

TODAY'S HEALTHCARE WORLD IS FILLED WITH COMPLEX CHALLENGES.

Obstacles like cost control, equipment and technology management, and regulatory issues shouldn't distract you from delivering exceptional patient care, but gathering the necessary resources to effectively manage these issues can be difficult.

Pointcore Healthcare Technology Management (HTM) leverages decades of healthcare experience to fill the gaps while improving the quality of care and controlling costs. We live health care every day, just like you. We understand the challenges you face and will customize solutions to fit your needs, allowing you to focus on patient care and safety.

CORE INTEGRATION

You benefit from our relationships, which are designed to provide world-class services across disciplines, all while supporting the ever-changing healthcare landscape.

FROM ASSESSMENT TO OPERATIONS, WE DELIVER.

At Pointcore Healthcare Technology Management, we understand flexibility matters. You may need a full consultation, allowing for complete review and recommendations regarding your financial, clinical, regulatory or equipment management operations. **Your operation could benefit from a complete managed end-to-end service — the best business-value solution.** Or your needs may be best met with an operational approach such as ongoing service for diagnostic imaging and biomedical equipment, additional staffing support or short-term equipment solutions. No matter what your needs, Pointcore Healthcare Technology Management can help you control cost, improve efficiency and enhance the quality of care.

IN-HOUSE SERVICE

- : **Turnkey solution** designed to function as a department within your organization.
- : **Aligns with Centers for Medicare & Medicaid Services (CMS) regulations** and follows Joint Commission standards for maximum efficiency and cost savings. Uncovers potential obstacles before they become serious problems.
- : **Offers access** to a national team of clinical engineers and consultants so we can go well beyond local medical equipment break/fix service.
- : **Includes administrative services** such as policies and procedures, local management team representation and routine reporting.
- : **Provides a Healthcare Technology manager** who oversees the day-to-day operations and technical staff.
- : **Enables technical personnel** to be flexed based on workload, so you never pay for unnecessary staffing.

FIELD SERVICE

- : **Offers an on-demand** medical technology service from our extensively trained staff.
- : **Provides staff with extensive training** on all types of medical imaging devices from some of the leading manufacturers, including ultrasound, digital x-ray, interventional labs, CT and MRI.
- : **Provides access** to our highly trained and experienced Biomedical Equipment Service Technicians, who are ready to provide service on-demand, conduct planned maintenance or augment your staff when the unexpected happens.

CAPITAL PLANNING & ASSET REDEPLOYMENT

- : **Delivers access** to our exclusive Technology Assessment Tool to support capital planning, asset redeployment, commissioning and decommissioning of medical technology. Equipment is inventoried and tracked in one of the most advanced applications available.
- : **Provides complete programs** that help you right size your install base of equipment and reduce your capital expense.
- : **Offers maintenance, financial, staffing, vendor activity and reporting** all managed in one system to ensure regulatory compliance.

MOBILE IMAGING & INTERIM SOLUTIONS

- : **Allows exclusive access** to our equipment rental program and fleet of mobile imaging systems.
- : **Offers on-campus availability** when you need it to more efficiently serve patients.
- : **Provides semi-permanent structures** equipped with the imaging system you require for longer term needs.

MEDICAL EQUIPMENT RENTAL

- : **Supports the operation** when your census flexes up, providing you with patient beds, infusion pumps, bariatric beds and wheelchairs, portable suction, vital signs monitors and more.

CONSULTING

- : **Provides** CMS, Joint Commission and DNV regulatory readiness.
- : **Analyzes complete service contracts** and financial overview while balancing the needs of your clinical staff.
- : **Manages overall effectiveness** of your current Healthcare Technology Management program through our deep expertise and broad resources.

LET OUR KNOWLEDGE WORK FOR YOU

We deliver a Healthcare Technology Management program that's right for you based on our deep knowledge of health care. We know what it's like to work in a variety of healthcare settings. We combine local knowledge with organization-wide support and strong strategic partnerships to lift you to success. Let our experience support your needs.
