE CONTACTS

While the College strives to be able to resolve any complaints of Prohibited Acts within the organization, the College acknowledges the right of an aggrieved person to contact federal or state entities for purposes of discussing and potentially filing a formal complaint.

An aggrieved individual may file a charge of sexual harassment with the Illinois Department of Human Rights and/or the Federal Equal Employment Opportunity Commission.

Illinois Department of Human Rights
222 South College, Floor 1
Springfield, IL 62704
(217) 785-5100
An aggrieved person may also file a complaint with the Office for Civil Rights under the U.S. Department of Education (the "OCR"). The OCR office for Illinois is located at:

Chicago Office  
Office for Civil Rights  
U.S. Department of Education  
Citigroup Center  
500 W. Madison Street, Suite 1475  
Chicago, IL 60661-4544  
Telephone: (312) 730-1560  
FAX: (312) 730-1576; TDD: 800-877-8339  
Email: OCR.Chicago@ed.gov

Or, an aggrieved person may contact the Educational Opportunities Section of the Civil Rights Division of the U.S. Department of Justice at http://www.justice.gov/crt/complaint/#three.
